JHAC Research & Education Building – First Floor Example

JHAC Research & Education Building – Fourth Floor Example

Critical Care Transport: LifeLine

- Goal: provide the most timely access to care possible
 - Impacted by the ability to provide:
 - Appropriate team available to respond 24/7
 - Medical Control
 - Advanced medical technology on transport
 - Timely access for emergent requests for care
 - Directly related to the control of the mode of transport
 - LifeLine introduced in July 2016

Academic FY2017

- Recruitment of people
- Investment in technology/innovation
- Evolution to world class care
- Welcoming new residents; graduating our first JHACH residency class
- Increasing patient access to research
