**Description & Comments**

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This program is an extension of the Medicaid Public Emergency Medical Transportation (PEMT) program that began in 2015. The program supplements ambulance transportation service providers for unreimbursed transport costs from Medicaid recipients. Through the new Intergovernmental Transfer (IGT) Program, reimbursement from Managed Medical Assistance (MMA) plans will now be included.

The Agency for Health Care Administration (AHCA) requires all executed Letters Of Agreement (LOA) to be returned by October 1, 2020. To participate in the IGT program, public entities are required to execute agreements with MMA Plans which will be the next step in the process to receive this funding.

State distributions associated with PEMT IGT are derived from a calculation based on the number of Medicaid recipients enrolled in MMA Plans in the region serviced by the providers. Given that the distribution is based on data provided by the Managed Care Organizations (MCOs), AHCA must be in possession of the physical dollars the service providers are projected to dedicate to this Medicaid population in order to draw down Federal program funds.

Through this program, an annual LOA and IGT in the amount invoiced by AHCA will need to be executed. Funds will be paid out quarterly and if utilization within our region drops below 95%, a portion of the funds would need to be returned to AHCA.

Pinellas County Emergency Medical Services is projected to submit an IGT in the amount of \$1,908,562.67 and receive an allotment in the amount of \$4,953,445.81. These amounts are not included in the FY21 Tentative Budget for the Emergency Medical Services (EMS) Fund as information regarding this program was not available during budget development. A budget amendment may be required in FY21 to recognize this revenue and appropriate the expense if the EMS Fund is unable to absorb the IGT amount.
