PALM HARBOR

BOCC February 2020

Politically speaking, does liberty and freedom include Deliberate omission, proactive Constitutional inaction, lack of Efficiency in Article 7; Making lots of money making a "muck" of the place? Then doubling-down re-constituting making (even) more money cleaning-up the "muck" that you made, claiming to be "reasonable and beneficial" finding solutions to the problems that were orchestrated deliberately?

Using Subversion Prudently/Sensibly using constitutional Mediums and Trickery claimed as a "Natural Right", "~~rebelliously~~" birthing water jurisdictions.

Sedition From Day 1, using the element of misrule, *desecrating our wetlands*, hiding shadowed governments within and under the "puppetry" of this Candid, Arbitrary, Pretentious government.

Legislating, Excising/Aggregating defacto; "~~rebelliously~~" birthing water jurisdictions, coupled with oppressive forms of taxation, (to include *taxation without duly elected representation*) formulating direct taxation/poll taxing civilians, form Article 1.

Casually Endowing such political liberty's thru the use of humor, caprice and avarice using purposeful dissention and mockery, as it's foundation of *Manifesting* legal pursuits, in a fee(simple) title undertaking/usurping, giving rise to, privatizing political powers, Thru the prowess of undermining the resources of this land as a way to indirectly weaken those people this government is "laughing at" as they govern, seen as a Useful Art as constituted.

As Artifice, Using the dissolution of this constitution as a mechanism to give rise to an underlying feudal objective, in the form of an Effigy, using water as its interest, as it's weapon of choice, as its election of Choice ~~stemming from Article 2~~. Set in motion, Serving not to protect, but to pollute the water supply, (designing a disaster) Choosing to Laugh in the face of Almighty God in Federalist Paper#20, in an election of appointing one's own "Despotic" self as seen in Federalist paper#9. Bridgetrolling/Abridged in the 14th Amendment.

To the Discredit of (all) the holdings of this government.

Uniformly our water supply is on the verge of being carcinogenic.

This government has taken absolutely no real measures to conserve or protect the quality of our water in any regard whatsoever.

The charge of correcting such measures "constitutionally" shall be levied against the bond holding "sweepingly so" in the comprehensive rebuilding of all our infrastructure, against all the stakeholders both in/of this government.

Injecting Reclaimed Water fecal nitrates "*directly*" into the drinking water supply "absent" the natural/aerobic filtration as water moves downward thru the soil horizons as it percolates "aerobically" as it filters itself properly, is to deceive us even more with your age of reasonable/beneficial unjustifiable, long train of stumbling logic of legislation, as set out before us.
