The Objective and Scope of the Audit of the Financial Statements

You have requested that we audit the financial statements of Eastlake Oaks Community Development District, which comprise governmental activities, each major fund and the budgetary comparison for the General Fund as of and for the year ended September 30, 2015 which collectively comprise the basic financial statements. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter for the year ending September 30, 2015 and thereafter for two annual renewals if mutually agreed by Eastlake Oaks Community Development District and Berger, Toombs, Elam, Gaines & Frank, Certified Public Accountants PL.

Our audit will be conducted with the objective of our expressing an opinion on the financial statements.

The Responsibilities of the Auditor

We will conduct the audit in accordance with auditing standards generally accepted in the United States of America and "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with generally accepted auditing standards. Also, an audit is not designed to detect errors or fraud that are immaterial to the financial statements. The determination of abuse is subjective; therefore, Government Auditing Standards do not expect us to provide reasonable assurance of detecting abuse.

In making our risk assessments, we consider internal control relevant to Eastlake Oaks Community Development District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.

We will also communicate to the Board any fraud involving senior management and fraud that causes a material misstatement of the financial statements that becomes known to us during the audit, and any instances of noncompliance with laws and regulations that we become aware of during the audit.

The funds that you have told us are maintained by Eastlake Oaks Community Development District and that are to be included as part of our audit are listed below:

1. General Fund

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit including among other items:

- a) That management has fulfilled its responsibilities as set out in the terms of this letter; and;
- b) That it believes the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Management is responsible for identifying and ensuring that Eastlake Oaks Community Development District complies with the laws and regulations applicable to its activities, and for informing us about all known material violations of such laws or regulations. In addition, management is responsible for the design and implementation of programs and controls to prevent and detect fraud or abuse, and for informing us about all known or suspected fraud or abuse affecting the entity involving management, employees who have significant roles in internal control, and others where the fraud or abuse could have a material effect on the financial statements or compliance. Management is also responsible for informing us of its knowledge of any allegations of fraud or abuse or suspected fraud or abuse affecting the entity received in communications from employees, former employees, analysts, regulators, short sellers, or others.

The Board is responsible for informing us of its views about the risks of fraud or abuse within the entity, and its knowledge of any fraud or abuse or suspected fraud or abuse affecting the entity.

Eastlake Oaks Community Development District agrees that it will not associate us with any public or private securities offering without first obtaining our consent. Therefore, Eastlake Oaks Community Development District agrees to contact us before it includes our reports or otherwise makes reference to us, in any public or private securities offering.

Because Berger, Toombs, Elam, Gaines & Frank will rely on Eastlake Oaks Community Development District and its management and Board of Supervisors to discharge the foregoing responsibilities, Eastlake Oaks Community Development District holds harmless and releases Berger, Toombs, Elam, Gaines & Frank, its partners, and employees from all claims, liabilities, losses and costs arising in circumstances where there has been a knowing misrepresentation by a member of Eastlake Oaks Community Development District's management which has caused, in any respect, Berger, Toombs, Elam, Gaines & Frank's breach of contract or negligence. This provision shall survive the termination of this arrangement for services.

Eastlake Oaks Community Development District's Records and Assistance

If circumstances arise relating to the condition of the Eastlake Oaks Community Development District's records, the availability of appropriate audit evidence, or indications of a significant risk of material misstatement of the financial statements because of error, fraudulent financial reporting, or misappropriation of assets, which in our professional judgment, prevent us from completing the audit or forming an opinion, we retain the unilateral right to take any course of action permitted by professional standards, including declining to express an opinion, issuing a report, or withdrawing from the engagement.

During the course of our engagement, we may accumulate records containing data that should be reflected in the Eastlake Oaks Community Development District books and records. The District will determine that all such data, if necessary, will be so reflected. Accordingly, the District will not expect us to maintain copies of such records in our possession.

Andy , want to update you on this. I have sent over a proposal to remove 6 dead trees running across Tampa Rd. , I should have over to you by end of day the proposal to trim all palms.
Please give me your feedback on the tree replacement, I have a pretty good idea but want your opinion before I have it written.
#1 we clearly owe you a tree in replacement of the palm. I suggest installing a Crape Myrtle to match the 2 existing.
#2 cost fairness will leave Eastlake oaks on the short side ,so I suggest to consider we re- landscape the entire island. Remove the sod and install enough colorful tropical plant material until we satisfy the cost of the original palm tree installation. I believe this will give them an overall better bang for the money, so to speak. Just putting in a crape myrtle like I said would not be fair to community. Let me know so I can get this to you in time

Respectfully,

Scott Craig

Hey Scott,

Can you get me a quote to trim all the palms at Eastlake Oaks? Also, get me a proposal for whatever you think will work on that island (if there is no Palm Tree that could work, quote it with something else). I assume some aspect of it would be covered under warranty from the failed tree? Their meeting is next Thursday so of course the sooner you can get it to me the better.
