DAVID BALLARD GEDDIS JR  
GEORGIA AVE  
Palm Harbor

(Again)

Based on Pinellas County Resolution 95-286 section IV (C-2), Pinellas County has been sold to the Water District in a Fee(simple)Title, (30 year) Transfer of Function and Power, as recognized in statute law.

That Sale took place over 12 years ago.

In Effect the County is in its final stages of dissolution.

Thus, the County (as Sold), (as transferred) is giving rise to the Water District as the New Seat of Government.

In Actuality, THIS Water Management Government has been "Masked" under the Pretense of THIS Land government, Using THIS Land government as It's "Medium" from the onset of THIS Constitution.

Federalist Paper #28, exhibits THIS Political PrePonderance as a "Disease of Government" ~~for which there is no cure".~~

George Washington's Farewell Address (Again) recognizes such political PrePonderance as a Misleading Form of Representation, as a *Sinister Spirit*, as One of Auspice and Critical Posture, as insidious, pernicious, covert, made of fallible judgment "inferior" in its qualification ~~"Spirit of revenge, as an unprincipled MisRepresentation, here to indirectly undermine that which cannot be directly overthrown, claiming such a spirit to be Inseparable from its Nature, Natural to Dissentation, Here to Destroy the very Engine which lifted it to its Unjust Domain". That engine being the religion of Christianity as revealed in the Reclaimed water Variance Application, being based on the 14<sup>th</sup> Amendment (pg 165-164 of Maloney's water code), as contrast with the Declaration of Independence.~~

So, as the Seat of Government Shapeshifts from its PrePondered/FortKighted Statesmanship into a Politically Laundered Watershed Operation, the Water Districts "Naturally" not recognizing the Arbitrary Demarcation of State Boundaries / the Artificial Division of State Lines, will "Naturally" be dissolved.

Dissolving the States (in a larger sense),

The Water Districts, will give rise to Water Regions, (in a larger sense) the Water Regions will dissolve the Borders between United States and Canada and the Borders between United States and Mexico in Forming Watershed Regions through the Entire North American Continent, like the Original 13 colonies. But, serving as a Watershed operation, seen in this diagram ~ as Americanna.

And, in such Conquest, *IT* is there, you shall see the Devil as referenced on Pg80 of Maloney's Water Code. Intent on doing away with a particular religion having to do with water.
