Please keep the countywide mask order in place.	Commissioners, I urge you to maintain the mask order in Pinellas County assistant graded by science and to keep each others safe from getting the coronavirus. This is A necessity out of courtesy to humankind. Our numbers need to be much lower to warrant us not requiring masks, social distancing, and handwashing. Maintaining mask mandate	Dear Sirs, I am a MD physician who believe that based on the Public Health data It would be wise to continue for the health of all members of our county to maintain the mask mandate especially as we head toward the fall. Covid cases are in their way done but based on how I read the data I believe that it is due to the distancing and masking measures. Thank you for your attention to this matter. Use of Face Mask	I understand the Commission is discussing use of Face Mask at your meeting tomorrow. We have come a long way at reducing the infection rate in the county but now is NOT the time to ease up and let politics drive your decisions. Public Health should be your guiding light. While I don't enjoy wearing mask I am willing to do so for the long haul to maintain my health and that of the citizens of Pinellas County! I DO NOT FEEL IT'S AN INFRINGEMENT OF MY RIGHTS. Facemasks	It is imperative that we protect the public health. We are now almost back to the level of infection when we did the shutdown. We need to stop the spread, and facemask mandates have got us back from the horrible levels in July. Keep the facemask mandates in place so that we can get this epidemic under control and get back to normal. Prior to the outbreak, I ate out 75% of the time, but I haven't been to a restaurant in 6 months, and I won't until things are under control. If we get back to 10-20 new cases per day in Pinellas County, we should be able to contact trace, and feel reasonable safe to return to normal activities. If we let up on the facemask mandates and we start going in the wrong direction, then there is no way any of us will be eating in restaurants again for the remainder of the year. You have a very solemn responsibility and I don't envy you, but I certainly hope you will do the right thing. We can live with the inconvenience of facemasks, so long as we are on the path to normalcy.	Gary Baker		Clearwagter			ghbaker@garybakerlaw.com	2020-09-13 19:36:09

The mask mandate	Please reconsider having a mask mandate for our children as well as anyone who does not want to wear one for other reasons. The masks are not really protecting anyone. Anthony Fauci quotes Published on Sep 4, 2020 "In all the history of respiratory-borne viruses of any type, asymptomatic transmission has NEVER been the driver of outbreaks."  "The driver of outbreaks is ALWAYS a symptomatic person."  - Dr. Anthony Fauci, U.S. director of National Institute of Allergies and Infectious Disease.  Not only are they not effective, they are actually causing a reduction in our natural immune system and people are suffering from a lack of oxygen, too much CO2, and then breathing back in bacteria that has accumulated on the mask. Why are we not doing more to educate people on the ways to protect yourself and strengthen your immune system. It makes zero sense to me. It really appears to be more about control and compliance rather than having our best interests at heart. Mask Mandates Needs To End	PLEASE END THE MASK MANDATE It is with fervor that I would implore you to repeal the mask mandate that you made months ago. When you first initiated it, you said you would review it in two weeks and here we are months later. I would like to also add onto the fact that my children have to wear one every single day for school and have rashes on their faces and are also being conditioned to be living in fear that they will now get in trouble for not having a mask. Enough is enough I'm an educated adult and I can and will make my own choices I don't need you to do it for me. County mask mandate	hello all. I am emailing you all to express how this mask mandate and SOE needs to be put to an end now! People are becoming aware of how unnecessary this is. No matter how hard you try to convince us otherwise, the science and hundreds of other Doctors with more experience and knowledge, that have proven many times that what you are doing is nonsense. You are using your personal interest to make these decisions and that can not go on any longer. It is also starting to look like this is about money and that is not a good look for anyone. Repealing the face covering ordinance	Dear Administrator and Commissioners:  I am very concerned to learn that the Commissioner Peters wants to repeal the face covering ordinance . Mask Ordinance	We are emailing in support of extending the mask ordinance that requires wearing masks in all indoor establishments in Pinellas County.  It is of the utmost importance that people keep wearing their masks in all indoor establishments to protect especially our elderly and those with underlying conditions. This has proven to control the spread of Covid. We do not understand citizens who think that mask wearing is an infringement of their rights. We have a responsibility to protect not only our family and friends but everyone we come in contact with. The mask ordinance should be extended until the positivity rate for the entire State of Florida is 5% or lower for 2 plus weeks. KEEPING MASKS SHOULD NOT BE POLITICAL , IT'S ABOUT PUBLIC SAFETY. Masks	<p>Honored Ladies and Gentleman,</p> <p>From today's paper (Tampa Bay Times), it appears that your last mask decision is working.....cases, deaths, and, most importantly, hospitalization are going down. With schools (universities + public) starting, Labor Day celebrations, and bars opening tomorrow (Monday, 9/14), do NOT be pressured to rescind what positive effects the masks have achieved.</p> <p>THE REASON THINGS APPEAR TO BE BETTER IS BECAUSE OF YOUR PREVIOUS ORDER TO MANDATE MASKS!!!! IT'S Working!!!! BE STRONG.....do NOT fold to pressure from people tired of wearing a mask. WEARING A MASK HAS IMPROVED CONDITION; taking away that requirement too soon will result in an increase in cases, deaths, hospitalizations.</p> <p>I (a teacher) have been masked since March 13th, teaching online..and spending about twice as much time preparing and implementing lessons (probably resulting in 1/2 the result in expectations).....am I a happy camper.....NO. But I am a responsible citizen who is looking out for the masses.....I hope you are keeping the safety, health and welfare of your constituents when you discuss the mask ordinance.</p> <p>I remain confident that we can defeat this coronavirus, but it takes more than personal action. Wearing a mask in public places is our civic duty. As many people will disagree with that statement, a government mandate is our only alternative. In the US Constitution, it was generally conceded that states could exercise the power to protect the public health and safety....(Cornell Law School), That works for me.</p> <p>Thank you for your consideration.</p> <p>Best, RH</p>	Robert Francis Hudson	1485 Eastfield Drive	Clearwater	33764	7275384965	Hudson.Robert@spcollege.edu	2020-09-13 17:52:30

Face Masks	Now that Pinellas is in low transmission/infection stage, it is definitely not time to remove the wearing mask mandate. That is precisely what has got so many in the country safer. Hey return to normal life since Memorial Day propelled much of the U.S. into hot zones. Don't make that mistake. We've come so far. Get to the finish line before raising the victory flag. For all our sakes.	Susan Segal	2225 Citrus Valley Circle	Palm Harbor	34683	737-460-4808	susiwintsegal@gmail.com	2020-09-13 17:22:12

Mandatory wearing of masks in Pinellas	How distressed I am that the County Commission will be considering lifting the mask mandate!! Wearing masks is currently the only weapon we have to contain the spread of coronavirus. If you follow the NY Times Florida coronavirus county-wide percapita statistics, you would be gratified and relieved to know that Pinellas has, since the mask mandate has been in effect, been among the lowest case per capita counties in our state. THE MASK MANDATE WORKS!! With schools back in session (and being directed to NOT inform the public of covid cases), bars reopening, restaurants allowed to serve a larger number of patrons, we should pursue every avenue to protect our residents from spreading this virus - not eliminating the one sure avenue of containment. Is it really a hardship to sport a mask? Are we such a weak, spoiled, and indulgent population that we cannot pull together for the health and well being of our fellow citizens? I urge the Commission to uphold the mask mandate!! Thank you for your kind consideration of this most vital matter! NO MORE MASK MANDATE	It is with fervor that I would implore you to repeal the mask mandate that you made months ago. When you first initiated it, you said you would review it in two weeks and here we are months later. I would like to also add onto the fact that my children have to wear one every single day for school and have rashes on their faces and are also being conditioned to be living in fear that they will now get in trouble for not having a mask. Enough is enough I'm an educated adult and I can and will make my own choices I don't need you to do it for me. I am not even fully against masks but I am fully against the fact that you are controlling my choices. I decide with me and my family and wear mask and we do. I have NEVER spoken up until now and I know I am not alone. You need to begin to listen to the louder voice you're not the voice that gives you money. Don't be like the rest of them... #pinellascountywatch	Ann Marie Weather	11078 66th Ter	Unincorporated Count	33772	727-543-6293	annmarieweather@yahoo.com	2020-09-13 17:04:49

Keep the mask mandate	There is absolutely no reason to lift the mask mandate now. All the science proves that wearing masks limits the amount of particles that will be inhaled, thereby limiting the spread of COVID - 19. Numbers of cases and deaths in Pinellas may have begun to drop, but if the mask mandate is lifted, you will have said, "It's okay if more people die unnecessarily". Mandatory Mask Ordinance	<p>Greetings to all Pinellas County Commissioners,</p> <p>Thank you for your service to us, the residents of Pinellas County. I am sure this has been a busy time filled with difficult decisions to be made, and although I do not agree with some of the decisions that have been made, I know they were not made lightly.</p> <p>I wanted to contact you after reading about the latest meeting that you held concerning the mandatory mask ordinance in the Tampa Bay Times. Although I am only one person, I have a unique perspective to bring before you that perhaps some of my fellow citizens do not, and that is concerning the daily course of my and my husband's business and the number of clients we come into contact with, the manner of contact, and the moods and feelings of the many people we meet.</p> <p>I am an Interior decorator and my husband and I run a home interiors showroom. We have implemented all requirements we can think of regarding the coronavirus in our place of business. We usually come into contact with between 10-15 people a day within our business, but never at the same time. Since we are not a big retail store, we do not have a lot of walk in traffic. And even less these days due to the mask ordinance. Even with social distancing and enhanced sanitizing, people simply do not feel comfortable shopping with a mask. We hear this almost every day.</p> <p>However, the vast majority of our business is at home sales. We usually come into contact with somewhere between 25 -30 people a week in their homes. Again, we are very careful in how we handle this part of our business. But here is where we really get to hear about opinions and concerns about the Coronavirus. Mainly the mask issue. I'd like to pass these findings along to you all.</p> <p>Since June 24th, the number of people we encounter supporting this mandate is dropping like a rock. People are not only tired of the mandate, but each day I see more and more actual angry people. The majority of the clients I see are anti-mask, and they are angry in a quiet way - addressing their options of voting people out of office (for example, Janet Long and Charlie Justice). They feel that they have been betrayed because we were told that this was only a short, temporary solution, to "flatten the curve and protect the hospitals". But this just continues to drag on and on, and people are not stupid - they can see that the "curve" is flattened and the hospitals are not in dire straits. November is coming fast, and these people intend to vote to make their voices heard.</p>	Mrs. Karen Liebold	9488 Seminole Boulevard	Seminole	33772	7279148999	flutesnfabric@gmail.com	2020-09-13 16:21:07
Masks	<p>Please, please, please do not lift the mask requirements. I'm a Pinellas County Teacher. I'm scared for all of us in the schools. Masks may not be perfect, But it helps. High school students do not social distance. Help us stay well. Please do what is right. I'm not ready to give up teaching, I still have lots to offer.</p>	Debra Rein	1978 Whitney Way	Clearwater	33760	585-743-2251	reind@pcsb.org	2020-09-13 16:13:21
Political	<p>Mr. Welch.</p> <p>I have come to have respect for your position. We disagree fundamentally, but I respect how you communicate. So when you tell us this is absolutely not political, we believe you.</p> <p>Unfortunately, the chairman of the Pinellas County Commissioners doesn't share your sentiment. She's out on Facebook over the weekend, posting on aggressively partisan sycophants Facebook pages, encouraging them to make sure they keep the pressure on your commission regarding face mask mandates.</p> <p>It's one thing for community members to want to have an active voice in politics. It's a completely different scenario when the chairman of the Pinellas County Commissioners is out there stirring up trouble in the community to advance her PARTISAN IDEOLOGICAL AGENDA.</p> <p>And it needs to stop. Ms. Gerard should at a MINIMUM step down from the chair position on the commission. If she wants a RECALL PETITION, this is a great way to get one started and it wouldn't be that terribly difficult to find 35,000 people that side with you, Mr. Welch, that this shouldn't be a partisan issue.</p> <p>Ms. Gerard, stop making this an ideological issue.</p> <p>The other MAJOR issue you all have is that Dr. Cho has a financial conflict of interest. Your primary advisor on the State of Emergency and Facemask continuation should not be someone that has a direct financial benefit from continued emergency spending. You should be doing a more serious job of avoiding even the perception of a conflict of interest, much less a direct, provable one.</p> <p>Your doctors wanted to see the positive infection rate below 5%. Now that it's pushing towards 2%, there's no explanation other than Ms. Gerard's articulated partisanship that is keeping you from ending this ordinance. Even if you wanted to make the questionable case that on some day in the early spring, there's no medical justification for it at this point. As you can see from Ms.</p>	David Happe	850 E Lime St #2322	Tarpon Springs	34688		dave@happes.com	2020-09-13 16:08:11

Pinellas County mask mandate	<p>I understand that the County Commission will be meeting to discuss the continuation of the mask mandate. It seems that COVID-19 cases have stabilized in the county and that things are heading in the right direction. Thankfully, this is due to the restrictions that have been put in place. Now is not the time to pull back. Wearing a mask is the least we can do to save lives. To say that we'll remove the mask mandate and see how things go is a complete shirking of your responsibility as a leader. I implore you to continue the mask mandate for at least another 30 days and then re-evaluate the situation. Thank you for your attention to this matter.</p> <p>Michael Schwartz Palm Harbor</p>	Michael Schwartz	4147 Winding Willow Dr	Palm Harbor	34683	7274214724	mickey6600@msn.com	2020-09-13 15:15:04
Please maintain the mask ordinance	<p>As 33 year Pinellas county residents and homeowners , We urge you to maintain the mandatory mask wearing requirement in our county. The scientific community has determined that mask wearing reduces transmission and deaths from the Covid 19 virus. The data indicates that improvements in the situation that we are now beginning to experience are largely the result of mask wearing mandates in many communities.</p> <p>We are active senior citizens. The mask wearing ordinance in our county makes us feel safe shopping, visiting our doctors and performing other necessary functions.</p> <p>Furthermore, common sense dictates that our economy will only fully recover when the pandemic has ended. Requiring that everyone wear masks is a way to hasten the end of the pandemic. Wearing masks is also an easy way to protect ourselves and others. We all have a moral obligation to so. Unfortunately, as we know from experience prior to the mandate , many of our fellow citizens need the mandate to force them to do the right thing.</p>	Gary and Ilene Klein	3305 Waterford Drive	Clearwater	33761	7277892914	ilenedklein@gmail.com	2020-09-13 15:10:25
Save the Tides FLOODPLAIN	<p>Meeting our state's sea level rise threat</p> <p>Throughout our history, Floridians have reveled in our state's natural resources. With our miles of beautiful beaches, gorgeous coastline, and ample sunshine, it is no wonder our state is home to over 21 million and a destination for people from across the globe. As we celebrate the many reasons Florida is the best place to live, work, start a business, raise a family, and retire, there is also a great paradox associated with being a Floridian: Our state's greatest asset is also a significant liability. With 1,350 miles of coastline, relatively low elevations, and communities built on top of former swampland, Florida remains particularly vulnerable to the risk of flooding caused by sea level rise. Over the last several years, we have seen that risk grow exponentially. In addition to the immense damage caused by storm surge, coastal communities are experiencing high-tide flooding events, sometimes referred to as "sunny day" or "nuisance" flooding, with increasing frequency. The area at risk from one foot of projected sea level rise contains more than 65,000 homes and 121,909 Floridians. Over 20 percent of homes, the largest single investment for most families, have a greater than one-in-four chance of flooding over a 30-year mortgage. Unless we take steps to curb this risk, those numbers will likely grow. Most of us are all-too-familiar with the worrying videos and images that portray the safety and public health issues associated with flooding. While less immediate, threats to our economy caused by high-tide flooding events and devastating storm surge are also troubling. Rising water damages homes, disrupts businesses, and displaces families and employees, which leads to, among other significant impacts, increases in insurance premiums for all Floridians. Over the last twenty years, the Republican-led Legislature has taken significant steps to keep our state affordable by consistently reducing the tax burden on families and businesses. Yet, despite this good work, whether you live on the coast, or in the heartland, the rising cost of insurance will make Florida less affordable for families and businesses. What exactly can our state government do? Quite a bit. Unlike the overpriced and entirely unrealistic "Green New Deal," Florida remains focused on finding solutions that actually work. Through grant funding appropriated by the Legislature, Florida's Resilient Coastlines Program recently announced grant awards that will strengthen resilience initiatives for 30 coastal communities in 17 coastal counties in Florida. Over the next two years we will continue to develop cost effective strategies that will ensure Florida responsibly mitigates projected impacts of sea level rise, balancing the associated costs with future benefits. First, we want to elevate flood mitigation as a critical part of Florida's public safety infrastructure. Flood mitigation can take many</p>	kim bomonti	12155 70th avenue	seminole	33772	727-366-1551	cbomonti@gmail.com	2020-09-13 14:53:45

Upcoming Meeting Regarding Mask Mandate	I understand that there is an upcoming meeting regarding removing the mandate for mask wearing in Pinellas County. I would like to strongly urge that you keep and extend this mandate. We are still in a pandemic. We don't yet know what the numbers will be after school openings and Labor Day. If you look at other states and other countries they are now having a reoccurrence. Please keep the mandate in place. It is our patriotic duty to not only protect our selves but our neighbors. Mask Ordinance	With Covid numbers decreasing in our area, wearing masks has proved to be effective. Now we are entering cold and flu season which I would think if someone is in a weakened condition, catching Covid may be easier. So, please do not repeal the mask ordinance when it is up for discussion in October. Let's be proactive instead of reactive.  Another issue I would like to point out is when the mask ordinance was originally implemented in Pinellas, I did see anything addresses multi-story condo buildings. I live in one and have personally witnessed Amazon drivers, US mail carriers, UPS and FedEx drivers entering our building without face masks. In the condo building next to mine, I understand 4 people did catch covid after playing cards together (lobby is a nice area to hold such games) and 1 of the 4 passed away from covid. Another person was critically ill from covid. I would like to suggest addressing the wearing of masks in the common areas of condo buildings as well if the mask ordinance remains in place. If not, please remember this type of building in the future.	Cindy Layton	125 Belleview Blvd, Un 203	Belleair, FL	33756	7274553652	Cindy102419@gmail.com	2020-09-13 14:44:32

Mask Mandate	Please keep the mask mandate in place. As a high risk adult and teacher, I need to stay safe both at the store and at my school. I don't go out in public yet except those two places because I'm at risk. If you rescind the mandate then I will not be able to get groceries so I can eat or go to work so I have money to survive. face mask rule	Dear Commissioners,  As a retired physician, I have been heartened by the fact that the Pinellas County Comission has followed science and not given in to the crazy partisanship ruling many parts of our state. When I go out to shop for food and other necessities most people are wearing masks. This is the reason Pinellas County ranks so low in per capita cases of Covid. Why in God's name would you want to destroy this success and cause more people to contract the virus. Not only will you be endangering the health of your constituents but you will be hurting the economy locally. I for one (and many of my neighbors) will stop going out to shop and will order everything I need from out of state.  Hoping that you will do the right thing (and if not there is an election in November),  Respectfully,  George Stern	George Stern and Claudia St	2217 kent pl	clearwater	33764	7275366257	st.claudia@verizon.net	2020-09-13 14:18:13

Mask Ordinance	Dear Commissioners,  This is from the Tampa Bay Times:  "Commissioners cited the county's decline in new cases and hospitalizations since they adopted the mask ordinance on June 23, and how over the past two weeks, positivity rates of those tested have stayed below 4 percent."  In other words, the mask ordinance is working. Should we eliminate an ordinance that is working. In this case, working means preventing disease and death. Eliminating the ordinance means allowing more disease and death.  I could mention that when stores require everyone to wear masks, most of us are more willing to patronize those stores. When staff and customers don't have to wear masks, most of us will just not patronize stores.  But the real issue is that we should be doing what prevents disease and death. (Duh!)  Please keep the mask ordinance.  Sincerely,  Dennis McGreen 1689 Hamilton Court Dunedin, FL 34698	Dennis McGreen	1689 Hamilton Court	Dunedin	34698	973-349-0125	jdennism@gmail.com	2020-09-13 14:09:31

Face masks	I hope you are not seriously considering the repeal of the face mask ordinance. If the numbers are dropping, it would stand to reason that the masks are working. Keep face mask ordinance for county safety	I am writing as an educator and concerned citizen who votes. The face mask requirement/ordinance is for the safety of the public. I would not recommend ending one factor that slows Covid-19 spread (and other airbourn diseases).  As flu season starts and we have vaccines, this is not the time to stop the practice of wearing a face mask. PBS has an intelligent view of what it looks like to breath out of your nose and mouth. <a href="https://youtu.be/OTp0zB904Mc">https://youtu.be/OTp0zB904Mc</a> The particles coming out of them is what carries the virus. Why would you allow the spread of this virus and others?  The video continues to demonstrate how bacteria and viruses are detected on petri dishes with and without masks. Masks illminated most of the infections on the petri dishes. If this is accurate, why would you consider ending the use of face masks?  So now you are saying it is okay to sit three feet apart to talk without masks in my classroom. I look at that video and think, I hope no one is a carrier.  How about we stick you in a room three feet apart and citizens from the public, maximum of three feet apart, with no masks for your meetings. Once you feel safe enough to allow the public to sit across from you and to talk to you and shake hands, and hug, just everyday people off our streets, and you feel you can go to hospitals and interact with the patients and staff, without a mask. Then go ahead and resend the safety measures that doctors say works for them, I am not cool with experimenting with my health and children's health in school. However, if cases go up, you should then pay for the medical bills and the funerals. Seems fair. Like a condom has a 99% protective quality in preventing the spread of diseases and pregnancy if worn properly, so is the case for wearing masks; if worn properly, masks reduce the risks of those getting infected with an airborne disease. Teaching the public how and why to wear masks should be a priority, right now, not ending the practice.  Words to think about as you continue the ordinance on face masks worn in public. Mask ordinance	I just was informed that there has been proposed an anti-mask ordinance and I am appalled! I feel that this will lead to an even larger outbreak of the coronavirus than we already have! This seems very narrow minded to not consider the health and well being of others. This is also very selfish to not consider that not wearing a mask could endanger other people's health! The only thing that has allowed me to feel the least bit safe about going to the grocery store and other necessary things is the fact that right now, with the mask ordinance in effect we are safer from getting this life threatening illness! Masks aren't and will not work, so why????? It should be voluntary.	<p>What are you people trying to prevent....people from testing positive?</p> <p>Why are you using "positive test results" as a reason for continued mask mandates?</p> <p>Why are you listening to a handful of people who "have had symptomatic covid" to make your mask mandate continue?</p> <p>A "case" is not a death. And to call someone who "tested positive" a "case" is wholly misleading and irresponsible. Most people don't die from this. Most people don't even have any symptoms. And according to Johns Hopkins and other sites, 99% of symptomatic "cases" are mild.</p> <p>So why this continued government overreach??? You people are either woefully ignorant OR are perpetuating propaganda and playing politics. All the angry emails and calls you've gotten are because there is a HUGE swath of the population that knows this.</p> <p>And what of the highly publicized CDC report from the past 2 weeks that SHOWED that VERY few of the "covid deaths" were from covid alone....</p> <p>So quit with this disgusting display of politics and lift the mandate.. We are sick of this and are hoping to vote every last one of you out of office. This is pathetic.</p>			Lealman Fire District			birdlamps@yahoo.com	2020-09-13 12:30:51

Mask Mandate	<p>To whom it may concern,</p> <p>Lifting the mask mandate now would be a death sentence for our county. Our numbers look like they are on their way down because we have so many people wearing masks. To lift it now would be sending the wrong message to the community to claim to love and care for. Wearing a mask does nothing but protect the people around you so their is no reason to lift this protective measure. During your meeting, I urge you to consider the thousands of teachers you forced to go back to work. I urge you to think of the thousands of servers/restaurant staff you forced to go back to work. I urge you to think of every front line job that is now open due to restrictions being lifted. The least you can do is keep this one effective mandate to help protect your people.</p> <p>Thank you.</p>			Clearwater			nicolewarren76@gmail.com	2020-09-13 12:28:33

Mask Mandate	It is my understanding that there is a possibility of lifting the mask mandate in Pinellas. I am in complete disbelief that this is even being considered. Clearly, masks work as our county's COVID numbers prove since the mandate was initiated. School has been in session 4 weeks and my child at Carwise Middle School is starting his second quarantine...yes I said second! The first was day 2 of school and the second was this Friday, his 3rd day back. He will miss 4 weeks of in-person schooling out of 5...and this is with kids wearing masks. I can't even imagine what a maskless county would look like. We are counting on you to protect us since our Governor will not. Masks saves lives, keeps businesses open and gets America, Florida and Pinellas on the path to normal. This is not a political position. This is a position of choosing health and safety of the entire population using facts and science over the opinions of a few contrarians. Masks	I urge the county to reconsider the mask ban. Too many edu stores and public servants deal with the public and are at risk. The counts are low due to people using their masks and being respectful. Lifting the mask rule would only enable more separation and cause more people to be put in harms way. Mail Ballot process	<p>To: All County Commissioners</p> <p>I'm reaching out to you regarding the section on votepinellas.com where an individual can look at their ballot status for mail ballots. I was informed by a representative at the Pinellas Supervisor of Elections that the County Commissioners were the ones who could get changes made to the votepinellas.com website and process.</p> <p>The first time I have ever used a mail ballot was for the primary election in August. I have previously always voted in person to make sure my vote was counted, however due to Covid-19, I thought I would give the mail ballot a try. I am disturbed by the fact that when you check your ballot status online, there is nothing to indicate to a person who has submitted a ballot whether there are any issues with that ballot, (signature problems, etc.) since it doesn't get counted until after the election.</p> <p>I have questioned three different people at the Supervisor of Elections office and was told the same by all, that if there was a problem, someone would contact me using the information on file. That is not good enough. If someone has not updated their information, (which I understand that it is their responsibility to do), their ballot could potentially not be counted and they wouldn't know it until after the election when they went online to see if it had been counted.</p> <p>Currently there are 4 stages that a person can see on their ballot status:</p> <ol style="list-style-type: none"> <li>1. Requested</li> <li>2. Sent</li> <li>3. Received</li> <li>4. Counted</li> </ol> <p>From my conversations with the persons at the Supervisor of Elections office I learned that stage 3 "received" just means the ballot got back to them. Why is there not a stage in between 3 and 4 that indicates whether the ballot signature has been verified or if the person needs to contact the elections office to make a correction? There should be something that a person can see when they go online that assures them that their vote will be counted, and not just trust that someone will contact them if there is a problem.</p>	Donna		St Pete Beach	33706		saintpetebeach@aol.com	2020-09-13 11:33:27

Mask Ordinance	We need to continue the ordinance/mandate. It would be reckless to permit citizens to not wear masks, especially since school is back in session. Kids are known to be silent carriers and no line about how the schools are maintaining distance holds water. No poor rhetoric, please like PCSB, who tries to retain a measure of calm at the expense of admitting reality to teachers and families. Do we want more quarantined classrooms, people in restaurants and grocery stores, and large groups congregating mask free? Protect our citizens. Remember the science: When I wear a mask, it protects others. When you don't wear a mask, you don't protect others. Mask Mandate	Good morning, I am reaching out to plead that you do not lift the mask mandate in public places. Removing the mask mandate will set a dangerous precedent that could lead to the elimination of masks in schools. Extend Mask Mandate	I am a Pinellas County Teacher. It is essential to continue our low positivity rate in the community by extending the mask mandate. Research shows that the spread of COVID is slowed by wearing masks. This is evident by Pinellas County's current low positivity rate. Also, many people feel safer to conduct their errands if others are wearing masks. This helps keep local businesses doing well and maintains the Physical and financial health of our community. This will be especially important heading into flu season with schools open.	Michelle Traber	3542 Ridge Blvd	Palm Harbor	34684	7272210033	mtraber3@gmail.com	2020-09-13 09:56:58

Mask ordinance	Hello, I'm contacting you in support of continuing the mask ordinance in our county. It is inexplicable to me that you would repeal the very measure that has successfully reduced our county's community spread! The top epidemiologist for infectious disease in America, Dr. Anthony Fauci, and Dr. Bix have both strongly urged the use of masks and social distancing as the main effective tools we have for mitigation. The entire Coronavirus Task Force urges the entire country that mask wearing and social distancing must be done by all Americans if we are to save lives. The virus is spread through respiratory routes, it is aerosolized and that is why a mask works. Do not undo the only thing that seems to be protecting the people you have been elected to be responsible for! Undoing the mask ordinance in October, as suggested, would correspond with forecasted doubling of cases during flu season by the CDC. Stand strong against a minority of loud voices pressuring you to ignore science and data. You were elected to make the tough choices. Mr. Justice and Mrs. Long you have my vote this November- thank you for standing up for what is right and based on science! If the ordinance is lifted in October as suggested, you will surely see an increase in cases in our county and deaths. Do the right thing and continue the mask ordinance in Pinellas County. Mask ordinance	Hello County Commissioners - I am writing a very urgent message because I understand that you are considering removing the mandatory mask ordinance. As an active senior citizen, I can tell you that we only feel safe going to public places, including stores and supermarkets, BECAUSE there is a mandatory mask ordinance. We still have new cases daily, as well as new deaths daily. I would hate for the retail and restaurant owners, who have really struggled to survive during this pandemic, to once again lose a bulk of their customers because no mask is required. Mask wearing only HELPS the economy (as well as our health!!) but no masks will greatly hurt our local economy. Please take these thoughts, which are echoed by so many others, into consideration. Mask Mandate	Please do not lift the mask mandate. Wearing a mask protects others more than the wearer. Many people do not realize they have or are asymptomatic carriers; without masks, they will spread the virus quickly.  Masks protect essential workers who are necessary to keep the economy going.  The virus is spreading again rapidly in Europe and Asia. They have proven that easing the rules right now kills people. Masks are a simplistic form of prevention. Please follow science not public pressure.	Gail Schuck	100 Gulfwinds Dr W	Palm Harbor	34683		glschuck@hotmail.com	2020-09-13 09:37:57
Maintain the Mask Mandate	I get the anti mask advocates are loud and threatening, but the mask ordinance is the exact reason why Pinellas county has one of the lowest positivity rates in the state from high populated areas. Removing the mandate when the virus continues to spread would be irresponsible and negligent on your part.  Do not be bullied into reversing this order. Until there is a vaccine, we need to be responsible and continue to wear mask. Follow the science please!	Chandra Olson		Clearwater	33763		cvholmes516@gmail.com	2020-09-13 09:11:16
Do not drop the mask ordinance	Hello, I am a teacher in Pinellas county schools. I am begging you not to drop the mask mandate for Pinellas. We still need to be vigilant and careful, we are still seeing higher cases than we should to relax guidelines. Masks remind people to be diligent and cautious. They remind people to use hand sanitizer and to social distance. Schools dont have many cases right now but we will be getting more cases if masks are not required in public spaces, we will end up with outbreaks if we aren't careful. The school district may follow suit with lifting mask requirements if the county lifts them. I am begging you not to do this. Please don't lift the mask mandate! Consideration of ending mask ordinance	Good Morning,  I would like to respectfully request that you extend the mask ordinance a bit longer. Numbers are improving, however our children and staff have just returned to school. Parents made decisions based partly on the rules in place.. If the county drops the ordinance schools will likely follow.. Flu season is upon us and will add to testing burdens. There is no vaccine, therefore no protection for our most vulnerable citizens.. Masks	Please carefully consider the idea of ending the mask policy as we begin the fall flu season. Unfortunately it will likely be more difficult to get participation--participation without citizen confrontation--after a time of suspension and the inevitable increase in COVID-19 cases, which scientists project, for a few weeks of mask free time.  Our county should be most appreciative of the diminished case count which we enjoy. The mask policy has been the main instrument in enabling us to lower transmission. Also importantly, the continuance ensures the economic involvement by majority of population and the economic results we all want. Thank you. mask mandate	I urge you to keep the indoor mask mandate in place. I know the numbers are down from where they were this summer, however, if we want to keep them on that track, we must continue to keep the mask mandate in effect. Mask ordinance	it is time to lift this. Our numbers are down. Half the people I see in stores don't even wear them anymore. Walk in with them on and then pull them down. And a lot are just saying they have medical reasons to not have one. Lift it. Those who want to keep wearing them can. Cases are down, hospital beds are at average capacity. Let's move forward.
