Summary:

This award for federal funding supports the County's Health Care for the Homeless program for a three-year project period starting March 1, 2023 through February 28, 2026. The purpose of this grant program is to improve the health of the Nation's underserved communities and vulnerable populations by assuring continued access to comprehensive, culturally competent, quality primary health care services. In 2022, the program provided basic health care services on the Mobile Medical Unit (MMU) and at Bayside Health Clinic to 1,967 homeless patients. A majority (93%) of these clients have an income at or below 100% of the Federal Poverty Level (FPL).

The HCH Co-Applicant Board serves as the patient/community-based governing board to set health center policy for the Healthcare for the Homeless Program on behalf of the Pinellas County Board of County Commissioners. As a public center, the HCH Co-Applicant Board includes a representative majority of consumer/patient representatives, meets monthly, and fulfills all the required authorities of a governing board.

Background Information:

Since 1988, medical and dental care referrals have been provided to the homeless population in the County via the MMU. The MMU visits shelters, soup kitchens, drop-in centers and other locations where the homeless congregate. In April 2016, the County opened the Bayside Health Clinic located adjacent to the Safe Harbor homeless shelter.

In 2022, the County served 1,967 unduplicated homeless patients through the MMU and Bayside Health Clinic. This award will allow the County to continue providing primary medical care and prevention services to homeless residents. The funding will support clinical services for 2,831 unduplicated patients by December 31, 2024.

Fiscal Impact:

This grant award is for \$1,926,977.00 in federal funds. While no cash match is required, the County anticipates applying non-federal funds to the program totaling approximately \$3,437,610.00. This grant is included in the FY23 & FY24 Budgets.
