13. The proposed Comprehensive Plan amendment, and associated Future Land Use Map (FLUM), Land Development Code (LDC), and Zoning Atlas amendments are a result of significant study and analysis along with community input. This input consisted of a community engagement process in preparation of the Lealman Form Based Code (L-FBC) over the course of several public workshops and direct consultation with the Lealman Citizen Advisory Committee. The proposed changes will provide the Lealman community with opportunity for redevelopment in three (3) separate Mixed Use Corridor-Supporting (MUC-Su) designations along four (4) major transportation corridors. Each designation and associated L-FBC districts have been customized to recognize the character and nature of the road corridor and surrounding neighborhood and will encourage provision of new housing opportunities and commercial services using an efficient and streamlined review process.
