Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This item is a grant application and maintenance agreement for Hazard Mitigation Grant Program (HMGP) funds from the Florida Division of Emergency Management (FDEM). With this application the County is requesting \$9,963,168.00 for RESTORE Land Acquisition for Floodplain Restoration and Resiliency, project 005120A. Grant funding to be used for acquisition.

RESTORE Land Acquisition for Floodplain Restoration and Resiliency, project 005120A, is budgeted in the FY24-FY29 Capital Improvement Program plan. This project is currently funded by a Federal pass through grant with The Gulf Consortium. The Consortium grant amount of \$3,321,056.00 will represent the required 25% County match in the FDEM HMGP grant application. If awarded and approved, the County will have grant funding in the amount of \$13,284,224.00 and the FDEM HMGP award of \$9,963,168.00 will be programmed into the Proposed FY25-FY30 CIP plan.

- The total project estimate will not increase from \$3,321,056.00 to \$13,284,224.00 unless the FDEM HMGP grant is awarded and approved.
- This grant application also contains a Maintenance Agreement (Section VI, pg. 13) for applicants “whose proposed project would result in the public ownership or management of property...” maintenance costs were not previously identified for this project. Maintenance costs associated with this grant will need to be identified and for budgeting before grant award is accepted.
- The Notice of Funding Availability states 25% match “cannot be derived from a Federal agency except Federal funds that lose their Federal identity” except as provided by Federal statute.. The existing funding source that will be used for match is a Federal pass-through grant with The Gulf Consortium that originates from Gulf Ecosystem Restoration Council, a Federal agency. Pinellas County Environmental Management has confirmed with FDEM that this RESTORE Act funding can be used for match because the source of the funding is a penalty from the BP Oil Spill.
- The application attached to this Granicus item is a draft. The application is still in progress.
- The project budget in the FY24-FY29 plan is \$3,021,000.00. The executed agreement with the Consortium is \$3.321.056.00. The difference of \$300,000.00 will be added to the FY25-FY30 plan.
