| Your Stand on the Issue | Support |
| Comments | I support the agenda of declaring a local emergency and believe that a proactive solution should be done in order to combat COVID-19. These solutions should include, but not be limited to, another stay at home order and closing gyms, dine-in restaurants, clubs, and bars. The purpose of the previous stay at home order was to flatten to curve and hopefully eliminate any future chances of COVID spreading. However, we are back with a larger infection rate than before as I believe the stay at home order was not long enough along without any mandate to makes citizens wear masks if they are to go out. If we had implemented these two factors at an earlier time, for a longer period, then I believe our infection rate would have flattened by now. Please issue another mandate. |
