- Construction of homes and communities with the County's support

In response to comments and queries by Commissioner Flowers, Mr. Sutton explained that income verification is a challenge which often arises when qualifying prospective homeowners who work in the tourism and hospitality industries; and that higher construction and sales costs led to a shift from 15-year to 30-year mortgage plans; whereupon, responding to comments and queries by Commissioner Scherer, he provided information regarding the property ownership, land lease, and financing associated with the Lealman Heights project.

COUNTY ADMINISTRATOR DEPARTMENTS

Building and Development Review Services

13. Agreement for annual facility permit for Raytheon Company with the Pinellas County Building Services Department.

Agreement approved, allowing Raytheon Company to obtain a yearly building permit to do construction in buildings at 7887 Bryan Dairy Road, #1444, in Largo without the requirement of scheduled routine in-progress inspections, as outlined in the Staff Report. Agreement term expires December 31, 2030.

A motion was made by Commissioner Flowers, seconded by Commissioner Scott, that the item be approved. The motion carried by the following vote:

Aye: 7 - Chair Eggers, Vice-Chair Latvala, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, Commissioner Scherer, and Commissioner Scott

Construction and Property Management

14. Resolution to declare as surplus multiple County-owned properties in the City of Clearwater and authorize the County Administrator to utilize a competitive request for negotiations process in anticipation of selling the properties.

Resolution No. 26-25 adopted, declaring multiple County-owned properties in downtown Clearwater as surplus and granting authorization to the County Administrator to advertise the properties for sale through a competitive request for negotiations (RFN) process.

Mr. Burton introduced the item and, upon the Chair's request, explained that the proposed action is to declare multiple properties owned by the County and located within the City of Clearwater as surplus; that a negotiation process to execute the sale of the subject properties is still required; and that staff will issue an RFN on a later date, at which time the members may review proposals for use of the properties.

Chair Eggers indicated that residents will be given an opportunity to provide public comment regarding the sale of the properties at a town hall meeting scheduled for April 23; and that public notice for the meeting will soon be published.

Responding to queries by Commissioner Scherer and Chair Eggers, Mr. Burton, with input from Assistant County Administrator Blaine Williams, discussed various topics related to the RFN, including the following:

- Approval process
- Status of the draft RFN and its various components
- Distribution of the draft to the members
- Timeline of release
- Role of citizen input

In response to an additional query by Chair Eggers, Mr. Burton confirmed that a review of the RFN can be added to the agenda of the Board's April 30 work session; whereupon, responding to a query by Commissioner Latvala, Mr. Williams indicated that, as the real estate broker for the project, CBRE will receive a commission from the sale of the subject properties. In response to queries by Commissioners Latvala and Nowicki, Mr. Burton provided details regarding the process associated with selecting CBRE for this project and their work related to other projects throughout the county.

Responding to comments by Commissioner Nowicki, Mr. Burton explained that CBRE did not prepare a financial analysis comparing the sale of the properties to a ground lease due to the number of variables and assumptions involved, which make it difficult to provide an accurate side-by-side comparison; whereupon, discussion ensued regarding sale versus ground lease options, timing of the Board's action in relation to planned community input, and flexibility within the RFN process.

In response to a query by Commissioner Peters, Attorney White indicated that she believes there was a consensus during a previous work session to proceed with CBRE's recommendation; whereupon, she clarified that declaring the County-owned properties as surplus is a preliminary step prior to issuance of the RFN and does not obligate the Board to proceed with either option; and that all options will remain available, regardless of the Board's action today.

Responding to queries by Chair Eggers, Mr. Burton clarified that this item was previously on the March 24 meeting agenda; and that it was postponed to today's meeting to allow a work session and discussion with CBRE to take place.

Upon the Chair's call for public comment, the following individuals appeared and expressed their concerns:

Brooks Gibbs, Clearwater (spoke on behalf of others)
Robert Paolini, Palm Harbor (spoke on behalf of others)
Bradon Gibbs, Clearwater
Kelly Myer, Clearwater

Mr. Burton indicated that the City of Clearwater City Manager called to inform him that a Clearwater City Council meeting is scheduled for April 23, which is the tentative date for the town hall meeting. Following brief discussion regarding an alternative town hall meeting date, Mr. Burton confirmed that the meeting will be rescheduled to April 29.

Responding to a query by Chair Eggers, Attorney White clarified that, should the members move forward with a lease, a County ordinance would still require a declaration of surplus property; and that this item pertains solely to that declaration.

A motion was made by Commissioner Scott, seconded by Commissioner Peters, that the item be approved. The motion carried by the following vote:

Aye: 7 - Chair Eggers, Vice-Chair Latvala, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, Commissioner Scherer, and Commissioner Scott

Public Works

15. Change Order No. 2 with Southern Road and Bridge, LLC for bridge structures, fixed concrete maintenance, and minor repairs.

(Contract No. 24-0211-ITB-C) Change order approved, increasing the contract amount by \$10,000,000.00, for a revised total of \$19,674,762.75, and adding 365 consecutive calendar days, for a revised substantial completion date of May 7, 2028.

Responding to comments and queries by Chair Eggers and Commissioner Scherer, Public Works Director Kelli Hammer Levy explained that the increased expenditure reflects anticipated major bridge maintenance projects; and that the contract does not encumber funds until specific work is authorized. She also noted that while the original contract was competitively bid, individual maintenance activities are not separately bid since costs are based on previously established bid line items.

A motion was made by Commissioner Scott, seconded by Commissioner Flowers, that the item be approved. The motion carried by the following vote:

Aye: 7 - Chair Eggers, Vice-Chair Latvala, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, Commissioner Scherer, and Commissioner Scott

16. Local Agency Program Agreement and Resolution with the Florida Department of Transportation for funding construction and engineering inspection activities for the Ridgemoor Boulevard and Brooker Creek at Brooker Creek Bridge replacement.

Responding to a query by Chair Eggers, Public Works Director Kelli Hammer Levy indicated that indemnification language will be included in the construction contract and documents when the project is advertised for competitive bids.

A motion was made by Commissioner Flowers, seconded by Commissioner Nowicki, that the item be approved. The motion carried by the following vote:

Aye: 7 - Chair Eggers, Vice-Chair Latvala, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, Commissioner Scherer, and Commissioner Scott

17. Second Amendment Term Extension with Recycling Services of Florida for Recycling Collection and Processing.

Responding to a query by Commissioner Nowicki, Solid Waste Director Paul Sacco indicated that while the County has received revenue from this program since 2021, the amount varies based on the markets. In response to queries by Commissioner Scherer, he also provided details regarding the types of items accepted for recycling and related that all materials submitted for recycling at the County's collection centers are then sent to recycling processing facilities.

In response to queries by Commissioner Flowers, Mr. Sacco explained that since there is one extension left in the agreement with Recycling Services of Florida, staff will evaluate the contractor's performance at the conclusion of the 24-month term and potentially return to the Board to request approval for a final contract extension; whereupon, responding to queries by Chair Eggers, Mr. Sacco provided information regarding the role of local materials recovery facilities in the collection and processing of recyclable materials.

Mr. Burton indicated that while there is no current plan to abandon the wells at the South Cross Bayou Advanced Water Reclamation Facility and W.E. Dunn Water Reclamation Facility, they will be abandoned if they become inoperable; whereupon, responding to a query by Chair Eggers, Deputy County Administrator Jill Silverboard provided clarifying information regarding the purpose of the injection wells and explained that they will allow for effluent disposal during heavy rainfall.
