**Background/Explanation:**

The third application cycle for the County's Employment Sites Program opened on February 1, 2022 and closed on April 4, 2022. Sunshine Properties LLP requested assistance to fund the unexpected infrastructure costs associated with the expansion of the existing site to accommodate two new industrial buildings. Additional requirements include a fire sprinkler system installation and costs associated with stormwater regulations.

The Agreement has a termination date of twenty (20) years from the Effective Date and has three payments based on benchmarks on obtaining two mid-point permit approvals and the owner's receipt of a Certificate of Occupancy for the buildings. For a period of the first ten (10) years of the Agreement, the owner will provide an annual report to Pinellas County identifying the total commercial square footage rented and the total number of jobs with their average wages for the structure.

The owner will be responsible for maintaining and operating the structure as an industrial building for the term of the Agreement. If the owner defaults on the Agreement, there is a process identified for the repayment of grant funds based on the time of the default.

**Fiscal Impact:**

Total Maximum Expenditure - \$405,275.00

Funding is available from the Penny IV allocation for Economic Development Capital projects (project 004149A)

**Delegated Authority:**

Funding for the net new 11,755 square foot industrial structures in the amount of \$405,275.00 was approved by the Board at its September 22, 2022 meeting, and delegated authority was given to the County Administrator to negotiate and execute all agreements and documentation.
