Tom:

We have reviewed the scope, fee and record of negotiation for the proposed master plan for the St. Petersburg-Clearwater International Airport. The master plan scope is comprehensive and the negotiated fee reflects the very nature of this scope. This scope includes tasks, like master drainage plan and a more extensive analysis of your terminal/landside facilities due to your significant growth, which might not be typical to every master plan that the agency funds.

The total fee at $1,801,650 has been negotiated down from the original fee of $2,316,962. Based on the independent fee estimate (IFE) of $1,762,677, the final negotiated fee falls within an acceptable range of reasonableness.

Please go ahead and submit your grant application based on a total cost of $1,801,650. If you have any questions, please do not hesitate to call me.

Regards, Bart
