Summary:

This resolution recognizes unanticipated fund balance in various funds and adjusts appropriation in FY22 for Parks & Conservation Resources, Public Works, the Clerk of the Circuit Court, the State Attorney, the Public Defender, the Judiciary, Emergency Management, Safety and Emergency Services, Utilities, Administrative Services, and four Unincorporated Fire Districts (Clearwater, Largo, Safety Harbor, and Tarpon Springs). The unanticipated fund balances were due to FY21 actual expenditures being less than estimated during development of the FY22 budget.

Background Information:

The FY22 actual beginning fund balances have exceeded the budget in the General Fund, Emergency Medical Services, Emergency Communications E911, Fire Districts, Fleet Management,

Water Revenue and Operating, Water Renewal and Replacement, Sewer Revenue & Operating, and Sewer Renewal and Replacement Funds. The unanticipated fund balance is due to equipment and vehicles not being received by the end of the prior fiscal year and other program and project delays not anticipated during FY22 budget development.

These increases will fund four (4) replacement vehicles ordered, but not received, in FY21, a multi-nutrient analyzer for the South Cross Bayou Advanced Wastewater Treatment Facility, an air compressor, furniture for the Dunn Water Treatment Facility Library, a pump for the Dunn Water Treatment Facility, the Warehouse Floor Project, and two (2) delayed engineering consultant projects.
