The Constitution has a "Secrecy" clause in Article 1 section 5. *(SHUSH)!*

So Don't tell anyone;

It's a "Secret" that the Declaration of Independence is calling THIS calling this a Candid World, calling THIS "The Present History of the King of Great Britain, labeling THIS as an Arbitrary government, as Pretended Legislation, here to Eat us out of our Subsistence, as perfidious and cruel, citing a Long Train of Usurpations in pursuit of absolute Destruction of all ages and conditions.

So,

(SHUSH)! Don't tell anyone:

That Article 1 section 8 clause 17 under THIS Constitution is the *Secret* establishment of Forts, Magazines, Arsenal, Dock-Yards and other needful Buildings, are being manifested, "secretly" intent on giving Rise to a "Constitutionally" *ill-Defined* WATER JURISDICTION insurrected as a DISTRICT (Not to Exceed 10 Miles Square).

Article 1 section 8 continues to proscribe *the Bankrupting of the Water Supply "Uniformly"* to *Capture Land and Water* as Reprisal, while so-Called NATURALIZING WATER JURISDICTIONS imposed under the 14th Amendment, seen as IT's Jurisdiction intent on "Birthing" itself as a Ship of War, "Docking" IT's Vessel, as assailed from Article 1 section 10.

Such Constitutional Secrecy and Betrayal is *none-the-less* seen as an insurrection, as an invasion, recognized as an Act of Piracy, as a Felony on the High Seas. And, as an offense against the league of Nations, as revealed (again) in Article 1 section 8 to include such rebellious behavior, as constituted in the 14th Amendment to such felony, in apprehension of such Militia of sorts.

Whereas, of such Rebellion, as based on such High Seas offenses against the laws of Nations, shall result in your privilege to Habeas Corpus is now suspended.
