- Local State of Emergency.

Referring to a chart titled *Executive Policy Group Daily Briefing Report for Pinellas County*, Mr. Burton provided statistical information pertaining to the number of COVID-19 cases throughout Pinellas County, the number of testing sites, and the availability of hospital beds and ventilators. He indicated that the situation will continue to evolve and recommended extending the Local State of Emergency.

Sheriff Gualtieri provided a breakdown of law enforcement staffing throughout the opening of the Pinellas County beaches. He thanked the public for their cooperation; whereupon, he indicated that the presence of law enforcement throughout the beaches will continue for the next week and then be reevaluated.

Sheriff Gualtieri related that he has requested that the State consider increasing capacity parameters for parks in an effort to prevent traffic congestion on entry roads and access points. He noted that any increased capacity will have to allow for adequate social distancing; that an increase may not be viable; and that additional measures to control traffic on necessary ingress and egress accesses are being taken. He provided visual representations taken throughout the day, noting the differences in perception between ground level and aerial images; whereupon, Mr. Burton noted the addition of signs along the beaches depicting social distancing requirements and rules of the beach.

Responding to queries by Commissioner Eggers, Mr. Burton, with input from Department of Health (DOH) in Pinellas County Director Dr. Ulyee Choe, provided an update on the number of COVID-19 cases in long-term care facilities and discussed the various measures and protocols in place as it pertains to infection control.

Commissioner Welch thanked Sheriff Gualtieri for his efforts to keep residents safe and enforce social distancing requirements throughout the beaches and parks; whereupon, he discussed the data available on the DOH website and requested that information be searchable by zip code, race, and other demographics to better quantify who is being tested throughout the various communities, and discussion ensued.

Mr. Burton, with input by Dr. Choe, noted the challenges of acquiring the requested data pertaining to demographics due to varying sources and a lag in receiving information. Dr. Choe indicated that he will share reports pertaining to demographics with the Board, and Mr. Burton related that a weekly update will be provided every Friday on any changes in the long-term care community and discussed recent additions in public service announcements to communicate safety measures and preventive practices throughout the County.

In response to queries by Commissioners Gerard and Seel, Mr. Burton provided the location of each of the Community Health Centers accepting walk-in testing, and Dr. Choe discussed the intention of the DOH to add additional testing sites and explore outreach opportunities; whereupon, he clarified that the turnaround times on test results vary based on the lab being used, and discussion ensued.

Responding to query by Commissioner Eggers, Mr. Burton provided an update on the status of the Pinellas CARES programs pertaining to the number of applications submitted, approved, and pending for both individual and small business assistance.

Following discussion, Mr. Burton indicated that he is asking the Board to extend the Local State of Emergency originally adopted on March 13, 2020, and Commissioner Welch made a motion to that effect.

A motion was made by Commissioner Welch, seconded by Commissioner Seel, that the order extending the Local State of Emergency be approved as presented. The motion carried by the following vote:

Resolution No. 20-42 adopted appropriating unanticipated revenue in the General Fund, the EMS Fund, and the Community Development Grant Fund.

Mr. Burton provided a breakdown of the unanticipated revenue received and the intended use of those funds; whereupon, he related that an Expenditure Contract or Request for Proposal will come before the Board for approval prior to allocation.

Responding to queries by Commissioners Eggers and Welch, Mr. Burton indicated that, upon the completion of phase one of the Financial Assistance and Small Business Grant programs, non-profits, home-based businesses, food pantries, and Community Development Block Grants (CDBG) will be considered for phase two of assistance at the Board's direction and clarified that under the program, CDBG entitlement communities will have a separate allocation of federal funds.

11. Change Order No. 1 to the contract with Pepper Contracting Services, Inc. for the Forest Lakes Boulevard Phase II project (west of Pine Avenue to west of Race Track Road).

Mr. Burton indicated that the request represents a significant increase in the project cost due to unforeseen ground conditions.

Responding to comments by Commissioner Eggers, Director of Public Works Kelli Hammer Levy, with input by Mr. Burton, provided a brief history of the development of the project area and related that the original geotechnical report and process are under review to determine if the recommendations were followed.

In response to comments by Commissioner Seel, Ms. Levy indicated that the proposed change order allows for the project to be geotechnically reinforced to prevent future problems and noted that the cost increase is to rectify deficiencies from the unsuitable soil that were not previously identified.

Aye: 7 - Chair Gerard, Vice-Chair Eggers, Commissioner Justice, Commissioner Long, Commissioner Peters, Commissioner Seel, and Commissioner Welch

Chair authorized to sign a letter of support and the Clerk to attest; staff authorized to electronically submit the application.

Mr. Burton discussed the proposed grant application and indicated that upon obtaining the funds from the grant, a gap analysis will be performed to determine the additional funding needed to complete the project.

Responding to query by Commissioner Long, Ms. Levy indicated that no funding has been received from the City of Dunedin and discussed other funding possibilities through stimulus dollars from the Federal Department of Transportation and the Federal Highway Administration.

In response to comments and queries by the members, Ms. Levy provided the timeline of the project, indicated that she is hopeful the stimulus funds will offset the reduction in bridge funding, and noted that the bridge design is a mid-level bascule.
