41. Case No. (Q) Z-06-03-19 (J. Long Realty Group, LLC and K S K Homes, Inc.) Request for a zoning change from R-R, Rural Residential to R-1, Single Family Residential on an approximately 1.48-acre portion of two adjacent parcels located south of the 72nd Terrace North and Hubert Street intersection in unincorporated Seminole (street address: 13250 72nd Terrace North).

Resolution No. 19-23 adopted approving the zoning change. The Local Planning Agency recommended approval of the request, and staff concurred. No correspondence has been received. No citizens appeared to be heard.

A motion was made by Vice-Chair Gerard, seconded by Commissioner Welch, that the item be approved. The motion carried by the following vote:

Aye: 7 - Chair Seel, Vice-Chair Gerard, Commissioner Eggers, Commissioner Justice, Commissioner Long, Commissioner Peters, and Commissioner Welch

42. Case No. (Q) Z-05-03-19 (Joyce M. Couture)

Request for a zoning change from R-3, Single Family Residential to RM-CO, Multi-Family Residential-Conditional Overlay (5.1 acres) and PC, Preservation/Conservation (0.32 acre), with the Conditional Overlay limiting the use to single family attached dwellings (townhouses) and their customary accessory uses on approximately 5.4 acres located at 600 Pennsylvania Avenue in Ozona.

Resolution No. 19-24 adopted denying the zoning change. The Local Planning Agency (LPA) recommended approval of the request, and staff concurred. Thirty-four letters and two petitions with 91 total signatures in opposition to the application have been received.

Referring to a PowerPoint presentation containing various maps and photographs, Principal Planner Michael Schoderbock pointed out the location of the subject property, discussed the surrounding uses, and provided background information regarding the application, relating that the property currently contains two single-family homes; and that the applicant is proposing to build a 26-unit townhouse subdivision. He noted that the proposed zoning will not change the currently allowable density of five units per acre; and that under the current zoning, it would be allowable to build up to 26 single-family detached homes on the property.

Mr. Schoderbock further indicated that the conditional overlay would limit the property use to townhouses; that the requested designations are appropriate for the upland and wetland areas; that there are adequate capacities available for infrastructure impacts; and that the proposal is compatible with surrounding uses and consistent with the Comprehensive Plan, including policies developed for the Ozona community; whereupon, he stated that staff recommends approval.

Mr. Schoderbock responded to queries by Commissioner Eggers regarding the allowable density on the property and other restrictions. He noted that the Coastal High Hazard Area limits density on the property to five units per acre; and that during site plan review, the builders would need to demonstrate compliance with flood zone elevations and stormwater management requirements, and discussion ensued.

Upon the Chair's call for the applicant, Jessica Koch, Clearwater, referred to a PowerPoint presentation containing various maps, photographs, and a preliminary concept site plan, provided background information regarding the application, pointed out the proposed entrance and exit sites, and discussed the surrounding uses and plans concerning the future construction height, drainage, and preservation of wetlands and mangroves on the property. She indicated that the main access to the townhouse development will require extending Ohio Avenue, which currently dead-ends at the property line, into the subdivision; whereupon, she relayed that the applicant aspires to create a community atmosphere and will continue working with the County to find the best way to develop the land to ensure the preservation of nature.

In response to queries by the members, Ms. Koch indicated that two existing homes on the property would be removed; that the family's intentions have been to only build townhomes on the property, which the conditional overlay makes certain by not allowing other types of uses; and that she has discussed the proposal with members of the community.

Upon the Chair's call for opponents, the following persons stated their concerns and responded to queries by the members:

Brian Smith, Ozona, representing Ozona Village Improvement Society
Dennis Green, Ozona
Gregory Smith, Ozona

Concerns expressed by the objectors with regard to the proposed development included the following:

- Non-compliance with the Ozona community overlay
- Incompatibility with the neighborhood character
- Negative environmental impacts
- Preserving the heritage of the community

Responding to queries by the members relating to concerns of the objectors, Mr. Schoderbock indicated that land use designations restrict the density of a property, and zoning requirements control the property's use, lot size, and setbacks. He stated that after reviewing the site, he believes that the applicant could successfully build 26 single-family detached homes on the property; and that building townhomes would allow for a greater amount of open space, and discussion ensued.

Commissioner Long stated that the LPA voted to recommend the item by a 4 to 2 vote, and in response to her query, Zoning Manager Glenn Bailey indicated that the dissenting votes were cast by Ronald Schultz and Valerie Hibbard. Commissioner Welch noted that the rationale for dissenting was not included in the LPA report; and that regardless of the Board's vote, the property and surrounding area are going to change one way or another; whereupon, in response to queries by the members, Attorney White provided information regarding how the members should approach their decision from a legal perspective, and indicated that due to Coastal High Hazard Area restrictions, homes in the area are either built on fill or stilts.

Following discussion, Commissioner Peters stated that the adjacent properties are all multi-family homes; that building detached homes would significantly decrease the amount of green space on the property; and that she is surprised there is opposition to the proposal, and Commissioner Eggers provided input.

A motion was made by Commissioner Eggers, seconded by Commissioner Justice, that the item be denied. The motion carried by the following vote:

Aye: 6 - Chair Seel, Vice-Chair Gerard, Commissioner Eggers, Commissioner Justice, Commissioner Long, and Commissioner Welch

Nay: 1 - Commissioner Peters
