State your background, including your education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and explain how this applies to the function of the board, council or committee:

Diagnosed with Depression, PTSD and Anxiety at the mere age of 13 I know the depth of having mental health issues and trying to deal with them being a mother, student, maintaining a career and living in a community that ignores the issue at hand, especially being an African American. I am a former foster youth, reoccurring homeless, child sexual abuse and domestic violence victim that has turned my pain into passion through advocacy. Despite the hand that I have been dealt in life I was able to push through life. It hasn't been easy, in fact I don't think I was suppose to be given an easy life. The things I have went through have given me life lessons to help those in dire need. Through my advocacy work being employed through agencies and facilitating my own organizations Secrets Shouldn't Hurt for sexually abused children and adults along with Changing the Outcome that I hope one can day can provide a variety of services within the community I hope to implement a program that helps so many others such as myself. The individuals who feel outcasted, embarrassed, hopeless, alone and misunderstood at times. I wanted to apply to join the board not only because of my mental health issues, but because I have faced many challenges that played a role with having mental health issues. I can provide insight and dedication towards helping the community and hope to be given that chance. I've also served on a few boards throughout the state and community such as: Pinellas County Homeless Leadership, Florida Council Against Sexual Violence, Criminal Justice Advisory and New Leaders Council Board Member Tampa Bay. ** I tried to upload my resume, but was unable to do so**
