Date/Time/Comments: 02/14/2017 Merry Celeste Confirmed that Army DOA will manage project and they will solicit contractors to perform work. Agreement is with USDOA to provide funding for beach renourishment for Sand Key. Agreement allows us to make insurance recommendations at time solicitation for contractors is made. The agreement contains wording holding the USDOA harmless. This is a PE to PE agreement. There are no insurance requirements.

NOTES: Approval of this agreement will allow the Army Corps of Engineers to include \$12,797,000 of emergency federal funding, per Public Law 84-99, in the proposed upcoming Sand Key nourishment project which will place 353,119 cubic yards of sand eroded from the "design template" during Hurricane Hermine. Details of the estimated costs and sand volume to rehabilitate Sand Key are documented in the Project Information Report (PIR) completed by the Army Corps of Engineers.

A similar agreement providing emergency federal funding to rehabilitate Sand Key was approved by the Board of County Commissioners in February 2005.

VEH – discussed with Andy Squires and Brendan Mackesey – Important that Risk review ACOE solicitation to contractors for Insurance Risk Transfer.
