**B. Demonstration of robust candidate pipeline and industry-related networking.**

InstantServe understands that recruiting can be unpredictable, with even the most seasoned recruiting professionals experiencing peaks and valleys trying to hire top talent is very common. When it comes to the scarcity of tech talent, it can be a real challenge to build and maintain a robust pipeline of great candidates, InstantServe mitigates this challenge by following a very structured approach perfected over the years to assure success and a superior experience for its customers.

InstantServe, always maintains an active pool of candidates, since it's easier to close people who have the same level of urgency as you, in other words, are looking for a job actively. This will assure that InstantServe will generate higher connect rates with the right candidates, see exactly what they're looking for and the status of their searches.

Our in-house Applicant Tracking System (ATS) – CEIPAL, tool is used to expedite and execute our overall hiring and onboarding process. CEIPAL enables us to shortlist candidates with the help of artificial intelligence with an accuracy rate of at least 95% out of a database of over 8 million pre-vetted candidates for different categories, industries, and sectors. This kind of precision increases sourcing speed lowers our time to fill and helps us predict our pipeline better.

InstantServe knows that candidate experience is critical to our success. We have learned over the years that tech candidates especially those that have high-demand skillsets and experience require a personal touch to feel comfortable with their searches. By creating personalized messaging and knowing how to connect on a genuine one-to-one basis with our candidates, InstantServe generates the much-needed trust and increases our chances of closing the perfect fit for our needs.

InstantServe has a very experienced and seasoned team of in-house recruiters who are regularly trained and upskilled in not just the technical skills but also the soft skills and other nuances of the trade. For example, there's no doubt that skills and experience are vital to talent searches, but the more we know about each candidate on a personal and professional level, the better we can home in on the right talent and find the right matches. Many profiles tell us what the candidate has done in the past, but profiles that are more forward-looking give us clear insights into what really drives and motivates them, the intent behind their searches, and where they are trying to go in their career. InstantServe coaches and mentors to hard code the principle that we're hiring a whole person, not a combination of keywords and skills.

Key insights like these and the extensive use of technology enables us to always have a ready and robust pool of candidates. InstantServe has all the tools and resources in place to leverage the power of real-time data to improve business results. Wherever possible, we use validated market data, to ensure that both InstantServe and the candidate will get full visibility into the hiring value of each position and full transparency into the process. This transparency helps us improve our acceptance rates and contribute to the predictability of our pipeline.

our team. Each recruiter has been trained extensively on all skill sets and they have gained additional training in the skill sets of the clients that they will be servicing. The assigned Project Manager(s) will issue this to the appropriate recruiters. All requirements will be assessed, such as qualifications, skills, background, experience, work history, dependability, and the appropriateness of the candidate.

We implement and welcome a diverse pool of candidates. It is found that achieving our business goal to submit an ideal candidate relies on our ability to achieve workforce diversity. To ensure that diversity is implemented, our recruiters and officials who select the ideal candidates are required to work closely with County and human resources. This emphasis is placed on the recruiting process. To ensure that our recruiters are able to reach a diverse pool of applicants, we perform the following activities:

- Post jobs with a variety of networks
- Search for ideal candidates by networking online and with professionals
- Obtain employee referrals
- Attend Career fairs
- Obtain information about quality candidates at Conferences
- Accessing the sources of professional associations

Our recruiters are dedicated to finding the best talent. Their dedication has allowed us to successfully fill difficult positions for our current clients. In order to ensure that only the top talent that is qualified for the position reaches our hiring managers, we established the following steps:

- We ask knock-out questions that would allow us to wade out the candidates that aren't necessarily fit for the position. Such as questions that would require them to explain their experience and skills in an in-depth manner.
- Phone interviews are established by our team of recruiters to elaborate on their qualifications, education, and their past experience in regard to the position.
- Feedback loops are refined in the search between the manager and the recruiter.

The recruiters that have completed our so designed on-site programs and online courses to ensure that our recruiters are trained in the process of interviewing accurately implement these steps. In the event that an assignment ends for any reason, we will conduct an exit interview with the candidate in order to not only provide information to the County on the work environment but also to ensure continuous improvement of our recruiting and retention programs. The goal at InstantServe is to submit qualified professionals to all job orders within 24 to 48 hours. We believe that we have successfully completed this goal by the experience of our managerial staff and the training that we provide to our recruiters. It is an honor to successfully complete the requested needs of our clients. We value the relationships that we establish with our clients and we believe in satisfying their requests. Our goal is to deliver the 'right person, at the 'right price' and 'right time will allow our team to successfully begin the project in an adequate amount of time to deliver now' In addition to locating the 'right person for the County, we perform screenings on each candidate to help determine that the ideal candidate is selected for the position.
