Subject * Please Fund the Bus Charging System

Message * There is nothing better you could do with the BP Oil Spill funds than relieve air pollution in downtown St. Petersburg by funding a sophisticated electric bus charging system.
If you can afford solar shade for parking areas, you might get the cost of the powered paid by sunshine, then St. Petersburg would truly be the 'sunshine city'
My wife and I installed 10 KW on our roof 4 years ago and we have been driving a Chevy Volt mostly on solar power for 39 months now. We just gave back our 2013 leased model and bought a 2015 Volt. Our first one went almost 30,000 miles averaging 178 miles per gallon.

Subject * PSTA BP Oil Disaster Funding - Work Session, Tuesday, 10/4 9:30 AM

Message * Please vote to allocate PSTA 8% of the County's BP oil disaster fund for an electric bus charging station. This is so important to our community to move forward toward a cleaner environment.

Electric Vehicles are the right solution for our current and future transportation. funding a charging station is necessary to ensure PSTA can proceed with an investment in Electric Vehicles.

Appreciate your consideration!

Best Regards,
Sue

Subject * Fund Electric bus charging station

Message * I sincerely hope you will continue in your funding of the charging station for electric buses in Pinellas County. THIS is too important and too urgent. Recent analysis of climate data shows that the Paris Accord and the Clean Power Plan, major steps forward, are not enough to slow global warming. The charging station is a critically important step in the right direction, and appropriately funded by money from the BP oil spill.

Subject * BP \$ / PSTA/clean air

Message * Dear Honorable Chair and Commissioners:
I am in strong support of the proposed allocation of BP funds for charging stations in St. Petersburg. What an improvement in the quality of life electric buses would make. Citizens deserve cleaner air and less noise in our urban environments. Thank you kindly.
