"Taxation without Representation" is considered an Act of Actual War. This board does not have the liberty to AdHoc 3<sup>rd</sup> Party forms of Non-AdValorem Levy, undertaking our County AdValorem Property taxes without Duly Elected Representation.

CIVILIANS

Nor does this board have the freedom to allow Unelected Water Districts, the powers of Aiding and Abetting, a 3<sup>rd</sup> party, undertaking of Civilian property, using a "Fee(simple)Title" "variance", application.

I Caution, underpinning a Non-Advalorem levy, undertaking our County AdValorem lien, as this board (as this "Self-Election of Self") as stemming from Article 2 section 1; Is Declared as an invasion from "within". As an act of Treason "levied" as an Act of war in Article 3 section 3. Such Such Political Manners are seen as an Actual Invasion in Article 1 section 10.

Measured as an Act of Actual War based on "Presentiment" in the 5<sup>th</sup> Amendment. Choosing to Birth water Jurisdictions, Assuming to take the liberty, property and life of the Gentiles, as Due Process under the 14<sup>th</sup> Amendment, Exhibits "a Purview" as to the underlying will and intent of this Constitution.

As prescribed, the Due Course "Chartered" by the County, to include the District, to include "this" (Hamilton's 1<sup>st</sup> Constitution) in hindsight, is in need of being audited, on religious grounds, in particular, the Reclaimed Water "variance" application.

This government has done nothing to Protect or Conserve the water supply, acting only in, on capitalizing in/on its usage. Wasting water! And taxing us/the civilian population "erroneously" for water (privileges) as set out in Resolution 95-286!

As based on the 14<sup>th</sup> Amendment, the "usurping" methods of this Constitution both "therein" and "thereof" is in Default.

The Non-AdValorem Assessment underpinned Unclearly labeled on the County's AdValorem property tax lien is the Aiding and Abetting of an internal 3<sup>rd</sup> party "Levy"! Giving Rise to an unelected private political undertaking, As Enumerated from Article 1 section 2, A usurpation of political power, formulating a Direct tax, A poll tax, "simultaneously" assuming to disable, dissolving the current government as Declared; As the Reclaimed Water "variance" application, in conjunction, serves as a 3<sup>rd</sup> party "Facility" Fee(simple)title, Eminent Domain taking of Civilian property, in both statute 153.03(5) and statute 373.139.

And is Re-Navigating with illegitimate charges, Hoping to ReConstitute itself in Statute 373.197, in the formulation of oppressive forms of Taxation (based on dissent) without Duly Elected representation. Be not mistaken; Double-Taxation without representation in this Country is an Act of War!

## 373.715 Assistance to West Coast Regional Water Supply Authority.

(1) It is the intent of the legislature to authorize the implementation of changes in governance recommended by the West Coast Regional Water Supply Authority in its reports to the Legislature dated February 1, 1997, and January 5, 1998. The authority and its member governments may reconstitute the authority's governance and rename the authority under a voluntary interlocal agreement with a term of not less than 20 years. The interlocal agreement must comply with this subsection as follows:

(a) The authority and its member governments agree that cooperative efforts are mandatory to meet their water needs in a manner that will provide adequate and dependable supplies of water where needed without resulting in adverse environmental effects upon the areas from which the water is withdrawn or otherwise produced.

(b) In accordance with s. 4, Art. VIII of the State Constitution and notwithstanding s. 163.01, the interlocal agreement may include the following terms, which are considered approved by the parties without a vote of their electors upon execution of the interlocal agreement by all member governments and upon satisfaction of all conditions precedent in the interlocal agreement:

- All member governments shall relinquish to the authority their individual rights to develop potable water supply sources, except as otherwise provided in the interlocal agreement.
- The authority shall be the sole and exclusive wholesale potable water supplier for all member governments.
- The authority shall have the absolute and unequivocal obligation to meet the wholesale needs of the member governments for potable water.
- A member government may not restrict or prohibit the use of land within a member's jurisdictional boundaries by the authority for water supply purposes through use of zoning, land use, comprehensive planning, or other form of regulation.
- A member government may not impose any tax, fee, or charge upon the authority in conjunction with the production or supply of water not otherwise provided for in the interlocal agreement.

6. The authority may use the powers provided in part II of chapter 159 for financing and refinancing water treatment, production, or transmission facilities, including, but not limited to, desalinization facilities. All such water treatment, production, or transmission facilities are considered a "manufacturing plant" for purposes of s. 159.27(5) and serve a paramount public purpose by providing water to citizens of the state.

7. A member government and any governmental or quasi-judicial board or commission established by local ordinance or general or special law where the governing membership of such board or commission is shared, in whole or in part, or appointed by a member government agreeing to be bound by the interlocal agreement shall be limited to the procedures set forth therein regarding actions that directly or indirectly restrict or prohibit the use of lands or other activities related to the production or supply of water.

(c) The authority shall acquire full or lesser interests in all regionally significant member government wholesale water supply facilities and tangible assets and each member government shall convey such interests in the facilities and assets to the authority, at an agreed value.

(d) The authority shall charge a uniform per gallon wholesale rate to member governments for the wholesale supply of potable water. All capital, operation, maintenance, and administrative costs for existing facilities and acquired facilities, authority master water plant facilities, and other future projects must be allocated to member governments based on water usage at the uniform per gallon wholesale rate.

**373.0697**

**Basin taxes.** - The respective basins may, pursuant to s. 9(b), Art. VII of the State Constitution, by resolution request the governing board of the district to levy ad valorem taxes within such basin. Upon receipt of such request, a basin tax levy shall be made by the governing board of the district to finance basin functions enumerated in s. 373.0695, notwithstanding the provisions of any other general or special law to the contrary, and subject to the provisions of s. 373.503(3).

(1) The amount of money to be raised by said tax/levy shall be determined by the adoption of an annual budget by the district board of governors, and the average millage for the basin shall be that amount required to raise the amount called for by the annual budget when applied to the total assessment of the basin as determined for county taxing purposes. However, no such tax shall be levied within the basin unless and until the annual budget and required tax levy shall have been approved by formal action of the basin board, and no county in the district shall be taxed under this provision at a rate to exceed 1 mill.

## 373.139 Acquisition of real property.

(1) The Legislature declares it to be necessary for the public health and welfare that water and water-related resources be conserved and protected. The acquisition of real property for this objective shall constitute a public purpose for which public funds may be expended.

(2) The governing board of the district is empowered and authorized to acquire in fee or less than fee title to real property (easements) and other interests or rights therein, by purchase, gift, devise, lease, (eminent domain) or otherwise for flood control, water storage, water management, conservation and protection of water resources, (aquifer recharge), water resource and water supply development, and preservation of wetlands, streams, and lakes. (Eminent domain) powers may be used only for acquiring real property for flood control and water storage or for curing title defects or encumbrances to real property owned by the district or to be acquired by the district from a willing seller.

(3) The initial 5-year work plan and any subsequent modifications or additions thereto shall be adopted by each water management district after a public hearing. Each water management district shall provide at least 14 days' advance notice of the hearing date and shall separately notify each county commission within which a proposed work plan project or project modification or addition is located of the hearing date.

(a) Appraisal reports, offers, and counteroffers are confidential and exempt from s. 119.07(1) until an option contract is executed or, if no option contract is executed, until 30 days before a contract or agreement for purchase is considered for approval by the governing board. However, each district may, at its discretion, disclose appraisal reports to private landowners during negotiations for acquisitions using alternatives to fee simple techniques, if the district determines that disclosure of such reports will bring the proposed acquisition to closure. If negotiation is terminated by the district, the appraisal report, offers, and counteroffers shall become available pursuant to s. 119.07(1). Notwithstanding this section and s. 253.025, a district and the Division of State Lands may share and disclose appraisal reports, appraisal information, offers, and counteroffers when joint acquisition of property is contemplated. A district and the Division of State Lands shall maintain the confidentiality of such appraisal reports, appraisal information, offers, and counteroffers in conformance with this section and s. 253.025, except in those cases in which a district and the division have exercised discretion to disclose such information. A district may disclose appraisal information, offers, and counteroffers to a third party, who has entered into a contractual agreement with the district to work with or on the behalf of or to assist the district in connection with land acquisitions. The third party shall maintain the confidentiality of such information in conformance with this section. In addition, a district may use, as its own, appraisals obtained by a third party provided the appraiser is selected from the district's list of approved appraisers and the appraisal is reviewed and approved by the district.
