### Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is a joint agreement by USGS and BTS (on behalf of Pinellas County) for LIDAR data. This project is in coordination with Hillsborough County and data acquisition for both counties will occur at the same time but through separate funding agreements with USGS. USGS will manage the flight and data acquisition and pay for 15% of the project costs as part of the joint funding agreement. The total not to exceed amount that is anticipated for FY25 is \$282,037.45.

Funding for this action is included in the BTS FY25 Budget Request.
