Dear Sir/Madam:

I am writing to voice my concern over the 120' tall structure in the shape of a cross that the church seeks to erect.

First, have studies been conducted to determine the electro magnetic fields that may emanate from the structure?

Second, why does the structure need to take the shape of a cross? With it hidden as such, property owners don't know what it really is, and that is misleading. It can diminish property values to not know what the structure truly is. That lack of transparency is harmful to the families living nearby.

Please give serious consideration to this matter and the effect it would have on the surrounding area. It does not need to be constructed or camouflaged in such a way.

Sincerely,
Lois Winstead

To :Pinellas County Housing and Community Development
Attention : Zoning Section

I vote **NO** for cell phone tower at Christ the King Lutheran Church -11220 Oakhurst Road ,Largo, Florida

****** Bottom line -I do not believe Christ the King Lutheran Church should have the right to construct anything on their property that detrimentally affects the safety, quality of life, and property values of their neighbors!!!!**

1. The World Health Organisation's International Agency for Research on Cancer (IARC) says radiation from cellphone towers is "**possibly carcinogenic to humans**" and may cause glioma, a type of brain cancer. Cell Phone towers emit greater-intensity radiation 24X7. My concerns are not only for our health safety but for the health of all children in the neighborhood and at the church school ,daycare and Boy Scouts etc,. They are the most vulnerable to cell phone radiation as they absorb it deeper into their brains and bodies. A child's developing brain and organ systems are more sensitive to environmental stressors. Even if the radiation absorption were the same as in adults, the effects in children can be far more serious. How many parents are concerned about this ????? Is the church concerned about this ??? Stop Cell Phone Tower at churches & schools !!!! Why put children at risk!!!! Loving Arms Christian Preschool, Loving Arms Christian DayCare Christ The King Lutheran Ministries CTKLM why would a church put children's lives in harms way?
\$\$\$

2, Putting a cell phone tower in my backyard -Property Value could decline by up to 20%

Church \$\$\$ gain vs Homeowner loss

3. Hurricane concerns -Fall Zone ... too close to homes !!!!!

4. Property damage -No more construction !!!!

Our home property as well as our neighbors have already dealt with property damages due to construction . The church has not to this day fixed errors that still cause flooding to our properties.

I am unable to come to the meeting concerning the cell tower being discussed. I live directly behind the church and am strictly opposed to this for health reasons and property values being decreased.

Please, please, NO cell tower in my neighborhood! Hillcrest Manor has great beauty and healthy landscapes. The Lutheran church is not the place for this tower. Go south on Hamlin where the trash dumpsters are, or other fields of gardens between Walsingham and 102nd where there are some empty spaces!!

Thank you!!

Kathrine Gathro

7-26-2022

TO WHOM IT MAY CONCERN

I WILL BE UNABLE TO ATTEND THE HEARING ON AUGUST 3, 2022 REGARDING CASE TY2-22-11. I LIVE AT 11141 CARLA DR WHICH IS ABOUT 1 BLOCK FROM CHRIST THE KING LUTHERAN CHURCH SO A 120' TOWER WILL BE CLEARLY VISIBLE FROM MY HOME.

IT WILL DOMINATE MY WESTERN VIEW DETRACTING FROM THE APPEAL OF MY HOME. I AM STRONGLY OPPOSED TO BUILDING SUCH A STRUCTURE IN A RESIDENTIAL AREA.

This email is in regard to case number TY-22-11. I am a 25 year resident of this neighborhood and I am against the construction of the cell phone tower to be erected at 11220 Oakhurst Rd., Largo (Christ the King Lutheran church)

As a courtesy to the neighborhood the church should have reached out to the residents to discuss prior to seeking approval.

Is this the right area for a cell phone tower, should a cell phone tower be built in a residential neighborhood? This 120 foot tower will forever change the aesthetics (regardless if it's a cross or a palm tree) In the neighborhood and will definitely impact our property values! And we do not know how or if this impacts one's health. For everyone involved there has to be a better location for a tower for example Walsingham Park? And with all due respect would you want this in your backyard?

Respectfully, George and Susan Veseli

Hello, I own a condo in Waters Edge right across Oakhurst from the Luthern Church where a proposal in to install a cell tower. We, my husband and I , are very much against this. Please do not let the cell tower go in this highly populated area. There are 5 condo blogs located here. Too many people involved. Please find another area where there will be far less people affected. Thank you for listening.
