TampaBay Water, May 2024

This drawing represents how Almighty God replenishes the Aquifer. He uses rainfall to fill the lakes, rivers and wetlands. In turn, the water from the wetlands percolates thru the soil horizons "aerobically" filtering the water/purifying the water as it enters the aquifer, replenishing the aquifer naturally.

In contrast, the practice of mans artificial attempts at weather modification, coupled with the Direct injection of Reclaimed Water into the Aquifer bypasses the eco-structure "Divinely" *created and established* "Born" by Almighty God.

Reclaimed Water is a mixture of Nitrate Compounds that have been filtered and "Temporarily" held in suspension thru the use of chemicals, such as chlorine in its treatment. The Chlorinated Nitrate Compounds INJECTED *directly or indirectly* into the aquifer thru the SHARP and TAP program are intended to destabilize the PH Balance of the Aquifer, molesting, contaminating and ultimately destroy the groundwater supply.

When in the course of human events "audaciously" The Declaration of Independence states that our current government here to Harass us, to Eat us out of our Subsistence, it Declares to place us on a long TRAIN of usurpations, Declaring that Mankind is more Disposed to Suffer, it declares to create Perfidy and Destruction, to Ravage, "*all the while*" such Evil is Declaring to be Devine and Provident, "Declaring" itself to be God, "Natures God", in the Declaration of Independence, assuming to have Powers of the Earth in its abuse and destruction of the ecosystem, an eco-structure "Born" by Almighty God. It will soon be Self-Evident "On its Face" This Natures God of is made of Pride and Sacrilege.

Wreaking Havoc among the earth, built on the corpses of fools
