CAUTION:
This message has originated from Outside of the Organization. Do Not Click on links or open attachments unless you are expecting the correspondence from the sender and know the content is safe.

Do NOT let anyone be in public spaces without a mask.
Would you want to be the person who walks in a store and get the virus because a random person gave it to you?
And you give it to your family? And one of your family dies unnecessarily because you brought it home?
It's an unseen risk that no one can prevent.
Keep masks
Karen Bosso
