It is of the utmost importance that people keep wearing their masks in all indoor establishments. This should not be involved with political rights. This people who think that mask wearing is an infringement of their rights are wrong.! This is about keeping us all safe and healthy. Our positive cases are dropping but it is not yet time to give in and throw in the towel. We must continue to persevere on this path for as long as it takes to defeat this terrible virus that has killed so many and effected us at in do many ways. NOW IS NOT THE TIME TO GIVE UP!
