---

Awesome! Thank you! Here is the revised OMB Letter of Acceptance.

Hello Alexandra,

OMB has no objection to *Public Works* submitting a grant application to the **Florida Department of Environmental Protection** for the **FY2024 Resilient Florida Grant Program** grant which will benefit the County by improving the stormwater conveyance systems draining to the Pinellas Trail and ultimately Long Bayou via the St. Petersburg/Madeira Beach Kampgrounds of America (KOA) Holiday campground that currently experience persistent and significant flooding and constitute an undersized drainage system through upgrading pipes, adding curb inlets to optimize flows, adding new stormwater culverts, and providing additional storage by expanding an existing pond owned by Pinellas County.

This is a **multi-year competitive** grant project that will likely impact FY24-27. The total **requested funding is $4,621,000.00** with **$4,621,000.00 expected match** and **$235,046.00 in funding from the Stormwater CIP Fund**. The total project is estimated to cost $9,477,046.00.

Based on the thresholds for delegated approval, this grant application will require **Board** approval to apply. Please route the grant application through Legistar / Granicus (based on the Grants Granicus Approval Flowchart) to receive **Board** approval. Please include this email when you send the application through Legistar / Granicus.

Once the application approval is complete, apply for the grant. **Good Luck**!

In the event you receive the award, please follow these instructions to execute the grant agreement. If you have any questions, do not hesitate to contact me. Thank you!

Hello,

After reviewing again, we released we made an errors on our side. Would you be able to provide a new letter of approval?
Thank you!

This grant requests $4,621,000.00 in Resilient Florida funds, with the required 50% match of $4,621,000.00 and the remaining $235,046.00 have been secured through Stormwater CIP. The total cost of project is $9,477,046.00.

Good morning Ali,

The OMB Grants Team has received your intent-to-apply for the FY 2024 Resilient Florida Program. After reviewing them, a couple questions popped up that need to be answered.

Project - 98th Way / 100th Way Drainage Improvements

- Is the $262,006 difference between the total budget and the sum of the amount requested and match going to be covered by Penny, as we discussed for another project yesterday?
- Is this project also going to extend to FY 2027, as we discussed for another project yesterday?

Grant Funding Program Name: FY2024 Resilient Florida Grant Program

Grant Funding Type: Capital

Grant Award Type: Reimbursement

Grant Funding Program Funding Cap ($):

Amount Requested: $4,607,520.00

Does this Grant Cover Administrative or Management Costs?: No

Amount Requested to Cover Administrative or Management Costs: $0.00

What fiscal year(s) will the award amount be made available?: FY 2024

Match Amount: $4,607,520.00

Required Match Type: Both

Anticipated Match Source (Fund/Center/Program): 3001/413100/3013

Is the Match in the Current Budget?: Yes

Will the Match need to be added to the Budget?: No

Total Cost of Project (including Grant, County match, and other Resources): $9,477,046.00

Granting Agency Contact Name:

Granting Agency Phone or Email:

Granting Agency Address:

OPUS Project Title: 98th Way / 100th Way Drainage Improvements

Duration: Multi Year

Proposed Abstract (Project Scope of Work): Drainage improvements to alleviate flooding in the vicinity of 98th Way - 100th Way Seminole. The Project region experiences frequent flooding which results in property damage and creates access problems for private properties as well as public safety concerns. Flooding has persisted due to undersized primary drainage system components and the lack of a secondary drainage collection and conveyance system. There are several public and private assets and utility systems in the region as well that are impacted by the floods including stormwater drains, utility access holes,

sewer lines and sanitary sewer pump stations.

Benefit Summary (How will this benefit the County, Dept, etc?): The 98th Way/100th Way Drainage Improvements project focuses on improvements to the stormwater conveyance systems draining to the Pinellas Trail and ultimately Long Bayou via the St. Petersburg/Madeira Beach Kampgrounds of America (KOA) Holiday campground that currently experience persistent and significant flooding and constitute an undersized drainage system. The project will upgrade pipes, add curb inlets to optimize flows, add new stormwater culverts, and provide additional storage by expanding an existing pond owned by Pinellas County

The improvements recommended over the entire project area are projected to address flood damage of seven properties during 100 year, 24 hour storm events and high flow issues associated with the Pinellas Trail ditch system at Lake Kersky. The proposed improvements will reduce the stormwater management system's hydraulic grade line elevations at over 90 locations (ranging from 0.1 foot to over 4.1 feet), and critical flooding (2 feet over warning stage) locations will be reduced from three to one.

Director Approval (Attach):

Is the proposal submitted for a different Department?: No

If submitting for a different department, what is that department name?:
