

## SECOND AMENDMENT

This Amendment made and entered into this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by and between Pinellas County, a political subdivision of the State of Florida, hereinafter referred to as "County," and DRC Emergency Services, LLC, New Orleans, LA hereinafter referred to as "Contractor," (individually referred to as "Party", collectively "Parties").

### WITNESSETH:

WHEREAS, the County and the Contractor entered into an agreement on August 7, 2017, pursuant to Pinellas County Contract No. 156-0491-P (hereinafter "Agreement") pursuant to which the Contractor agreed to provide Disaster Debris Collection and Removal Services for County; and

WHEREAS, Section 3(C) of the Agreement permits modification by mutual written agreement of the parties; and

WHEREAS, the County and the Contractor now wish to modify the Agreement in order to provide for additional biologic hazard services for Red Tide, at the same prices, terms, and conditions;

NOW THEREFORE, the Parties agree that the Agreement is amended as follows:

1. The document identified as Second Amendment Exhibit C and attached hereto is amended to add WM Bagsters, Dumpster Liners and Dura-Base Mats.
2. Except as changed or modified herein, all provisions and conditions of the original Agreement and any amendments thereto shall remain in full force and effect.

Each Party to this Amendment represents and warrants that: (i) it has the full right and authority and has obtained all necessary approvals to enter into this Amendment; (ii) each person executing this Amendment on behalf of the Party is authorized to do so; (iii) this Amendment constitutes a valid and legally binding obligation of the Party, enforceable in accordance with its terms.

IN WITNESS WHEREOF the Parties herein have executed this \_\_\_\_\_ Amendment as of the day and year first written above.

Offshore Notes:

Two skimmer vessels will operate at predetermined but separate distances from shore. Each will remove debris from offshore waters. Once nets have filled, the vessel will transit to the offload site where the debris will be transferred to awaiting dumpsters via forklift.

Two separate 1000 foot sections of boom will be anchored, each day based on the latest data and observations including wind, currents, bloom concentrations and physical observations of debris. Skimmer vessel will run along side of the boom to increase the efficiency of debris removal. Boom may be utilized to create a barrier that can be rapidly deployed to minimize the impact of a know debris field predicted to impact local waters and coastline.

\*\*\*DRC Operations Manager and/or Superintendent from offshore tab should apply to one or all tabs but not duplicate costs as needed per tab.
