Subject: Funding Source Correction: Grants - Intent to Apply Form Submitted to OMB - Resilient Florida

Good afternoon,

The approved Intent to Apply for the Resilient Florida Program to perform structural hardening of four Pinellas County **Utility Buildings – Logan Laboratory, South Cross Bayou Operations, General Maintenance Division South, and South Cross Bayou Dewatering Operations** has been updated to reflect the correct funding source for matching funds (**F4034 and F4052**). Please include the updated email when you send your application.

Sincerely,

Kimberly Y. Williams

Subject: RE: Grants - Intent to Apply Form Submitted to OMB - Resilient Florida

Greetings!

OMB has no objection to the Utilities Department submitting a grant application to the Florida Department of Environmental Protection's Resilient Florida Program to perform structural hardening of four Pinellas County Utility Buildings – Logan Laboratory, South Cross Bayou Operations, General Maintenance Division South, and South Cross Bayou Dewatering Operations.

This is a multi-year reimbursement grant project that will potentially impact FY22-FY26. The requested funding is \$3,600,000.00 with an in-kind match in the amount of \$5,400,000.00. The funding source for matching funds has been identified by the department as **F4034 and F4052**. The total project is estimated to cost \$9,000,000.00.

This grant application will require approval from the Board of County Commissioners. Please include this email when you send the application through Granicus. The review shall include the Director, Assistant County Administrator, and County Administrator along with any others as defined in Granicus/Legistar standard operating procedures.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Kimberly Y. Williams

OPUS Project Title: Pinellas Park Interceptor Collection System Improvements - 003147A

Duration: Multi Year

Proposed Abstract (Project Scope of Work): Construct a sanitary sewer forced main from Pinellas Park master lift station to the South Cross Bayou Advanced water reclamation facility. Upgrade Pinellas Park lift station to meet the new hydraulic conditions caused by the new forced main.

Benefit Summary (How will this benefit the County, Dept, etc?): This project will eliminate a repetitive sanitary sewer overflow occurring in Pinellas Park, Florida during wet weather events. These overflows contain raw sewage, so this project will protect water quality and the environment while enhancing the resiliency of Pinellas County's wastewater systems.

Good morning!

OMB has no objection to the Utilities Department submitting a grant application to the Florida Department of Environmental Protection's Resilient Florida Program to replace or repair up to fifteen (15) **mobile home park wastewater collection systems** in unincorporated southern Pinellas County.

This is a multi-year reimbursement grant project that will potentially impact FY24-FY26. The requested funding is **\$25,000,000.00** and no match funds is required. The total project is estimated to cost **\$25,000,000.00**.

This grant application will require approval from the Board of County Commissioners. Please include this email when you send the application through Granicus. The review shall include the Director, Assistant County Administrator, and County Administrator along with any others as defined in Granicus/Legistar standard operating procedures.

If you have any questions, please do not hesitate to contact me.

Sincerely,

**Proposed Abstract
(Project Scope of
Work):**

- The planned project, utilizing the RESTORE Act Grant for design, is to replace or repair up to fifteen (15) mobile home park wastewater collection systems in unincorporated southern Pinellas County.
- The project's primary goal is to reduce infiltration and inflow (I&I) that contribute to sanitary sewer overflows (SSOs) and capacity issues in Pinellas County Utilities' wastewater collection system, which contribute to surface water discharge.
- This request is for construction only.

Benefit Summary (How will this benefit the County, Dept, etc?): The benefit of this project will be a reduction in the contribution of infiltration and inflow (I&I) that contributes to sanitary sewer overflows (SSOs) and capacity issues in Pinellas County Utilities' wastewater collection system, and reduction in surface water discharge.
