The Pinellas County Health Care for the Homeless Program (HCH) proposes to hire 2.0 FTEs (1 counselor, 1 substance use care coordinator) to seek client engagement from point of care within an identified hospital partner facility to connect with community based services upon discharge from the Emergency Department or inpatient hospitalization. In calendar year 2017, the hospital partner facility had 461 encounters with HCH clients where there was a behavioral health diagnosis for the principal diagnosis. This data provides support for the HCH program to implement a pilot program utilizing SUD-MH funding to seek engagement from the clients presenting at the hospital with a behavioral health diagnosis. The pilot will be building off of an established partnership between the HCH program's medication assisted treatment substance use services provider and the hospital facility. These two entities currently have an established program in which a substance use specialist connects with a patient while in the Emergency Room and willing to participate in medication assisted treatment (MAT) services. The proposed program will provide staff (counselor and care coordinator) to work with the hospital's Care Coordination Team for identification of HCH clients with identified behavioral health needs within the hospital facility (i.e., Emergency Department, inpatient, catheter lab, etc.) to seek interest and engagement in the HCH's Medication Assisted Treatment program and co-occurring treatment services. Staff will coordinate with the client to facilitate the appropriate connection to the program upon the patient's discharge, assist in reducing barriers (i.e., transportation), provide community follow up to assist in maintaining program engagement, and coordinate with the HCH clinicians and staff to ensure appropriate care coordination to provide integrated behavioral health and primary care services. One-time funding will be utilized to assist the program with the integration of a technology transportation hub for client access, mobile applications to promote client health, technology integration, technology supplies for the two new positions, and additional medications to increase capacity of the HCH's current MAT program.

2. Describe the actions that you will take to achieve expanded access to quality integrated SUD and/or mental health services, including proposed personnel and one-time funding uses (if requested). If additional MAT funding is requested, specifically address expanded access to MAT for OUD.

The Pinellas County Health Care for the Homeless Program (HCH) will amend the current contract with the local substance use services provider for increases staffing and to cover additional one-time program costs to initiate hiring the 2 FTEs and purchasing the proposed equipment and technological items/services. Upon hiring and orientation, staff will work with the hospital partner's Care Coordination Team to identify HCH clients located within the hospital facility to seek client interest in behavioral health services. If a client is interested in the offered services, program staff will connect with the client to inform them of the treatment options and provide an opportunity for shared decision making. Based upon the client's responses, staff will provide the appropriate education, referrals, and connections to further treatment options upon discharge, such as, but not limited to: medication assisted treatment (MAT), detox services, and/or co-occurring therapy. Program staff will follow up with the client beyond discharge from the hospital and continue to encourage engagement in the referred services. This program will expand access to HCH clients by reaching them beyond the clinic and mobile medical unit walls and engaging them at the point of hospitalization or shortly after discharge. The proposal will further integrate care by utilizing a care coordinator to ensure all treatment providers receive the necessary documentation for the patient's electronic health records ensuring that the providers are well informed of the client's overall care. Technology will be reviewed and options discussed to work towards a solution that will allow all partners the ability to electronically share the client's treatment plans and notes. Through connecting with individuals while hospitalized or shortly post discharge, the HCH will expand access to quality integrated care by meeting clients where they are to inform and engage them about/with the available services provided by the HCH program.

▼ Patient Impact Questions

Existing Patient Impact

1. Total Unduplicated Existing Patients: Enter the total number of existing patients who will newly access SUD and/or mental health services in calendar year 2019 as a result of SUD-MH funding (e.g., existing medical patients not currently accessing these services that will begin to do so).

Attribute each patient to EITHER SUD or mental health in your response to Question 1, even if some existing patients are expected to access both expanded services (i.e., count each existing projected patient only once in this unduplicated patient projection). 28

2. Existing Patients by Service Type: Enter the number of existing patients who will newly access each service in calendar year 2019 below.

Count each projected existing patient according to the services they are expected to access. If a patient will start accessing both SUD and mental health services, they should be counted once for SUD and once for mental health.

- A. SUD Services Patients 28
- B. Mental Health Services Patients 0

New Patient Impact

3. Total Unduplicated New Patients: Enter the number of new patients (new to the health center) who will access SUD and/or mental health services in calendar year 2019 as a result of SUD-MH funding.

Attribute each patient to EITHER SUD or mental health in your response to Question 3, even if some new patients are expected to access both expanded services (i.e., count each new projected patient only once in this unduplicated patient projection). 0

Note: New unduplicated projected patients entered in response to this question will be added to your patient target. Failure to achieve this new patient projection by December 31, 2019 may result in a funding reduction when your service area is next competed through Service Area Competition (SAC). See the [SAC technical assistance website](#) for patient target resources.

4. New Patients by Service Type: Enter the number of new patients (new to the health center) who will access each service in calendar year 2019 below.

Count each projected new patient according to the services they are expected to access. If a new patient will access both SUD and mental health services, they should be counted once for SUD and once for mental health.

- A. SUD Services Patients 0
- B. Mental Health Services Patients 0

Additional MAT Funding Impact

5. Patients Projected to Receive MAT: Enter the number of existing and new patients who will newly receive MAT for OUD from a physician, certified nurse practitioner, or physician assistant with a DATA waiver working on behalf of the health center in calendar year 2019.

For this projection, count existing patients that will begin to receive MAT for the first time, as well as new health center patients accessing MAT as a result of SUD-MH funding. 28

Telehealth

Are you proposing to use telehealth to increase access to integrated SUD and/or mental health services?

- Yes, my health center will use telehealth to expand services
- No, my health center will not use telehealth to expand services

Minor Alterations/Renovations

Are you proposing to use one-time funding in year 1 for minor alteration/renovation (A/R) that will support increased access to integrated SUD and/or mental health services?

If yes, HRSA will request additional information about your minor A/R plans separately after SUD-MH awards are announced. SUD-MH funds requested for minor A/R may not be obligated until required information is submitted and HRSA approves your A/R plans (6 to 9 months post award).

- Yes, my health center's SUD-MH proposal includes minor A/R costs, and I acknowledge that the A/R activities may not begin until HRSA approves our A/R plans
- No, my health center's SUD-MH proposal does not include minor A/R costs

Scope of Services

Review your current approved [Form 5A: Services Provided](#). Will a Scope Adjustment or Change in Scope request be necessary to ensure that all planned changes to SUD and mental health services are on your Form 5A?

Access the technical assistance materials on the [Scope of Project resource website](#) for guidance in determining whether a Scope Adjustment or Change in Scope will be necessary (click on the "Services" header in the Resources section to access the Form 5A information).

If yes, you must separately submit a Scope Adjustment or Change in Scope request to HRSA (e.g., to move mental health services from formal referral (Column III) to direct provision (Column I), to add SUD services for the first time). You may not modify your approved Form 5A through this application.

Note the following when completing this form:

- You do not need to submit a Scope Adjustment or Change in Scope request if SUD-MH funding will expand services that you are already providing in the same modes of provision (i.e., Form 5A Column I, Column II).
- SUD-MH funded services must be listed in Column I and/or II on Form 5A, either currently or after you submit and are approved for a Scope Adjustment or Change in Scope.

- Yes, I reviewed my Form 5A and determined that my health center's proposed activities will require a Scope Adjustment or Change in Scope request to modify Form 5A
- No, I reviewed my Form 5A and determined that my health center's proposed activities will not require a Scope Adjustment or Change in Scope request to modify Form 5A

If yes, describe the proposed changes and a timeline for requesting necessary modifications to your Form 5A below.
