Requirements and Provisions

Pinellas County FL Pinellas County Regional 9-1-1 VESTA Refresh

The following resources, tasks and hours are based on the following assumptions provided by Intrado:

Pinellas County FL is requesting service to support a VESTA refresh. Additionally, Pinellas County is requesting this service be capable of supporting a back up PSAP for Pinellas County the Regional 9-1-1 Primary PSAP, located at the Public Safety Complex (PSC), as a remote off the SPPD VESTA node.

SPPD CPE node addresses are 10750 Ulmerton Rd, Largo FL. (PSC) and 1301 1st Av. N., St. Petersburg, FL SPPD and the ERB site that is being decommissioned in the refresh project is located at 22211 US N Clearwater, FL 33765.

Four (4) new 20 meg circuits will be required to support this project. Two (2) circuits from differing providers will terminate at 10750 Ulmerton Rd, Largo FL and two (2) circuits from differing providers will terminate at 1301 1st Av. N., St. Petersburg, FL.

A total of four (4) new Intrado routers will be deployed to support this project, providing the same level of PSAP ingress network redundancy as the current (single location) configuration.

A total of two (2) new Intrado PSAP Abandonment Devices (PAD) will be deployed to support this project. One (1) PAD device to abandon/unabandon the Pinellas County the Regional 9-1-1 Primary PSAP and one (1) to abandon/unabandon the new Pinellas County the Regional 9-1-1 Backup PSAP.

No early termination fees will apply for the decommission of the existing circuits to ERB node once that node is relocated and the circuits are decommissioned.

Monthly network charges equaling \$6,400.00 will continued to be invoiced while the ERB site is taken offline.

Early termination fees will apply to the four new circuits in event they are decommissioned earlier than 36 months following activation.
