Comments

Affordable housing is important to me as more working class and lower-income folks are being edged out of St. Pete and the county as condos, mixed-use residential/business complexes and new housing is geared to the well off, high income population. I want 4.15% of the affordable housing penny IV money spend only on "affordable units" that lower any threshold to well under \$80,000 annual income per year. A diverse and vibrant community requires all citizens have a shot at respectable and affordable housing opportunities.

Comments Affordable housing is important to me because I work with homeless clients in a housing first model program for those with psychotic disorders and I want 4.15% of the affordable housing penny IV money spent only on affordable units to empower our community.

Comments Affordable Housing must focus on those with the lowest incomes not those with the highest qualifying incomes. We are desperate in this county for housing for the homeless and those who will be evicted as of January 31.
