Topic Safer at Home

BCC Agenda Date 4-28-2020

Your Stand on the Issue Support

Comments

I urge the commissioners to keep the safer at home order in effect. It is working and now is not the time to change course. I also urge the commissioners to contact the members of the Pinellas legislative delegation and ask them to support a special session to fix the unemployment system. Specifically those who are responsible like Senators Brandes, Hooper and Rep Grant.

Topic COVID-19
BCC Agenda Date 4-28-2020
Your Stand on the Issue Undecided

Comments

Please do not re-open Pinellas County yet, we do not have COVID-19 under control, we do not have enough testing completed to have a handle on this virus. Please reopen ONLY on the basis of medical advice, not just advice from business leaders. Even if our governor says to open the date, please do not follow unless we have widespread testing in place. Also, I see so. many more people out and about in our area now than were out 2 weeks ago, it makes me concerned that people are starting to underestimate how serious this is. Can you do something to get the message out that people should still be at home?

Topic Plan to reopen Pinellas

BCC Agenda Date 4-28-2020

Your Stand on the Issue Oppose

Comments

Before re-opening is considered, the following criteria should be met: 1) Have the # of new cases and deaths been dropping for 14 days per recommendation of the CDC? 2) What support for antigen testing will be provided for employers and employees to help build safety in return-to-work plans? 3) What is status of Pinellas nursing homes and ALFs? Are all workers being provided correct PPE, and monitored for using it correctly? Are they being monitored with a quick test entering the premises? 4) What antigen testing is available to the general public to determine our status?

Topic Reopening Pinellas County

BCC Agenda Date 4-28-2020

Your Stand on the Issue Oppose

Comments

The most prominent recommendation about reopening Pinellas County comes from the Sheriff, this is alarming. More concerning is the lack of perspective from the health department and medical community. The sheriff's public recommendation on Facebook and WFLA leaves the reader thinking we have met the "guidelines for reopening American " issued by the White House Task Force. However if you read the guidelines Pinellas County is far from meeting Phase 1. Much needs to be done before we open. The health dept and medical community should be offering advice. The Sheriff should give his recommendations from a law enforcement perspective. Read the guidelines.

Topic SUPPORT Extension of State of Emergency
BCC Agenda Date 4-28-2020
Your Stand on the Issue Support

Comments I SUPPORT EXTENSION of the State of Emergency due to major concerns of further spread of CIVID-19 virus. I strongly oppose opening beaches for exercise, etc. based on: 1) Observed Significant cases of NON-COMPLIANCE throughout PINellas County of social distancing/wearing of masks in public places to prevent further spread of virus. 2) Disrespect demonstrated for others’s lives by those not following CDC Guidelines, FL Governor, Pinellas County and City Mayors’ instructions/restrictions to help reduce the spread of virus that ultimately saves lives. 3) Concerns for sufficient no. of testing supplies/capabilities and adequate plan to ensure non-symptomatic AND Symptomatic cases are identified to prevent further spread. 4) Higher risk of increased no of cases further stressing capabilities of currently overburdened hospitals, medical facilities and all first responders. 5) Concern having no knowledge or not /publicizing of County’s clear plan to safely and effectively transition through this first phase of lessening restrictions.

Topic Covid

BCC Agenda Date 4-28-2020

Your Stand on the Issue Oppose

Comments

I DO NOT support reopening anything without testing in place. It isn't safe. Just look at the places that opened early ex Wuhan, they're already experiencing cases popping up. If you are not at risk, good for you. You get it and you may not even know it. But for the at risk population who are also raising our next generation, it is dangerous. Don't just think about yourself. It is Who you may transmit it to that scares me.
