BOARD OF COUNTY COMMISSION JUNE 13, 2023  
City of Dunedin June 8, 2023

Article 1 section 5 of the U.S. Constitution has a **SECRECY** Clause written into it. Which calls into question what is the **SECRECY** in/of this Constitution. Further calling into question the Capture/the "Capture of Water" seen as Reprisal, in Article 1 section 8 clause 11, further recognized as a Letter of Marque, *shining light* to a "Ship of War" conducting "so-called" peacetime operations in Article 1 section 10.

"So what we have constituted (here) is a Secret, concerning a Captures of Water, recognized as a Ship of War, seen as a Letter of Marque, acknowledged as a Reprisal of such.

And, that this SECRET "Wartime" Ship is hoping to Birth itself under the 14<sup>th</sup> Amendment, as a Water Jurisdiction. Hoping to Emancipate itself with *privileges and immunities*, as Enumerated from Article 1 section 2.

Now, John Adams our 2<sup>nd</sup> President once said that the British felt enslaved under the current form of Government we have currently, today!

So is it that the British are hoping to Emancipate themselves as individual independent Water Jurisdictions, as reprisal, Constituted as a Ship of War, here to Capture the Water Supply, "Held" in Constitutional **SECRECY**, as a Letter of Marque, as a recognized.

Is this Constitutional **SECRET** considered to be a Political "Black-out" operation, a Political "Black Life" that matters?

This whole Juneteenth "media stunt" is (in reality) a Political "BlackLife" that matters. And, it's the secret life of a British Political "Black-out operation" that what really matters.

Is the Black race of the Civilian population being played/made mockery-of, politically again?

Such Political "Black-out" operation Held in Secrecy in Article 1 section 5, concerning Captures of Water, hoping to Emancipate itself as a Despotic Water Jurisdiction under 14<sup>th</sup> Amendment is none-the-less a Mockery of Mankind, as Declared, beyond a reasonable doubt, as Self-Evident, as Constituted.

Making reference to Federalist Paper #43, #53 and #54.

And the counterfeiting nature of the Declaration of Independence.
