Date/Time/Comments: 03/01/2017 Rick Kahler Contract is for approval and execution of JPA agreement for airport masterplan. Agreement is PE to PE. There are no insurance requirements.

NOTES:
 An Airport Master Plan addresses the development needs for a 20-year time period. It graphically displays the concept and reports the data and logic upon which the plan is based. The master planning process considers the needs and demands of airport tenants, users, and the general public. The guiding principle of the airport master planning process is the development of a safe and efficient airport. It must also be responsive to area-wide comprehensive transportation planning. The Master Plan includes the following elements: (1) Background and Inventory of Facilities; (2) Aviation Activity Forecasts; (3) Airfield Design; (4) Building and Development; (5) Finance and Implementations.
