NOTES: The PCHP provides primary care, behavioral health and specialty care services, including hospital procedures, for uninsured adults ages 18-64 who are in need of healthcare, but meet certain income level criteria and cannot afford care on their own. The goal of the PCHP program is to prevent, diagnose, and/or treat medical and behavioral health concerns before they become an urgent matter. Under this agreement, Bayfront Medical Center will coordinate with PCHP to provide ambulatory surgical center outpatient procedures and services, inpatient procedures and services, and patient rehabilitative services.
