Commissioner Seel noted that there are currently three organizations receiving Community Development Block Grant (CDBG) funding and commented that the County could consider a way to use Municipal Services Taxing Unit funds, rather than depleting CDBG funds.

16. Ratification of the Emergency Second Amendment to the Agreement with Bournotec Solutions, Inc. for additional services pertaining to the continued effort to upgrade the County's Oracle Enterprise Resource Planning system.

Commissioner Seel noted that the initial contract in 2020 was approximately \$550,000.00 and it is now increasing to over \$3 million; whereupon, she indicated that she is concerned about the rate of increase, and Chair Eggers concurred. In response, Business Technology Services (BTS) Chief Information Officer Jeff Rohrs, along with Mr. Burton, provided background information relating that major technology upgrades have not been conducted since 2011; and that the initial contract was only to upgrade to the latest version of the Oracle software. He related that BTS staff then worked with several County partners to identify and increase the resources of the business departments, which resulted in the first amendment approved by the Board earlier in the year.

Mr. Rohrs noted that the proposed amendment is adding a dollar amount to the previously approved decision package of the current budget; that the vendor is critical to the success of the project; and that previous funds in the contract have been expended, and discussion ensued.

A motion was made by Commissioner Long, seconded by Commissioner Flowers, that the item be approved. The motion carried by the following vote:

Mr. Burton related that the proposed resolution would direct the County to create clean energy targets and meet renewable zero emissions and clean energy consumption goals for its operations by 50% in 2030 and by 100% in 2040; and that a countywide goal of 100% would be met by 2050; whereupon, he noted that County departments have been incorporating clean energy targets into the planning process; and that staff will be presenting a sustainability action plan in the near future.

Responding to a query by Commissioner Long, Mr. Burton related that the goals and objectives for the Sustainability and Resiliency Action Plan will be presented in June of 2022; and that implementation has already commenced such as electrifying the fleet within the next five to ten years, and Chair Eggers provided input.

In response to a query by the members, Attorney White clarified that the resolution affirms the Board's intent and creates a starting point; and that the word "policy" can be kept in the document or removed without changing its intent.

At the request of Vice-Chair Justice, Sustainability and Resilience Coordinator Hank Hodde briefly discussed meeting the goals of the resolution within County operations.

Commissioners Flowers, Long, and Gerard stated their reasons for supporting the resolution; whereupon, Commissioner Gerard made a motion to adopt the proposed resolution, which was seconded by Commissioner Seel.

Discussion ensued, and Chair Eggers indicated that it is important to recognize the generations of people who help to provide currently available energies while setting a course to transition to something new; that he supports the proposed resolution; and that perhaps language could be added to be mindful of the importance and acknowledge the contribution of those providers; whereupon, in response, Commissioner Gerard noted that her preference is to leave her motion as stated.

34. County Attorney Reports:
- County Redistricting Board Update
 - Virtual Attendance at Public Meetings Policy

County Redistricting Board Update

Attorney White indicated that the County's redistricting consultant is present to provide a report of the Redistricting Board; whereupon, Kurt Spitzer and Associates President Kurt Spitzer referred to a memorandum and various maps included in the agenda packet and provided information related to the receipt of the census data and the work of the Redistricting Board. He discussed the criteria utilized in the development of recommendations and summarized proposals for Single Member and At-Large Districts and the proposed housekeeping and minor policy changes.

Discussion ensued; whereupon, responding to comments and queries by the members, Mr. Spitzer provided clarification and information regarding the following:

- *Population Other* numbers comprise White, Black, and every other permutation of race.
- Single Member District Proposal Three adjusts boundaries so that, where possible, cities are contained within one district's boundary. Such adjustments are included as guidance in the Pinellas County Charter.
- While Single Member District Proposal Two and Three can be considered independently, it is possible to do both without significant impact to population.
- Confirmation that all proposals meet criteria for contiguity.
- The Commissioners may consider other possibilities outside of the recommendations of the Redistricting Board.

In response to comments and queries by Commissioners Seel and Justice and Chair Eggers, Mr. Spitzer indicated that he will provide an alternative map to Single Member District Proposal Two involving boundaries related to Sunset Point and Enterprise Roads; and that, prior to the Commissioner's next meeting, he will meet with each member so that alternative maps can be drawn for consideration, where feasible.

Chair Eggers indicated that additional input offered by the Commissioners could be presented by Mr. Spitzer at the December 2 BCC work session; whereupon, Attorney White indicated that since the Board must accomplish the redistricting process in an odd-numbered year, they must conduct the vote at the only remaining 2021 regular meeting, which is scheduled for December 7.

Upon call for public comment, John Patrick Estok expressed his concerns.

Virtual Attendance at Public Meetings Policy

Attorney White referenced the proposed policy, noting that it was created following a work session discussion; that it would apply to all County advisory boards; and that the written policy would memorialize the current practice of the Board.

Chair Eggers summarized the contents of the proposed policy, indicating that a more relaxed process would be observed for work sessions; whereupon, responding to a query by the Chair, Ms. Carpenter indicated that, as a regular policy, the Clerk does not attend work sessions; and that a process for the management of multiple virtual attendees during regular meetings is possible. Responding to a query by Commissioner Justice, Communications Director Barbra Hernandez stated that she will research the number of display screens which can be split.

During discussion, Attorney White called attention to certain aspects of the document, including that the definition of virtual attendance requires real-time electronic communication that permits both audio and video interaction; and that currently, a physical quorum is required for both regular meetings and work sessions.

Attorney White pointed out that language in the proposed policy indicates that the BCC has made a legislative determination that in-person attendance at public board meetings has intrinsic value; that virtual attendance where official business will occur should be limited to rare and extraordinary circumstances and be approved by the Board on a case-by-case basis; that the policy does not change the current process for regular meetings, but does loosen the policy for work sessions; and that work session leniency is supported by Attorney General opinions.

Following additional discussion and advisement by Attorney White, Chair Eggers confirmed that the members agree to the following regarding the virtual meeting attendance policy:

- Members will attend in-person at both regular meetings and work sessions except in extraordinary circumstances.
- For members wishing to attend a regular meeting or a work session virtually, approval is required the morning of the meeting.
- Removal of advisory boards from the policy.

Chair Eggers requested that the County Attorney's Office redraft the policy with the discussed changes, and Attorney White indicated that the revised draft will be presented to the Board in December.
