Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is for the approval and execution of First Amendment to the agreement with Aptim Environmental & Infrastructure, LLC for coastal management environmental consulting services. The contract provides for professional engineering services on an as needed basis to assist the Environmental Management Division of Public Works with implementation of the County's Coastal Management Program. The amendment is for an increase of \$1,000,000 for revised total of \$2,250,000 over a 5-year term providing for depleted contract funding as a result of Hurricane Idalia post-storm emergency response. The contract incorporates the continuation of existing projects and initiation of new projects to protect coastal infrastructure, enhance recreational opportunities, and to survey physical and biological beach conditions.

The contract was originally awarded by the Board of County Commissioners on February 28, 2023, with a total upset limit of \$1,250,000.00 over the 5-year term. The funding is consistent and included in the FY24 Adopted budget in the Environmental Management Division of Public Works Coastal Management Program.
