| Project Name (Required) | Triple bulk material storage bins (sand, clay, dirt) |
| Requested Program Budget (Required) | \$20,000 |
| Community Need: Describe the problem or need to be addressed by this project. (Required) | Currently these materials are just in a pile in our parking lot taking up valuable space that can be used for parking. it also is a safety concern for children that like to climb in these piles. The storage bins will offer us a place to store materials and keep them clean, weed free, and out of eyesight. |
| Project Summary: Describe how the project will be fully implemented and how it will address the need or gap in the community. Identify and describe other funding sources, if any, for this project/program. (Required) | The contractor will build the bins to the size in the drawings provided. East Lake Recreation will use capital funds to supplement the total cost of the project. |
| Program Outcomes: Describe the time-line by which the project will be implemented including short-term and long-term results. (Required) | This project will be completed within one year from the date of approval. |
| Describe how your project aligns with the County's Strategic Plan: (Required) | This project will give our users a better parking experience. It will provide for a cleaner look and a less attractive nuisance for children who have a tendency to play in dirt piles. It will help us save product that is lost due to contamination and run-off. This would fall in line with the county's environmental stewardship strategy. |
