Based on Pinellas County Resolution #95-286 section IV (C-2) stating "Absolute Bill of Sale, Full Warranties of Title and Release of Lien", the County has been Sold to the Water District in a 30year FeeSimpleTitle Transfer, recognized in statute law, Transferring the Function and Powers of the County in HomeRule Charter section 2.04(Q), ~~in such sale~~.

The County using a QuidProQuo Agreement with the Water District is ~~intending to Shapeshift~~ ^{THE COUNTY} from its Fortknighted Statehood into a Politically Laundered WaterShed Operation, ~~eventually giving rise to~~ ^{DISSOLVING THE COUNTY} individual Despotic Water Jurisdictions under the 14th Amendment.

TRUTHFULLY, Our Current Constitution is a Useful Hold, seen as a Useful Art for Limited Times, Capturing Aggregating/Bankrupting the Water Supply, as reflected in Article 1 section 8. George Washington in his Farewell Address states that we are being given a Useful Lesson on our Heads.

The County in its Sale to the Water District has Nulled and Void its AdValorem Property Lien. As the County is being Dissolved, the Functions and Powers of the County millage are systematically being transferred/giving rise to a Non-AdValorem Water District Levy, ~~such Levy is NOT based on the Millage Rate as based on statute 197.3632.~~ ^{ON DUTY ELECTED}

The assumption of what is in "the build" is a Despotic Direct Tax, as Enumerated from Article 1 section 2 of our current Constitution: using ^{1ST CONSTITUTIONAL (LAND)} ~~THIS~~ Constitution to MANIFEST ^{#2 CONSTITUTIONAL (WATER)} ~~THIS~~ Constitution all-the-while Declaring to be Devine and Provident.

The reasoning of THIS and THIS is No Good. Your Money is No Good. Such Contrived and Invoked Powers are to be Dismissed.

Minus such Constitutional undertakings, a Benevolent Government shall form respecting the Health, Safety and Welfare of the Inhabitants, respectful of the Eco-Structure, attentive to future generations, as provided by Almighty God and in support of Almighty God!
