Tom, I don't have a problem with this. What I would suggest in the future is that we beef up the bullet point you have highlighted to actually delegate authority to the chair to sign the agreement at the point in time when the BCC approves the grant application. The other thing that could be done (and I don't know if you want to suggest it or I can in reply to the group after you send this email) if that Barry could mention under County Admin reports that we anticipate this agreement being sent to the Chair very soon and have them take a vote on that basis to grant her authority to sign when received. Of course, that only works if she hasn't yet received it by the time they next meet

Good afternoon Della.

Please understand that the Airport/County does not have control over where the FAA sends the grant. Washington sends the grant to the Chairperson and then the County Attorney.

We have followed your instructions on how to handle this item. Please see the attached staff reports. We acknowledged that we had to put this through a full Granicus process after seeking the BCC's approval of the Grant Application (See attached Staff Report #24-0371A Bullet #6). Now that the grant is about to be sent directly to the Chairperson's email, and I have a advanced copy of the document, we have created a new "C" agenda item to allow the Chair to sign the Grant Agreement (see attached Staff Report #24-022C). We have added the approval sequence per Jo's instructions as we requested this information in advance of drafting this agenda item.

There have been no changes from the grant application to the grant agreement being issued.

The reason why I stated that this doesn't need to go before the BCC again is that is the direction that we received in the April 25th email that I've attached. If that is not the case, then I need to find out how we are going to meet the September 2, 2024 FAA deadline. Is it possible to get this item on the August 13th agenda, even though we have passed the deadline? We did not think a board meeting was necessary based on the delegated authority provided in Bullet #6 of Granicus #24-0371A.

We have already vetted this through the County Attorney's office. I am concerned that we are in danger of losing the $6M grant to begin design on the passenger terminal improvements project.

Thank you in advance for reading this email and the attachments.

Thanks Yvette,

Per the attached, our process has not changed, before or after COVID. Any item that goes to Barry/Board for signature, contract, DocuSign, etc. has to be put through Granicus for a review and legal review/approval before anyone signs it. This is why I asked you not to send it directly to the Chair's office without any approval.

You said this does not need to go to the BCC as an agenda item that the Chair can sign it. I don't understand how the Chair can sign on behalf of the BCC without their approval so I am asking the County Attorney's office to let us know.

Hi Ashley-- I'm sending you this document so you can look at the instructions on the cover letter and see what our Federal Aviation grant agreements look like. As you can see from the instructions, after Chairperson Peters signs it, Cody has to sign it either the same day or the following day.

This is the way that all of our FAA grants are handled since COVID, so just wanted you to be ready when the time comes.

This isn't the actual grant; I was sent a courtesy copy after pleading with our Airports District Office (ADO) in Orlando. Once the email is received by Chairperson Peters, it cannot be forwarded to anyone else outside the queue. If you'd like to print out a copy, you can print this attachment. Copies will be distributed after the FAA receives the document after Cody signs it.

The "C" agenda item is being prepared now. We do not have to present this at a meeting. We just have to put the agenda item through and have approximately 9 people approve it before the September 2nd deadline, which is very doable now.

Please give me a call if you have any questions!

Thanks! Yvette

Cheryl is working on the staff report and the agenda item will probably go out starting tomorrow. We DO NOT have to present this at a meeting. We just have to put the agenda item through and have approximately 9 people approve it before September 2nd, which is very doable now.

Let me know if you have any questions.

Thanks! Yvette
