CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

CONSTRUCTION MANAGEMENT AGREEMENT

THIS Agreement, made and entered into by and between Pinellas County, a political subdivision of the State of Florida, hereinafter designated the OWNER, and Ajax Building Company LLC ("Construction Manager at Risk"), a Florida Corporation, to perform all work ("Work") in connection with the management and construction the County's New Government Campus (Project), located in Clearwater, Pinellas County, Florida, said Work being set forth in the plans and specifications being prepared by HOK, the Architect of Record ("Design Professional"), and all other Contract Documents hereafter specified.

Owner and Construction Manager at Risk, for the consideration herein set forth, agree as follows:

ARTICLE 1 - GENERAL PROVISIONS

1.1 RELATIONSHIP OF PARTIES

The Construction Manager at Risk is the Owner's independent contractor and additionally accepts the relationship of trust and confidence established with the Owner by this Agreement, and covenants to the Owner to furnish the Construction Manager at Risk's reasonable skill and judgment and to cooperate with the Design Professional in furthering the interests of the Owner. The Construction Manager at Risk will furnish construction and management services and use the Construction Manager at Risk's best efforts to perform the Project in an expeditious and economical manner consistent with the interests of the Owner. The Construction Manager at Risk must cooperate and coordinate with the Owner, Design Professional, and other persons or entities employed by the Owner for the Project.

1.2 GENERAL CONDITIONS

For the Construction Phase, the General Conditions of the Contract for Construction will be as outlined in Exhibit A herein. For the Preconstruction Phase, or in the event that the Preconstruction and Construction Phases proceed concurrently, Exhibit A will only apply to the Preconstruction Phase as specifically provided in this Agreement.

ARTICLE 2 - **CONSTRUCTION MANAGER AT RISK RESPONSIBILITIES**

The Construction Manager at Risk must perform the services described in this Article. The services to be provided under Sections 2.1 and 2.2 constitute the Preconstruction Phase services.

2.1 **PRECONSTRUCTION PHASE**

1) PRELIMINARY EVALUATION

The Construction Manager at Risk must familiarize itself with the approved facilities program for the Project and provide a preliminary evaluation of the Owner's program and Project budget requirements, each in terms of the other. The Construction Manager at Risk must jointly participate with the Owner and Design Professional in formation of the final Project design. It is the Construction Manager at Risk's responsibility to assure that all parties coordinate efforts and revise the program to remain within the Owner's budget.

2) CONSULTATION

The Construction Manager at Risk must, in coordination with the Design Professional, schedule and attend regular meetings with the Owner and the Design Professional. The Construction Manager at Risk must consult with the Owner and Design Professional regarding site use and improvements and the selection of materials, building systems and equipment. The Construction Manager at Risk will provide recommendations on construction feasibility; actions designed to minimize adverse effects of labor or material shortages; time requirements for procurement, installation and construction completion; and factors related to construction cost, including estimates of alternative designs or materials, preliminary budgets and possible economies. In order to provide effective consultation, the Construction Manager at Risk must perform or cause to be performed such structural or environmental tests, surveys or reports as it deems necessary, including but not limited to those listed within Section 3.1.4.

3) PRELIMINARY PROJECT SCHEDULE

When Project requirements described in Section 3.1 have been sufficiently identified, the Construction Manager at Risk must prepare, and periodically update, a preliminary Project schedule based upon the Critical Path Method for the Design Professional's review and the Owner's approval. The Construction Manager at Risk will obtain the Design Professional's approval when reporting the preliminary Project schedule relating to the performance of the Design Professional's services. The Construction Manager at Risk must coordinate and integrate the preliminary Project schedule with the services and activities of the Owner, Design Professional and Construction Manager at Risk. As design proceeds, the preliminary Project schedule must be updated by Construction Manager at Risk to indicate proposed activity sequences and duration, milestone dates for receipt and approval of pertinent information, submittal of a Guaranteed Maximum Price proposal, preparation and processing of shop drawings and samples, delivery of materials or equipment requiring long-lead-time procurement, Owner's occupancy requirements showing portions of the Project having occupancy priority, and proposed date of Substantial and Final Completion

4) PHASED CONSTRUCTION

The Construction Manager at Risk must make recommendations to the Owner and Design Professional regarding the phased construction of the Work, if such phased construction is appropriate for the Project, taking into consideration such factors as economies, time of performance, availability of labor and materials, and provisions for temporary facilities. The first phase of construction must begin only after construction documents are 100% complete for all phases of work and a final Guaranteed Maximum Price (GMP) has been established and approved by the Owner in writing, in accordance with the process for establishing the GMP as further detailed in this Agreement below.

5) PRECONSTRUCTION COST ESTIMATES

A. The Design Professional is required to provide design concepts, narratives, and drawings, and probable construction cost estimates. During each phase of design, in keeping with the Owner's goals and the program for the Project, the Construction Manager at Risk must familiarize itself with these design documents and provide the Owner and Design Professional with a report detailing construction issues and concerns relating to the design, with detail appropriate to the phase of design. Without limitation of the foregoing, each construction report must:

a. include an estimate of overall construction cost, including Construction Manager at Risk contingency not to exceed the amount specified for each phase of design, including a comparison of the estimate to the Owner's budget for construction;

b. identify conceptual decisions necessary to prepare accurate cost reports with the fewest assumptions, qualifications, and exclusions;

c. include an analysis and evaluation of jobsite management, site logistics, and schedule considerations;

d. include an analysis and evaluation of the constructability of the design concepts, narratives, or drawings;

e. include an analysis and evaluation of the design concepts, narratives, or drawings in regard to the completeness of intended bid categories, conflicts or overlaps in the divisions of the Work, design details affecting construction including, without limitation, unusual or custom materials, value analysis, identification of long-lead materials affecting the construction schedule, availability of labor, and other factors affecting construction, and, in the report provided during the Construction Documents Phase, suggestions for alternatives for matters which may delay the construction schedule;

f. Address problems, conflicts, defects, or deficiencies in the design concepts and offer recommendations and resolutions of same; and

g. identify any other issues which Construction Manager at Risk reasonably believes may have a negative impact on the Project schedule, budget, or performance.

h. The Construction Manager at Risk must include a statement that the cost estimates are within the Owner's budget.

i. After working with the Design Professional to reconcile the Design Professional's probable construction cost with the estimate submitted by the Construction Manager at Risk, the Construction Manager at Risk will provide a reconciled estimate report approved by the Design Professional describing the resolutions of the Design Professional and Construction Manager at Risk estimates.

The Construction Manager at Risk and the Design Professional must, in coordination with the Design Professional, schedule and attend regular meetings with the Owner and the Design Professional and evaluate the preliminary design drawings. The Construction Manager at Risk must verify the accuracy and completeness of the minutes of these meetings prepared by the Design Professional.

When the Owner has sufficiently identified the Project requirements and the Design Professional has prepared other basic design criteria constituting the Program, the Construction Manager at Risk must prepare the first construction report as outlined above and coordinate the efforts of the Owner and Design Professional to assure the Owner's budget and schedule are met at the end of this phase. The Construction Manager at Risk contingency included in the estimate of overall construction costs provided at the end of this phase must not exceed 13.5%.

B. When Schematic Design Documents have been prepared by the Design Professional and approved by the Owner, the Construction Manager at Risk must prepare, for the review of the Design Professional and approval of the Owner, a more detailed construction report with supporting data. The Construction Manager at Risk must coordinate the efforts of the Owner and Design Professional to ensure the Owner's budget and schedule are met at the end of this phase. The Construction Manager at Risk contingency included in the estimate of overall construction costs provided at the end of this phase must not exceed 11%. During the next phase (preparation of the Design Development Documents), the Construction Manager at Risk must update and refine the construction report at appropriate intervals agreed to by the Owner, Design Professional, and Construction Manager at Risk.

C. When Design Development Documents have been prepared by the Design Professional and approved by the Owner, the Construction Manager at Risk must prepare a detailed construction report with supporting data for review by the Design Professional and approval by the Owner. The Construction Manager at Risk must coordinate the efforts of the Owner and Design Professional to ensure the Owner's budget and schedule are met at the end of this phase. The Construction Manager at Risk contingency included in the estimate of overall construction costs provided at the end of this phase must not exceed 8.25%. During the preparation of the Construction Documents, the Construction Manager at Risk must update and refine the construction

report at appropriate intervals agreed to by the Owner, Design Professional, and Construction Manager at Risk.

D. If any estimate of overall construction costs or schedule within any construction report submitted to the Owner exceeds a previously approved budget or schedule, the Construction Manager at Risk must make appropriate recommendations to the Owner and Design Professional.

6) SUBCONTRACTORS AND SUPPLIERS

A. The Construction Manager at Risk must seek to develop subcontractor interest in the Project and must furnish to the Owner and Design Professional for their information a list of possible subcontractors, including suppliers who are to furnish materials or equipment fabricated to a special design, from whom proposals will be requested for each principal portion of the Work. Construction Manager at Risk will communicate with the Design Professional in writing to ascertain whether the Design Professional or the Owner know of any objection to such subcontractor or supplier. The receipt of such list will not require the Owner or Design Professional to investigate the qualifications of proposed subcontractors or suppliers, nor will it waive the right of the Owner or Design Professional later to object to or reject any proposed subcontractor or supplier.

B. The Construction Manager at Risk and their subcontractor(s) must register with and use the E-verify system in accordance with Florida Statute 448.095. Construction Manager at Risk and subcontractor may not enter into a contract with the County unless each party registers with and uses the E-verify system.

If Construction Manager at Risk enters a contract with a subcontractor, the subcontractor must provide the Construction Manager at Risk with an affidavit stating that the Subcontractor does not employ, contract with, or subcontract with unauthorized aliens. The Construction Manager at Risk must maintain a copy of the affidavit for the duration of the contract.

If the County, Construction Manager at Risk, or Subcontractor has a good faith belief that a person or entity with which it is contracting has knowingly violated Florida Statute 448.09(1) they must immediately terminate the contract with the person or entity.

If the County has a good faith belief that a Subcontractor knowingly violated this provision, but the Construction Manager at Risk otherwise complied with this provision, the County will notify the Construction Manager at Risk and order that the Construction Manager at Risk immediately terminate the contract with the Subcontractor.

A contract terminated under the provisions of this section is not a breach of contract and may not be considered such. Any contract termination under the provisions of this section may be challenged to Section 448.095(2)(d), Florida Statute. Construction Manager at Risk acknowledges upon termination of this agreement by the County for violation of this section by Construction Manager at Risk, Construction Manager at Risk may not be awarded a public contract for at least one (1) year. Construction Manager at Risk acknowledges that Construction Manager at Risk is liable for any additional costs incurred by the County as a result of termination of any contract for a violation of this section.

Construction Manager at Risk or Subcontractor must insert in any subcontracts the clauses set forth in this section, requiring the subcontracts to include these clauses in any lower tier subcontracts. Construction Manager at Risk is responsible for compliance by any Subcontractor or Lower Tier Subcontractor with the clause set for in this section.

C. Construction Manager at Risk acknowledges and warrants that all digital content and services provided under this contract conforms and will continue to conform during the Term of this Agreement to the W3C Web Content Accessibility Guidelines, version 2.0 (“WCAG 2.0”) at conformance Level A and AA. If all digital content and services does not fully conform to WCAG 2.0 A and AA, Construction Manager at Risk must advise the County in writing of the nonconformance prior to execution of this Agreement and must provide the County a plan to achieve conformance to WCAG 2.0 A and AA, including but not limited to, an intended timeline for conformance. Failure to achieve conformance, as determined in the County’s sole discretion, on its intended timeline will be considered a material breach of this Agreement and grounds for termination by County.

If during the Term of this Agreement, Construction Manager at Risk fails to maintain compliance with WCAG 2.0 A and AA or the County otherwise identifies an issue related to accessibility of the product (the “Accessibility Issue”) that renders the product inaccessible, then the County will notify Construction Manager at Risk of non-compliance. Within 30 days of Construction Manager at Risk receipt of a non-compliance

notice ("Notice"), Construction Manager at Risk and the County will meet and mutually agree upon an appropriate timeline for the resolution of the Accessibility Issue(s) ("Initial Meeting").

Should Construction Manager at Risk:

i. fail to acknowledge receipt of the notice within 30 days of receipt of the Notice;

ii. unreasonably and solely withhold agreement regarding a timeline for resolution for more than 30 days following the Initial Meeting; or

iii. fail to materially resolve the Accessibility Issue(s) within the agreed-upon timeline,

it will be considered a failure to comply with the requirements of this section, will constitute a material breach of this Agreement, and will be grounds for termination of this Agreement by the County.

7) LONG-LEAD-TIME ITEMS

The Construction Manager at Risk must recommend to the Owner and Design Professional a schedule for procurement of long-lead-time items which will constitute part of the Work as required to meet the Project schedule. If such long-lead-time items are procured by the Owner, they will be procured on terms and conditions acceptable to both the Construction Manager at Risk and the Owner. If the Owner accepts the Construction Manager at Risk's Guaranteed Maximum Price proposal, at such time all contracts for such items will be assigned by the Owner to the Construction Manager at Risk, who must accept responsibility for such items as if procured by the Construction Manager at Risk. The Construction Manager at Risk must expedite the delivery of long-lead-time items.

8) EXTENT OF RESPONSIBILITY

The Construction Manager at Risk is responsible for guiding the Owner and Design Professional through each phase of design with assessments and recommendations in the construction reports to assure the Owner's budget and schedule are maintained at the end of each phase. The recommendations and advice of the Construction Manager at Risk concerning design alternatives will be subject to the review and approval of the Owner and the Design Professional. If the Construction Manager at Risk recognizes that portions of the Drawings and Specifications are at variance with the applicable laws, statutes, ordinances, building codes, rules, and regulations, the Construction Manager at Risk must promptly notify the Design Professional and Owner in writing.

9) EQUAL EMPLOYMENT OPPORTUNITY AND AFFIRMATIVE ACTION

The Construction Manager at Risk must comply with applicable laws, regulations and special requirements of the Contract Documents regarding equal employment opportunity and affirmative action programs.

10) PUBLIC ENTITIES CRIMES ACT

CONSTRUCTION MANAGER AT RISK is directed to the Florida Public Entity Crime Act, Fla. Stat. 287.133, and Fla. Stat. 287.135 regarding Scrutinized Companies, and CONSTRUCTION MANAGER AT RISK agrees that its bid and, if awarded, its performance of the agreement must comply with all applicable laws including those referenced herein. CONSTRUCTION MANAGER AT RISK represents and certifies that CONSTRUCTION MANAGER AT RISK is and will at all times remain eligible to bid for and perform the services subject to the requirements of these, and other applicable, laws. CONSTRUCTION MANAGER AT RISK agrees that any contract awarded to CONSTRUCTION MANAGER AT RISK will be subject to termination by the County if CONSTRUCTION MANAGER AT RISK fails to comply or to maintain such compliance.

2.2 **GUARANTEED MAXIMUM PRICE PROPOSAL AND CONTRACT TIME**

1) When the Drawings and Specifications are complete, provided that Owner is satisfied with the Construction Manager at Risk's performance of its obligations to that point, the Construction Manager at Risk will negotiate a Guaranteed Maximum Price, which will be the sum of the estimated Cost of the Work, all applicable permits, bonds, insurance, and the Construction Manager at Risk Fee. In the event that Owner is not satisfied for any reason with Construction Manager at Risk's performance of its obligations to that point, the Owner may elect to terminate this Agreement as provided for herein.

2) The cost of the Work must be based upon competitive bids obtained from subcontractors selected by the Construction Manager at Risk for each portion of the Work outlined in the Construction Documents and subject to the review and approval of the Design Professional and Owner. The Construction Manager at Risk must attempt to provide at least three bids for every trade. When three bids cannot be provided, the Construction Manager at Risk must provide justification satisfactory to the Owner's Representative. The complete bid process must be fully

transparent to the Design Professional and Owner, and each must be invited to observe the process. The Construction Manager at Risk must schedule pre-bid meetings with each subcontractor to review the scope of work in detail prior to submitting bids. Following the submittal of bids, the Construction Manager at Risk must review the bid together with each subcontractor to ascertain the entire scope of work is included in their bids. The Construction Manager at Risk must select each subcontractor determined by the Construction Manager at Risk to be qualified to provide the services at the best value.

3) The Cost of the Work must be the cost for a “turnkey” project delivery and must include the Construction Manager at Risk contingency, not to exceed 4.0%.

4) BASIS OF GUARANTEED MAXIMUM PRICE

   The Construction Manager at Risk must include with the Guaranteed Maximum Price proposal a written statement of its basis, which must include:

   A. A list of the Drawings and Specifications, including all addenda thereto and the Conditions of the Contract, which were used in preparation of the Guaranteed Maximum Price proposal.

   B. A list of allowances and a statement of their basis.

   C. A list of the exclusions and clarifications made by the Construction Manager at Risk in the preparation of the Guaranteed Maximum Price proposal.

   D. The proposed Guaranteed Maximum Price, including a complete Schedule of Values outlining the selected competitive bid for each trade category, along with allowances, contingency, and other items and the Fee that comprise the Guaranteed Maximum Price.

   E. A Construction Schedule outlining critical path activities and identifying the Dates of Substantial and Final Completion, by phase if applicable, upon which the proposed Guaranteed Maximum Price is based.

5) The Construction Manager at Risk must meet with the Owner and Design Professional to review the Guaranteed Maximum Price proposal and the written statement of its basis. In the event that the Owner or Design Professional discover any inconsistencies or inaccuracies in the information presented, they will promptly notify the Construction Manager at Risk, who must make appropriate adjustments to the Guaranteed Maximum Price proposal, its basis, or both.

6) Promptly upon receipt of the complete package constituting the Guaranteed Maximum Price from the Construction Manager at Risk, provided it is acceptable to the Owner in all respects, the Owner will process the package for approval by the Board of County Commissioners. The Construction Manager at Risk must assure that its selected bidders maintain and uphold their prices until the Board has an opportunity to approve the Guaranteed Maximum Price.

7) Prior to the Owner's acceptance of the Construction Manager at Risk Guaranteed Maximum Price proposal and issuance of a Notice to Proceed, the Construction Manager at Risk must not incur any cost to be reimbursed as part of the Cost of the Work other than costs included within the preconstruction phase of the Agreement.

8) Upon acceptance by the Owner of the Guaranteed Maximum Price proposal, the Guaranteed Maximum Price and its basis will be set forth in the Guaranteed Maximum Price Amendment in a form substantially as attached as Exhibit I. The Guaranteed Maximum Price will be subject to additions and deductions only by a change in the Work as provided in the Contract Documents, and the Dates of Substantial and Final Completion(s) will be subject to adjustment only as provided in the Contract Documents.

9) The Owner will authorize and cause the Design Professional to submit to the Owner’s Representative and Construction Manager at Risk a Corrected/Conforming Construction Document Set incorporating all agreed-upon qualifications, exclusions, clarifications, value engineering, design review comments, permit review comments, pre-bid inquiries, revisions or suggestions elicited during the development of the Guaranteed Maximum Price Proposal and other agreed-upon modifications made after the Drawings and Specifications have been submitted to the Owner and the Construction Manager at Risk, which will become the basis for construction. The Corrected/Conforming Construction Document Set will be furnished to the Construction Manager at Risk no later than ten (10) days after GMP approval.

10) FLORIDA TRENCH SAFETY ACT - CERTIFICATION AND DISCLOSURE STATEMENT

    The undersigned acknowledges the requirements of the Florida Trench Safety Act (Section 553.60 et. seq. Florida Statutes).

A. The Bidder further acknowledges that the Florida Trench Safety Act, (the Act) establishes the Federal excavation safety standards set forth at 29 C.F.R. Section 1926.650 Subpart P, as the interim state standard until such time as the state of Florida, through its Department of Labor and Employment Security, or any successor agency, adopts, updates, or revises said interim standard. This State of Florida standard may be supplemented by special shoring requirements established by the State of Florida or any of its political subdivisions.

B. The Bidder, as Contractor, must comply with all applicable excavation/trench safety standards.

C. The Construction Manager at Risk must consider the geotechnical data available from the County, if any, the Construction Manager at Risk's own sources, and all other relevant information in its design of the trench safety system to be employed on the subject Project. The Construction Manager at Risk acknowledges sole responsibilities for the selection of the data on which it relies in designing the safety system, as well as for the system itself.

D. The amounts that are set forth for pipe installation include the following excavation/trench safety measures and the linear feet of trench excavated under each safety measure. These units, costs, and unit values will be disclosed solely for the purpose of compliance with procedural requirements of the Act. No adjustment to the Agreement Time or price will be made for any difference in the actual number of linear feet of trench excavation, except as may be otherwise provided in these Contract Documents.

	Trench Safety Measure (Description)	**Units of Measure (LF, SF)**	**Unit (Quantity)**	**Unit Cost**	**Extended Cost**
1.				$	$
2.				$	$
3.				$	$
4.				$	$
5.				$	$

For Information Only, Not for Payment Purposes $ _____

Bidder may use additional sheets as necessary to extend this form. Failure to complete the above may result in the bid being declared non-responsive.

E. The amount disclosed as the cost of compliance with the applicable trench safety requirements does not constitute the extent of the Contractor’s obligation to comply with said standards. The Contractor must extend additional sums at no additional cost to the County, if necessary, to comply with the Act (except as otherwise be provided).

F. Acceptance of the bid to which this certification and disclosure applies in no way represents that the County or its representatives has evaluated and thereby determined that the above costs are adequate to comply with the applicable trench safety requirements nor does it in any way relieve the Contractor of its sole responsibility to comply with the applicable trench safety requirements.

2.3 **CONSTRUCTION PHASE**

1) GENERAL

A. The Construction Phase will commence upon the Owner's acceptance of the Construction Manager at Risk Guaranteed Maximum Price proposal, execution of the Amendment, and issuance of a Notice to Proceed.

2) ADMINISTRATION

A. Those portions of the Work that the Construction Manager at Risk does not customarily perform with the Construction Manager at Risk own personnel must be performed under subcontracts or by other appropriate agreements with the Construction Manager at Risk. The Construction Manager at Risk must obtain bids from Subcontractors and from suppliers of materials or equipment fabricated to a special design for the Work from the list previously reviewed and, after analyzing such bids, must deliver such bids to the Owner and Design Professional. The Construction Manager at Risk must make a recommendation of contracts to be awarded to specific bidders subject to the approval of the Owner and Design Professional. Once this list of awarded contracts is finalized and submitted in the Guaranteed Maximum Price Proposal, it may not be altered without the express written mutual consent of the Owner and Design Professional.

B. The Guaranteed Maximum Price must be established following completion of the bid process, which must be fully transparent to the Owner and Design Professional, and selection and approval of the successful bidders with the concurrence of the Owner and Design Professional. The Guaranteed Maximum Price must be submitted to the Pinellas County Board of County Commissioners for approval and must include a full and binding commitment by the Construction Manager at Risk to a “not to exceed” cost and schedule.

C. Subcontracts and agreements with suppliers furnishing materials or equipment fabricated to a special design must conform to the payment provisions of Sections 7.1.8 and 7.1.9 and must not be awarded on the basis of cost plus a fee.

D. The Construction Manager at Risk must schedule and conduct bi-weekly meetings at which the Owner, Design Professional, Construction Manager at Risk and appropriate Subcontractors can discuss the status of the Work. The Construction Manager at Risk must prepare and promptly distribute meeting minutes.

E. The Construction Manager at Risk must prepare a schedule in accordance with Section 3.10 of the General Conditions of the Contract for Construction (Exhibit A), and must include this schedule in the Guaranteed Maximum Price submittal to the Board of County Commissioners. This schedule must include the Owner's occupancy requirements.

F. The Construction Manager at Risk must provide monthly written reports to the Owner and Design Professional on the progress of the entire Work. The Construction Manager at Risk must maintain a daily log containing a record of weather, Subcontractors working on the site, number of workers, Work accomplished, problems encountered and other similar relevant data as the Owner may reasonably require. The log must be available to the Owner and Design Professional.

G. The Construction Manager at Risk must maintain cost control and invoicing for the Work in strict accordance with the Schedule of Values submitted in the Guaranteed Maximum Price proposal and approved by the Board of County Commissioners.

2.4 PROFESSIONAL SERVICES

Section 3.12.10 of the General Conditions of the Contract for Construction (Exhibit A) will apply to both the Preconstruction and Construction Phases.

2.5 HAZARDOUS MATERIALS

Section 10.3 of General Conditions of the Contract for Construction (Exhibit A) will apply to both the Preconstruction and Construction Phases.

ARTICLE 3 - **OTHER RESPONSIBILITIES**

3.1 **INFORMATION AND SERVICES**

1) The Owner will provide, through the documents prepared by the Design Professional, full information regarding the requirements of the Project, including a program which sets forth the Owner's objectives, constraints and criteria, including space requirements and relationships, flexibility and expandability requirements, special equipment and systems, and site requirements.

2) Prior to commencement of the Construction Phase, the Owner will provide a Purchase Order to the Construction Manager at Risk for the amount of work in the Schedule of Values identified by the Construction Manager at Risk to be completed in each fiscal year of the project construction schedule subject to the provisions of Article 14 of the General Conditions of the Contract for Construction.

3) The Construction Manager at Risk must establish and update an overall budget for the Project, based on the program established with the Owner and Design Professional. The overall budget must include Owner contingencies for changes in the Work and other costs as approved by the Owner.

4) STRUCTURAL AND ENVIRONMENTAL INVESTIGATIONS

Construction Manager at Risk has the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, legal disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the project area as a whole; topography and ground surface conditions; nature and quantity of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Construction Manager at Risk to acquaint itself with any applicable conditions will not relieve Construction Manager at Risk from any of its responsibilities to perform under the Contract Documents, nor will it be considered the basis for any claim for additional time or compensation after acceptance of the Guaranteed Maximum Price Amendment by the Board of County Commissioners.

A. Site Conditions. Construction Manager at Risk acknowledges that it has not relied on any surveys, tests, reports, plans or other such site data supplied to Construction Manager at Risk by Owner but accepts delivery, if any, for information purposes only.

B. During the Preconstruction Phase, Construction Manager at Risk must determine the need for, procure and evaluate the results of all geo-technical engineering and related consulting services necessary to determine the location and extent of Utilities and sub-soil, air and water conditions at the site of the Work required to insure that sufficient information is available for completion of the Work, including but not limited to all topographical surveys, soil tests, drainage plans, applicable test borings, test pits, soil bearing values, percolation tests, air and water pollution tests (“Site Test Data”). Construction Manager at Risk must provide to Owner copies of the Site Test Data as soon as practicable after it is received by the Construction Manager at Risk.

C. After Construction Manager at Risk begins the Construction Phase on the Project, having incorporated the knowledge from the Site Test Data, any additional work, regardless of its nature and scope, that is thereafter found to be required in order to complete the work based on the results of the Site Test Data, must be performed at Construction Manager at Risk’s sole cost and expense to the extent that such costs exceed any line item within the Schedule of Values, as provided in the Guaranteed Maximum Price Amendment. During the Construction Phase, if conditions are encountered at the Project site which are (i) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents or (ii) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, and which reasonably should not have been discovered by Construction Manager at Risk as part of its scope of site investigative services required pursuant to the terms of the Contract Documents, then Construction Manager at Risk must provide Owner with prompt written notice thereof before conditions are disturbed and in no event later than seven (7) calendar days after first observance of such conditions. Owner will promptly investigate such conditions and, if they differ materially and cause an increase or decrease in Construction Manager at Risk cost of, or time required for, performance of any part of the Work, Owner will acknowledge and agree to an equitable adjustment to the Contract Amount or Contract Time, or both, for such Work. If Owner

determines that the conditions at the site are not materially different from those indicated in the Contract Document or not of an unusual nature or should have been discovered by Construction Manager at Risk as part of its investigative services, and that no change in the terms of the Contract is justified, Owner will so notify Construction Manager at Risk in writing, stating its reasons. Claims by Construction Manager at Risk in opposition to such determination by Owner must be made within 7 calendar days after Construction Manager at Risk receipt of Owner's written determination notice. The provisions of Article 15 of the General Conditions of the Contract for Construction will apply if Owner and Construction Manager at Risk cannot agree on an adjustment to the Contract Amount or Contract Time.

3.2 OWNER'S REPRESENTATIVE

The Owner will designate in writing an "Owner's Representative". The Owner's Representative will have the authority to make decisions on behalf of the Owner concerning estimates and schedules, construction budgets, allowances and contingency authorizations, and changes in the Work, and will render such decisions promptly and furnish information expeditiously, so as to avoid unreasonable delay in the services or Work of the Construction Manager at Risk. Any change in the Work that increases the Guaranteed Maximum Price, or extends the Dates of Substantial Completion or Final Completion, must be approved by the County Administrator or Board of County Commissioners as applicable pursuant to County Code.

3.3 DESIGN PROFESSIONAL

The Owner will retain a Design Professional to provide Basic Services, including architecture, civil, structural, mechanical and electrical engineering services, other than cost estimating services. The Owner will authorize and cause the Design Professional to provide the services described in Section 2.1.5 of this agreement as required by the Owner and Construction Manager at Risk to complete the Preconstruction and Construction Phases of the Work. Such services will be provided in accordance with time schedules agreed to by the Owner, Design Professional, and Construction Manager at Risk.

3.4 LEGAL REQUIREMENTS

The Construction Manager at Risk will have the responsibility to identify and acquire all permits required for the Project by authorities having jurisdiction. The Construction Manager at Risk will further have the responsibility to assure the Project is constructed in strict accordance with all authorities having jurisdiction on the Project.

CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

ARTICLE 4 - **COMPENSATION AND PAYMENTS FOR PRECONSTRUCTION PHASE SERVICES**

The Owner will compensate and make payments to the Construction Manager at Risk for Preconstruction Phase services as follows:

4.1 **COMPENSATION**

1) For the services described in Sections 2.1, 2.2, and 3.1.4, the Construction Manager at Risk compensation will be calculated as follows:

    A. A stipulated sum of $980,188.00 In accordance with attached Exhibit L, Construction Manager at Risk Pre-Construction Phase Fee Proposal.

4.2 **PAYMENTS**

1) Prior to the beginning of the preconstruction phase, the Construction Manager at Risk must submit to the Owner's Representative for review and approval a Schedule of Values for work to be completed in accordance with Article 2, Sections 2.1 and 2.2. Payments will be made monthly based on the Construction Manager at Risk invoice outlining portions of the services completed to date and their relationship to the Schedule of Values.

2) Payments are due and payable in accordance with the Local Government Prompt Payment Act, Section 218.70, et.seq. of the Florida State Statutes.

4.3 **COUNTY FUNDING**

If at any time after the effective date of this Agreement there are insufficient funds budgeted in a new County fiscal period, then this Agreement will automatically terminate effective as of the last day on which budgeted funds are available, without penalty or expense to the County.

CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

ARTICLE 5 - **COMPENSATION FOR CONSTRUCTION PHASE SERVICES**

The Owner will compensate the Construction Manager at Risk for Construction Phase services as follows:

5.1 COMPENSATION

1) For the Construction Manager at Risk performance of the Work as described in Section 2.3, the Owner will pay the Construction Manager at Risk in current funds the Contract Sum consisting of the Cost of the Work as defined in Article 6 and the Construction Manager at Risk Fee determined as follows:

   A percentage of the actual Cost of the Work (4%) at the time the GMP is incorporated into the agreement. The Construction Manager at Risk Fee will be adjusted at the same percentage rate for changes in the Work.

5.2 GUARANTEED MAXIMUM PRICE

1) The sum of the Cost of the Work and the Construction Manager at Risk Fee are guaranteed by the Construction Manager at Risk not to exceed the amount provided in Guaranteed Maximum Price Amendment, subject to additions and deductions by changes in the Work as provided in the Contract Documents.

5.3 CHANGES IN THE WORK

1) Adjustments to the Guaranteed Maximum Price on account of changes in the Work subsequent to the execution of Guaranteed Maximum Price Amendment may be determined by any of the methods listed in Section 7.2 of the General Conditions of the Contract for Construction (Exhibit A).

2) In calculating adjustments to subcontracts, a 10% markup for overhead and profit will be applied to the total sum of time and materials required for the adjustment, and the Construction Manager at Risk Fee percentage will then be applied to this subtotal along with bonds and insurance.

3) In calculating adjustments to the Contract, the terms "cost" and "costs" as used in the above-referenced provisions of the General Conditions of the Contract for Construction (Exhibit A) will mean the Cost of the Work as defined in Article 6 of this Agreement, and the term "and a reasonable allowance for overhead and profit" will mean the Construction Manager at Risk Fee as defined in Section 5.1.1 of this Agreement.

4) Whenever a change in the Work results in an increase to the Guaranteed Maximum Price, or extension of time for Substantial Completion or Final Completion, a Change Order must be prepared in accordance with the format outlined in Exhibit G Change Order and submitted to the County Administrator or Board of County Commissioners as applicable pursuant to County Code for approval.

ARTICLE 6 - **COST OF THE WORK FOR CONSTRUCTION PHASE (THE GUARANTEED MAXIMUM PRICE)**

6.1 COSTS TO BE REIMBURSED

1) The term "Cost of the Work" will mean all costs necessarily and reasonably incurred by the Construction Manager at Risk in the proper performance of the Work to deliver a “turnkey” project to the Owner. The Cost of the Work as set forth in this Article 6 will be included on the Schedule of Values as part of the package comprising the Guaranteed Maximum Price submitted to the Board of County Commissioners for approval.

2) EMERGENCIES AND REPAIRS TO DAMAGED OR NONCONFORMING WORK

   The following costs will be included in the Cost of the Work and borne by the Construction Manager at Risk at no additional cost to the Owner:

   A. In taking action to prevent threatened damage, injury or loss in case of an emergency affecting the safety of persons and property, as provided in Section 10.4 of the General Conditions of the Contract for Construction (Exhibit A).

   B. In repairing or correcting damaged or nonconforming Work executed by the Construction Manager at Risk or the Construction Manager at Risk Subcontractors or suppliers.

6.2 COSTS NOT TO BE REIMBURSED

1) The Cost of the Work will not include:

   A. Salaries and other compensation of the Construction Manager at Risk personnel stationed at the Construction Manager at Risk principal office or offices other than the site office, except as specifically provided in Section 6.1.

   B. Expenses of the Construction Manager at Risk principal office and offices other than the site office, except as specifically provided in Section 6.1.

   C. Overhead and general expenses, except as may be expressly included in Section 6.1.

   D. The Construction Manager at Risk capital expenses, including interest on the Construction Manager at Risk capital employed for the Work.

   E. Rental costs of machinery and equipment, except as specifically provided in Section 6.1.

   F. Except as provided in Section 6.1, costs due to the negligence of the Construction Manager at Risk or to the failure of the Construction Manager at Risk to fulfill a specific responsibility to the Owner set forth in this Agreement.

   G. Costs incurred in the performance of Preconstruction Phase Services or in a failure to perform Preconstruction Phase Services.

   H. Any cost not specifically and expressly described in Section 6.1.

   I. Costs which would cause the Guaranteed Maximum Price to be exceeded.

6.3 DISCOUNTS, REBATES AND REFUNDS

N/A

6.4 ACCOUNTING RECORDS

1) The Owner will have the right to audit, inspect, and copy the Construction Manager at Risk and any subcontractor’s records, as such records relate to the purchase of materials for and construction of the Project.

   Unless a longer time is required by applicable law, the Construction Manager at Risk and its subcontractors must keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of 5 years from the date of termination of this Agreement or the date the Project is completed, whichever is later. The Owner will have access to such books, records, and documents as required in this section for the purpose of inspection and audit during normal business hours, at the Owner’s cost, upon five (5) days written notice.

   Such audit rights are provided for within the text of the Pinellas County Code § 2-176(j), as that Code may be amended from time to time.

6.5 CONTRACT TIME AND LIQUIDATED DAMAGES

1) Time is of the essence in the performance of the Work under this Agreement. The "Pre-construction Phase Commencement Date" will be established in a Notice to Proceed to be issued by the Owner. The Construction Manager at Risk must commence the Pre-construction Phase Services portion of the Work within five (5) calendar days after the Pre-construction Phase Commencement Date. Any Work performed by the Construction Manager at Risk prior to the Pre-construction Phase Commencement Date will be at the sole risk of the Construction Manager at Risk. The "Construction Phase Commencement Date" will be established in a Notice to Proceed to be issued by the Owner after the Construction Documents and Guaranteed Maximum Price have been submitted to and approved by the Pinellas County Board of County Commissioners. The Construction Manager at Risk must commence the Construction Phase Services portion of the Work within five (5) calendar days after the Construction Phase Commencement Date. No portion of the Work, with respect to the Construction Phase Services to be provided hereunder, will be performed prior to the Construction Phase Commencement Date. The total period of time beginning with the Construction Phase Commencement Date and ending on the date of Substantial Completion of the Work is referred to hereafter as the "Contract Time". The Contract Time is set forth with more specificity in section 6.5.2 below.

2) Because the Work is to be completed in two phases, the timely completion of the first phase is critical to the timely completion of the second phase, and therefore, completion of the entire Project. Accordingly, the Construction Manager at Risk agrees to provide Pre-construction Phase Services in accordance with Article 2.1 herein. With respect to the Construction Phase Services, the Guaranteed Maximum Price Amendment will include the amount of days in which that portion of the Work associated with the Construction Phase Services must be substantially completed by the Construction Manager at Risk. That Substantial Completion date will be established in terms of calendar days after the Construction Phase Commencement Date. In the event the Construction Manager at Risk and Owner fail to reach an agreement on the Contract Time and the Substantial Completion Date, the Owner may elect to terminate this Contract. In the event of any such termination, the Construction Manager at Risk will be entitled to receive that portion of the Contract Amount attributable to the Pre-construction Phase Services earned to the date of termination. The Construction Manager at Risk will not be entitled to any further or additional compensation from the Owner, including, but not limited to, damages or lost profits on portions of the Work not performed. Substantial Completion of the Work will be achieved when the Construction Manager at Risk obtains a Certificate of Occupancy (CO) or a Temporary Certificate of Occupancy (TCO) from the jurisdictional building authority and has completed the Work to the point where the Owner can occupy or utilize the Work for its intended purpose. The Design Professional will certify the date the Substantial Completion of the Work is achieved. If the Owner has designated portions of the Work to be turned over to the Owner prior to Substantial Completion of the entire Work, the Design Professional will certify the date as to when Substantial Completion of such designated portions of the Work have been achieved. The entire Work will be fully completed and ready for final acceptance by the Owner following completion of the punch list within 90 calendar days after the Substantial Completion date ("Final Completion").

3) The Owner and Construction Manager at Risk recognize that, since time is of the essence for this contract, the Owner will suffer financial loss if the Work associated with the Construction Phase is not substantially completed within the time specified in the Guaranteed Maximum Price Amendment, as said time may be adjusted as provided for herein. In such event, the total amount of the Owner's damages will be difficult, if not impossible, to definitely ascertain and quantify because this is a public construction project that will, when completed, benefit the public in Pinellas County, Florida. It is hereby agreed that is appropriate and fair that the Owner receive liquidated damages from the Construction Manager at Risk if the Construction Manager at Risk fails to achieve Substantial Completion of the Work within the required Contract Time. Should the Construction Manager at Risk fail to substantially complete the Work within the required time period, the Owner will be entitled to assess, as liquidated damages but not as a penalty, $1,500.00 for each calendar day thereafter until Substantial Completion is achieved. The Construction Manager at Risk hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the Owner's actual damages at the time of contracting if the Construction Manager at Risk fails to substantially complete the Work in a timely manner.

4) When any period of time is referenced by days herein, it will be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday observed by the Owner, such day will be omitted from the computation, and the last day will become the next succeeding day which is not a Saturday, Sunday, or legal holiday. The term "business day" as used herein will mean all days of the week excluding Saturdays, Sundays, and all legal holidays observed by the Owner.

ARTICLE 7 - **CONSTRUCTION PHASE PAYMENTS**

7.1 **PROGRESS PAYMENTS**

1) Based upon Applications for Payment submitted to the Design Professional by the Construction Manager at Risk and Certificates for Payment issued by the Design Professional, the Owner will make progress payments on account of the Contract Sum to the Construction Manager at Risk as provided below and in accordance with Section 4.2.2.
2) The period covered by each Application for Payment will not exceed one calendar month.
3) The Owner's Representative will establish a schedule for the Construction Manager at Risk submittal of Applications for Payment. The Owner will make payments in accordance with Section 4.2.2.
4) With each Application for Payment, the Construction Manager at Risk must submit a complete and updated Schedule of Values for the present pay period and an executed Waiver of Lien Release for the previous pay period.
5) Each Application for Payment must be based upon the most recent Schedule of Values submitted by the Construction Manager at Risk in accordance with the Contract Documents. The Schedule of Values will allocate the entire Guaranteed Maximum Price among the various portions of the Work, except that the Construction Manager at Risk Fee and Construction Manager at Risk Contingency will be shown as single separate items. The Schedule of Values must be prepared based on the format approved in the original Guaranteed Maximum Price submittal package. This schedule will be used as a basis for reviewing the Construction Manager at Risk Applications for Payment.
6) Applications for Payment must show the percentage completion of each portion of the Work as of the end of the period covered by the Application for Payment.
7) The Owner will withhold 5% retainage on each Application for Payment submitted by the Construction Manager at Risk through final completion of the Work.
8) The Construction Manager at Risk must not make advance payments to suppliers for materials or equipment which have not been delivered and stored at the site, except as otherwise set forth in the Contract Documents.
9) In taking action on the Construction Manager at Risk Applications for Payment, the Design Professional will be entitled to rely on their observations during their most recent periodic site inspection at the end of the pay period for which the pay application has been submitted.

7.2 **FINAL PAYMENT**

1) Final payment will be made by the Owner to the Construction Manager at Risk when (1) the Contract has been fully performed by the Construction Manager at Risk except for the Construction Manager at Risk responsibility to satisfy other requirements, if any, which necessarily survive final payment; (2) a final Application for Payment and a final accounting for the Cost of the Work have been submitted by the Construction Manager at Risk and reviewed by the Owner; and (3) a final Certificate for Payment has then been issued by the Design Professional; such final payment will be made by the Owner in accordance with Section 4.2.2.
2) The amount of the final payment will be the sum of the Cost of the Work substantiated by the Construction Manager at Risk in the final Schedule of Values plus the Construction Manager at Risk Fee, but not more than the Guaranteed Maximum Price.
3) The Owner will review the Construction Manager at Risk final pay application following receipt and certification of same by the Design Professional and will process it in accordance with Section 4.2.2. The Design Professional will either issue to the Owner a final Certificate for Payment with a copy to the Construction Manager at Risk or notify the Construction Manager at Risk and Owner in writing of the Design Professional's reasons for withholding a certificate as provided in Section 9.5.1 of the General Conditions of the Contract for Construction (Exhibit A). The time periods will comply with Section 4.2.2.
4) In the event a dispute occurs between the Owner and Construction Manager at Risk it will be resolved pursuant to Article 15 of the General Conditions of the Contract for Construction (Exhibit A).

CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

ARTICLE 8 - **INSURANCE AND BONDS**

8.1 **INSURANCE REQUIRED OF THE CONSTRUCTION MANAGER AT RISK –per Exhibit K of this Agreement (attached).**

During both phases of the Project, the Construction Manager at Risk must purchase and maintain insurance as set forth in Exhibit K of this Agreement.

8.2 **PERFORMANCE BOND AND PAYMENT BOND**

1) The Construction Manager at Risk must furnish bonds covering faithful performance of the Contract and payment of obligations arising thereunder. Bonds may be obtained through the Construction Manager at Risk usual source, and the cost thereof will be included in the Guaranteed Maximum Price. The amount of each bond must be equal to the full value of the Guaranteed Maximum Price.

2) The Construction Manager at Risk must deliver the required bonds to the Owner within five (5) business days following the execution of the Guaranteed Maximum Price Amendment by the Board of County Commissioners.

CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

ARTICLE 9 - **MISCELLANEOUS PROVISIONS**

9.1 DISPUTE RESOLUTION

1) During both the Preconstruction and Construction Phases, Claims, disputes or other matters in question between the parties to this Agreement will be resolved as provided in Article 15 of the General Conditions of the Contract for Construction (Exhibit A).

9.2 OTHER PROVISIONS

1) Unless otherwise noted, the terms used in this Agreement will have the same meaning as those in the General Conditions of the Contract for Construction (Exhibit A).

2) EXTENT OF CONTRACT

   This Contract, which includes this Agreement and the other documents incorporated herein by reference, represents the entire and integrated agreement between the Owner and the Construction Manager at Risk and supersedes all prior negotiations, representations or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the Owner and Construction Manager at Risk. If any term or condition in the Contract Documents conflicts with another, the documents will be interpreted in the following order of precedence:

   A. Guaranteed Maximum Price Amendment
   B. Change Orders
   C. Agreement
   D. General Conditions
   E. Specifications
   F. Drawings

3) OWNERSHIP AND USE OF DOCUMENTS

   Article 1.5 of the General Conditions of the Contract for Construction (Exhibit A) will apply to both the Preconstruction and Construction Phases.

4) GOVERNING LAW

   The Contract will be governed by the Laws of the State of Florida.

5) ASSIGNMENT

   The Owner and Construction Manager at Risk respectively bind themselves, their partners, successors, assigns and legal representatives to the other party hereto and to partners, successors, assigns and legal representatives of such other party in respect to covenants, agreements and obligations contained in the Contract Documents. Neither party to the Agreement will assign the Agreement as a whole without written consent of the other. If either party attempts to make such an assignment without such consent, that party will nevertheless remain legally responsible for all obligations under the Agreement.

ARTICLE 10 - **TERMINATION OR SUSPENSION**

10.1 TERMINATION PRIOR TO ESTABLISHING GUARANTEED MAXIMUM PRICE

1) Prior to execution by both parties of Guaranteed Maximum Price Amendment establishing the Guaranteed Maximum Price, the Owner may terminate this Agreement at any time without cause.

2) If the Owner terminates this Agreement pursuant to this Section 10.1 prior to commencement of the Construction Phase, the Construction Manager at Risk will be compensated for Preconstruction Phase Services performed prior to receipt of notice of termination; provided, however, that the compensation for such services will not exceed the compensation set forth in Section 4.1.1.

3) If the Owner terminates this Agreement pursuant to this Section 10.1 after commencement of the Construction Phase, the Construction Manager at Risk will, in addition to the compensation provided in Section 10.1.2, be paid an amount calculated as follows:

   A. Take the Cost of the Work incurred by the Construction Manager at Risk.

   B. Add the Construction Manager at Risk Fee computed upon the Cost of the Work to the date of termination at the rate stated in Section 5.1 or, if the Construction Manager at Risk Fee is stated as a fixed sum in that Section, an amount which bears the same ratio to that fixed-sum Fee as the Cost of the Work at the time of termination bears to a reasonable estimate of the probable Cost of the Work upon its completion.

   C. Subtract the aggregate of previous payments made by the Owner on account of the Construction Phase.

The Owner will also pay the Construction Manager at Risk fair compensation, either by purchase or rental at the election of the Owner, for any equipment owned by the Construction Manager at Risk which the Owner elects to retain and which is not otherwise included in the Cost of the Work under Section 10.1.3.1. To the extent that the Owner elects to take legal assignment of subcontracts and purchase orders (including rental agreements), the Construction Manager at Risk must, as a condition of receiving the payments referred to in this Article 10, execute and deliver all such papers and take all such steps, including the legal assignment of such subcontracts and other contractual rights of the Construction Manager at Risk, as the Owner may require for the purpose of fully vesting in the Owner the rights and benefits of the Construction Manager at Risk under such subcontracts or purchase orders.

10.2 TERMINATION SUBSEQUENT TO ESTABLISHING GUARANTEED MAXIMUM PRICE.

1) Refer to Exhibit A General Conditions, Article 14.

10.3 SUSPENSION

The Work may be suspended by the Owner as provided in Article 14 of the General Conditions of the Contract for Construction (Exhibit A).

10.4 COUNTY FUNDING

If at any time after the effective date of this Agreement there are insufficient funds budgeted in a new County fiscal period, then this Agreement will automatically terminate effective as of the last day on which budgeted funds are available, without penalty or expense to the County.

CONSTRUCTION MANAGEMENT SERVICES AGREEMENT

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 1 - **GENERAL PROVISIONS**

1.1 **BASIC DEFINITIONS**

1) THE CONTRACT DOCUMENTS

The Contract Documents are enumerated in the Agreement between the Owner and Construction Manager at Risk (hereinafter the Agreement) and consist of the Agreement, General Conditions of the Contract for Construction, Drawings, Specifications, Addenda issued prior to execution of the Contract, other documents listed in the Agreement and Modifications issued after execution of the Contract. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Contingency Authorization or Allowance, or (4) a written order for a minor change in the Work. Unless specifically enumerated in the Agreement, the Contract Documents do not include the advertisement or invitation to bid, Instructions to Bidders, sample forms, other information furnished by the Owner in anticipation of receiving bids or proposals, the Construction Manager at Risk bid or proposal, or portions of Addenda relating to bidding requirements.

2) THE CONTRACT

The Contract Documents form the Contract for Construction. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. The Contract may be amended or modified only by a Modification (the methods defined in Article 7). The Contract Documents will not be construed to create a contractual relationship of any kind (1) between the Construction Manager at Risk and the Design Professional or the Design Professional's consultants, (2) between the Owner and a Subcontractor or a Sub-subcontractor, (3) between the Owner and the Design Professional or the Design Professional's consultants or (4) between any persons or entities other than the Owner and the Construction Manager at Risk.

3) THE WORK

The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the Construction Manager at Risk to fulfill the Construction Manager at Risk obligations. The Work may constitute the whole or a part of the Project.

4) THE PROJECT

The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by the Owner and by separate contractors.

5) THE DRAWINGS

The Drawings are the graphic and pictorial portions of the Contract Documents showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules and diagrams.

6) THE SPECIFICATIONS

The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, systems, standards and workmanship for the Work, and performance of related services.

7) INSTRUMENTS OF SERVICE

Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Design Professional and the Design Professional's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

8) N/A

9) TURNKEY

The term "turnkey", where used in the Agreement, refers to the Construction Manager at Risk obligation to provide the Owner with a complete product in accordance with the contract documents at final completion of the Work. The Construction Manager at Risk will be required to include all materials and work reasonably implied from the scope of work outlined in the Contract Documents and necessary for a complete and functioning product even though they may not have been shown in detail.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

1.2 CORRELATION AND INTENT OF THE CONTRACT DOCUMENTS

1) The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Construction Manager at Risk. The Contract Documents are complementary, and what is required by one will be as binding as if required by all; performance by the Construction Manager at Risk will be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

2) Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings will not control the Construction Manager at Risk in dividing the Work among Subcontractors or in establishing the extent of Work to be performed by any trade.

3) Unless otherwise stated in the Contract Documents, words that have well-known technical or construction industry meanings are used in the Contract Documents in accordance with such recognized meanings.

1.3 CAPITALIZATION

Terms capitalized in these General Conditions include those that are (1) specifically defined, (2) the titles of numbered articles or (3) the titles of other documents.

1.4 INTERPRETATION

In the interest of brevity, the Contract Documents frequently omit modifying words such as “all” and “any” and articles such as “the” and “an,” but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement.

1.5 OWNERSHIP AND USE OF DRAWINGS, SPECIFICATIONS AND OTHER INSTRUMENTS OF SERVICE

1) The Owner, having paid the Design Professional for its services, will be deemed to own said drawings, specifications and other instruments of service that relate to the specific individual application, site, and use intended for the Owner. The Construction Manager at Risk, Subcontractors, Sub-subcontractors, and material or equipment suppliers will not own or claim a copyright in the Instruments of Service.

2) The Construction Manager at Risk, Subcontractors, Sub-subcontractors and material or equipment suppliers are authorized to use and reproduce the Instruments of Service provided to them solely and exclusively for execution of the Work. All copies made under this authorization must bear the copyright notice, if any, shown on the Instruments of Service. The Construction Manager at Risk, Subcontractors, Sub-subcontractors, and material or equipment suppliers may not use the Instruments of Service on other projects or for additions to this Project outside the scope of the Work without the specific written consent of the Owner, Design Professional, and the Design Professional’s consultants, as applicable.

3) The Owner will also be deemed to own all drawings, specifications and other Instruments of Service created pursuant to the Contract Documents.

1.6 TRANSMISSION OF DATA IN DIGITAL FORM

If the parties intend to transmit Instruments of Service or any other information or documentation in digital form, they will endeavor to establish necessary protocols governing such transmissions, unless otherwise already provided in the Agreement or the Contract Documents.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 2 - **OWNER**

2.1 GENERAL

1) The Owner is Pinellas County and is referred to throughout the Contract Documents as if singular in number. Except as otherwise specifically provided herein, the Design Professional does not have any authority to bind the Owner. The term “Owner’s Representative” has the meaning as described in Section 3.2 of the Contract.

2) The Owner, as a governmental agency, is not subject to the enforcement of construction or mechanic’s lien rights. Payment and Performance Bonds are required in accordance with Article 8 of the Construction Management Agreement.

2.2 INFORMATION AND SERVICES REQUIRED OF THE OWNER

1) N/A

2) All permits and fees are the responsibility of the Construction Manager at Risk under the Contract Documents, including those required under Section 3.7.1. The Owner will secure and pay for only those necessary approvals, easements, assessments and charges required for construction, use or occupancy of permanent structures or for permanent changes in existing facilities specifically identified in the Contract Documents.

3) The Owner will furnish existing available project information such as surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a legal description of the site. The Construction Manager at Risk will be required to confirm the accuracy of information furnished by the Owner (and must include costs involved in this confirmation in the project budget) and must exercise proper precautions relating to the safe performance of the Work.

4) The Owner will furnish information or services required of the Owner by the Contract Documents with reasonable promptness. The Owner will also furnish any other information or services under the Owner’s control and relevant to the Construction Manager at Risk performance of the Work with reasonable promptness after receiving the Construction Manager at Risk written request for such information or services.

5) Unless otherwise provided in the Contract Documents, the Owner will furnish to the Construction Manager at Risk an electronic copy of the Contract Documents for purposes of making reproductions pursuant to Section 1.5.2.

2.3 OWNER’S RIGHT TO STOP THE WORK

If the Construction Manager at Risk fails to correct Work that is not in accordance with the requirements of the Contract Documents as required by Section 12.2 or repeatedly fails to carry out Work in accordance with the Contract Documents, the Owner’s Representative may issue a written order to the Construction Manager at Risk to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work will not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Construction Manager at Risk or any other person or entity, except to the extent required by Section 6.1.3.

2.4 OWNER’S RIGHT TO CARRY OUT THE WORK

If the Construction Manager at Risk defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a ten-day period after receipt of written notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to other remedies the Owner may have, correct such deficiencies. In such case an appropriate Change Order will be issued deducting from payments then or thereafter due the Construction Manager at Risk the reasonable cost of correcting such deficiencies, including Owner’s expenses and compensation for the Design Professional’s additional services made necessary by such default, neglect or failure. If payments then or thereafter due the Construction Manager at Risk are not sufficient to cover such amounts, the Construction Manager at Risk must pay the difference to the Owner.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 3 - **CONSTRUCTION MANAGER AT RISK**

3.1 GENERAL

1) The Construction Manager at Risk is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The Construction Manager at Risk must be lawfully licensed, if required in the jurisdiction where the Project is located. The Construction Manager at Risk must designate in writing a representative who will have express authority to bind the Construction Manager at Risk with respect to all matters under this Contract. The term "Construction Manager at Risk" means the Construction Manager at Risk or the Construction Manager at Risk authorized representative.

2) The Construction Manager at Risk must perform the Work in accordance with the Contract Documents.

3) Unless the terms of the Contract are modified in accordance with Article 7, the Construction Manager at Risk will not be relieved of obligations to perform the Work in accordance with the Contract Documents either by activities or duties of the Design Professional in the Design Professional's assistance in administration of the Contract, or by tests, inspections or approvals required or performed by persons or entities other than the Construction Manager at Risk.

3.2 REVIEW OF CONTRACT DOCUMENTS AND FIELD CONDITIONS BY CONSTRUCTION MANAGER AT RISK

1) Execution of the Contract by the Construction Manager at Risk is a representation that the Construction Manager at Risk has visited the site, become generally familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents. Submittal of the GMP proposal by the Construction Manager at Risk is a representation that the Construction Manager at Risk has performed complete due diligence, including but not limited to the following:

   A. Construction Manager at Risk has visited the site of the proposed work and fully acquainted himself with conditions relating to construction and labor so that he fully understands the facilities, difficulties and restrictions attending the execution of work under the contract. The Construction Manager at Risk as thoroughly examined and is familiar with the Contract Documents. Failure or omission of the Construction Manager at Risk to receive or examine any form, instrument, addendum or other documents, or to visit the site and acquaint himself with conditions existing thereon, will in no way relieve the Construction Manager at Risk from any obligation with respect to the Contract. Owner does not warrant the accuracy or completeness of any reports, soil samples, or any other site condition information or data made available including, but not limited to, underground utility location.

   B. The Construction Manager at Risk acknowledges that he has satisfied himself as to the nature and location of the work; the general and local conditions, including but not restricted to, those bearing upon transportation, disposal, handling and storage of materials; availability of labor, water, electric power, roads; and uncertainties of weather, river stages, tides or similar physical conditions at the site; the conformation and conditions of the ground; the character of equipment and facilities needed preliminary to and during prosecution of the work.

   C. The Construction Manager at Risk further acknowledges that it has satisfied itself as to the character, quality and quantity of surface and subsurface materials, obstacles, or conditions to be encountered.

   D. Any failure by the Construction Manager at Risk to acquaint himself with any aspect of the work or with any of the applicable conditions will not relieve the Construction Manager at Risk from responsibility for adequately evaluating the difficulty or cost of successfully performing the work under the Contract Documents, nor will it be considered the basis for any claim for additional time or compensation.

   E. The Owner assumes no responsibility for any conclusions or interpretations made by the Construction Manager at Risk on the basis of the information made available by the Owner. The Owner also assumes no responsibility for any understanding or representations made by its officers or agents during or prior to the execution of this Contract, unless such understanding or interpretations are made in writing.

2) Because the Contract Documents are complementary, the Construction Manager at Risk must, before starting each portion of the Work, carefully study and compare the various Contract Documents relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 2.2.3, must take field measurements of any existing conditions related to that portion of the Work, and must observe any conditions at the site affecting it. These obligations are for the purpose of facilitating coordination and construction by the Construction Manager at Risk and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, the Construction Manager at Risk must promptly report to the Design

Professional any errors, inconsistencies or omissions discovered by or made known to the Construction Manager at Risk as a request for information in such form as the Design Professional may require. It is recognized that the Construction Manager at Risk review is made in the Construction Manager at Risk capacity as a Construction Manager at Risk and not as a licensed design professional, unless otherwise specifically provided in the Contract Documents.

3) The Construction Manager at Risk is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, but the Construction Manager at Risk must promptly report to the Design Professional any nonconformity discovered by or made known to the Construction Manager at Risk as a request for information in such form as the Design Professional may require.

4) If the Construction Manager at Risk believes that additional cost or time is involved because of clarifications or instructions the Design Professional issues in response to the Construction Manager at Risk notices or requests for information pursuant to Sections 3.2.2 or 3.2.3, the Construction Manager at Risk must make Claims as provided in Article 15. If the Construction Manager at Risk fails to perform the obligations of Sections 3.2.1, 3.2.2 or 3.2.3, the Construction Manager at Risk must pay such costs and damages to the Owner as would have been avoided if the Construction Manager at Risk had performed such obligations.

3.3 SUPERVISION AND CONSTRUCTION PROCEDURES

1) The Construction Manager at Risk must supervise and direct the Work, using the Construction Manager at Risk best skill and attention. The Construction Manager at Risk will be solely responsible for, and have control over, construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work under the Contract, unless the Contract Documents give other specific instructions concerning these matters. If the Contract Documents give specific instructions concerning construction means, methods, techniques, sequences or procedures, the Construction Manager at Risk must evaluate the jobsite safety thereof and, except as stated below, must be fully and solely responsible for the jobsite safety of such means, methods, techniques, sequences or procedures. If the Construction Manager at Risk determines that such means, methods, techniques, sequences or procedures may not be safe, the Construction Manager at Risk must give timely written notice to the Owner and Design Professional and must not proceed with that portion of the Work without further written instructions from the Owner's Representative. If the Construction Manager at Risk is then instructed to proceed with the required means, methods, techniques, sequences or procedures without acceptance of changes proposed by the Construction Manager at Risk, the Owner will be solely responsible for any loss or damage arising solely from those Owner-required means, methods, techniques, sequences or procedures.

2) The Construction Manager at Risk will be responsible to the Owner for acts and omissions of the Construction Manager at Risk employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the Work for, or on behalf of, the Construction Manager at Risk or any of its Subcontractors.

3) The Construction Manager at Risk will be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition to receive subsequent Work.

3.4 LABOR AND MATERIALS

1) Unless otherwise provided in the Contract Documents, the Construction Manager at Risk must provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

2) Except in the case of minor changes in the Work in accordance with Sections 3.12.8 or 7.4, the Construction Manager at Risk may make substitutions only with the consent of the Owner, after evaluation by the Design Professional and in accordance with a Change Order.

3) The Construction Manager at Risk must enforce strict discipline and good order among the Construction Manager at Risk employees and other persons carrying out the Work. The Construction Manager at Risk must not permit employment of unfit persons or persons not properly skilled in tasks assigned to them.

3.5 WARRANTY

The Construction Manager at Risk warrants to the Owner that materials and equipment furnished under the Contract will be of good quality and new unless the Contract Documents require or permit otherwise. The Construction

Manager at Risk further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. Unless otherwise specified, if within twelve (12) months after Substantial Completion and acceptance, any work is found to be defective or not in conformance with the Contract Documents, the Construction Manager at Risk must correct it promptly after receipt of written notice from the County. The Construction Manager at Risk must also be responsible for and pay for replacement or repair of adjacent materials or work which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which the County is entitled as a matter of law. The Construction Manager at Risk warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Construction Manager at Risk, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If required by the Design Professional or Owner's Representative, the Construction Manager at Risk must furnish satisfactory evidence as to the kind and quality of materials and equipment.

3.6 TAXES

The Construction Manager at Risk must pay sales, consumer, use and similar taxes for the Work provided by the Construction Manager at Risk that are legally enacted when bids are received or negotiations concluded, whether or not yet effective or merely scheduled to go into effect.

3.7 PERMITS, FEES, NOTICES, AND COMPLIANCE WITH LAWS

1) Unless otherwise provided in the Contract Documents, the Construction Manager at Risk must secure and pay for the building permit as well as for all other permits, fees, licenses, and inspections by government agencies necessary for proper execution and completion of the Work.
2) The Construction Manager at Risk must comply with and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities applicable to performance of the Work.
3) If the Construction Manager at Risk performs Work knowing it to be contrary to applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, the Construction Manager at Risk must assume appropriate responsibility for such Work and must bear the costs attributable to correction.

3.8 ALLOWANCES

1) The Construction Manager at Risk must include in the Contract Sum all allowances stated in the Contract Documents. Items covered by allowances must be supplied for such amounts and by such persons or entities as the Owner may direct, but the Construction Manager at Risk will not be required to employ persons or entities to whom the Construction Manager at Risk has reasonable objection.
2) Unless otherwise provided in the Contract Documents:
    A. allowances must cover the cost to the Construction Manager at Risk of materials and equipment delivered at the site and all required taxes, less applicable trade discounts; and
    B. Construction Manager at Risk costs for unloading and handling at the site, labor, installation costs, overhead, profit and other expenses contemplated for stated allowance amounts must be included in the Contract Sum but not in the allowances;
    C. whenever costs are less than allowances, the Contract Sum will be reduced by Change Order. The amount of the Change Order will reflect (1) the difference between actual costs and the allowances under Section 3.8.(2)(A) and (2) changes in Construction Manager at Risk costs under Section 3.8.(2)(B); and
    D. whenever costs are more than allowances, the Construction Manager at Risk must immediately notify the Owner's Representative of the cost amount and discuss alternatives.
    E. If a contract allowance value is insufficient to cover the scope of work indicated in the Contract Documents, the Owner may seek alternatives including design changes, scope adjustments, or request a Change Order to adjust the allowance amount and Contract Sum.
3) Materials and equipment under an allowance will be selected by the Owner according to the time frames established in the Construction Schedule in the GMP Amendment. The Construction Schedule in the GMP Amendment must provide reasonable time for selection of alternate items covered by an allowance in the event that costs of items end up higher than the applicable allowance.

3.9 SUPERINTENDENT

1) The Construction Manager at Risk must employ a competent superintendent and necessary assistants who must be in attendance at the Project site during performance of the Work. The superintendent will represent the Construction Manager at Risk, and communications given to the superintendent will be as binding as if given to the Construction Manager at Risk.

2) The Construction Manager at Risk will employ the superintendent on the Project as submitted to the Owner during the Request for Presentation and the basis upon which the final Construction Manager at Risk was selected.

3) The Construction Manager at Risk must not change the superintendent without the Owner's consent. A new, proposed superintendent must be submitted to the Owner, meet with the Owner's full approval, and prior written consent must be obtained from by the Owner before any change in superintendent can occur.

3.10 CONSTRUCTION MANAGER AT RISK CONSTRUCTION SCHEDULES

1) The Construction Manager at Risk must prepare and include a construction schedule utilizing the Critical Path Method for the Work in the Guaranteed Maximum Price submittal. This construction schedule must meet with the Owner's and Design Professional's approval. The schedule must not exceed time limits current under the Contract Documents, must be revised (with the approval of the Owner and Design Professional) at appropriate intervals as required by the conditions of the Work and Project, must be related to the entire Project to the extent required by the Contract Documents, and must provide for expeditious and practicable execution of the Work.

2) The Construction Manager at Risk must prepare a submittal schedule, promptly after being awarded the Contract and thereafter as necessary to maintain a current submittal schedule and must submit the schedule(s) for the Design Professional's approval. The Design Professional's approval will not unreasonably be delayed or withheld. The submittal schedule must (1) be coordinated with the Construction Manager at Risk construction schedule, and (2) allow the Design Professional ten (1) days after receipt of submittals from Construction Manager at Risk to review and reject or approve the same. If the Construction Manager at Risk fails to submit a submittal schedule, the Construction Manager at Risk will not be entitled to any increase in Contract Sum or extension of Contract Time based on the time required for review of submittals.

3) The Construction Manager at Risk must perform the Work in general accordance with the most recent schedules submitted to and approved by the Owner and Design Professional.

3.11 DOCUMENTS AND SAMPLES AT THE SITE

The Construction Manager at Risk must maintain at the site for the Owner one copy of the Drawings, Specifications, Addenda, Change Orders and other Modifications, in good order and marked currently to indicate field changes and selections made during construction, and one copy of approved Shop Drawings, Product Data, Samples and similar required submittals. These must be available to the Design Professional and must be delivered to the Design Professional for submittal to the Owner upon completion of the Work as a record of the Work as constructed.

3.12 SHOP DRAWINGS, PRODUCT DATA AND SAMPLES

1) Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by the Construction Manager at Risk or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

2) Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Construction Manager at Risk to illustrate materials or equipment for some portion of the Work.

3) Samples are physical examples that illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

4) Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. Their purpose is to demonstrate the way by which the Construction Manager at Risk proposes to conform to the information given and the design concept expressed in the Contract Documents for those portions of the Work for which the Contract Documents require submittals. Review by the Design Professional is subject to the limitations of Section 4.2.7. Informational submittals upon which the Design Professional is not expected to take responsive action may be so identified in the Contract Documents. Submittals that are not required by the Contract Documents may be returned by the Design Professional without action.

5) The Construction Manager at Risk must review for compliance with the Contract Documents, approve and submit to the Design Professional Shop Drawings, Product Data, Samples and similar submittals required by the

Contract Documents in accordance with the submittal schedule approved by the Design Professional or, in the absence of an approved submittal schedule, with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Owner or of separate contractors.

6) By submitting Shop Drawings, Product Data, Samples and similar submittals, the Construction Manager at Risk represents to the Owner that the Construction Manager at Risk has (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

7) The Construction Manager at Risk must not perform any portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by the Design Professional.

8) The Work must be in accordance with approved submittals except that the Construction Manager at Risk will not be relieved of responsibility for deviations from requirements of the Contract Documents by the Design Professional's approval of Shop Drawings, Product Data, Samples or similar submittals unless the Construction Manager at Risk has specifically informed the Design Professional in writing of such deviation at the time of submittal and (1) the Owner's Representative has given written approval to the specific deviation as a minor change in the Work, or (2) a Change Order or (3) a Contingency Authorization has been issued authorizing the deviation. The Construction Manager at Risk will not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by the Design Professional's approval thereof.

9) The Construction Manager at Risk must direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by the Design Professional on previous submittals. In the absence of such written notice, the Design Professional's approval of a resubmission will not apply to such revisions.

10) The Construction Manager at Risk will not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents for a portion of the Work or unless the Construction Manager at Risk needs to provide such services in order to carry out the Construction Manager at Risk responsibilities for construction means, methods, techniques, sequences and procedures. The Construction Manager at Risk will not be required to provide professional services in violation of applicable law. If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Construction Manager at Risk by the Contract Documents, the Owner and the Design Professional will specify all performance and design criteria that such services must satisfy. The Construction Manager at Risk must cause such services or certifications to be provided by a properly licensed design professional, whose signature and seal must appear on all drawings, calculations, specifications, certifications, Shop Drawings and other submittals prepared by such professional. Shop Drawings and other submittals related to the Work designed or certified by such professional, if prepared by others, must bear such professional's written approval when submitted to the Design Professional. The Owner and the Design Professional will be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications and approvals performed or provided by such design professionals, provided the Owner and Design Professional have specified to the Construction Manager at Risk all performance and design criteria that such services must satisfy. Pursuant to this Section 3.12.10, the Design Professional will review, approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Construction Manager at Risk will not be responsible for the adequacy of the performance and design criteria specified in the Contract Documents.

3.13 LANDS FOR WORK AND ACCESS THERETO

1) Owner will furnish and define the limits of land for access to the construction site and for the site proper. All information shown in the Contract Documents constitutes the extent of land provided by the Owner. Any and all other lands required by the Construction Manager at Risk must be procured by the Construction Manager at Risk at the Construction Manager at Risk expense. Private property will not be used for storage without written permission of the property owner or lessee, with copies furnished to the Owner's Representative.

2) Temporary buildings (storage sheds, shops, offices, etc.) may be erected by the Construction Manager at Risk only with the approval of the Owner's Representative after obtaining necessary permits and must be built with labor and materials furnished by the Construction Manager at Risk without expense to the Owner. Such temporary buildings and/or utilities will remain the property of the Construction Manager at Risk and will be

removed by him at his expense upon the completion of the work. With the written consent of the Owner's Representative, such buildings and/or utilities may be abandoned and need not be removed.

3) The Construction Manager at Risk must confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and must not unreasonably encumber the Project site with construction equipment or other material or equipment. The Construction Manager at Risk must assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the work. Storage sites must be restored to their original condition at the Construction Manager at Risk expense. This will not apply to the stripping and storing of topsoil or other salvaged materials.

3.14 CUTTING AND PATCHING

1) The Construction Manager at Risk will be responsible for cutting, fitting or patching required to complete the Work or to make its parts fit together properly. All areas requiring cutting, fitting and patching must be restored to the condition existing prior to the cutting, fitting and patching, unless otherwise required by the Contract Documents.

2) The Construction Manager at Risk must not damage or endanger a portion of the Work or fully or partially completed construction of the Owner or separate contractors by cutting, patching or otherwise altering such construction, or by excavation. The Construction Manager at Risk must not cut or otherwise alter such construction by the Owner or a separate contractor except with written consent of the Owner and of such separate contractor; such consent must not be unreasonably withheld. The Construction Manager at Risk must not unreasonably withhold from the Owner or a separate contractor the Construction Manager at Risk consent to cutting or otherwise altering the Work.

3.15 CLEANING UP

1) The Construction Manager at Risk must keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Contract. At completion of the Work, the Construction Manager at Risk must remove waste materials, rubbish, the Construction Manager at Risk tools, construction equipment, machinery and surplus materials from and about the Project.

2) If the Construction Manager at Risk fails to clean up as provided in the Contract Documents, the Owner may do so, and Owner will be entitled to reimbursement from the Construction Manager at Risk.

3.16 ACCESS TO WORK

The Construction Manager at Risk must provide the Owner and Design Professional access to the Work in preparation and progress wherever located.

3.17 ROYALTIES, PATENTS AND COPYRIGHTS

The Construction Manager at Risk must pay all royalties and license fees. The Construction Manager at Risk must defend suits or claims for infringement of copyrights and patent rights and must hold the Owner and Design Professional harmless from loss on account thereof, but will not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents, or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Owner or Design Professional. However, if the Construction Manager at Risk has reason to believe that the required design, process or product is an infringement of a copyright or a patent, the Construction Manager at Risk will be responsible for such loss unless such information is promptly furnished to the Design Professional.

3.18 INDEMNIFICATION

1) To the maximum extent permitted by Florida law, the Construction Manager at Risk will defend, indemnify, and hold harmless the Owner and its officers and employees from any and all liabilities, claims, damages, penalties, demands, judgments, actions, proceedings, losses or costs, including, but not limited to, reasonable attorneys' fees and paralegals' fees, whether resulting from any claimed breach of this Agreement by the Construction Manager at Risk or from personal injury, property damage, direct or consequential damages, or economic loss, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the Construction Manager at Risk or anyone employed or utilized by the Construction Manager at Risk in the performance of this Agreement. Such obligation will not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 3.18.

   The duty to defend under this Section 3.18 is independent and separate from the duty to indemnify, and the duty to defend exists regardless of any ultimate liability of the Construction Manager at Risk, Owner, and any

indemnified party. The duty to defend arises immediately upon presentation of a claim by any party and written notice of such claim being provided to the Construction Manager at Risk. The Construction Manager at Risk obligation to indemnify and defend under this Section 3.18 will survive the expiration or earlier termination of this Agreement until it is determined by final judgment that an action against the Owner or an indemnified party for the matter indemnified hereunder is fully and finally barred by the applicable statute of limitations.

2) In claims against any person or entity indemnified under this Section 3.18 by an employee of the Construction Manager at Risk, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under Section 3.18.1 will not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Construction Manager at Risk or a Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 4 - **ADMINISTRATION OF THE CONTRACT**

4.1 DESIGN PROFESSIONAL

1) The Owner will retain a Design Professional lawfully licensed to practice architecture or an entity lawfully practicing architecture in the jurisdiction where the Project is located. That person or entity is identified as the Design Professional in the Agreement and is referred to throughout the Contract Documents as if singular in number.

2) N/A

3) If the employment of the Design Professional is terminated, the Owner will employ a successor design professional whose status under the Contract Documents will be that of the Design Professional.

4.2 DESIGN PROFESSIONAL'S ROLE IN ADMINISTRATION OF THE CONTRACT

1) The Design Professional will assist the Owner in the administration of the Contract as described in the Contract Documents (1) during construction, (2) until the date the Design Professional issues the final Certificate for Payment, and (3) with the Owner's concurrence, and from time to time during the one-year period for correction of Work described in Section 12.2. The Design Professional will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents, unless otherwise modified in writing in accordance with other provisions of the Contract.

2) The Design Professional, will visit the site at intervals appropriate to the stage of the Construction Manager at Risk operations or as otherwise agreed with the Owner (1) to become generally familiar with and to keep the Owner informed about progress and quality of the portion of the Work completed (2) to endeavor to guard the Owner against defects and deficiencies in the Work, and (3) to determine in general if the Work is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Design Professional may not make exhaustive or continuous on-site inspections. The Design Professional will neither have control over or charge of, nor be responsible for, the construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, since these are solely the Construction Manager at Risk rights and responsibilities under the Contract Documents, except as provided in Section 3.3.1.

3) The Construction Manager at Risk will be solely responsible to perform the Work in accordance with the requirements of the Contract Documents. Neither the Owner, nor the Design Professional will have control over or charge of, nor will they be responsible for acts or omissions of the Construction Manager at Risk, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.

4) N/A

5) Based on the Design Professional's evaluations of the Construction Manager at Risk Applications for Payment, the Design Professional will review and certify the amounts due the Construction Manager at Risk and will issue Certificates for Payment to the Owner in such amounts.

6) The Design Professional may recommend to the Owner that Owner reject Work that does not conform to the Contract Documents. Whenever the Design Professional considers it necessary or advisable, the Design Professional will have authority to require inspection or testing of the Work in accordance with Sections 13.5.2 and 13.5.3, whether or not such Work is fabricated, installed or completed.

7) The Design Professional will review and approve, or take other appropriate action upon, the Construction Manager at Risk submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Design Professional's action will be taken within fourteen (14) days of receipt of submittals or twenty-eight (28) days for fabricated engineering submittals as to cause no delay in the Work or in the activities of the Owner, Construction Manager at Risk, or separate contractors, while allowing sufficient time in the Design Professional's professional judgment to permit adequate review. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Construction Manager at Risk as required by the Contract Documents. The Design professional's review of the Construction Manager at Risk submittals will not relieve the Construction Manager at Risk of the obligations under Sections 3.3, 3.5 and 3.12.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

8) The Design Professional will review Change Orders and proposed Contingency Authorization and may propose minor changes in the Work as provided in Section 7.4. The Design Professional will respond within fourteen (14) days of receipt of the change orders or contingency authorizations.

9) The Design Professional will conduct inspections to determine the date or dates of Substantial Completion and the date of Final Completion; issue Certificates of Substantial Completion pursuant to Section 9.8; receive and forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract and assembled by the Construction Manager at Risk pursuant to Section 9.10; and issue a final Certificate for Payment to the Owner pursuant to Section 9.10.

10) At the Owner's direction, the Design Professional will provide one or more project representatives to assist in carrying out the Design Professional's responsibilities at the site. The duties, responsibilities and limitations of authority of such project representatives will be as outlined in the Owner/Design Professional Agreement and will be made available to the Construction Manager at Risk.

11) The Design Professional will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Construction Manager at Risk. The Design Professional's response to such requests will be made in writing within fourteen (14) days of receipt of such requests.

12) Interpretations and decisions of the Design Professional will be consistent with the intent of, and reasonably inferable from, the Contract Documents and will be in writing or in the form of drawings. When making such interpretations and decisions, the Design Professional will endeavor to secure faithful performance by both Owner and Construction Manager at Risk, will not show partiality to either, and will not be liable for results of interpretations or decisions rendered in good faith.

13) The Owner's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.

14) The Design Professional will review and respond to Requests for Information (RFI's) about the Contract Documents. The Design Professional's response to such requests will be made in writing within seven (7) days of receipt. If appropriate, the Design Professional will prepare and issue supplemental Drawings and Specifications in response to the requests for information. To the greatest extent possible, Construction Manager at Risk will resolve all questions relating to the Contract Documents prior to submission of the Guaranteed Maximum Price Proposal.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 5 - **SUBCONTRACTORS**

5.1 DEFINITIONS

1) A Subcontractor is a person or entity who has a direct contract with the Construction Manager at Risk to perform a portion of the Work at the site. The term “Subcontractor” is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term “Subcontractor” does not include a separate contractor or subcontractors of a separate contractor.

2) A Sub-subcontractor is a person or entity who has a direct or indirect contract with a Subcontractor to perform a portion of the Work at the site. The term “Sub-subcontractor” is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor.

5.2 AWARD OF SUBCONTRACTS AND OTHER CONTRACTS FOR PORTIONS OF THE WORK

1) Prior to beginning the competitive bid process to develop the Guaranteed Maximum Price, the Construction Manager at Risk must furnish in writing to the Owner with a copy to the Design Professional the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed to bid each principal portion of the Work. The Design Professional will reply within ten (10) days to the Construction Manager at Risk in writing stating (1) whether the Owner or the Design Professional has reasonable objection to any such proposed person or entity, (2) whether the Design Professional or Owner wishes to recommend another subcontractor or subcontractors to be added to the bid list, or (3) that the Design Professional requires additional time for review. Failure of the Owner or Design Professional to reply within the ten (10) day period will constitute notice of no reasonable objection.

2) The Construction Manager at Risk must not contract with a proposed person or entity to whom the Owner or Design Professional has made reasonable and timely objection. The Construction Manager at Risk will not be required to contract with anyone to whom the Construction Manager at Risk has made reasonable objection.

3) If the Owner or Design Professional has reasonable objection to a person or entity proposed by the Construction Manager at Risk, the Construction Manager at Risk must propose another to whom the Owner or Design Professional has no reasonable objection.

4) The Construction Manager at Risk must not substitute a Subcontractor, person or entity previously selected if the Owner or Design Professional makes reasonable objection to such substitution.

5.3 SUBCONTRACTUAL RELATIONS

By appropriate agreement, written where legally required for validity, the Construction Manager at Risk must require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Construction Manager at Risk by terms of the Contract Documents, and to assume toward the Construction Manager at Risk all the obligations and responsibilities, including the responsibility for safety of the Subcontractor’s Work, which the Construction Manager at Risk, by these Documents, assumes toward the Owner. Each subcontract agreement must preserve and protect the rights of the Owner under the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights, and must allow to the Subcontractor, unless specifically provided otherwise in the subcontract agreement, the benefit of all rights, remedies and redress against the Construction Manager at Risk that the Construction Manager at Risk, by the Contract Documents, has against the Owner. Where appropriate, the Construction Manager at Risk will require each Subcontractor to enter into similar agreements with Sub-subcontractors. The Construction Manager at Risk must make available to each proposed Subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement that may be at variance with the Contract Documents. Subcontractors will similarly make copies of applicable portions of such documents available to their respective proposed Sub-subcontractors.

5.4 CONTINGENT ASSIGNMENT OF SUBCONTRACTS

1) Each subcontract agreement for a portion of the Work is assigned by the Construction Manager at Risk to the Owner, provided that

   A. assignment is effective only after termination of the Contract by the Owner for cause pursuant to Section 14.2 and only for those subcontract agreements that the Owner accepts by notifying the Subcontractor and Construction Manager at Risk in writing; and

   B. assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

When the Owner accepts the assignment of a subcontract agreement, the Owner assumes the Construction Manager at Risk rights and obligations under the subcontract.

2) Upon such assignment, if the Work has been suspended for more than 30 days, the Subcontractor's compensation will be equitably adjusted for increases in cost resulting from the suspension.

3) Upon such assignment to the Owner under this Section 5.4, the Owner may further assign the subcontract to a successor contractor or other entity.

5.5 **E-VERIFY**

The PROJECT will be developed by the Construction Manager at Risk in accordance with applicable industry standards. The Construction Manager at Risk will be responsible for utilizing and maintaining current knowledge of any laws, ordinances, codes, rules, regulations, standards, guidelines, special conditions, specifications, or other mandates relevant to the Project or the services to be performed.

(1) E-Verify. The Construction Manager at Risk and Subcontractor must register with and use the E-verify system in accordance with Florida Statute 448.095. A Construction Manager at Risk contractor and Subcontractor may not enter into a contract with the County unless each party registers with and uses the E-verify system.

If the Construction Manager at Risk enters a contract with a Subcontractor, the Subcontractor must provide the Construction Manager at Risk with an affidavit stating that the Subcontractor does not employ, contract with, or subcontract with unauthorized aliens. The Construction Manager at Risk must maintain a copy of the affidavit for the duration of the contract.

If the County, Construction Manager at Risk, or Subcontractor has a good faith belief that a person or entity with which it is contracting has knowingly violated Florida Statute 448.09(1) shall immediately terminate the contract with the person or entity.

If the County has a good faith belief that a Subcontractor knowingly violated this provision, but the Construction Manager at Risk otherwise complied with this provision, the County will notify the Construction Manager at Risk and order that the Construction Manager at Risk immediately terminate the contract with the Subcontractor.

A contract terminated under the provisions of this section is not a breach of contract and may not be considered such. Any contract termination under the provisions of this section may be challenged to Section 448.095(2)(d), Florida Statute. Construction Manager at Risk acknowledges upon termination of this agreement by the County for violation of this section by Construction Manager at Risk, Construction Manager at Risk may not be awarded a public contract for at least one (1) year. Construction Manager at Risk acknowledges that Construction Manager at Risk is liable for any additional costs incurred by the County as a result of termination of any contract for a violation of this section.

Construction Manager at Risk or Subcontractor must insert in any subcontracts the clauses set forth in this section, requiring the subcontracts to include these clauses in any lower tier subcontracts. Construction Manager at Risk is responsible for compliance by any Subcontractor or Lower Tier Subcontractor with the clause set forth in this section.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 6 - CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

6.1 OWNER'S RIGHT TO PERFORM CONSTRUCTION AND TO AWARD SEPARATE CONTRACTS

1) The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and to award separate contracts in connection with other portions of the Project or other construction or operations on the site under Conditions of the Contract identical or substantially similar to these including those portions related to insurance and waiver of subrogation. If the Construction Manager at Risk claims that delay or additional cost is involved because of such action by the Owner, the Construction Manager at Risk must make such Claim as provided in Article 15.
2) When separate contracts are awarded for different portions of the Project or other construction or operations on the site, the term "Contractor" in the Contract Documents in each case will mean the Contractor who executes each separate Owner-Contractor Agreement.
3) The Owner will provide for coordination of the activities of the Owner's own forces and of each separate contractor with the Work of the Construction Manager at Risk, who must cooperate with them. The Construction Manager at Risk must participate with other separate contractors and the Owner in reviewing their construction schedules. The Construction Manager at Risk must make any revisions to the construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules will then constitute the schedules to be used by the Construction Manager at Risk, separate contractors and the Owner until subsequently revised.
4) Unless otherwise provided in the Contract Documents, when the Owner performs construction or operations related to the Project with the Owner's own forces, the Owner will be deemed to be subject to the same obligations and to have the same rights that apply to the Construction Manager at Risk under the Conditions of the Contract, including, without excluding others, those stated in Article 3, this Article 6 and Articles 10, 11 and 12.

6.2 MUTUAL RESPONSIBILITY

1) The Construction Manager at Risk must afford the Owner and separate contractors' reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities and must connect and coordinate the Construction Manager at Risk construction and operations with theirs as required by the Contract Documents.
2) If part of the Construction Manager at Risk Work depends for proper execution or results upon construction or operations by the Owner or a separate contractor, the Construction Manager at Risk must, prior to proceeding with that portion of the Work, promptly report to the Design Professional apparent discrepancies or defects in such other construction that would render it unsuitable for such proper execution and results. Failure of the Construction Manager at Risk to report will constitute an acknowledgment that the Owner's or separate contractors completed or partially completed construction is fit and proper to receive the Construction Manager at Risk Work, except as to defects not then reasonably discoverable.
3) The Construction Manager at Risk must reimburse the Owner for costs the Owner incurs that are payable to a separate contractor because of the Construction Manager at Risk delays, improperly timed activities or defective construction.
4) The Construction Manager at Risk must promptly remedy damage the Construction Manager at Risk wrongfully causes to completed or partially completed construction or to property of the Owner or separate contractors as provided in Section 10.2.5.
5) N/A

6.3 OWNER'S RIGHT TO CLEAN UP

If a dispute arises among the Construction Manager at Risk, separate contractors and the Owner as to the responsibility under their respective contracts for maintaining the premises and surrounding area free from waste materials and rubbish, the Owner may clean up and allocate the cost among those responsible.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 7 - **CHANGES IN THE WORK**

7.1 GENERAL

1) Changes in the Work may be accomplished after execution of the Contract, and without invalidating the Contract, by Change Order, Contingency Authorization, or order for a minor change in the Work, subject to the limitations stated in this Article 7 and elsewhere in the Contract Documents.

2) A Change Order will be based upon agreement among the Owner, Construction Manager at Risk and Design Professional; a Contingency Authorization requires agreement by the Owner and Design Professional and may or may not be agreed to by the Construction Manager at Risk; an order for a minor change in the Work may be issued by the Owner's Representative.

3) Changes in the Work must be performed under applicable provisions of the Contract Documents, and the Construction Manager at Risk must proceed promptly, unless otherwise provided in the Change Order, Contingency Authorization, or order for a minor change in the Work.

7.2 CHANGE ORDERS

1) A Change Order is a formal written instrument prepared by the Construction Manager at Risk, approved by the Design Professional, and signed by the Owner, Construction Manager at Risk and Design Professional stating their agreement upon all of the following:

   A. The change in the Work; and

   B. The amount of the increase to the Guaranteed Maximum Price; and

   C. The extent of the adjustment, if any, in the Contract Time.

   A price quote for a Change Order will not be considered valid and will be rejected unless it is received in response to a written County request in accordance with the processes required by this Agreement. The County will not make any such request until the County and the Contractor have first established agreement about the contents and administrative requirements of the proposed Change Order, which will include at a minimum details about the proposed modifications to the scope of work, available budget and appropriations applicable to the change, and all other requirements established by the County for proceeding with the Change Order. Nothing in this section should be construed to prevent the Construction Manager at Risk from requesting that the County issue a Change Order, but any price quotes submitted in violation of this provision does not constitute a price quote effective to start the timeframes in s. 218.755 Florida Statutes.

7.3 CONTINGENCY AUTHORIZATIONS AND ALLOWANCES

1) A Contingency Authorization is a written authorization prepared by the Construction Manager at Risk and signed by the Owner's Representative and Design Professional, directing a change in the Work executed in the form of a Contingency Authorization, a prior written release by the Owner's Representative of contingency funds allocated in the line item in the established Guaranteed Maximum Price. The Owner's Representative may authorize the use of contingency funds without invalidating the Contract and order changes in the Work within the general scope of the Contract consisting of additions, deletions or other revisions. The Contingency Authorization line item in the Schedule of Values will be adjusted by the Construction Manager at Risk to reflect the amount(s) of contingency use authorized by the Owner's Representative.

2) Expenditure of allowances within the Guaranteed Maximum Price as indicated in the Schedule of Values will be as authorized in writing by the Owner's Representative.

7.4 MINOR CHANGES IN THE WORK

Minor changes in the Work not involving adjustment in the Contract Sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents may be approved by the Owner's Representative. Such changes will be effected by written order signed by the Owner's Representative upon recommendation of the Design Professional and will be binding on the Owner and Construction Manager at Risk.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 8 - **TIME**

8.1 DEFINITIONS

1) Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.
2) The date of commencement of the Work is the date established in the Notice to Proceed issued by the Owner.
3) The date of Substantial Completion is the date certified by the Design Professional in accordance with Section 9.8.
4) The term “day” as used in the Contract Documents will mean calendar day unless otherwise specifically defined.

8.2 PROGRESS AND COMPLETION

1) Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement the Construction Manager at Risk confirms that the Contract Time is a reasonable period for performing the Work.
2) The Construction Manager at Risk must not, except by agreement or instruction of the Owner in writing, commence operations on the site or elsewhere prior to the effective date of insurance required by Article 11 to be furnished by the Construction Manager at Risk (except the Construction Manager at Risk will not be required to provide Builder’s Risk Insurance until the date of commencement of construction of physical assets attributable to the Owner).
3) The Construction Manager at Risk must proceed expeditiously with sufficient forces and must achieve Substantial Completion within the Contract Time.

8.3 DELAYS AND EXTENSIONS OF TIME

1) If the Construction Manager at Risk is delayed at any time in the commencement or progress of the Work by an act or neglect of the Owner or Design Professional, or of an employee of either, or of a separate contractor employed by the Owner; or by changes ordered in the Work; or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Construction Manager at Risk control; or by delay authorized by the Owner, then the Construction Manager at Risk may make a Claim.
2) Claims relating to time must be made in accordance with applicable provisions of Article 15.
3) N/A

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 9 - **PAYMENTS AND COMPLETION**

9.1 CONTRACT SUM

The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the Owner to the Construction Manager at Risk for performance of the Work under the Contract Documents.

9.2 SCHEDULE OF VALUES

Where the Contract is based on a stipulated sum or Guaranteed Maximum Price, the Construction Manager at Risk must include in the Guaranteed Maximum Price package submitted to Owner a Schedule of Values allocating the entire Contract Sum to the various portions of the Work as previously approved by the Owner and Design Professional. This Schedule of Values, once approved, will be used as a basis for reviewing the Construction Manager at Risk Applications for Payment (the percentage of completion of each individual line item in the Schedule of Values will be listed and submitted in each Application for Payment).

9.3 APPLICATIONS FOR PAYMENT

1) The Construction Manager at Risk must submit to the Design Professional an Application for Payment prepared on the basis of the approved Schedule of Values, if required under Section 9.2, for completed portions of the Work. Such application must be notarized, if required, and must reflect retainage if provided for in the Contract Documents.

    A. As provided in Section 7.3, such applications may include requests for payment on account of changes in the Work that have been properly authorized by Contingency Authorizations.

    B. Each Application for Payment must include an updated Critical Path construction schedule indicating the total work or the percentage of total work completed per the Application for Payment date. The updated schedule must be based off the original GMP approved construction schedule (as it may be formally amended by mutual written agreement of the parties pursuant to the terms of this Agreement) and must show a relationship to the original Substantial Completion date and Contract Time (as it may have been formally amended by the parties). Changes made to the schedule must be summarized in a written format and submitted to the owner with each Application for Payment. Notwithstanding approval of any Application for Payment, changes shown to the GMP approved construction schedule accompanying the Application for Payment are not to be considered a waiver of any or all rights that Owner may have to enforce the original GMP approved construction schedule. Formal changes to the GMP approved construction schedule Substantial Completion date and Contract Time must be approved by the County Administrator or Board of County Commissioners as may be applicable in accordance with County Code.

2) Unless otherwise provided in the Contract Documents, payments must be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner in the Contract Documents, payment may similarly be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site must be conditioned upon compliance by the Construction Manager at Risk with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and must include the costs of applicable insurance, storage and transportation to the site for such materials and equipment stored off the site.

3) The Construction Manager at Risk warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Construction Manager at Risk further warrants by virtue of an executed Release and Affidavit (Exhibit E) that, upon submittal of an Application for Payment, all Work for which Certificates for Payment have been previously issued and payments received from the Owner must, to the best of the Construction Manager at Risk knowledge, information and belief, be free and clear of liens, claims, security interests or encumbrances in favor of the Construction Manager at Risk, Subcontractors, material suppliers, or other persons or entities making a claim by reason of having provided labor, materials and equipment relating to the Work.

9.4 CERTIFICATES FOR PAYMENT

A. Each of the Construction Manager at Risk Applications for Payment must be submitted to the Design Professional. All applications for Payment will be processed in accordance with the Local Government Prompt Payment Act, Section 218.70, et. seq. of the Florida State Statutes.

B. The issuance of a Certificate for Payment will constitute a representation by the Design Professional to the Owner, based on the Design Professional's evaluation of the Work and the data comprising the Application for Payment, that, to the best of the Design Professional's knowledge, information and belief, the Work has progressed to the point indicated and that the quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion and to specific qualifications expressed by the Design Professional. The issuance of a Certificate for Payment will further constitute a representation that the Construction Manager at Risk is entitled to payment in the amount certified.

9.5 **DECISIONS TO WITHHOLD CERTIFICATION**

A. The Design Professional may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Design Professional's opinion the representations to the Owner required by Section 9.4.2 cannot be made. If the Design Professional is unable to certify payment in the amount of the Application, the Design Professional will notify the Construction Manager at Risk and Owner as provided in Section 9.4.1. If the Construction Manager at Risk and Design Professional cannot agree on a revised amount, the Design Professional will promptly issue a Certificate for Payment for the amount for which the Design Professional is able to make such representations to the Owner. The Design Professional may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Design Professional's opinion to protect the Owner from loss for which the Construction Manager at Risk is responsible, including loss resulting from acts and omissions described in Section 3.3.2, because of

   i. defective Work not remedied;

   ii. third party claims filed or reasonable evidence indicating probable filing of such claims unless security acceptable to the Owner is provided by the Construction Manager at Risk;

   iii. failure of the Construction Manager at Risk to make payments properly to Subcontractors or for labor, materials or equipment;

   iv. reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;

   v. damage to the Owner or a separate contractor;

   vi. reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or

   vii. repeated failure to carry out the Work in accordance with the Contract Documents.

B. When the above reasons for withholding certification are removed, certification will be made for amounts previously withheld.

C. If the Design Professional withholds certification for payment under Section 9.5.1.3, the Owner may, at its sole option, issue joint checks to the Construction Manager at Risk and to any Subcontractor or material or equipment suppliers to whom the Construction Manager at Risk failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, the Owner will notify the Design Professional and the Design Professional will reflect such payment on the next Certificate for Payment.

9.6 **PROGRESS PAYMENTS**

A. After the Design Professional has issued a Certificate for Payment, the Owner will make payment in accordance with the Local Government Prompt Payment Act, Section 218.70, et.seq. of the Florida State Statutes.

B. The Construction Manager at Risk must pay each Subcontractor no later than seven (7) days after receipt of payment from the Owner the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Construction Manager at Risk on account of the Subcontractor's portion of the Work. The Construction Manager at Risk must, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in a similar manner.

C. The Design Professional will, on request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Construction Manager at Risk and action taken thereon by the Design Professional and Owner on account of portions of the Work done by such Subcontractor.

D. The Owner has the right to request written evidence from the Construction Manager at Risk that the Construction Manager at Risk has properly paid Subcontractors and material and equipment suppliers amounts paid by the Owner to the Construction Manager at Risk for subcontracted Work. If the Construction Manager at Risk fails to furnish such evidence within seven (7) days, the Owner will have the right to contact Subcontractors to ascertain whether they have been properly paid. Neither the Owner nor Design Professional will have an obligation to pay or to see to the payment of money to a Subcontractor, except as may otherwise be required by law.

E. Construction Manager at Risk payments to material and equipment suppliers will be treated in a manner similar to that provided in Sections 9.6.2, 9.6.3 and 9.6.4.

F. A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner will not constitute acceptance of Work not in accordance with the Contract Documents.

9.7 SUBSTANTIAL COMPLETION

A. Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents and a Certificate of Occupancy (CO) or a TCO which may be awarded from the jurisdiction responsible to issue such CO or TCO as described in Section 6.5.2 in the Agreement has been obtained by the Construction Manager at Risk and the Owner can occupy or utilize the Work for its intended use.

B. When the Construction Manager at Risk considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Construction Manager at Risk must prepare and submit to the Design Professional a “Punch List.” The Punch List is a comprehensive list of items, required to make the Work complete, satisfactory and acceptable, to be completed or corrected prior to final payment. Failure to include an item on such Punch List does not alter the responsibility of the Construction Manager at Risk to complete all Work in accordance with the Contract Documents. The Punch List will be reviewed by the Design Professional and Owner’s Representative will accept, modify or reject the Punch List within the timeframes provided by Florida State Statutes, Section 218.735(7)(a). Construction Manager at Risk must be available to accompany the Design Professional and the Owner’s Representative on a walk-through of the entire Project, or phase of the Project determined by the Construction Manager at Risk to be Substantially Complete, within five (5) days of the issuance of the certificate of substantial completion, at such time during regular working hours designated by the Design Professional. In the event that the Construction Manager at Risk is not available, the ability to accompany the Design Professional and the Owner’s Representative will be deemed waived. The purpose of the walkthrough is to allow discussion, clarification or explanation relative to items which may become part of the Punch List as it is developed or modified.

C. Upon receipt of the Construction Manager at Risk list and a Certificate of Occupancy or a TCO from the Building Department having jurisdiction over the Project, the Design Professional will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the Design Professional’s inspection discloses any item, whether or not included on the Construction Manager at Risk list, which is not sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, Design Professional will notify Construction Manager at Risk in writing giving the reasons therefore. The Construction Manager at Risk must, before issuance of the Certificate of Substantial Completion, complete or correct all items not sufficiently complete, upon such notification by the Design Professional. In such case, the Construction Manager at Risk must then submit a request for another inspection by the Design Professional to determine Substantial Completion. In such case, Construction Manager at Risk must pay the costs of all additional Substantial Completion inspections.

   The Punch List will be completed by the Design Professional within the timeframes provided by Florida State Statute, Section 218.735(7)(a). Construction Manager at Risk must be available to accompany the Design Professional on a walk-through of the entire Project, or phase of the Project determined by the Construction Manager at Risk to be Substantially Complete, within five (5) days of the issuance of the certificate of substantial completion at such time during regular working hours designated by the Design Professional. In the event that the Construction Manager at Risk is not available, the ability to accompany the Design Professional will be deemed waived. The purpose of the walkthrough is to allow discussion, clarification or explanation relative to items which may become part of the Punch List as it is developed.

D. When the Work or designated portion thereof is substantially complete and a Certificate of Occupancy or a TCO has been issued, the Design Professional will prepare a Certificate of Substantial Completion that will establish the date of Substantial Completion, and will fix the time within which the Construction Manager at Risk must finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents will commence

on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

E. The Certificate of Occupancy and the Certificate of Substantial Completion must be submitted to the Owner and Construction Manager at Risk for their written acceptance of responsibilities assigned to them in such Certificate. Upon such acceptance and consent of surety, if any, the Owner will make payment of retainage applying to such Work or designated portion thereof. Such payment will be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

9.8 PARTIAL OCCUPANCY OR USE

A. Upon Substantial Completion, the Owner may occupy or use any portion of the Work, provided such occupancy or use is authorized by public authorities having jurisdiction over the Project (through a Certificate of Occupancy). When the Construction Manager at Risk considers a portion substantially complete, the Construction Manager at Risk must prepare and submit a list to the Design Professional as provided under Section 9.8.2. Consent of the Construction Manager at Risk to partial occupancy or use must not be unreasonably withheld.

B. Immediately prior to such partial occupancy or use, the Owner, Construction Manager at Risk, in coordination with the Design Professional, must jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

C. Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work will not constitute acceptance of Work not complying with the requirements of the Contract Documents.

9.9 FINAL COMPLETION AND FINAL PAYMENT

A. Upon receipt of the Construction Manager at Risk written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the Design Professional will promptly make such inspection and, when the Design Professional finds the Work acceptable under the Contract Documents and the Contract fully performed, the Design Professional will promptly issue a final Certificate for Payment stating that to the best of the Design Professional's knowledge, information and belief, and on the basis of the Design Professional's on-site visits and inspections, the Work has been completed in accordance with terms and conditions of the Contract Documents and that the entire balance found to be due the Construction Manager at Risk and noted in the final Certificate is due and payable. The Design Professional's final Certificate for Payment will constitute a further representation that conditions listed in Section 9.10.2 as precedent to the Construction Manager at Risk being entitled to final payment have been fulfilled.

B. Neither final payment nor any remaining retained percentage will become due until the Construction Manager at Risk submits to the Design Professional (1) a properly executed and notarized final release (conditioned only upon receipt of final payment) in the form of the Release and Affidavit attached to the Agreement as Exhibit E, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect and will not be canceled or allowed to expire until at least 30 days prior written notice has been given to the Owner, (3) a written statement that the Construction Manager at Risk knows of no substantial reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) a duly executed copy of the surety's consent to final payment, and (5), if required by the Owner, other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of liens, claims, security interests or encumbrances arising out of the Contract, to the extent and in such form as may be designated by the Owner. If a Subcontractor refuses to furnish a release or waiver required by the Owner, the Construction Manager at Risk may furnish a bond satisfactory to the Owner to indemnify the Owner against such lien. If such lien remains unsatisfied after payments are made, the Construction Manager at Risk must refund to the Owner all money that the Owner may be compelled to pay in discharging such lien, including all costs and reasonable attorneys' fees.

C. The making of final payment will not constitute a waiver of Claims by the Owner.

D. Acceptance of final payment by the Construction Manager at Risk, a Subcontractor or material supplier will constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

ARTICLE 10 - **PROTECTION OF PERSONS AND PROPERTY**

10.1 SAFETY PRECAUTIONS AND PROGRAMS

The Construction Manager at Risk will be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of the Contract.

10.2 SAFETY OF PERSONS AND PROPERTY

1) The Construction Manager at Risk must take reasonable precautions for safety of, and must provide reasonable protection to prevent damage, injury or loss to
    A. employees on the Work and other persons who may be affected thereby;
    B. the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Construction Manager at Risk or the Construction Manager at Risk Subcontractors or Sub-subcontractors; and
    C. other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.
2) The Construction Manager at Risk must comply with and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.
3) The Construction Manager at Risk must erect and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities.
4) When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Construction Manager at Risk must exercise utmost care and carry on such activities under supervision of properly qualified personnel.
5) The Construction Manager at Risk must promptly remedy damage and loss to property referred to in Sections 10.2.1.2 and 10.2.1.3 caused in whole or in part by the Construction Manager at Risk, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Construction Manager at Risk is responsible under Sections 10.2.1.2 and 10.2.1.3, except damage or loss attributable to acts or omissions of the Owner or Design Professional or anyone directly or indirectly employed by either of them, or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Construction Manager at Risk. The foregoing obligations of the Construction Manager at Risk are in addition to the Construction Manager at Risk obligations under Section 3.18.
6) The Construction Manager at Risk must designate a responsible member of the Construction Manager at Risk organization at the site whose duty will be the prevention of accidents. This person must be the Construction Manager at Risk superintendent unless otherwise designated by the Construction Manager at Risk in writing to the Owner and Design Professional.
7) The Construction Manager at Risk must not permit any part of the construction or site to be loaded so as to cause damage or create an unsafe condition.
8) INJURY OR DAMAGE TO PERSON OR PROPERTY

If either party suffers injury or damage to person or property because of an act or omission of the other party, or of others for whose acts such party is legally responsible, written notice of such injury or damage, whether or not insured, must be given to the other party within a reasonable time not exceeding 21 days after discovery. The notice must provide sufficient detail to enable the other party to investigate the matter.

10.3 HAZARDOUS MATERIALS

1) The Construction Manager at Risk is responsible for compliance with any requirements included in the Contract Documents regarding hazardous materials. If the Construction Manager at Risk encounters a hazardous material or substance not addressed in the Contract Documents and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Construction Manager at Risk, the Construction Manager at Risk must, upon recognizing the condition, immediately stop Work in the affected area and report the condition to the Owner and Design Professional in writing.

2) Upon receipt of the Construction Manager at Risk written notice, the Owner will authorize the services of an environmental consultant or licensed laboratory to verify the presence or absence of the material or substance reported by the Construction Manager at Risk and, in the event such material or substance is found to be present, to cause it to be rendered harmless, which may include termination of the Project. Unless otherwise required by the Contract Documents, the Owner will furnish in writing to the Construction Manager at Risk and Design Professional the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the task of removal or safe containment of such material or substance. The Construction Manager at Risk and the Design Professional will promptly reply to the Owner in writing stating whether or not either has reasonable objection to the persons or entities proposed by the Owner. If either the Construction Manager at Risk or Design Professional has an objection to a person or entity proposed by the Owner, the Owner will propose another to whom the Construction Manager at Risk and the Design Professional have no reasonable objection. When the material or substance has been rendered harmless, Work in the affected area may resume upon written agreement of the Owner and Construction Manager at Risk. Within the limits of Contingency Authorization, the Owner will reimburse the Construction Manager at Risk reasonable additional costs of shut-down, delay and start-up, and by Change Order the Contract Time will be extended appropriately in accordance with Article 7.
3) The Owner will not be responsible under this Section 10.3 for materials or substances the Construction

   Manager brings to the site. The Owner will not be responsible for the Construction Manager at Risk fault or negligence in the use and handling of materials or substances required by the Contract Documents.

4) The Construction Manager at Risk must indemnify the Owner for the cost and expense the Owner incurs (1) for remediation of a material or substance the Construction Manager at Risk brings to the site and negligently handles, or (2) where the Construction Manager at Risk fails to perform its obligations under Section 10.3.1.

10.4 **EMERGENCIES**

In an emergency affecting safety of persons or property, the Construction Manager at Risk will act, at the Construction Manager at Risk discretion, to prevent threatened damage, injury or loss. Additional compensation or extension of time claimed by the Construction Manager at Risk on account of an emergency will be determined as provided in Article 15 and Article 7.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 11 - **INSURANCE AND BONDS**

11.1 CONSTRUCTION MANAGER AT RISK INSURANCE

1) Construction Manager at Risk will provide, pay and maintain the types of insurances as required in Exhibit K of the Agreement. If Builders Risk is determined to be necessary by County, Construction Manager at Risk will abide with section 11.4 in addition to insurance requirements described in Exhibit K of the Agreement.

2) The Construction Manager at Risk must immediately submit to the Owner and Design Professional a copy of all accident reports arising out of injuries to its employees or those of any firm or individual to whom it may have subcontracted a portion of the Work, or any personal injuries or property damages arising or alleged to have arisen on account of any work by the Construction Manager at Risk under the Contract Documents, upon request.

11.2 WAIVERS OF SUBROGATION

1) The Construction Manager at Risk must waive all rights against the Owner for damages caused by perils covered by insurance provided under Article 8 to the extent covered by such insurance. The Construction Manager at Risk must require similar waivers from all subcontractors and their sub-subcontractors.

2) The Construction Manager at Risk must waive all rights against the Owner for loss or damage to any equipment used in connection with the Project and covered by any property insurance. The Construction Manager at Risk will require similar waivers from all subcontractors and their sub-subcontractors.

3) As an alternate to the subcontractor bond requirement, as indicated in section 11.6, Contractor may utilize subcontractor default insurance (SDI). Policy terms and limits must be acceptable to Owner. Any expense from SDI deductibles or other related costs may not be cause for an increase to the Guaranteed Maximum Price.

11.3 INDEMNIFICATION

To the full extent permitted by Florida law, the Construction Manager at Risk does hereby agree to indemnify, defend, and save harmless the Owner and members of its Board of County Commissioners, its officers, and employees from and against all losses and all claims, demands, payments, suits, actions, recoveries, expenses, attorney's fees, and judgments of every nature and description, including claims for property damage and claims for injury to or death of persons, or on account of, any claim or amounts recovered under the "Workers' Compensation Law" or of any other laws, bylaws, ordinances, orders or decrees brought or recovered against the Owner by reason or any act of negligence or omission of the Construction Manager at Risk, its agents, or employees, or by any person, firm, or corporation, or to whom any portion of the Work is subcontracted by the Construction Manager at Risk or resulting from use by the Construction Manager at Risk, or by any one for whom the Construction Manager at Risk is legally liable, of any materials, tools, machinery, or other property of the Owner. The Construction Manager at Risk agrees that the first ten dollars ($10.00) of compensation received under this contract represents specific consideration for this indemnification obligation.

11.4 PROPERTY INSURANCE (BUILDER'S RISK INSURANCE OR INSTALLATION FLOATER COVERAGE AS APPLICABLE)

1) Builder's Risk Insurance, on an all risk completed value form, must be provided by the Construction Manager at Risk on the Project for those portions of the Guaranteed Maximum Price (GMP) devoted specifically to materials, supplies, equipment, and constructed facilities until such time as the County assumes ownership of the facilities by an official and formal sign-off, with the Owner, Construction Manager at Risk, and Design Professional as named insures and including the interests of the subcontractors and sub-subcontractors as their interests may appear.

    A. Builder's Risk Insurance must include, without limitation, insurance against the perils of fire (with extended coverage) and physical loss or damage including, without duplication of coverage, theft, vandalism, malicious mischief, collapse, windstorm, false work, testing and startup, temporary buildings and debris removal including demolition occasioned by enforcement of any applicable legal requirements, and must cover reasonable compensation for Design Professional's and Construction Manager at Risk services and expenses required as a result of such insured loss. The Owner, at its discretion, may require that the perils of earthquake, sinkhole and flood be added to the Builder's Risk policy. If added, the amounts of coverage may be less than the Contract Agreement.

    B. Loss, if any, under this coverage will be adjusted with the Owner with the cooperation of the Construction Manager at Risk with the claim check made payable to the Owner for its own interest and the interests of the Construction Manager at Risk and all other insured parties.

C. Any deductibles under the Builder's Risk policy will be the sole responsibility of the Construction Manager at Risk.

D. This Builder's Risk Insurance will cover portions of the Work stored off the site, and also portions of the Work in transit.

E. Partial occupancy or use in accordance with Section 9.9 must not commence until the insurance company or companies providing Builder's Risk Insurance have consented to such partial occupancy or use by endorsement or otherwise. The Construction Manager at Risk must take reasonable steps to obtain consent of the insurance company or companies and must, without mutual written consent, take no action with respect to partial occupancy or use that would cause cancellation, lapse or reduction of insurance.

F. Builder's Risk Insurance will be incorporated into the Agreement at the time the Guaranteed Maximum Price (GMP) is approved, and will become effective within five (5) business days following the execution of the Guaranteed Maximum Price Amendment by the Owner. The Owner will have the right to review the Builder's Risk Insurance proposed by the Construction Manager at Risk to verify the cost, coverage, and carrier.

G. On all renovation projects in existing facilities, Installation Floater Coverage will be provided by the Construction Manager at Risk on the Project for those portions of the Guaranteed Maximum Price (GMP) devoted specifically to materials, supplies, equipment, and constructed facilities until such time as the County assumes ownership of the facilities by an official and formal sign-off, with the Owner, Construction Manager at Risk, and Design Professional as named insures and including the interests of the subcontractors and sub-subcontractors as their interests may appear.

2) Boiler and Machinery Insurance. N/A

3) Loss of Use Insurance. N/A

4) The Construction Manager at Risk will be entitled to request approval from the Owner to include insurance for risks in the policy other than those described herein.

5) If during the Project construction period the Owner insures properties, real or personal or both, at or adjacent to the site by property insurance under policies separate from those insuring the Project, or if after final payment property insurance is to be provided on the completed Project through a policy or policies other than those insuring the Project during the construction period, the Owner will waive all rights in accordance with the terms of Sections 11.2 and 11.3 for damages caused by fire or other causes of loss covered by this separate property insurance.

6) Before an exposure to loss may occur, the Owner will file with the Construction Manager at Risk a copy of each policy that includes insurance coverages required by this Section 11.4. Each policy will contain all generally applicable conditions, definitions, exclusions and endorsements related to this Project. Each policy will contain a provision that the policy will not be canceled or allowed to expire, and that its limits will not be reduced, until at least 30 days prior written notice has been given to the Construction Manager at Risk.

11.5 **PERFORMANCE BOND AND PAYMENT BOND**

1) Consistent with 8.3.1 of the Agreement and within five (5) business days after the Guaranteed Maximum Price Amendment is approved and executed by both parties, the Construction Manager at Risk must provide the Owner with Performance and Payment Bonds in the form prescribed in Exhibit C and Exhibit D, in the amount of 100% of the Guaranteed Maximum Price, the costs of which are to be paid by the Construction Manager at Risk. The Performance and Payment Bonds must be underwritten by a surety, must comply with the following provisions, and must be otherwise acceptable to the Owner:

   The Surety Company must have a currently valid Certificate of Authority issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.

   The Surety Company must have a currently valid Certificate of Authority issued by the United States Department of Treasury under Sections 9304 to 9308 of Title 31 of the United States Code.

   The Surety Company must be in full compliance with the provisions of the Florida Insurance Code.

   The Surety Company must have at least twice the minimum surplus and capital required by the Florida Insurance Code at the time the invitation to bid is issued.

If the Contract Award Amount exceeds $500,000.00, the Surety Company must also comply with the following provisions:

A. The Surety Company must have at least the following minimum ratings in the latest issue of Best's Key Rating Guide:

POLICY HOLDER'S CONTRACT	REQUIRED FINANCIAL RATING	RATING
\$500,000 to \$1,000,000	A	CLASS IV
\$1,000,000 to \$2,500,000	A	CLASS V
\$2,500,000 to \$5,000,000	A	CLASS V
\$5,000,000 to \$10,000,000	A	CLASS VII
\$10,000,000 to \$25,000,000	A	CLASS VIII
\$25,000,000 to \$50,000,000	A	CLASS IX
\$50,000,000 to \$75,000,000	A	CLASS X

B. The Surety Company must not expose itself to any loss on any one risk in an amount exceeding 10 percent of its surplus to policyholders, provided:

a. Any risk or portion of any risk being reinsured will be deducted in determining the limitation of the risk as prescribed in this section. These minimum requirements will apply to the reinsuring carrier providing authorization or approval by the State of Florida, Department of Insurance to do business in this state have been met.

b. In the case of the surety insurance company, in addition to the deduction for reinsurance, the amount assumed by any co-surety, the value of any surety deposited, pledged, or held subject to the consent of the surety and for the protection of the surety will be deducted.

2) Subcontractors over $100,000.00 will be bonded in a form acceptable to the Owner. The Owner will be identified as an oblige. The Subcontractor Bonds will be acceptable to the Owner only if the following are met: The Surety Company (i) is licensed to do business in the State of Florida; (ii) holds a certificate of authority authorizing it to write surety bonds in this state; (iii) has twice the minimum surplus and capital required by the Florida Insurance Code at the time the invitation to bid is issued; (iv) is otherwise in compliance with the provisions of the Florida Insurance Code; (v) holds a currently valid certificate of authority issued by the United States Department of Treasury under 31 U.S.C. §§9304-9308.

3) If the surety for any bond furnished by the Construction Manager at Risk is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Documents, the Construction Manager at Risk must, within five (5) calendar days thereafter, substitute another bond and surety, both of which will be subject to the Owner's approval.

ARTICLE 12 - **UNCOVERING AND CORRECTION OF WORK**

12.1 UNCOVERING OF WORK

1) If a portion of the Work is covered contrary to the Design Professional's request or to requirements specifically expressed in the Contract Documents, it must, if requested in writing by the Design Professional, be uncovered for the Design Professional's examination and be replaced at the Construction Manager at Risk expense without change in the Contract Time.

2) If a portion of the Work has been covered that the Design Professional has not specifically requested to examine prior to its being covered, the Design Professional may request to see such Work and it must be uncovered by the Construction Manager at Risk. If such Work is in accordance with the Contract Documents, costs of uncovering and replacement will, by appropriate Change Order, be at the Owner's expense. If such Work is not in accordance with the Contract Documents, such costs and the cost of correction will be at the Construction Manager at Risk expense unless the condition was caused by the Owner or a separate contractor in which event the Owner will be responsible for payment of such costs from Owner's Contingency.

12.2 CORRECTION OF WORK

1) BEFORE OR AFTER SUBSTANTIAL COMPLETION

   The Construction Manager at Risk must promptly correct Work rejected by the Design Professional or failing to conform to the requirements of the Contract Documents, whether discovered before or after Substantial Completion and whether or not fabricated, installed or completed. Costs of correcting such rejected Work, including additional testing and inspections, the cost of uncovering and replacement, and compensation for the Design Professional's services and expenses made necessary thereby, will be at the Construction Manager at Risk expense.

2) AFTER SUBSTANTIAL COMPLETION

   A. In addition to the Construction Manager at Risk obligations under Section 3.5, if, within one year after the date of Substantial Completion of the Work or designated portion thereof or after the date for commencement of warranties established under Section 9.9.1, or by terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Construction Manager at Risk must correct it promptly after receipt of written notice from the Owner to do so unless the Owner has previously given the Construction Manager at Risk a written acceptance of such condition. The Owner will give such notice to correct such Work promptly after discovery of the condition. During the one-year period for correction of Work, if the Owner fails to notify the Construction Manager at Risk and give the Construction Manager at Risk an opportunity to make the correction, the Owner waives the rights to require correction by the Construction Manager at Risk and to make a claim for breach of warranty. If the Construction Manager at Risk fails to correct nonconforming Work within a reasonable time during that period after receipt of notice from the Owner or Design Professional, the Owner may correct it in accordance with Section 2.4.

   B. The one-year period for correction of Work will be extended with respect to portions of Work first performed after Substantial Completion by the period of time between Substantial Completion and the actual completion of that portion of the Work.

   C. The one-year period for correction of Work will not be extended by corrective Work performed by the Construction Manager at Risk pursuant to this Section 12.2.

3) The Construction Manager at Risk must remove from the site portions of the Work that are not in accordance with the requirements of the Contract Documents and are neither corrected by the Construction Manager at Risk nor accepted by the Owner.

4) The Construction Manager at Risk will bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the Owner or separate contractors caused by the Construction Manager at Risk correction or removal of Work that is not in accordance with the requirements of the Contract Documents.

5) Nothing contained in this Section 12.2 will be construed to establish a period of limitation with respect to other obligations the Construction Manager at Risk has under the Contract Documents. Establishment of the one-year

period for correction of Work as described in Section 12.2.2 relates only to the specific obligation of the Construction Manager at Risk to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Construction Manager at Risk liability with respect to the Construction Manager at Risk obligations other than specifically to correct the Work.

12.3 ACCEPTANCE OF NONCONFORMING WORK

If the Owner prefers to accept Work that is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable. Such adjustment will be effected whether or not final payment has been made.

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 13 - **MISCELLANEOUS PROVISIONS**

13.1 GOVERNING LAW

The Contract will be governed by the laws of the State of Florida.

13.2 SUCCESSORS AND ASSIGNS

1) The Owner and Construction Manager at Risk respectively bind themselves, their partners, successors, assigns and legal representatives to covenants, agreements and obligations contained in the Contract Documents. Neither party to the Contract will assign the Contract as a whole without written consent of the other. If either party attempts to make such an assignment without such consent, that party will nevertheless remain legally responsible for all obligations under the Contract. If the Construction Manager at Risk does, with approval of the Owner, assign this Contract or any part thereof, it will require that its assignee be bound to it and to assume toward the Construction Manager at Risk all of the obligations and responsibilities that the Construction Manager at Risk has assumed toward the Owner.

13.3 WRITTEN NOTICE

Written notice will be deemed to have been duly served if delivered in person to the Owner's Representative or the Construction Manager at Risk; or if mailed to the respective addresses below:

For Owner:

Blaine Williams, Assistant County Administrator

Pinellas County Government

315 Court Street, Suite 601

Clearwater, FL 33756

with a copy to Owner's Representative:

Robert Shaw, Owner's Representative

Crawford Cooke Management, LLC

6827 Altamira Street

Coral Gables, FL 33146

For Construction Manager at Risk:

Tim Sewel, Regional Director

Ajax Building Company, LLC

109 Commerce Boulevard

Oldsmar, FL 34667

13.4 RIGHTS AND REMEDIES

1) Duties and obligations imposed by the Contract Documents and rights and remedies available thereunder will be in addition to and not a limitation of duties, obligations, rights and remedies otherwise imposed or available by law.

2) No action or failure to act by the Owner or Construction Manager at Risk will constitute a waiver of a right or duty afforded them under the Contract, nor will such action or failure to act constitute approval of or acquiescence in a breach there under, except as may be specifically agreed in writing.

13.5 TESTS AND INSPECTIONS

1) Tests, inspections and approvals of portions of the Work must be made as required by the Contract Documents and by applicable laws, statutes, ordinances, codes, rules and regulations or lawful orders of public authorities having jurisdiction. Unless otherwise provided, the Construction Manager at Risk must make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate public authority, and will bear all related costs of tests, inspections and approvals. The Construction Manager at Risk must give the Design Professional forty-eight (48) hours prior notice of when and where tests and inspections are to be made so that the Design Professional may be present for such procedures. The Owner will bear costs of tests, inspections or approvals where building codes or applicable laws or regulations prohibit the Owner from delegating their cost to the Construction Manager at Risk.

2) If the Design Professional, Owner or public authorities having jurisdiction determine that portions of the Work require additional testing, inspection or approval not included under Section 13.5.1, the Design Professional will, upon written authorization from the Owner, instruct the Construction Manager at Risk to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Owner, and the Construction Manager at Risk must give forty-eight (48) hours prior notice to the Design Professional of when and where tests and inspections are to be made so that the Design Professional may be present for such procedures. Such costs, except as provided in Section 13.5.3, will be at the Owner's expense.

3) If such procedures for testing, inspection or approval under Sections 13.5.1 and 13.5.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure including those of repeated procedures and compensation for the Design Professional's services and expenses will be at the Construction Manager at Risk expense.

4) Required certificates of testing, inspection or approval must, unless otherwise required by the Contract Documents, be secured by the Construction Manager at Risk and promptly delivered to the Design Professional.

5) If the Design Professional is to observe tests, inspections or approvals required by the Contract Documents, the Design Professional will do so promptly and, where practicable, at the normal place of testing.

6) Tests or inspections conducted pursuant to the Contract Documents must be made promptly to avoid unreasonable delay in the Work.

13.6 **INTEREST**

Payments due and unpaid under the Contract Documents will bear interest from the date payment is due at such rate as the parties may agree upon in writing or, in the absence thereof, at the legal rate prevailing from time to time at the place where the Project is located.

13.7 **PUBLIC RECORD CONTRACTORS DUTY**

If the Construction Manager at Risk has questions regarding the application of Chapter 119, Florida Statutes, to the Construction Manager at Risk's duty to provide public records relating to this agreement, the Construction Manager at Risk will contact:

Pinellas County Board of County Commissioners

Purchasing Division

400 S. Ft. Harrison Ave, 6th Floor,

Clearwater, FL 33756

Public Records Liaison

Email: wharvey@pinellas.gov

EXHIBIT A - GENERAL CONDITIONS OF THE CONTRACT FOR CONSTRUCTION TABLE OF CONTENTS

ARTICLE 14 - **TERMINATION OR SUSPENSION OF THE CONTRACT**

14.1 TERMINATION BY THE CONSTRUCTION MANAGER AT RISK

N/A

14.2 TERMINATION BY THE OWNER FOR CAUSE

1) The Construction Manager at Risk will be considered in material default of the Contract and such default will be considered cause for the Owner to terminate the Contract, in whole or in part, as further set forth in this Article, if the Construction Manager at Risk

   A. fails to begin the Work under the Contract Documents within the time specified herein; or

   B. fails to properly and timely perform the Work as directed by the Owner or the Design Professional or as provided for in the approved Master Project Schedule; or

   C. performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or

   D. discontinues the prosecution of the Work contrary to the requirements of the Contract; or

   E. fails to resume Work which has been suspended within a reasonable time after being notified to do so; or

   F. becomes insolvent or is declared bankrupt or commits any act of bankruptcy; or

   G. allows any final judgment to stand against it unsatisfied for more than ten (10) days; or

   H. makes an assignment for the benefit of creditors; or

   I. fails to obey any applicable codes, laws, ordinances, rules or regulations with respect to the Work; or

   J. fails to promptly pay its subcontractors and suppliers; or

   K. materially breaches any other provision of the Contract Documents.

2) If the Owner determines that the Construction Manager at Risk is in default under this Contract, the Owner will notify the Construction Manager at Risk in writing of the Construction Manager at Risk default(s). If the Owner determines that the Construction Manager at Risk has not remedied and cured the default(s) within seven (7) calendar days following receipt by the Construction Manager at Risk of said written notice, then the Owner, at its option, without releasing or waiving its rights and remedies against the Construction Manager at Risk Sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate the Construction Manager at Risk right to proceed under the Contract, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of the Construction Manager at Risk, take assignments of any of the Construction Manager at Risk subcontracts and purchase orders that the Owner may designate, and complete all or any portion of the Construction Manager at Risk Work by whatever means, method, or agency which the Owner, in its sole discretion, may choose.

3) If the Owner deems any of the foregoing remedies necessary, the Construction Manager at Risk agrees that it will not be entitled to receive any further payments hereunder until after the Work is completed. All monies expended and all of the costs, losses, damages, and extra expenses, including all management, administrative, and other overhead and other direct and indirect expenses (including the Design Professional fees) or damages incurred by the Owner incident to such completion, will be deducted from the unpaid balance of the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, the Construction Manager at Risk agrees to pay promptly to the Owner on demand the full amount of such excess, including costs of collection, and interest thereon at the maximum legal rate of interest paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures, and damages incurred by the Owner to complete the Work, the Construction Manager at Risk will not be entitled to any portion of such excess, except for the unpaid portion of the Construction Management Fee earned and the Cost of Work incurred prior to the Construction Manager at Risk right to continue performance under this Contract being terminated. Any amounts to be paid to the Owner by the Construction Manager at Risk pursuant to this paragraph 14.2.3 will be certified by the Design Professional, upon application, and this obligation for payment will survive termination of the contract.

4) The liability of the Construction Manager at Risk hereunder will extend to and include the full amount of any and all sums paid, expenses and losses uncured, damages sustained, and obligations assumed by the Owner in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, and in

settlement, discharge, or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder. Further, in the event the Owner has exercised its right to terminate due to the Construction Manager at Risk default, the Construction Manager at Risk will be prohibited from bidding or otherwise seeking additional work from the Owner in accordance with the Owner's then current debarment policy.

5) If, after notice of termination of the Construction Manager at Risk right to proceed pursuant to this Article, it is determined for any reason that the Construction Manager at Risk was not in default, or that its default was excusable, or that the Owner is not entitled to the remedies against the Construction Manager at Risk provided herein, then such termination will be deemed a termination for the Owner's convenience and the Construction Manager at Risk remedies against the Owner will be the same as and limited to those afforded the Construction Manager at Risk under Section 14.4.1 below.

14.3 **SUSPENSION BY THE OWNER FOR CONVENIENCE**

1) The Owner will have the right to suspend all or any portions of the Work upon giving the Construction Manager at Risk two (2) calendar days prior written notice of such suspension. If all or any portion of the Work is so suspended, the Construction Manager at Risk sole and exclusive remedy will be to seek an extension to the Contract Time in accordance with the procedures set forth in the Contract Documents. In no event will the Construction Manager at Risk be entitled to any additional compensation or damages except as otherwise expressly provided for in the Contract Documents. In the event that a suspension continues for a period exceeding thirty (30) days, Construction Manager at Risk may, at its option, terminate the Contract as to the portion of Work suspended, or elect to negotiate a Change Order.

14.4 **TERMINATION BY THE OWNER FOR CONVENIENCE**

1) The Owner will have the right to terminate this Contract without cause upon seven (7) calendar days written notice to the Construction Manager at Risk. In the event of such termination for convenience, the Construction Manager at Risk recovery against the Owner will be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but the Construction Manager at Risk will not be entitled to any other or further recovery against the Owner, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

   In the event that conditions arise, such as lack of available funds, which in the Owner's opinion make it advisable and in the public interest to terminate this Agreement, it may do so upon written notice.

ARTICLE 15 - **CLAIMS AND DISPUTES**

15.1 **CLAIMS**

1) DEFINITION

A Claim is a demand or assertion by one of the parties seeking, as a matter of right, payment of money, or other relief with respect to the terms of the Contract and Contract Documents. The term “Claim” also includes other disputes and matters in question between the Owner and Construction Manager at Risk arising out of or relating to the Contract and Contract Documents. The responsibility to substantiate Claims will rest with the party making the Claim.

2) NOTICE OF CLAIMS

Claims by either the Owner or Construction Manager at Risk must be initiated by separate and specific written notice to the other party and to the Design Professional within seven (7) calendar days after the first day of the event giving rise to such claim or after the claimant first recognizes the condition giving rise to the Claim, whichever is later. If this initial written notice is not given, then the claimant will be deemed to have waived the Claim. The claimant must submit written supporting data to the other party and the Design Professional within thirty (30) calendar days after the occurrence (or date when the claimant first noticed the occurrence), unless the other party grants additional time in writing, or else the claimant will be deemed to have waived the Claim. All Claims will be priced in accordance with the provisions of Article 7 hereof.

3) CONTINUING CONTRACT PERFORMANCE

Pending final resolution of a Claim, except as otherwise agreed in writing or as provided in Section 9.7 and Article 14, the Construction Manager at Risk must proceed diligently with performance of the Contract and the Owner will continue to make payments in accordance with the Contract Documents.

4) CLAIMS FOR ADDITIONAL COST

If the Construction Manager at Risk wishes to make a Claim for an increase in the Contract Sum, written notice as provided herein must be given before proceeding to execute the Work. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Section 10.4.

5) CLAIMS FOR ADDITIONAL TIME

Claims for additional time less than thirty (30) days are considered to be de minimus and part of the originally negotiated Contract schedule or GMP Amendment and will not be considered.

A. If the Construction Manager at Risk wishes to make a Claim for an increase in the Contract Time, written notice as provided herein will be given. The Construction Manager at Risk Claim must include an estimate of cost and of probable effect of delay on progress of the Work. In the case of a continuing delay, only one Claim is necessary.

B. If adverse weather conditions are the basis for a Claim for additional time, such Claim must be documented by data substantiating that weather conditions were abnormal for the period of time, could not have been reasonably anticipated and had an adverse effect on the scheduled construction.

6) CLAIMS FOR CONSEQUENTIAL DAMAGES

The Construction Manager at Risk and Owner waive Claims against each other for consequential damages arising out of or relating to this Contract. This mutual waiver includes

A. damages incurred by the Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and

B. damages incurred by the Construction Manager at Risk for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit except anticipated profit arising directly from the Work.

This mutual waiver is applicable, without limitation, to all consequential damages due to either party’s termination in accordance with Article 14. Nothing contained in this Section 15.1.6 will be deemed to

preclude an award of liquidated damages, when applicable, in accordance with the requirements of the Contract Documents.

15.2 ALTERNATIVE DISPUTE RESOLUTION

Prior to the initiation of any action or proceeding permitted by this Contract to resolve disputes between the parties, the parties will make a good faith effort to resolve any such disputes by negotiation between representatives with decision-making power. Failing resolution, and prior to the commencement of depositions in any litigation between the parties with respect to the Project, the parties will attempt to resolve the dispute through mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. Should either party fail to submit to mediation as required hereunder, the other party may request a court of law to order mediation under Florida State Statutes, Section 44.102.

15.3 VENUE

Any litigation between Owner and Construction Manager at Risk (which term for the purposes of this subparagraph will include Construction Manager at Risk's surety), whether arising out of any Claim or arising out of the Contract or any breach thereof, must be brought, maintained and pursued only in the appropriate State courts of the State of Florida; and Owner and Construction Manager at Risk each hereby waive and renounce any and all rights and options which they, or either of them, have or might have to bring or maintain any such litigation or action in the Federal Court system of the United States or in any United States Federal District Court. Venue of any such litigation between Owner and Construction Manager at Risk will lie and be only in the appropriate State courts of the State of Florida's Sixth Judicial Circuit in and for Pinellas County, Florida. Construction Manager at Risk consents and submits to the exclusive jurisdiction of any such court and agrees to accept service of process from the State of Florida in any matter to be submitted to any such court. Owner and Construction Manager at Risk EXPRESSLY WAIVE ALL RIGHTS TO TRIAL BY JURY REGARDING ANY SUCH LITIGATION.

15.4 SURVIVAL OF ARTICLE

This Article will survive completion or termination of this Agreement.

EXHIBIT B - SPECIAL CONDITIONS

EXHIBIT C - FORM OF PAYMENT BOND

EXHIBIT C - FORM OF PAYMENT BOND

The exact language in Exhibit C must be used when submitting bonds

BOND NO.

BY THIS BOND, We _____

(hereinafter called the ("Principal" and _____

(hereinafter called the ("Surety"), located at _____

_____

A surety insurer chartered and existing under the laws of the state of _____

and authorized to do Business in the State of Florida, are held and firmly bound unto Pinellas County

(hereinafter called the "County") in the sum of _____

_____

_____DOLLARS $_____

For payment of which we bond ourselves, our heirs, our personal representatives, our successors and our assignees, jointly and severally.

For payment of which we bond ourselves, our heirs, our personal representatives, our successors and our assignees, jointly and severally.

WHEREAS, Principal and County have reached a mutual agreement (hereinafter referred to as the "Agreement") for

Bid Title: **Construction Manager at Risk for New Government Campus** Bid No: **25-0355-RFQ-CMAR** said Agreement being made a part of this Bond by this reference.

NOW, THEREFORE, THE CONDITION OF THIS BOND IS THAT IF THE PRINCIPAL:

1) Promptly makes payments to all claimants as defined in section 255.05(l), Florida Statutes, Supplying the Principal with labor, materials or supplies, as used directly or indirectly by the Principal in the prosecution of the Work provided for in the Agreement and;
2) Pays the County for all losses, damages, expenses, costs and attorneys' fees, including appellate proceedings, that the County sustains because of a default by the Principal in contravention to the Agreement in regard to payment for such labor, materials, or supplies furnished to the Principal; then this bond is void; otherwise this Bond remains in full force and effect.

BE IT FURTHER KNOWN:

1) Any changes in or under the Agreement and compliance or noncompliance with any formalities Connected with the said Agreement or alterations, which may be made in the terms of said Agreement, or in the Work to be done under it, or the giving by the County of any extension of time for the performance of the said Agreement, or any other forbearance on the part of the County or Principal to the other, will not in any way release the Principal and the Surety, or either of them, their heirs, personal representatives, successors or assigns from liability hereunder, notice to the Surety of any such changes, alterations, extensions or forbearance being hereby waived.
2) Certain claimants seeking the protection of this Bond must timely comply with the strict Requirements set forth in Section 255.05, Florida Statutes, and as otherwise provided by law.
3) The Provisions of this bond are subject to the limitation of Section 255.05(2).

EXHIBIT D - FORM OF PERFORMANCE BOND

EXHIBIT D - FORM OF PERFORMANCE BOND

The exact language in Exhibit C must be used when submitting bonds

KNOW ALL MEN BY THESE PRESENTS:

That _____, as Principal,

and _____, as Surety,

Located at: _____

(Business Address) (Phone Number)

Are held and firmly bound unto Pinellas County, Florida, as Obligee in the sum of

_____

_____

DOLLARS $ _____ For the payment whereof we bind ourse

_____ _____

our heirs, executors, personal representatives, successors and assigns, jointly and severally.

WHEREAS, Principal has entered into an Agreement with Obligee for Bid Title: **Construction Manager at Risk for New Government Campus** Bid No: **25-0355-RFQ-CMAR** in accordance with Plans and Specifications, which Agreement is incorporated by reference and made a part hereof, and is referred to as the Agreement.

THE CONDITIONS OF THIS BOND is that if Principal:

1) Performs the Agreement at the times and in the manner prescribed in the Agreement; and
2) Pays Obligee any and all losses, damages, costs and attorneys' fees, including appellate

proceedings, that Obligee sustains because of any default by Principal under the Agreement, including, but not limited to, all delay damages, whether liquidated or actual, incurred by

Obligee; and

3) Performs the guarantee of all Work and materials furnished under the Agreement for the time specified in the Agreement; then this bond is void; otherwise it remains in full force.

Any changes in or under the Agreement and compliance or noncompliance with any formalities connected with the Agreement or the changes do not affect Surety's obligations under this bond.

The Surety, for value received, hereby stipulates and agrees that no changes, extensions of time, alterations or additions to the terms of the Agreement or other Work to be performed hereunder, or the Specifications referred to therein will in anyway affect its obligation under this bond, and it does hereby waive notice of any such changes, extensions of time, alterations or additions to the terms of the Agreement or to Work or to the Specifications.

This instrument will be construed in all respects as a statutory bond. It is expressly understood the time provisions and statute of limitation under Section 255.05 Florida Statutes, will apply to this bond.

EXHIBIT E - RELEASE AND AFFIDAVIT

STATE OF FLORIDA)

COUNTY OF _____)

Before me, the undersigned authority, personally appeared _____, who after being duly sworn, deposes and says:

1) In accordance with the Contract Documents and in consideration of $_____ paid, _____ ("Construction Manager at Risk") releases and waives for itself and its subcontractors, materialmen, successors and assigns, all claims demands, damages, costs and expenses, whether in contract or in tort, against Pinellas County, Florida, a political subdivision of the State of Florida ("Owner") relating in any way to the performance of the Agreement between Construction Manager at Risk and Owner, dated _____, 200__, for the period from _____ to _____.

2) Construction Manager at Risk certifies for itself and its subcontractors, materialmen, successors and assigns, that all charges for labor, materials, supplies, lands, licenses and other expenses for which Owner might be sued or for which a lien or a demand against any payment bond might be filed, have been fully satisfied and paid.

3) Construction Manager at Risk agrees to indemnify, defend and save harmless Owner from all demands or suits, actions, claims of liens or other charges filed or asserted against Owner arising out of the performance by Construction Manager at Risk of the Work covered by this Release and Affidavit.

4) Construction Manager at Risk certifies that it has paid all its subcontractors and materialmen in full all amounts owed them from any previous payments received by Construction Manager at Risk from Owner and has not withheld any such amounts. In the event Construction Manager at Risk withholds any unpaid amounts due to its subcontractors and/or materialmen from the payment it receives from Owner with respect to the Application for Payment referenced in paragraph 5 below, Construction Manager at Risk agrees to immediately refund all such unpaid amounts to Owner.

5) This Release and Affidavit is given in connection with Construction Manager at Risk [monthly/final] Application for Payment No._____.

EXHIBIT I - GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

AMENDMENT NO. 1 TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK FOR _____ AGREEMENT NO. _____

Pursuant to Sections 2.2 6.1, and 6.2 of the Agreement, dated _____, between Pinellas County, Florida ("Owner") and _____ _____ ("Construction Manager at Risk"), with respect to the construction of the Owner's _____ ("Project"), the Owner and Construction Manager at Risk hereby agree to amend and modify the Agreement by this Amendment and establish a Guaranteed Maximum Price and Contract Time for all the Work as set forth below:

ARTICLE 1

SCOPE OF WORK

The scope of the Work consists of the construction of a _____,

In accordance with the Agreement, this Amendment and the other Contract Documents listed as attachments1 through_____ below, which are hereby incorporated into and made a part of the Amendment by this reference:

Attachment No.	Description	Pages	Date
1.	List of Drawings & Specifications	_____ through _____	_____
2.	Allowances	_____ through _____	_____
3.	Clarifications & Exclusions	_____ through _____	_____
4.	Completion Schedule	_____ through _____	_____
5.	Schedule of Values	_____ through _____	_____
6.	List of Itemized General Conditions	_____ through _____	_____
7.	List of Subcontractors & Major Suppliers	_____ through _____	_____

EXHIBIT I - GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

ARTICLE 2

GUARANTEED MAXIMUM PRICE

1) Construction Manager at Risk Guaranteed Maximum Price (GMP) for the Work, including the estimated Cost of the Work as defined in Section 5 of the Agreement and Construction Manager at Risk Fee as defined in Section 4 of the Agreement, is _____ ($_____).

2) The GMP includes material that may be purchased directly by the Owner ("Owner Direct Purchases"). The estimated value of materials that may be purchased directly by the Owner is _____

($_____). Construction Manager at Risk will initially process one (1) deductive Change Order under this Agreement for the entire estimated amount of Owner Direct Purchases, inclusive of sales taxes. Prior to final payment, a final reconciliation of the Owner Direct Purchases against the GMP will be performed and such deductive Change Order will be prepared for the Owner's review and execution.

3) The Construction Manager at Risk Fee for the entire Work anticipated on this Project is hereby established as a lump sum amount of _____ ($_____), said lump sum amount is included within the above noted GMP.

4) The General conditions expenses for the entire Work anticipated on this Project are hereby established as a lump sum amount of _____ ($_____), said lump sum amount is included within the above noted GMP. The items included as General Conditions expenses are listed in the List of Itemized General Conditions attached hereto and incorporated herein as Attachment No. ____. Except as said lump sum amount for General Conditions expenses may be expressly adjusted by Change Order or Construction Change Directive, Construction Manager at Risk acknowledges and agrees that Owner will have no liability for any General Conditions expenses beyond payment of the above noted lump sum amount and Construction Manager at Risk agrees that it will not be entitled to receive any additional compensation from Owner for the General Conditions beyond the above lump sum amount.

5) Monthly installment payment of the Construction Manager at Risk Fee and the General Condition expenses will be based upon the percent completion of the designated portion of the Work for each particular month.

6) In order to efficiently and timely address any unknown or unanticipated conditions that are within the scope of the required Work and are otherwise reimbursable without duplication as a Cost of the Work, but excluding all items that are to be reimbursed under the lump sum General conditions expense amount noted in paragraph 2.4 above, the parties have agreed to establish a contingency within the GMP in an amount not-to-exceed amount _____ ($_____). Contingency funds will be used to cover costs that may result from incomplete design and unanticipated costs that arise during construction that are not identified by the Construction Documents. Construction Manager at Risk must not proceed with any portion of the Work which it intends to charge against this contingency without first obtaining Owner's express written authorization to proceed. The Construction Manager at Risk acknowledges and agrees that any work which is to be charged against the contingency allowance that does not receive such prior written approval from the Owner will be deemed to be a part of Construction Manager at Risk basic Work compensated within the GMP and not chargeable against the Owner's Contingency Allowance. The Owner reserves the right, at its sole discretion, to withhold its consent on contingency expenditures. Further, any contingency expenditures become part of the Contract Documents and are incorporated by reference herein. Unused contingency remaining at the end of the job will be credited from the GMP. Construction Manager at Risk has no entitlement to any portion of any unused contingency.

7) The parties have agreed to establish an allowance within the GMP for _____ in the amount of _____ ($_____). Construction Manager at Risk must not proceed with any portion of the Work associated with the aforesaid allowance ("Allowance Work") without first obtaining Owner's express written authorization to proceed with said Allowance Work. Allowance Amounts are reflected in Attachments _____ through _____.

8) Pursuant to Exhibit A, Paragraph 12.4 of the Agreement, if, at the time final payment is made to Construction Manager at Risk, the total Cost of the Work has been increased by approved Change Orders in an amount causing the original GMP as set forth in this Amendment to be exceeded by more than _____ ($_____), then Construction Manager at Risk will be entitled to an increase in the Construction Manager at Risk Fee in the amount of _____ (_____%) of the amount exceeding the sum of _____ ($_____) plus that original GMP amount.

EXHIBIT I - GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

9) Construction Manager at Risk recognizes that this Contract includes work for trench excavation in excess of five feet deep. Construction Manager at Risk acknowledges the requirements set forth in Section 553.63 of the Florida Statutes titled Trench Safety Act. Construction Manager at Risk certifies that the required trench safety standards will be in effect during the period of construction of the Project and Construction Manager at Risk agrees to comply with all such required trench safety standards.

    a. The amount of _____ dollars ($_____) has been separately identified for the cost of compliance with the required trench safety standards; said amount is included within the GMP.

10) Construction Manager at Risk is responsible, without reimbursement from Owner, for re-inspection fees and costs; to the extent such re-inspections are due to the fault or neglect of Construction Manager at Risk.

EXHIBIT I - GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

ARTICLE 3

CONTRACT TIME

1) The Construction Phase Commencement Date for the Work is _____. The total period of time beginning with the Construction Phase Commencement Date through the date required for Substantial Completion of the Work is _____ (_____) days ("Contract Time") THE SUBSTANTIAL COMPLETION DATE IS THEREFORE ESTABLISHED AS _____.

2) Pursuant to this Agreement, the parties have established a liquidated damage rate for reasons stated therein, which the parties acknowledge and agree apply to this Amendment and Construction Manager at Risk responsibility to complete the Work within the Contract Time as stated herein. Accordingly, the liquidated damage rate established in this Agreement will be assessed from Construction Manager at Risk for each calendar day Construction Manager at Risk fails to achieve Substantial Completion for the Designated Work within the Contract Time.

ARTICLE 4

MISCELLANEOUS

1) Except as expressly modified herein, the terms and conditions of the Agreement remain unchanged. In the event of a conflict between the terms of this Amendment and those of the Agreement, Owner and Construction Manager at Risk agree that the terms of this Amendment will prevail and control.

EXHIBIT J - TRUTH-IN-NEGOTIATION CERTIFICATE

In compliance with the Consultants' Competitive Negotiation Act, Section 287.055, Florida Statutes, «Company» hereby certifies that wage rates and other factual unit costs supporting the compensation for the construction management services of CONSTRUCTION MANAGER AT RISK to be provided under this Agreement, concerning «Project» are accurate, complete and current as of the time of contracting. Further, the original contract amount and any additions thereto will be adjusted to exclude any significant sums where the Owner determines the contract price was increased due to inaccurate, incomplete or non-current wage rates and other factual unit costs. Such adjustments must be made within one (1) year following the end of the contract.

EXHIBIT "K"- INSURANCE REQUIREMENTS

PHASE 1 INSURANCE REQUIREMENTS - DESIGN SERVICES

The Construction Manager must provide a certificate of insurance and endorsement in accordance with the insurance requirements listed below, prior to recommendation for award. The Construction Manager shall obtain and maintain, and require any subcontractor to obtain and maintain, at all times during its performance of the Agreement in Phase 1 insurance of the types and in the amounts set forth. For projects with a Completed Operations exposure, Construction Manager shall maintain coverage and provide evidence of insurance for 2 years beyond final acceptance. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and have an AM Best rating of

A. VIII or better.

a) Submittals should include the Construction Manager's current Certificate(s) of Insurance in accordance with the insurance requirements listed below. If Construction Manager does not currently meet insurance requirements, Construction Manager shall also include verification from their broker or agent that any required insurance not provided at that time of submittal will be in place prior to the award of contract. Upon selection of the Construction Manager for award, the selected Construction Manager shall email certificate that is compliant with the insurance requirements. If the certificate received is compliant certificate no further action may be necessary. The Certificate(s) of Insurance shall be signed by authorized representatives of the insurance companies shown on the Certificate(s). **The Certificate holder section shall indicate Pinellas County, a Political Subdivision of the State of Florida, 400 S Fort Harrison Ave, Clearwater, FL 33756. Pinellas County, a Political Subdivision of the State of Florida shall be named as an Additional Insured for General Liability. A Waiver of Subrogation for Workers Compensation shall be provided if Workers Compensation coverage is a requirement.** Approval by the County of any Certificate(s) of Insurance does not constitute verification by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate(s) of Insurance is in compliance with the requirements of the Agreement. County reserves the right to require a certified copy of the entire insurance policy, including endorsement(s), at any time during the RFQ and/or contract period.

b) If any insurance provided pursuant to the Agreement expires or cancels prior to the completion of the work you will be notified by CTrax.. Upon notification, renewal certificate(s) of Insurance and endorsement(s) should be furnished to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org and to CTrax c/o JDI Data at PinellasSupport@jdidata.com by the Construction Manager or their agent prior to the expiration date.

1) The Construction Manager shall also notify the County within seventy-two (72) hours after receipt of any notices of expiration, cancellation, nonrenewal or adverse material change in coverage received by said Construction Manager from its insurer. Notice shall be given by email to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org. Nothing contained herein shall absolve Construction Manager of this requirement to provide notice.

2) Should the Construction Manager, at any time, not maintain the insurance coverages required herein, the County may terminate the Agreement.

c) If subcontracting is allowed under Phase 1 of RFQ, the Prime Construction Manager shall obtain and maintain, at all times during its performance of the Agreement, insurance of the types and in the amounts set forth; and require any subcontractors to obtain and maintain, at all times during its performance of the Agreement, insurance limits as it may apply to the portion of the Work performed by the subcontractor; but in no event will the insurance limits be less than $500,000 for Workers' Compensation/Employers' Liability, and $1,000,000 for General Liability and Auto Liability if required below.
All subcontracts between the Construction Manager and its subcontractor shall be in writing and are subject to the County's prior written approval. Further, all subcontracts shall;

1) Require each subcontractor to be bound to the Construction Manager to the same extent the Construction Manager is bound to the County by the terms of the Contract Documents, as those terms may apply to the portion of the Work to be performed by the subcontractor;

2) Provide for the assignment of the subcontracts from the Construction Manager to the County at the election of Owner upon termination of the Contract;

3) Provide that County will be an additional indemnified party of the subcontract;

4) Provide that the County will be an additional insured on all insurance policies required to be provided by the subcontractor except workers compensation and professional liability;

5) Provide a waiver of subrogation in favor of the County and other insurance terms and/or conditions as outlined below;

6) Assign all warranties directly to the County;

7) Identify the County as an intended third-party beneficiary of the subcontract. The Construction Manager shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract Documents to which the subcontractor will be bound by this Exhibit K and identify to the subcontractor any terms and conditions of the proposed subcontract which may be at variance with the Contract Documents.

ci) Each insurance policy and/or certificate shall include the following terms and/or conditions:

1) The Named Insured on the Certificate of Insurance and insurance policy must match the entity's name that responded to the solicitation and/or is signing the agreement with the County.

2) Companies issuing the insurance policy, or policies, shall have no recourse against County for payment of premiums or assessments for any deductibles which all are at the sole responsibility and risk of Construction Manager.

3) The term "County" or "Pinellas County" shall include all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and Constitutional offices of County and individual members, employees thereof in their official capacities, and/or while acting on behalf of Pinellas County.

4) All policies shall be written on a primary, non-contributory basis.

e) The minimum insurance requirements and limits for this Agreement, which shall remain in effect throughout its duration and for two (2) years beyond final acceptance for projects with a Completed Operations exposure, are as follows:

1) **Workers' Compensation Insurance** Worker's Compensation Insurance is required if required pursuant to Florida law. If, pursuant to Florida law, Worker's Compensation Insurance is required, employer's liability, also known as Worker's Compensation Part B, is also required in the amounts set forth herein.

Limits

Employers' Liability Limits	Florida Statutory
Per Employee	$ 500,000
Per Employee Disease	$ 500,000
Policy Limit Disease	$ 500,000

If Vendor/Contractor is not required by Florida law, to carry Workers Compensation Insurance in order to perform the requirements of this Agreement, County Waiver Form for workers compensation must be executed, submitted, and accepted by Risk Management. Failure to obtain required Worker's Compensation Insurance without submitting and receiving a waiver from Risk Management constitutes a material breach of this Agreement.

2) **Commercial General Liability Insurance** including, but not limited to, Independent Vendor, Contractual Liability Premises/Operations, Products/Completed Operations, and Personal Injury.

Limits

Combined Single Limit Per Occurrence	$ 1,000,000
Products/Completed Operations Aggregate	$ 2,000,000
Personal Injury and Advertising Injury	$ 1,000,000
General Aggregate	$ 2,000,000

3) **Pollution Legal/Environmental Legal Liability Insurance** for pollution losses arising from all services performed to comply with this contract. Coverage shall apply to sudden and gradual pollution conditions including the discharge, dispersal, release or escape of smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste materials or other irritants, contaminants or pollutants into or upon land, the atmosphere or any watercourse or body of water, which results in Bodily Injury or Property Damage. If policy is written on a Claims Made form, a retroactive date is required, and coverage must be maintained for 3 years after completion of contract or "tail coverage must be purchased. Coverage should include and be for the at least the minimum limits listed below:

a. Bodily injury, sickness, disease, mental anguish or shock sustained by any person, including death; property damage including physical injury to or destruction of tangible property including the resulting loss of use thereof, cleanup costs, and the loss of use of tangible property that has not been physically injured or destroyed.

b. Defense including costs, charges and expenses incurred in the investigation, adjustment or defense of claims for such compensation damages.

c. Cost of Cleanup/Remediation.

Limits

Per Claim or Occurrence	$ 1,000,000
General Aggregate	$ 1,000,000

For acceptance of Pollution Legal/Environmental Legal Liability coverage included within another policy coverage required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Pollution Legal/Environmental Legal Liability and other coverage combined.

4) **Professional Liability (Errors and Omissions) Insurance** with at least minimum limits as follows. If "claims made" coverage is provided, "tail coverage" extending three (3) years beyond completion and acceptance of the project with proof of "tail coverage" to be submitted with the invoice for final payment. In lieu of "tail coverage", Proposer may submit annually to the County, for a three (3) year period, a current certificate of insurance providing "claims made" insurance with prior acts coverage in force with a retroactive date no later than commencement date of this contract.

Limits

Each Occurrence or Claim	$ 15,000,000
General Aggregate	$ 15,000,000

For acceptance of Professional Liability coverage included within another policy required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Professional Liability and other coverage combined.

5) **Property Insurance** Vendor will be responsible for all damage to its own property, equipment and/or materials.

PHASE 2 INSURANCE REQUIREMENTS - CONSTRUCTION SERVICES

The Construction Manager must provide a certificate of insurance and endorsement in accordance with the insurance requirements listed below, prior to recommendation for award. The Construction Manager shall obtain and maintain, and require any subcontractor to obtain and maintain, at all times during its performance of the Agreement in Phase 2 insurance of the types and in the amounts set forth. For projects with a Completed Operations exposure, Construction Manager shall maintain coverage and provide evidence of insurance for 2 years beyond final acceptance. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and have an AM Best rating of A- VIII or better.

a) Submittals should include the Construction Manager's current Certificate(s) of Insurance in accordance with the insurance requirements listed below. If Construction Manager does not currently meet insurance requirements, Construction Manager shall also include verification from their broker or agent that any required insurance not provided at that time of submittal will be in place prior to the award of contract.
Upon selection of the Construction Manager for award, the selected Construction Manager shall email certificate that is compliant with the insurance requirements. If the certificate received is compliant certificate no further action may be necessary. The Certificate(s) of Insurance shall be signed by authorized representatives of the insurance companies shown on the Certificate(s). **The Certificate holder section shall indicate Pinellas County, a Subdivision of the State of Florida, 400 S Fort Harrison Ave, Clearwater, FL 33756. Pinellas County shall be named as an Additional Insured for General Liability. A Waiver of Subrogation for Workers Compensation shall be provided if Workers Compensation coverage is a requirement.**

b) Approval by the County of any Certificate(s) of Insurance does not constitute verification by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate(s) of Insurance is in compliance with the requirements of the Agreement. County reserves the right to require a certified copy of the entire insurance policy, including endorsement(s), at any time during the RFQ and/or contract period.

c) If any insurance provided pursuant to the Agreement expires or cancels prior to the completion of the work you will be notified by CTrax.. Upon notification, renewal certificate(s) of Insurance and endorsement(s) should be furnished to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org and to CTrax c/o JD Data at PinellasSupport@jdidata.com by the Construction Manager or their agent prior to the expiration date.

   1) The Construction Manager shall also notify the County within 72 hours after receipt, of any notices of expiration, cancellation, nonrenewal or adverse material change in coverage received by said Construction Manager from its insurer. Notice shall be given by email to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org. Nothing contained herein shall absolve Construction Manager of this requirement to provide notice.

   2) Should the Construction Manager, at any time, not maintain the insurance coverages required herein, the County may terminate the Agreement.

d) If subcontracting is allowed under Phase 2 of RFQ, the Prime Construction Manager shall obtain and maintain, at all times during its performance of the Agreement, insurance of the types and in the amounts set forth; and require any subcontractors to obtain and maintain, at all times during its performance of the Agreement, insurance limits as it may apply to the portion of the Work performed by the subcontractor; but in no event will the insurance limits be less than $500,000 for Workers' Compensation/Employers' Liability, and $1,000,000 for General Liability and Auto Liability if required below.

All subcontracts between the Construction Manager and its subcontractor shall be in writing and are subject to the County's prior written approval. Further, all subcontracts shall

1) Require each subcontractor to be bound to the Construction Manager to the same extent the Construction Manager is bound to the County by the terms of the Contract Documents, as those terms may apply to the portion of the Work to be performed by the subcontractor;

2) Provide for the assignment of the subcontracts from the Construction Manager to the County at the election of Owner upon termination of the Contract;

3) Provide that County will be an additional indemnified party of the subcontract;

4) Provide that the County will be an additional insured on all insurance policies required to be provided by the subcontractor except workers compensation and professional liability;

5) Provide a waiver of subrogation in favor of the County and other insurance terms and/or conditions as outlined below;

6) Assign all warranties directly to the County.

7) Identify the County as an intended third-party beneficiary of the subcontract. The Construction Manager shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract Documents to which the subcontractor will be bound by this Exhibit K and identify to the subcontractor any terms and conditions of the proposed subcontract which may be at variance with the Contract Documents.

e) Each insurance policy and/or certificate shall include the following terms and/or conditions:

1) The Named Insured on the Certificate of Insurance and insurance policy must match the entity's name that responded to the solicitation and/or is signing the agreement with the County.

2) Companies issuing the insurance policy, or policies, shall have no recourse against County for payment of premiums or assessments for any deductibles which all are at the sole responsibility and risk of Construction Manager.

3) The term "County" or "Pinellas County" shall include all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and Constitutional offices of County and individual members, employees thereof in their official capacities, and/or while acting on behalf of Pinellas County.

f) The minimum insurance requirements and limits for this Agreement, which shall remain in effect throughout its duration and for two (2) years beyond final acceptance for projects with a Completed Operations exposure, are as follows:

1) **<u>Workers' Compensation Insurance</u>** Worker's Compensation Insurance is required if required pursuant to Florida law. If, pursuant to Florida law, Worker's Compensation Insurance is required, employer's liability, also known as Worker's Compensation Part B, is also required in the amounts set forth herein.

Limits

Employers' Liability Limits Florida Statutory

Per Employee	$ 500,000
Per Employee Disease	$ 500,000
Policy Limit Disease	$ 500,000

If Vendor/Contractor is not required by Florida law, to carry Workers Compensation Insurance in order to perform the requirements of this Agreement, County Waiver Form for workers compensation must be executed, submitted, and accepted by Risk Management. Failure to obtain required Worker's Compensation Insurance without submitting and receiving a waiver from Risk Management constitutes a material breach of this Agreement.

2) **Commercial General Liability Insurance** including, but not limited to, Independent Vendor, Contractual Liability Premises/Operations, Products/Completed Operations, and Personal Injury. No explosion, collapse, underground damage, crane or boom weight exclusions.

Limits

Combined Single Limit Per Occurrence	$ 1,000,000
Products/Completed Operations Aggregate	$ 2,000,000
Personal Injury and Advertising Injury	$ 1,000,000
General Aggregate	$ 2,000,000

3) **Business Automobile or Trucker's/Garage Liability Insurance** covering owned, hired, and non- owned vehicles. If the Consultant does not own any vehicles, then evidence of Hired and Non-owned coverage is sufficient. Coverage shall be on an "occurrence" basis, such insurance to include coverage for loading and unloading hazards, unless Consultant can show that this coverage exists under the Commercial General Liability policy.

Limit

Combined Single Limit Per Accident	$1,000,000

4) **Excess or Umbrella Liability Insurance** excess of the primary coverage required, in paragraphs (1), (2), and (3) above. No explosion, collapse, underground damage, crane or boom weight exclusions.

Limits

Each Occurrence	$ 20,000,000
General Aggregate	$ 20,000,000

5) **Pollution Legal/Environmental Legal Liability Insurance** for pollution losses arising from all services performed to comply with this contract. Coverage shall apply to sudden and gradual pollution conditions including the discharge, dispersal, release or escape of smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste materials or other irritants, contaminants or pollutants into or upon land, the atmosphere or any watercourse or body of water, which results in Bodily Injury or Property Damage. If policy is written on a Claims Made form, a retroactive date is required, and coverage must be maintained for 3 years after completion of contract or "tail coverage must be purchased. Coverage should include and be for the at least the minimum limits listed below:

   a. Bodily injury, sickness, disease, mental anguish or shock sustained by any person, including death; property damage including physical injury to or destruction of tangible property including the resulting loss of use thereof, cleanup costs, and the loss of use of tangible property that has not been physically injured or destroyed.

   b. Defense including costs, charges and expenses incurred in the investigation, adjustment or defense of claims for such compensation damages.

   c. Cost of Cleanup/Remediation.

Limits

Per Claim or Occurrence	$ 2,000,000
General Aggregate	$ 2,000,000

For acceptance of Pollution Legal/Environmental Legal Liability coverage included within another policy coverage required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Pollution Legal/Environmental Legal Liability and other coverage combined.

6) **Professional Liability (Errors and Omissions) Insurance** with at least minimum limits as follows. If "claims made" coverage is provided, "tail coverage" extending three (3) years beyond completion and acceptance of the project with proof of "tail coverage" to be submitted with the invoice for final payment. In lieu of "tail coverage", Proposer may submit annually to the County, for a three (3) year period, a current certificate of insurance providing "claims made" insurance with prior acts coverage in force with a retroactive date no later than commencement date of this contract.

Limits

Each Occurrence or Claim	$ 10,000,000
General Aggregate	$ 10,000,000

For acceptance of Professional Liability coverage included within another policy required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Professional Liability and other coverage combined.

7) **Builders Risk/Installation Floater Insurance** County property shall be covered by proof of a Builders Risk policy and/or Installation Floater policy covering the interests of Pinellas County property until final acceptance of building or of installed equipment is granted and coverage period shall include testing. Coverage shall be maintained for the entire time the property and/or equipment is in the Proposer's care, custody, and/or control, including onsite and offsite storage and transit. Limit and valuation shall be replacement cost. If the Proposer delivers materials and/or equipment and loads same using a crane, then no crane, boom, jig, or weight exclusion shall apply. Proposer's property, installation floater, builders risk, if required, and/or equipment policy shall contain a waiver of subrogation in favor of the County. All deductibles will be the responsibility of the Proposer unless County agrees in writing. Builders Risk policies shall be written in the name of the County, the contractor and all subcontractors as their interests may appear. Installation and/or Equipment policies must name the County as a Loss Payee.

Limit Guaranteed Maximum Price

8) **Property Insurance** Vendor will be responsible for all damage to its own property, equipment and/or materials.

February 13, 2025

To: Prospective Proposers:

Re: Construction Management Services
Pinellas County New Government Campus
13600 Icot Boulevard
Clearwater, Florida, 33760

On behalf of the Pinellas County, a political subdivision of the State of Florida (County), you are invited to submit a qualifications-based proposal for the pre-construction and construction management at risk services ("Construction Management Services") to provide turnkey construction and management services in collaboration with the owner, design professionals and others engaged in the project on the owner's behalf for the construction of Pinellas County's New Government Campus on a 21-acre site at 13600 Icot Boulevard, Clearwater, Florida 33760.

The following documents provide an overview of the site, services, and information Pinellas County is requesting from the prospective construction management at risk firms ("Proposers"). The Proposers should provide a qualifications-based proposal for the complete project including pre-construction, construction and post construction services as identified within this RFQ.

The Project will be awarded to the Proposer in accordance with the terms of the solicitation. Knowledge and experience with the local construction and subcontractor market, governmental agencies, and project implementation will also be considered. The Pinellas County evaluation committee and project team will also be evaluating the construction management at risk firm and the team's knowledge and expertise on the latest construction practices, government facilities, security, technology, materials and sourcing options for the completion of this facility.

The consolidation and centralization of Pinellas County services at the New Government Campus site is transformational for citizen service delivery and an opportunity for improved government efficiency. We look forward to receiving proposals from all interested and qualified firms.

Sincerely,

Pinellas County

PART I: GENERAL TERMS AND CONDITIONS

A. PURPOSE & INTENT

The purpose of this Request for Qualifications (RFQ) is to solicit Qualifications from Proposers, who are licensed to perform general contracting and construction management services in the State of Florida, in accordance with Consultants' Competitive Negotiation Act, Section 287.055, Florida Statutes, for the turnkey project delivery as outlined for the New Government Campus and Courthouse located in Clearwater, Florida. Pinellas County intends to select the most qualified Proposer, based upon evaluation of submitted Qualifications and presentations with shortlisted Proposers, for the purposes of negotiating and awarding a contract for completion of the Services.

B. SUBMITTAL DEADLINE & LOCATION

Qualifications submitted in response to this RFQ must be submitted to Pinellas County, attention Pam Ulrich, at https://secure.procurenow.com/portal/pinellasfl, on or before four o'clock (**4:00PM) EST on Thursday, March 6, 2025.** Any RFQ Qualifications, addendum's or changes received after the deadline will not be considered.

C. DESIGNATED METHOD OF CONTACT

All questions or requests for information relating to this RFQ must be directed, via electronic correspondence, to Pinellas County Purchasing, attention Pam Ulrich, https://secure.procurenow.com/portal/pinellasfl.

D. SUBMITTAL OF QUESTIONS/INQUIRIES

All questions and/or inquiries related to this RFQ will be directed via electronic correspondence, using the designated method of contact provided above, by or before **4:00 PM EST on Thursday, February 27, 2025**. Any questions received after this deadline will not be addressed or clarified, unless it is determined to be in the best interest to do so. Pinellas County reserves the right to extend the Submittal Deadline for Qualifications to clarify or answer questions as necessary to serve the best interest of the project and County.

E. TENTATIVE SCHEDULE OF EVENTS

Pinellas County (County) proposes the following tentative schedule of events. The dates provided may change at the County's discretion. If any modifications impact the schedule of this RFQ, through and until the Submittal Deadline for Qualifications, the County will distribute an Addendum with instructions and revised dates.

PROPOSED RFQ SCHEDULE

Advertisement of RFQ	February 13, 2025
Deadline for Questions	February 27, 2025
Issuance of Final Addendum	March 3, 2025
Deadline for Submittal of Qualifications	March 6, 2025
Evaluation of Qualifications Submittals & Shortlist	March 21, 2025
Presentations with Shortlisted Vendors Completed	April 4, 2025
Selection Completed	April 4, 2025

F. ADDENDA

All clarifications, answers to questions, or changes to this RFQ will be provided through a Purchasing RFQ addendum. Any clarifications, answers, or changes provided in any manner other than a formally issued addendum, are to be considered "unofficial" and will not bind the County to any requirements, terms or conditions not stated herein. Proposer is solely responsible for including information, clarifications, revisions, or other directions provided in each Addendum in their submittal. Proposer must acknowledge every Addendum issued and attest to its inclusion in their submittal. Failure by Proposer to include any Addendum in their submittal may result in the submittal being deemed nonresponsive to the requirements of this RFQ.

G. SOLICITATION POSTPONEMENT/CANCELLATION

Pinellas County, at its sole and absolute discretion, may postpone, cancel, or re-advertise this solicitation process at any time for any reason, as determined to best serve the interests of the project and the County.

H. RIGHT TO REJECT/ACCEPT

Pinellas County reserves the right to accept or reject any or all Qualifications, waive minor formalities and irregularities, and to award to the Proposer that serves the best interest of the project and the County.

I. SUB-CONTRACTORS

If a Proposer elects to sub-contract with any Proposers, Consultants, or Suppliers, for any portion(s) of the required Services, Proposer must identify all such Sub-Contractor(s) in the submittal, along with the portion(s) of the Services, they are proposed to perform. The County may, at its discretion, require Proposer to submit relevant data necessary to establish to the satisfaction of the County, the qualifications, reliability, and responsibility of the Sub-Contractor(s) proposed, to ensure, they are appropriately qualified and capable to perform the specified Services. The proposer must also include the address of each subcontractor's office location and the nature of services to be performed. Proposers are encouraged to solicit and evaluate the qualifications of local firms (i.e., firms headquartered or having a significant business presence for at least one year within the geographic boundary of Pinellas County, Manatee County, Hillsborough County, and Pasco County and or certified minority business enterprises (as defined by the Florida Small and Minority Business Assistance Act or other applicable certifications or designations for minority-owned businesses) when selecting their proposed subconsultants in connection with this solicitation. Prior to awarding a contract, the County will notify the Proposer, in writing, if the County, after due investigation, has a reasonable and substantial objection to any proposed subcontractor or sub consultant. The Proposer may then submit an alternate sub-contractor or consultant for consideration. The County, at no additional cost to the County, may request to withdraw subcontractor or consultant from consideration of award. If the Proposer fails to propose an alternate Subcontractor within seven (7) calendar days of the original notification, the County may disqualify the Proposer, at no cost to the County. The County also reserves the right to disqualify any Proposer, Contractor, Consultant, Supplier or Individual from consideration to perform Services, at either a prime or sub level, due to previously documented issues with performance, quality or compliance with County policies and procedures. The awarded Proposer is responsible for ensuring that proposed subcontractors only perform the Services for which they were proposed, qualified for, and accepted by the County. Proposer must not change the subcontractor(s) without

prior written notice to and approval from the County. The awarded Proposer will be responsible for all Services performed by any subcontractor(s) and such subcontracts will not relieve the awarded Proposer of any obligations or responsibilities stated in the awarded Contract.

J. COSTS INCURRED BY PROPOSER

Pinellas County will not be liable for any costs incurred by the Proposer in the preparation, responses or presentation time and materials utilized in the RFQ proposal or for any work performed in connection therein. All materials submitted in response to this RFQ will become Pinellas County's property and will be retained by Pinellas County and CBRE.

K. PROHIBITED COMMUNICATIONS

The communication restrictions extend from the time the RFQ is issued through recommendation of award. All contact regarding this RFQ will be directed to Pinellas County Purchasing, unless Purchasing authorizes communication through another designated representative. Communication outside of the process specified above is prohibited. During the communication restriction period, Proposer may deal only with the contacts identified above for issues relating to the RFQ.

L. WRITTEN REQUESTS FOR INTERPRETATIONS/CLARIFICATIONS

No oral interpretations will be made to any firms as to the meaning of specifications or any other Proposer documents. All questions pertaining to the terms and conditions or scope of work of this solicitation must be sent in writing (electronically) to the Purchasing and Risk Management Division and received by the date specified in the solicitation. Responses to questions may be handled as an addendum if the response would provide clarification to requirements of the solicitation. All such addenda will become part of the agreement documents. The County will not be responsible for any other explanation or interpretation of the proposed solicitation made or given prior to the award of the agreement. The Purchasing and Risk Management Division will be unable to respond to questions received after the specified time frame.

M. RIGHTS OF PINELLAS COUNTY IN REQUEST FOR PROPOSAL PROCESS

In addition to all other rights of the County under Florida law, the County specifically reserves the following:

a. Pinellas County reserves the right to rank firms and negotiate with the highest-ranking firm. Negotiation with an individual proposer does not require negotiation with others.
b. Pinellas County reserves the right to select the proposal that it believes will serve the best interest of Pinellas County.
c. Pinellas County reserves the right to reject any or all submittals. The respective constitutional officer, county administrator on behalf of the board of county commissioners or within their delegated financial approval authority, or director of purchasing, within their delegated financial approval authority will have the authority when the public interest will be served thereby to reject all submittals or parts of submittals at any stage of the procurement process through the award of the agreement.
d. Pinellas County reserves the right to cancel the entire Request for Qualifications.

e. Pinellas County reserves the right to remedy or waive minor informalities or irregularities, or immaterial errors in the Request for Proposal or in proposals submitted.
f. Pinellas County reserves the right to request any necessary clarifications or proposal data without changing the terms of the proposal.

N. COSTS INCURRED BY PROPOSERS

All expenses involved with the preparations and submissions to the County and any oral presentations, or any work performed in connection therewith, will be borne solely by the Proposer(s). No payment will be made for any responses received, or for any other effort required of, or made by, the Proposer(s) prior to contract commencement unless otherwise specified in the Scope of Work in this solicitation.

O. ORAL PRESENTATION

An oral presentation may be requested of any Proposer, at the Evaluation Committee's discretion. If an oral presentation is requested the written evaluation process may be utilized to short list proposals. If required as part of the evaluation process, the oral presentation may be scored as specified in the Scope of Work of the RFQ. The most qualified Proposer, as determined by evaluation process, will proceed with the contracting process.

P. CONFLICT OF INTEREST

a. The Proposer represents that it presently has no interest and will acquire no interest, either direct or indirect, which would conflict in any manner with the performance or services required hereunder. The Proposer further represents that no person having any such interest will be employed during the agreement term and any extensions. In addition, the Proposer will not offer gifts or gratuities to County employees as County employees are not permitted to accept gifts or gratuities. By signing this document, the Proposer acknowledges that no gifts or gratuities have been offered to County employees or anyone else involved in this competitive solicitation process.

b. The Proposer will promptly notify the County's representative, in writing, by certified mail, of all potential conflicts of interest for any prospective business association, interest, or other circumstance, which may influence or appear to influence the Proposer's judgment or quality of services being provided hereunder. Such written notification will identify the prospective business association, interest or circumstance, the nature of work that the Proposer may undertake and request an opinion of the County as to whether the association, interest or circumstance would, in the opinion of the County, constitute a conflict of interest if entered into by the Proposer. The County agrees to notify the Proposer of its opinion, by certified mail, within thirty days of receipt of notification by the Proposer.

c. It is essential to government procurement that the process be open, equitable and ethical. To this end, if potential unethical practices including but not limited to collusion, receipt or solicitation of gifts and conflicts of interest (direct/indirect) etc. are observed or perceived, please report such activity to:

Pinellas County Clerk of Circuit Court – Division of Inspector General
Phone – (727) 45FRAUD (453-7283)
Fax – 727-464-8386

Q. WITHDRAWAL OF PROPOSAL

The submittal may be withdrawn prior to the bid opening date; however, a submittal may not be withdrawn for a period of time as specified in this solicitation document.

R. LATE PROPOSAL OR MODIFICATIONS

a. Submittals and modifications received after the time set for the submission will not be considered. This upholds the integrity of the process.

b. Modifications in writing received prior to the time set for the submittal will be accepted.

S. LOCAL, STATE, AND FEDERAL COMPLIANCE REQUIREMENTS

The laws of the State of Florida apply to any purchase made under this solicitation. Proposers must comply with all local, state, and federal directives, orders and laws as applicable to this solicitation and subsequent agreement(s) including but not limited to Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act of 1973, Equal Employment Opportunity (EEO), Minority Business Enterprise (MBE), and OSHA as applicable to this agreement.

T. SCRUTINIZED COMPANIES AND PUBLIC ENTITIES CRIME ACT

Proposer is directed to the Florida Public Entity Crime Act, Fla. Stat. 287.133, and Fla. Stat. 287.135 regarding Scrutinized Companies, and Proposer agrees that its bid and, if awarded, its performance of the agreement will comply with all applicable laws including those referenced herein. Proposer represents and certifies that Proposer is and will at all times remain eligible to bid for and perform the services subject to the requirements of these, and other applicable, laws. Proposer agrees that any contract awarded to Proposer will be subject to termination by the County if Proposer fails to comply or to maintain such compliance.

U. LOBBYING

"Lobbying shall be prohibited on all county competitive selection processes and purchasing contract awards pursuant to this division, including, but not limited to, requests for proposals, requests for quotations, requests for qualifications, bids or the award of purchasing contracts of any type. The purpose of this prohibition is to protect the integrity of the procurement process by shielding it from undue influences prior to the contract award, or the competitive selection process is otherwise concluded. However, nothing herein shall prohibit a prospective bidder/proposer/protestor from contacting the purchasing department or the county attorney's office to address situations such as clarification and/or pose questions related to the procurement process.

Lobbying of evaluation committee members, county government employees, elected/appointed officials, or advisory board members regarding requests for proposals, requests for quotations, requests for qualifications, bids, or purchasing

contracts, by the bidder/proposer, any member of the bidder's/proposer's staff, any agent or representative of the bidder/proposer, or any person employed by any legal entity affiliated with or representing a bidder/proposer/protestor, is strictly prohibited from the date of the advertisement, or on a date otherwise established by the board, until either an award is final, or the competitive selection process is otherwise concluded. Any lobbying activities in violation of this section by or on behalf of a bidder/proposer shall result in the disqualification or rejection of the proposal, quotation, statement of qualification, bid or contract.

For purposes of this provision, "lobbying" shall mean influencing or attempting to influence action or non-action, and/or attempting to obtain the goodwill of persons specified herein relating to the selection, ranking, or contract award in connection with any request for proposal, request for quotation, request for qualification, bid or purchasing contract through direct or indirect oral or written communication. The final award of a purchasing contract shall be the effective date of the purchasing contract.

Any evaluation committee member, county government employee, elected/appointed official, or advisory board member who has been lobbied shall immediately report the lobbying activity to the director.

(Ord. No. 02-35, 5-7-02; Ord. No. 04-64, § 12, 9-21-04; Ord. No. 04-87, § 1, 12-7-04; Ord. No. 10-09, § 6, 2-16-10; Ord. No. 11-23, § 2, 7-26-11; Ord. No. 14-11, § 5, 2-11-14; Ord. No. 18-34, 10-23-18).

V. INTEGRITY OF REQUEST FOR QUALIFICATIONS (RFQ) DOCUMENTS

Proposers will follow the submission requirements and enter information only in the spaces where a response is requested. Proposers may use an attachment as an addendum to the solicitation form(s) if sufficient space is not available on the original form for the Proposer to enter a complete response. Any modifications or alterations to the original solicitation documents by the Proposer, whether intentional or otherwise, will constitute grounds for rejection of a solicitation. Any such modifications or alterations a Proposer wishes to propose must be clearly stated in the Proposer’s submittal response and presented in the form of an addendum to the original solicitation documents.

W. AGREEMENT

In addition to being subject to all terms and conditions in this solicitation, all responses are subject to the terms and conditions in the agreement attached to the solicitation. Additional or modified terms and conditions in the agreement may be necessary depending on the responses to the solicitation, including any exceptions stated by the Proposer. However, the County may reject any exception proposed by the Proposer and will not be bound by any additional or modified terms and conditions that are in conflict with the terms and conditions in the agreement, or are not acceptable to, or have been declared to be non-negotiable by the County, as determined in its sole discretion.

X. OWNERSHIP OF DOCUMENTS

a. Schedules, budgets, project documentation, drawings, specifications, designs, models, photographs, reports, surveys, calculations, and other data provided in connection with this solicitation are and will remain the property of the County whether the project for which they are made is executed or not. Such finished or unfinished documents, data,

calculations, studies, surveys, specifications, drawings, maps, models, photographs and reports prepared by the Proposer will be delivered by the Proposer to the County at the conclusion of the project or the termination of the Proposer's services.

b. When such documents are provided to other parties, the Proposer will ensure the return of the County's property.

Y. INDEPENDENT CONTRACTOR STATUS AND COMPLIANCE WITH THE IMMIGRATION REFORM AND CONTROL ACT OF 1986

Proposer acknowledges that it is functioning as an independent Proposer in performing under the terms of this agreement, and it is not acting as an employee of Pinellas County. The Proposer acknowledges that it is responsible for complying with the provisions of the Immigration Reform and Control Act of 1986, located at 8 U.S.C. Section 1324, et seq., and regulations relating thereto. Failure to comply with the above provisions of the agreement will be considered a material breach and will be grounds for immediate termination of the agreement.

Z. PROHIBITION AGAINST CONTINGENT FEE

The Proposer warrants that he has not employed or retained any company or person, other than a bona fide employee working solely for the Proposer to solicit or secure this agreement and that he has not paid or agreed to pay any person, company, corporation, individual, or firm other than a bona fide employee working solely for the Proposer, any fee, commission, percentage, gift or any other consideration, contingent upon or resulting from the award or making of this agreement.

AA. JOINT VENTURES

All Proposers intending to submit as a joint venture are required to have filed proper documents with the Florida Department of State, the Division of Professions, Construction Industry Licensing Board and any other state or local licensing Agency prior to submitting (see Section 489.119 Florida Statutes). Joint ventures must provide an affidavit attesting to the formulation of a joint venture and provide either proof of incorporation as a joint venture or a copy of the formal joint venture agreement between all joint venture parties, indicating their respective roles, responsibilities and levels of participation for the project.

BB. PUBLIC RECORDS/TRADE SECRETS

Pinellas County Government is subject to the Florida Public Records law (Chapter 119, Florida Statutes), and all documents, materials, and data submitted to any solicitation as part of the response are governed by the disclosure, exemption and confidentiality provisions relating to public records in Florida Statutes. Except for materials that are "trade secrets" or "confidential" as defined by applicable Florida law, ownership of all documents, materials, and data submitted in response to the solicitation will belong exclusively to the County.

To the extent that Proposer desires to maintain the confidentiality of materials that constitute trade secrets pursuant to Florida law, trade secret material submitted must be identified by some distinct method that the materials that constitute a trade secret, and Proposer must provide an additional copy of the Proposer's submittal that redacts

all designated trade secrets. By submitting materials that are designated as trade secrets and signature of the Proposer signature page, Proposer acknowledges and agrees:

i. That after notice from the County that a public records request has been made for the materials designated as a trade secret, the Proposer will be solely responsible for defending its determination that submitted material is a trade secret that is not subject to disclosure at its sole cost, which action must be taken immediately, but no later than ten (10) calendar days from the date of notification or Proposer will be deemed to have waived the trade secret designation of the materials;

ii. That to the extent that the Proposer with trade secret materials is evaluated, the County and it officials, employees, agents, and representatives in any way involved in processing, evaluating, negotiating agreement terms, approving any agreement based on the Proposer, or engaging in any other activity relating to the competitive selection process are hereby granted full rights to access, view, consider, and discuss the materials designated as trade secrets through the final agreement award;

iii. To indemnify and hold the County, and its officials, employees, agents and representatives harmless from any actions, damages (including attorney's fees and costs), or claims arising from or related to the designation of trade secrets by the Proposer, including actions or claims arising from the County's non-disclosure of the trade secret materials.

iv. That information and data it manages as part of the services may be public record in accordance with Chapter 119, Florida Statutes and Pinellas County public record policies. Proposer agrees prior to providing goods/services it will implement policies and procedures to maintain, produce, secure and retain public records in accordance with applicable laws, regulations, and County policies, which are subject to approval by the County, including but limited to the Section 119.0701, Florida Statutes.

Notwithstanding any other provision in the solicitation, the classification as trade secret of the entire submission document, line item and/or total Proposer prices, the work, services, project, goods, and/or products to be provided by Proposer, or any information, data, or materials that may be part of or incorporated into an agreement between the County and the Proposer is not acceptable to the County and will result in a determination that the Proposer submittal is nonresponsive; the classification as trade secret of any other portion of a submittal document may result in a determination that the submittal is nonresponsive.

CC. PUBLIC RECORDS – PROPOSER'S DUTY

If the Proposer has questions regarding the application of Chapter 119, Florida Statutes, to the Proposer's duty to provide public records relating to an agreement, the Proposer may contact:

Pinellas County Board of County Commissioners
Purchasing Division
400 S. Ft. Harrison Ave, 6th Floor,
Clearwater, FL 33756
Public Records Liaison

Email: bharvey@pinellas.gov

DD. SMALL BUSINESS ENTERPRISE (SBE) PROGRAM (see attachments for required form)

It is the policy of the Board of County Commissioners that SBE certified firms have the maximum opportunity to participate on County projects either as a prime or sub-consultant. See the attachments section for the required SBE form to include with submittal. To be certified as a Pinellas County SBE, firms must apply through Pinellas County Economic Development. To qualify for the SBE program, your firm must serve a commercially useful function; must be located in one of four (4) counties (Pinellas / Hillsborough / Pasco / Manatee) and have annual sales of goods and services not exceeding the maximum three (3) year average of three (3) million dollars for goods/services or gross revenues not exceeding eight (8) million dollars for construction and not exceed a maximum of three (3) year average of fifty (50) employees. To apply for the SBE Program, please visit the Pinellas County Economic Development website at pinellascounty.sbecompliance.com

EE. E-VERIFY (see attachments for required form)

The Proposer and their subcontractor(s) must register with and use the E-Verify system in accordance with Florida Statute 448.095. A Proposer and subcontractor may not enter into a contract with the County unless each party registers with and uses the E-Verify system.

If a Proposer enters a contract with a subcontractor, the subcontractor must provide the Proposer with an affidavit stating that the Subcontractor does not employ, contract with, or subcontract with unauthorized aliens. The Proposer must maintain a copy of the affidavit for the duration of the contract.

If the County, Proposer, or Subcontractor has a good faith belief that a person or entity with which it is contracting has knowingly violated Florida Statute 448.09(1) they will immediately terminate the contract with the person or entity.
If the County has a good faith belief that a Subcontractor knowingly violated this provision, but the Proposer otherwise complied with this provision, the County will notify the Proposer and order that the Proposer immediately terminate the contract with the Subcontractor.
A contract terminated under the provisions of this section is not a breach of contract and may not be considered such. Any contract termination under the provisions of this section may be challenged to Section 448.095(2)(d), Florida Statute. Proposer acknowledges upon termination of this agreement by the County for violation of this section by Proposer, Proposer may not be awarded a public contract for at least one (1) year. Proposer acknowledges that Proposer is liable for any additional costs incurred by the County as a result of termination of any contract for a violation of this section.

Proposer or Subcontractor will insert in any subcontracts the clauses set forth in this section, requiring the subcontracts to include these clauses in any lower tier subcontracts. Proposer will be responsible for compliance by any Subcontractor or Lower Tier Subcontractor with the clause set for in this section.

PART II: SCOPE OF SERVICES

A. BACKGROUND INFORMATION

Pinellas County identified the need to consolidate and relocate government headquarter functions from their current location in downtown Clearwater to a centralized location in the county, in part to improve access to citizen services. The County has completed programming for the development of the New Government Campus that will include facilities for civil and family Courts, administrative services, development, and citizen services. The County's programming and development goals are focused on long term function, efficiency and fiduciary responsibility with an emphasis on providing best in class citizen services, enhancing employee recruitment and retention, rightsizing and modernizing office space, providing a secure and safe campus for citizens and staff, centralization within the weighted population of Pinellas County, and promoting the use of public and alternate transportation options.

The initial programming study provides for a maximum design square footage of 317,500 square feet comprised of multiple low rise campus style office facilities. Initial concept designs considered a three-building campus scenario with connected or centralized secured lobbies, conference rooms, specialized courthouse and jury requirements, large public meeting areas, a fitness center, café or food truck accommodations, structured and surface parking, dedicated access to public transportation, and open green space for enjoyment with reserved acres for a future build phase. The programming and site plan scenarios can be found in Exhibit "C" of this document.

Pinellas County has completed the purchase of the property intended for the New Government Campus. The site is located at 13600 Icot Boulevard, Clearwater, Florida 33760 and is approximately 21 acres overall. The site was previously utilized as a car dealership and still contains the main sales buildings, auto repair facilities, single curb cut entrance, asphalt paving, site utilities, and landscaping. Site demolition and infrastructure improvements will be required as part of the construction manager's scope of work.

This solicitation is being issued for the purpose of selecting a Proposer capable of providing turnkey pre-construction and construction management services necessary to complete the New Government Campus build.

Pinellas County is requiring that the Proposer include and schedule for multiple in person meetings with the project team during all phases of pre-construction, construction and post construction. The County's expectation is that the firm selected engages and participates in weekly or, at a minimum, bi-weekly meetings in person and as required to finalize design and construction.

B. OBJECTIVES

The objective is to have complete construction documents, a permit submitted, and a guaranteed maximum price proposal within fifteen (15) months of execution of a contract with the awarded construction management firm with a construction duration not to exceed (17) months from mobilization to Certificate of Occupancy. Proposer is encouraged to work with the designers and engineering consultants to provide alternate design document and construction phasing approaches to improve or parallel track activities for demolition, site, foundations, core and shell and interior fit out if such

alternate methods improve the design, permitting and construction start and duration dates.

C. SCOPE OF SERVICES

The awarded Proposer will be responsible for performing turnkey professional construction management at risk (CMAR) services during all design, pre-construction, and construction phases for the complete build of the New Government Campus as described above.

The awarded Proposer will provide detailed coordination services with the owner, architect, engineer and project team and applicable consultants, including those hired by or sourced directly from Pinellas County. The Services listed herein are for general information only and are not an exhaustive list of service requirements. It is understood that all project work will be developed and delivered according to industry standard service delivery parameters and in accordance with Pinellas County contract documents.

Services will include, but may not be limited to:

1. Pre-construction Services

- Throughout the pre-construction period, attend meetings and participate in presentations to County and staff as required to provide updates on project status, budget and GMP process
- Review design documents during their development phases and advise on the selection of materials, building systems, equipment and construction means and methods
- Provide recommendations on the construction details, material availability, procurement timing, installation techniques and other construction related issues
- Based on the design document milestone phases for schematic, design development and construction documents, prepare construction budgets and schedules for review with the project team
- Develop and update as requested projected construction cash flow studies at design development and construction document phases
- Develop value-engineering options for the project team's review as necessary to comply with the project goals
- Review documents for building code issues and requirements for local jurisdictions, provide recommendations
- Advise and provide alternatives for design and project issues that may impact the securing of the building permit
- Identify potential long lead material requirements, establish a program to secure materials and reduce any potential schedule impacts, advise of alternative materials or suppliers as substitutes for long lead materials
- Develop, track and update purchasing logs with milestone dates, incorporate into the project construction schedule
- Pre-qualify subcontractors and materialmen to determine financial credibility, relevant experience, availability, and client satisfaction to develop a recommended bidders list
- Develop bidding strategies by outlining the sequence and timing for subcontractor bidding

- Coordinate pre-permit reviews with all required governing municipalities and the project team to identify potential design review comments
- Submit permit documents to all required governing municipalities and follow-up to secure and expedite the building permit approval
- Coordinate the final document review process and required Pinellas County approvals with the project team prior to issuing construction documents for bidding
- Prepare subcontractor and material provider bid packages, including bid clarifications, general requirements, schedule information, unit price bid forms, alternate bid forms, and others as required
- Issue bid documents to all pre-approved subcontractors and material providers (minimum of 3 qualified bids required per bid package or trade)
- Manage the bidding process, bidder questions, qualifications, receiving bids, tabulating results, leveling, compiling spreadsheets, scope reviews, and provide recommendation on successful bidders
- Develop a Guaranteed Maximum Price (GMP) based on bidding, budget items for trades and services not awarded, and allowances for undefined scope of work
- Evaluate and present to the project team alternate pricing, material or installation options presented in the bidding process
- Update and finalize the construction schedule to incorporate the subcontractor input from the bid process
- Per contract document requirements, prepare and submit the final GMP to the project team, owner and architect approval
- Participate in direct purchase initiatives as outlined by Pinellas County in the purchasing of goods, equipment, supplies and services
- Participate in the coordination and management of the owner supplied furniture, fixtures, equipment and technology
- Submit approval letters for each requested award to include the dollar amount to be awarded, a list of the bidding subcontractors or materialmen and their bids, the contractors recommended subcontractor, a list of included allowances, a list of any required unit costs for that subcontractor, clarification on scope of work, inclusions, and specific exclusions

2. Construction Services

- Provide turnkey construction management services for all construction phases and activities in compliance with contract documents
- Establish a clear organizational structure with true lines of authority sufficient to carry out and comply with the requirements of the contract documents, deliverables and project schedule
- Maintain a full-time dedicated project management staff component as required to manage and supervise all project activities
- Manage all safety precautions and programs in connection with the performance of the contract
- Coordinate all construction documents, revisions, permitting and approvals as required to maintain the critical path project schedule
- Manage the sourcing and review of all delegated design approvals
- Provide and manage a web based collaborative construction management software program accessible to all project consultants, designers, engineers and the project team

- Complete all subcontractor, materialmen and supplier's contracts agreements, "Contract Buyouts" within 90 days of GMP or phased scope of work awards
- Manage all shop drawings, submittals, samples, mockups, testing and other required contract deliverables
- Establish and maintain an overall critical path project construction schedule for all phases of work including owner supplied services and goods
- Submit an updated critical path project schedule monthly with each payment application
- Provide project recovery schedules whenever the critical path schedule indicates a 3 week or greater delay
- Coordinate and exercise regulatory control over all subcontractors and materialmen from mobilization through post construction
- Ensure materials furnished and the work performed are installed and completed in accordance with the contract documents, building codes, manufacturer and authorities having jurisdiction
- Schedule and coordinate all required inspections and testing procedures
- Assist in the delivery, installation, and final connections for all owner supplied furniture, fixtures, equipment and technology
- Maintain a record-keeping system to monitor and track the progress of the work to include correspondence, contracts, purchase orders, meeting minutes, daily reports, change order logs, submittal logs, RFI logs, progress schedules, jobsite manpower reports, inspections, material delivery shipment tickets, shop drawings, and others
- Chair in person bi-monthly and weekly owner architect contractor (OAC) meeting to review progress, open items, scheduling, and change management, meeting to be held in contractors site office
- Provide at OAC meetings, a two-week look ahead schedules for the project team's review
- Prepare contractor's monthly application for payment with sufficient detail and back up documentation as required for approval from owner's representative, owner, and architect
- Chair a "pencil review" meeting with the owner's representative and architect prior to submitting the contractor's monthly application for payment
- Submit final approved contractor's monthly application for payment as required electronically to Pinellas County
- Establish a contractor's schedule of values payment breakdown and a schedule of values breakdown for each subcontractor and materialmen prior to the first application for payment, submit to owner's representative for approval
- Include schedules of values for all subcontractors and materialmen included in the contractor's monthly application for payment
- Provide release of lien and or certified payment letters as required or requested with each progress payment
- Establish and submit on a quarterly basis, a detailed project progress report outlining the status of the project, summary of work completed during the last quarter, schedule compliance, budget compliance, contingency and allowance usage and balance, inspection and testing results, stored materials, and dated construction progress photos
- Manage all change orders proposed with verification of need, compliance with contract documents, supporting documentation, field conditions, cost and schedule impacts

- Present all fully vetted change requests to owner, architect and owner's representative for consideration
- Provide an owner's site office trailer for the exclusive use of Pinellas County, complete with electrical, HVAC, potable water, restroom, furniture and parking, size and timeframe of site office to be determined during contract negotiations
- Provide the project staff with Wi-Fi access on the construction site and inside the owner's site office trailer
- Provide site access controls and security measures as required to minimize theft and trespassing
- Provide daily cleanup and maintenance of the jobsite premises and surrounding areas to prevent accumulation of waste materials caused by operations under the contract documents and deliverables

3. Post Construction Services

- Schedule and conduct onsite training for all building systems, equipment and required maintenance with Pinellas County's Facility Management department prior to acceptance of Certificate of Occupancy
- Deliver to Facilities Management all attic stock, spare parts and materials required per construction documents
- Manage the completion of the architect's punch list in accordance with the approved and accepted punch-list schedule
- Prepare all contractor required documents for Certificate of Substantial Completion and Final Completion, procure or complete all other applicable governmental certificates for occupancy as required
- Assemble in an organized manner the contractor, subcontractor, and materialmen required contract document close-out records to include warrantees, operation manuals, training videos and manuals, testing reports, as-built drawings, and others
- Submit close-out documentation to the owner and architect for approval
- Submit final approved close-out documentation in digital format, transmitted to owner in a mutually acceptable manner
- Close out all contracts and purchase orders, resolve open claims and disputes for the final contract acceptance, provide owner's representative with documentation verifying contract close-outs
- Submit t contractor's final application for payment with supporting documentation only after all final contract deliverables, punch list, contract and owner issues are complete and approved

PART III: SUBMITTAL INSTRUCTIONS & FORMAT

Submittals must be uploaded utilizing OpenGov procurement website:
https://secure.procurenow.com/portal/pinellasfl

a. Failure to comply could result in the submittal being rejected.

b. Submittals must be on the forms furnished. Submittals sent via email will not be considered.

A. MINIMUM QUALIFICATIONS

The following are the minimum requirements that Proposer must meet to be considered responsible to perform the specified Services. Proposer must submit sufficient

documentation to clearly demonstrate that Proposer meets or exceeds the following minimum qualification requirements:

1. Must be a State of Florida licensed General Contractor, as defined in Chapter 489 Florida Statutes
2. Must have an active General Contractor license registration with the State of Florida, Department of State, Division of Corporations
3. Must meet minimum insurance requirements
4. Must demonstrate prior construction management experience with completed projects of similar size and scope

Failure by any Proposer to meet the minimum requirements stated above shall result in Proposer being deemed nonresponsive and removed from further consideration. Minimum qualification requirements must be maintained throughout the duration of an awarded contract.

B. CONFLICT OF INTEREST

Proposer must certify that they presently have no interest and will acquire no interest, either directly or indirectly, which would conflict in any manner with the performance of required services as provided herein.

C. QUALIFICATION SUBMITTAL INSTRUCTIONS

Proposer must submit one (1) electronic PDF copy of the required information. It is highly recommended that Proposers follow the prescribed organization of the submittal:

1. RFQ submittals should be **tabbed and or indexed by section** to facilitate evaluation
2. RFQ Submittals must be a single PDF file containing responses to all questions including applicable organization charts, project examples, and team bios
3. Submitted Qualifications must be limited to 120 pages, excluding tabs

Submitted Qualifications should include the following components, including all attachments specified herein, as listed below:

Section 1: Qualifications Cover Page and Cover Letter

Proposer should complete and submit the Qualifications Cover Page, provided herein, and should also provide a 1–2-page cover letter describing the following:

- Full legal company name, including any fictitious name(s), Doing Business As (DBA) and Company type (i.e. Corporation, Partnership, Joint Venture, etc.)
- Physical street address and mailing address (if different), including any other location(s) which may perform portions of the Services
- Primary point of contact information (name, title, phone, email), and any secondary or supplemental point(s) of contact information
- Names and titles of principals, partners, or owners, as applicable
- Brief statement of company history (date of establishment, number of years in business, number of employees, etc.) and business philosophy
- Brief statement regarding the Proposer's interest in this project

Section 2: Company & Team Qualifications
Proposer should provide documentation to fully demonstrate the qualification, education, and abilities of key personnel for the Proposer, as well as any proposed subcontractors that will be performing services, if awarded. The required documentation should include, at a minimum:

Key Personnel – Identify all key personnel proposed to perform services, if awarded, including the role they are proposed to perform on this project.

Licenses/Certifications – Provide all current licenses and certifications applicable to this project, held by Proposer and key personnel who are proposed to participate in the services.

List of Proposed Subcontractors – Provide all subcontractors or suppliers proposed to perform any aspect of the services specified herein. Proposer should include all documentation to demonstrate the qualifications and capabilities of each proposed subcontractor or supplier, including but not limited to licenses, certifications, and other credentials. Include the address of all subcontractors and services to be provided.

Project Organization Chart–Provide a complete organization chart for the Proposer and all subcontractors demonstrating the relationship of resources as it pertains to this project.

Qualification Certification – Complete and submit Attachment "A" provided herein.

Claims, Liens, Litigation History – Complete and submit Attachment "B" provided herein.

Certificates of Insurance – Submit documentation to demonstrate evidence of current and valid insurance policies in at least the coverage limits as specified in Exhibit "A", or certification from a qualified insurance provider attesting to Proposer's ability to obtain the required coverages upon award.

3: Related Experience
Proposer must provide documentation to demonstrate all relevant firm and proposed team experience providing construction management services for comparable buildings (i.e. government and court buildings) within the past ten (10) years, similar in size, scope and cost as the services specified herein. The documentation must include a listing of all projects in planning, under construction or completed with Proposer as the lead firm, including project title, owner/agency, point of contact (name, title, phone, email), project award and completion dates, project cost (starting vs. final).

The County reserves the right to reach out to any agency to inquire about the Proposer's performance and responsibility of the Proposer, whether the agency is included in the list specified in this section.

Section 4: Approach to Services
The Proposer must describe its approach to completing the required services within the time frame objective provided herein, including all strategies and methods that will contribute to the successful accomplishment of the objective and project. The information included in this section, must include, but is not limited to the following:

- A brief outline of the project approach with identification of each main step or milestone in the process
- Examples of previous completed projects where a new or innovative approach was taken and the corresponding results or possible benefits for this project
- Examples of reports that would typically be made available (i.e., progress reports, draft plans etc.) as well as frequency of follow up reporting with the County
- Demonstration of the quality control elements and strategies utilized by the Proposer to mitigate impacts of subcontractors or other factors on the project
- Description of current proposed team workload and awarded projects occurring in the next 4 years

Section 5: Proposed Schedule
Proposer must provide a proposed overall construction schedule, based upon each phase of the project as specified herein demonstrating Proposer can deliver this project. Proposers are encouraged to provide additional information regarding opportunities to improve the 17 month construction delivery schedule.

Section 6: Administrative Information
Proposer should complete and submit all remaining Attachments, as provided herein, which are not required in a previous section.

PART IV: EVALUATION AND AWARD

A. DETERMINATION OF RESPONSIVENESS

Each submission will be evaluated for responsiveness to the qualification requirements provided herein. Any qualifications that are materially nonresponsive to the requirements of this RFQ shall be disqualified and removed from consideration prior to evaluation.

Pinellas County reserves the right to waive any minor formality or irregularity in any submitted qualifications. However, any missing information or documentation that is material to the purpose of the RFQ may not be waived as a minor formality.

B. EVALUATION OF QUALIFICATIONS

All responsive qualifications will be evaluated by the project team and or evaluation committee. Evaluation of the responsive qualifications will be in accordance with the evaluation criteria as provided herein. Evaluators may consider any evidence available regarding financial, technical, other qualifications and abilities of Proposer, including past performance.

C. EVALUATION CRITERIA AND RANKING

The evaluation committee will evaluate and rank Proposers from highest to lowest based upon the specific evaluation criteria listed below. Evaluations will be carried out in accordance with 287.055 Florida Statutes and 2-178 County Code.

Evaluation Criteria:

1. Company and staff qualifications
2. Related firm and proposed team experience with Government Buildings and Courts
3. Quality of subcontractors, materialmen and suppliers
4. Approach to construction, project management and staffing
5. References
6. Proposed schedule
7. Business Status, MBE & SBE
8. Business location serving project
9. Previously awarded work
10. Shortlist discussion and interview/presentation

D. SHORTLIST DISCUSSIONS & INTERVIEW/PRESENTATIONS

Upon evaluation of submitted qualifications, the evaluation committee will determine a shortlist of Proposers to participate in presentations, and may require interviews or presentations, in accordance with Florida Statute 287.055.

Given the expedited timeframe of this solicitation, the makeup of the presentations is provided herein for Proposers to familiarize themselves with expectations. The presentations with the shortlisted Proposers may consist of and not be limited to the following topics:

1. Discuss your firm and teams experience with similar projects comparable to the government offices and Court facility indicated in the RFQ documents and Campus Programming
2. How will your firm manage the pre-construction services regarding architects, engineers, and consultants to ensure the most cost effective, functional, and constructable design is delivered?
3. Can you complete all the pre-construction and construction phases as indicated in RFQ Part II, section B, in the indicated timeframe?
4. How will your firm mitigate impacts or delays to the project schedule during pre-construction and construction phases? Discuss your project plan regarding communications with the owner regarding the progress of design, consideration of options, decision making, and risk mitigation.

E. NEGOTIATIONS & AWARD

Upon evaluation and final ranking of qualifications and shortlist interview/presentations, a Notice of Intent will be issued, expressing intent to move forward. Pinellas County is under no obligation to award a contract as a result of this RFQ.

It is the intent of the County to enter into negotiations with the top ranked Proposer, provided no documentable justification is provided that would prohibit proceeding with the top ranked Proposer. If the County and the selected Proposer can reach an agreement for the required services, a contract will be initiated for approval. If the County and the selected Proposer are unable to reach an agreement, the County will cease negotiations with the top ranked Proposer and initiate negotiations with the next successively ranked Proposer with the intent of coming to an agreement. This process will continue until such time as an agreement can be reached, or the County, in its sole discretion, determines that

moving to a subsequent Proposer in the rankings does not serve the best interest of the County or the project.

F. PROTEST PROCEDURES

Protests will be carried out in accordance with Section 2-162 of County Code.

PART V: ATTACHMENTS

The required attachments that Proposers must complete, sign, have notarized and include as part of their submitted qualifications are provided herein on the following pages. The instructions provided above in Part III specify in which sections of the submitted qualifications the required attachments must be included.

Request for Qualifications for Professional Services as Governed by Florida Statute 287.055:

1. "Professional services" is defined as those services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper in connection with his or her professional employment or practice.

2. An award may not be issued without proof that your firm is registered with the Florida Division of Corporations, as per Florida Statute §607.1501 www.flsenate.gov/Laws/Statutes/2011/607.1501.

3. A foreign corporation (foreign to the State of Florida) may not transact business in this state until it obtains a certificate of authority from the Department of State. Please visit dos.myflorida.com/sunbiz/ for this information on how to become registered.

W-9 REQUEST FOR TAXPAYER ID NUMBER AND CERTIFICATION

*Instructions to form W-9 available upon request

The Proposer must complete and submit to the County Form W-9 available: Through the following link:

www.irs.gov/forms-pubs/about-form-w-9

Section 119.071(5), Florida Statutes Notice:

Your Tax Identification Number (which for individuals is your social security number) is collected on Form W9 for use in filing information returns with the IRS as described more fully below. Collection of the Internal Revenue Code (26 U.S.C § 6109).

Privacy Act Notice:

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HAS. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, and District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under the tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer.

ADDENDUM

PLEASE ACKNOWLEDGE RECEIPT OF ADDENDA FOR THIS SOLICITATION BY SIGNING AND DATING BELOW:

ADDENDA NO.	SIGNATURE/PRINTED NAME	DATE RECEIVED

Note: Prior to submitting the response to this solicitation, it is the responsibility of the firm submitting a response to confirm if any addenda have been issued. If such document(s) have been issued, acknowledge receipt by signature and date in section above. Failure to do so may result in response being considered non-responsive or result in lowering the rating of a firm's proposal.

Information regarding addenda issued is available on the OpenGov website, https://secure.procurenow.com/portal/pinellasfl, listed under the bid attachments.

PART VI: EXHIBITS

EXHIBIT "A"
Insurance Requirements

PHASE 1 INSURANCE REQUIREMENTS - DESIGN SERVICES

The Construction Manager at Risk must provide a certificate of insurance and endorsement in accordance with the insurance requirements listed below, prior to recommendation for award. The Construction Manager at Risk shall obtain and maintain, and require any subcontractor to obtain and maintain, at all times during its performance of the Agreement in Phase 1 insurance of the types and in the amounts set forth. For projects with a Completed Operations exposure, Construction Manager at Risk shall maintain coverage and provide evidence of insurance for 2 years beyond final acceptance. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and have an AM Best rating of

A. VIII or better.

a) Submittals should include the Construction Manager at Risk's current Certificate(s) of Insurance in accordance with the insurance requirements listed below. If Construction Manager at Risk does not currently meet insurance requirements, Construction Manager at Risk shall also include verification from their broker or agent that any required insurance not provided at that time of submittal will be in place prior to the award of contract. Upon selection of the Construction Manager at Risk for award, the selected Construction Manager at Risk shall email certificate that is compliant with the insurance requirements. If the certificate received is compliant certificate no further action may be necessary. The Certificate(s) of Insurance shall be signed by authorized representatives of the insurance companies shown on the Certificate(s). **The Certificate holder section shall indicate Pinellas County, a Political Subdivision of the State of Florida, 400 S Fort Harrison Ave, Clearwater, FL 33756. Pinellas County, a Political Subdivision of the State of Florida shall be named as an Additional Insured for General Liability. A Waiver of Subrogation for Workers Compensation shall be provided if Workers Compensation coverage is a requirement.** Approval by the County of any Certificate(s) of Insurance does not constitute verification by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate(s) of Insurance is in compliance with the requirements of the Agreement. County reserves the right to require a certified copy of the entire insurance policy, including endorsement(s), at any time during the RFQ and/or contract period.

b) If any insurance provided pursuant to the Agreement expires or cancels prior to the completion of the work you will be notified by CTrax.. Upon notification, renewal certificate(s) of Insurance and endorsement(s) should be furnished to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org and to CTrax c/o JDI Data at PinellasSupport@jdidata.com by the Construction Manager at Risk or their agent prior to the expiration date.

1) The Construction Manager at Risk shall also notify the County within seventy-two (72) hours after receipt, of any notices of expiration, cancellation, nonrenewal or adverse material change in coverage received by said Construction Manager at Risk from its insurer. Notice shall be given by email to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org. Nothing contained herein shall absolve Construction Manager at Risk of this requirement to provide notice.

2) Should the Construction Manager at Risk, at any time, not maintain the insurance coverages required herein, the County may terminate the Agreement.

c) If subcontracting is allowed under Phase 1 of RFQ, the Prime Construction Manager at Risk shall obtain and maintain, at all times during its performance of the Agreement, insurance of the types and in the amounts set forth; and require any subcontractors to obtain and maintain, at all times during its performance of the Agreement, insurance limits as it may apply to the portion of the Work performed by the subcontractor; but in no event will the insurance limits be less than $500,000 for Workers' Compensation/Employers' Liability, and $1,000,000 for General Liability and Auto Liability if required below. All subcontracts between the Construction Manager at Risk and its subcontractor shall be in writing and are subject to the County's prior written approval. Further, all subcontracts shall;

1) Require each subcontractor to be bound to the Construction Manager at Risk to the same extent the Construction Manager at Risk is bound to the County by the terms of the Contract Documents, as those terms may apply to the portion of the Work to be performed by the subcontractor;

2) Provide for the assignment of the subcontracts from the Construction Manager at Risk to the County at the election of Owner upon termination of the Contract;

3) Provide that County will be an additional indemnified party of the subcontract;

4) Provide that the County will be an additional insured on all insurance policies required to be provided by the subcontractor except workers compensation and professional liability;

5) Provide a waiver of subrogation in favor of the County and other insurance terms and/or conditions as outlined below;

6) Assign all warranties directly to the County;

7) Identify the County as an intended third-party beneficiary of the subcontract. The Construction Manager at Risk shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract Documents to which the subcontractor will be bound by this Exhibit A and identify to the subcontractor any terms and conditions of the proposed subcontract which may be at variance with the Contract Documents.

ci) Each insurance policy and/or certificate shall include the following terms and/or conditions:

1) The Named Insured on the Certificate of Insurance and insurance policy must match the entity's name that responded to the solicitation and/or is signing the agreement with the County.

2) Companies issuing the insurance policy, or policies, shall have no recourse against County for payment of premiums or assessments for any deductibles which all are at the sole responsibility and risk of Construction Manager at Risk.

3) The term "County" or "Pinellas County" shall include all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and Constitutional offices of County and individual members, employees thereof in their official capacities, and/or while acting on behalf of Pinellas County.

4) All policies shall be written on a primary, non-contributory basis.

e) The minimum insurance requirements and limits for this Agreement, which shall remain in effect throughout its duration and for two (2) years beyond final acceptance for projects with a Completed Operations exposure, are as follows:

1) Workers' Compensation Insurance Worker's Compensation Insurance is required if required pursuant to Florida law. If, pursuant to Florida law, Worker's Compensation Insurance is required, employer's liability, also known as Worker's Compensation Part B, is also required in the amounts set forth herein.

Limits

Employers' Liability Limits	Florida Statutory
Per Employee	$ 500,000
Per Employee Disease	$ 500,000
Policy Limit Disease	$ 500,000

If Vendor/Contractor is not required by Florida law, to carry Workers Compensation Insurance in order to perform the requirements of this Agreement, County Waiver Form for workers compensation must be executed, submitted, and accepted by Risk Management. Failure to obtain required Worker's Compensation Insurance without submitting and receiving a waiver from Risk Management constitutes a material breach of this Agreement.

2) Commercial General Liability Insurance including, but not limited to, Independent Vendor, Contractual Liability Premises/Operations, Products/Completed Operations, and Personal Injury.

Limits

Combined Single Limit Per Occurrence	$ 1,000,000
Products/Completed Operations Aggregate	$ 2,000,000
Personal Injury and Advertising Injury	$ 1,000,000
General Aggregate	$ 2,000,000

3) Pollution Legal/Environmental Legal Liability Insurance for pollution losses arising from all services performed to comply with this contract. Coverage shall apply to sudden and gradual pollution conditions including the discharge, dispersal, release or escape of smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste materials or other irritants, contaminants or pollutants into or upon land, the atmosphere or any watercourse or body of water, which results in Bodily Injury or Property Damage. If policy is written on a Claims Made form, a retroactive date is required, and coverage must be maintained for 3 years after completion of contract or "tail coverage must be purchased. Coverage should include and be for the at least the minimum limits listed below:

a. Bodily injury, sickness, disease, mental anguish or shock sustained by any person, including death; property damage including physical injury to or destruction of tangible property including the resulting loss of use thereof, cleanup costs, and the loss of use of tangible property that has not been physically injured or destroyed.

b. Defense including costs, charges and expenses incurred in the investigation, adjustment or defense of claims for such compensation damages.

c. Cost of Cleanup/Remediation.

Limits

Per Claim or Occurrence	$ 1,000,000
General Aggregate	$ 1,000,000

For acceptance of Pollution Legal/Environmental Legal Liability coverage included within another policy coverage required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Pollution Legal/Environmental Legal Liability and other coverage combined.

4) **Professional Liability (Errors and Omissions) Insurance** with at least minimum limits as follows. If "claims made" coverage is provided, "tail coverage" extending three (3) years beyond completion and acceptance of the project with proof of "tail coverage" to be submitted with the invoice for final payment. In lieu of "tail coverage", Proposer may submit annually to the County, for a three (3) year period, a current certificate of insurance providing "claims made" insurance with prior acts coverage in force with a retroactive date no later than commencement date of this contract.

Limits

Each Occurrence or Claim	$ 15,000,000
General Aggregate	$ 15,000,000

For acceptance of Professional Liability coverage included within another policy required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Professional Liability and other coverage combined.

5) **Property Insurance** Vendor will be responsible for all damage to its own property, equipment and/or materials.

PHASE 2 INSURANCE REQUIREMENTS - CONSTRUCTION SERVICES

The Construction Manager at Risk must provide a certificate of insurance and endorsement in accordance with the insurance requirements listed below, prior to recommendation for award. The Construction Manager at Risk shall obtain and maintain, and require any subcontractor to obtain and maintain, at all times during its performance of the Agreement in Phase 2 insurance of the types and in the amounts set forth. For projects with a Completed Operations exposure, Construction Manager at Risk shall maintain coverage and provide evidence of insurance for 2 years beyond final acceptance. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and have an AM Best rating of A- VIII or better.

a) Submittals should include the Construction Manager at Risk's current Certificate(s) of Insurance in accordance with the insurance requirements listed below. If Construction Manager at Risk does not currently meet insurance requirements, Construction Manager at Risk shall also include verification from their broker or agent that any required insurance not provided at that time of submittal will be in place prior to the award of contract. Upon selection of the Construction Manager at Risk for award, the selected Construction Manager at Risk shall email certificate that is compliant with the insurance requirements. If the certificate received is compliant certificate no further action may be necessary. The Certificate(s) of Insurance shall be signed by authorized representatives of the insurance companies shown on the Certificate(s). **The Certificate holder section shall indicate Pinellas County, a Subdivision of the State of Florida, 400 S Fort Harrison Ave, Clearwater, FL 33756. Pinellas County shall be named as an Additional Insured for General Liability. A Waiver of Subrogation for Workers Compensation shall be provided if Workers Compensation coverage is a requirement.**

b) Approval by the County of any Certificate(s) of Insurance does not constitute verification by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate(s) of Insurance is in compliance with the requirements of the Agreement. County reserves the right to require a certified copy of the entire insurance policy, including endorsement(s), at any time during the RFQ and/or contract period.

c) If any insurance provided pursuant to the Agreement expires or cancels prior to the completion of the work you will be notified by CTrax.. Upon notification, renewal certificate(s) of Insurance and endorsement(s) should be furnished to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org and to CTrax c/o JD Data at PinellasSupport@jdidata.com by the Construction Manager at Risk or their agent prior to the expiration date.

    1) The Construction Manager at Risk shall also notify the County within 72 hours after receipt, of any notices of expiration, cancellation, non renewal or adverse material change in coverage received by said Construction Manager at Risk from its insurer. Notice shall be given by email to Pinellas County Risk Management at InsuranceCerts@pinellascounty.org. Nothing contained herein shall absolve Construction Manager at Risk of this requirement to provide notice.

    2) Should the Construction Manager at Risk, at any time, not maintain the insurance coverages required herein, the County may terminate the Agreement.

d) If subcontracting is allowed under Phase 2 of RFQ, the Prime Construction Manager at Risk shall obtain and maintain, at all times during its performance of the Agreement, insurance of the types and in the amounts set forth; and require any subcontractors to obtain and maintain, at all times during its performance of the Agreement, insurance limits as it may apply to the portion of the Work performed by the subcontractor; but in no event will the insurance limits be less than $500,000 for Workers' Compensation/Employers' Liability, and $1,000,000 for General Liability and Auto Liability if required below.

All subcontracts between the Construction Manager at Risk and its subcontractor shall be in writing and are subject to the County's prior written approval. Further, all subcontracts shall

1) Require each subcontractor to be bound to the Construction Manager at Risk to the same extent the Construction Manager at Risk is bound to the County by the terms of the Contract Documents, as those terms may apply to the portion of the Work to be performed by the subcontractor;

2) Provide for the assignment of the subcontracts from the Construction Manager at Risk to the County at the election of Owner upon termination of the Contract;

3) Provide that County will be an additional indemnified party of the subcontract;

4) Provide that the County will be an additional insured on all insurance policies required to be provided by the subcontractor except workers compensation and professional liability;

5) Provide a waiver of subrogation in favor of the County and other insurance terms and/or conditions as outlined below;

6) Assign all warranties directly to the County.

7) Identify the County as an intended third-party beneficiary of the subcontract. The Construction Manager at Risk shall make available to each proposed subcontractor, prior to the execution of the subcontract, copies of the Contract Documents to which the subcontractor will be bound by this Exhibit A and identify to the subcontractor any terms and conditions of the proposed subcontract which may be at variance with the Contract Documents.

e) Each insurance policy and/or certificate shall include the following terms and/or conditions:

1) The Named Insured on the Certificate of Insurance and insurance policy must match the entity's name that responded to the solicitation and/or is signing the agreement with the County.

2) Companies issuing the insurance policy, or policies, shall have no recourse against County for payment of premiums or assessments for any deductibles which all are at the sole responsibility and risk of Construction Manager at Risk.

3) The term "County" or "Pinellas County" shall include all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and Constitutional offices of County and individual members, employees thereof in their official capacities, and/or while acting on behalf of Pinellas County.

f) The minimum insurance requirements and limits for this Agreement, which shall remain in effect throughout its duration and for two (2) years beyond final acceptance for projects with a Completed Operations exposure, are as follows:

1) <u>Workers' Compensation Insurance</u> Worker's Compensation Insurance is required if required pursuant to Florida law. If, pursuant to Florida law, Worker's Compensation Insurance is required, employer's liability, also known as Worker's Compensation Part B, is also required in the amounts set forth herein.

Limits

Employers' Liability Limits Florida Statutory

Per Employee	$ 500,000
Per Employee Disease	$ 500,000
Policy Limit Disease	$ 500,000

If Vendor/Contractor is not required by Florida law, to carry Workers Compensation Insurance in order to perform the requirements of this Agreement, County Waiver Form for workers compensation must be executed, submitted, and accepted by Risk Management. Failure to obtain required Worker's Compensation Insurance without submitting and receiving a waiver from Risk Management constitutes a material breach of this Agreement.

2) **Commercial General Liability Insurance** including, but not limited to, Independent Vendor, Contractual Liability Premises/Operations, Products/Completed Operations, and Personal Injury. No explosion, collapse, underground damage, crane or boom weight exclusions.

Limits

Combined Single Limit Per Occurrence	$ 1,000,000
Products/Completed Operations Aggregate	$ 2,000,000
Personal Injury and Advertising Injury	$ 1,000,000
General Aggregate	$ 2,000,000

3) **Business Automobile or Trucker's/Garage Liability Insurance** covering owned, hired, and non- owned vehicles. If the Consultant does not own any vehicles, then evidence of Hired and Non-owned coverage is sufficient. Coverage shall be on an "occurrence" basis, such insurance to include coverage for loading and unloading hazards, unless Consultant can show that this coverage exists under the Commercial General Liability policy.

Limit

Combined Single Limit Per Accident	$1,000,000

4) **Excess or Umbrella Liability Insurance** excess of the primary coverage required, in paragraphs (1), (2), and (3) above. No explosion, collapse, underground damage, crane or boom weight exclusions.

Limits

Each Occurrence	$ 20,000,000
General Aggregate	$ 20,000,000

5) **Pollution Legal/Environmental Legal Liability Insurance** for pollution losses arising from all services performed to comply with this contract. Coverage shall apply to sudden and gradual pollution conditions including the discharge, dispersal, release or escape of smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids or gases, waste materials or other irritants, contaminants or pollutants into or upon land, the atmosphere or any watercourse or body of water, which results in Bodily Injury or Property Damage. If policy is written on a Claims Made form, a retroactive date is required, and coverage must be maintained for 3 years after completion of contract or "tail coverage must be purchased. Coverage should include and be for the at least the minimum limits listed below:

   a. Bodily injury, sickness, disease, mental anguish or shock sustained by any person, including death; property damage including physical injury to or destruction of tangible property including the resulting loss of use thereof, cleanup costs, and the loss of use of tangible property that has not been physically injured or destroyed.

   b. Defense including costs, charges and expenses incurred in the investigation, adjustment or defense of claims for such compensation damages.

   c. Cost of Cleanup/Remediation.

Limits

Per Claim or Occurrence	$ 2,000,000
General Aggregate	$ 2,000,000

For acceptance of Pollution Legal/Environmental Legal Liability coverage included within another policy coverage required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Pollution Legal/Environmental Legal Liability and other coverage combined.

6) **Professional Liability (Errors and Omissions) Insurance** with at least minimum limits as follows. If "claims made" coverage is provided, "tail coverage" extending three (3) years beyond completion and acceptance of the project with proof of "tail coverage" to be submitted with the invoice for final payment. In lieu of "tail coverage", Proposer may submit annually to the County, for a three (3) year period, a current certificate of insurance providing "claims made" insurance with prior acts coverage in force with a retroactive date no later than commencement date of this contract.

Limits

Each Occurrence or Claim	$ 10,000,000
General Aggregate	$ 10,000,000

For acceptance of Professional Liability coverage included within another policy required herein, a statement notifying the certificate holder must be included on the certificate of insurance and the total amount of said coverage per occurrence must be greater than or equal to the amount of Professional Liability and other coverage combined.

7) **Builders Risk/Installation Floater Insurance** County property shall be covered by proof of a Builders Risk policy and/or Installation Floater policy covering the interests of Pinellas County property until final acceptance of building or of installed equipment is granted and coverage period shall include testing. Coverage shall be maintained for the entire time the property and/or equipment is in the Proposer's care, custody, and/or control, including onsite and offsite storage and transit. Limit and valuation shall be replacement cost. If the Proposer delivers materials and/or equipment and loads same using a crane, then no crane, boom, jig, or weight exclusion shall apply. Proposer's property, installation floater, builders risk, if required, and/or equipment policy shall contain a waiver of subrogation in favor of the County. All deductibles will be the responsibility of the Proposer unless County agrees in writing. Builders Risk policies shall be written in the name of the County, the contractor and all subcontractors as their interests may appear. Installation and/or Equipment policies must name the County as a Loss Payee.

Limit Guaranteed Maximum Price

8) **Property Insurance** Vendor will be responsible for all damage to its own property, equipment and/or materials.

Evaluation Criteria, Written Proposal

Pinellas County New Campus
Evaluation Criteria for Written Proposals, RFP #25-0355-CMAR

Scored by:

1	Approach	Potential Points	Firm #1	Firm #2	Firm #3
	Ability of Firm and its Professional Personnel, Willingness and Ability to Meet Schedule and Budget Based on Current and Projected Workload.				
1.1	**Firm -** overall qualifications and experience with construction management at risk projects and Guaranteed Maximum Price contracts	75			
1.2	**Project Team -** overall qualifications of the project team as proposed	75			
1.3	**Fit -** appropriateness of the construction firm's organization and project team proposed as it relates to Pinellas County and the New Government Campus build	75			
1.4	**Resources** - senior management & professional level resources available to provide services and resolve issues	20			
1.5	**Resources** - proposal includes staffing disciplines and expertise required to complete pre-construction services, construction management services, sourcing, pricing, contracting, and coordination with design and engineering consultants	20			
1.6	**Management** - project management team is uniquely qualified to provide the described services	20			
1.7	**Workload -** proposal includes an evaluation of the firms workload commitments, indicates an ability to complete services on schedule with adequate staffing, and provides for additional staffing resources in the event of need or unforeseen circumstances	40			
1.8	**Project Controls -** evaluation of the firm's overall approach to controlling the project, utilization of technology, construction software, and scheduling tools to manage subcontractors, project costs, quality control, document control, change management, overruns and project delays	20			
1.9	**Approach -** evaluation of the firm's approach, appropriateness of means and methods, staffing, schedule logic, subcontractors, vendors, and consultants proposed to complete the scope of work as outlined in the RFP	20			
1.10	**Deliverables -** evaluation of firms commitment to meet deliverables dates, schedule and budget goals	35			
	Approach Total	**400**	**0**	**0**	**0**

2	Firm Experience		Firm #1	Firm #2	Firm #3
	Firm Experience with Projects of Similar Size and Past Performance				
2.1	**Experience -** firm provided relevant construction management experience with projects of similar size, complexity, type and scope as outlined in the RFP	75			
2.2	**Recent Experience -** firm provided recent (within the past ten years) experience with projects of similar size, complexity, type and scope as outlined in the RFP	75			
2.3	**References** - firm provided references from previously completed similar sized projects including project details for scope and size, schedule, awards, contract type, and client contacts	40			
2.4	**Pinellas -** experience pertaining to specific Pinellas County projects both past and present	30			
2.5	**Scope -** firm's proposal acknowledges the scope of work as outlined in the RFP and acknowledged the requirement to assist in owner supplied goods, services, consultants and installations as typically required for a project of similar size and complexity	90			
2.6	**Concept -** firm acknowledges in the proposal an understanding of the overall project goals, constraints, and timelines for the project including the scope of work which may include but is not limited to: additional studies performed by consultants that may affect the project and key design elements plus project impacts resulting from community input	90			
	Experience Total	**400**	**0**	**0**	**0**

Evaluation Criteria, Oral Presentation

Pinellas County New Campus

Evaluation Criteria for Oral Presentations, RFP #25-0355-CMAR

Scored by:

1	Project	Potential Points	Firm #1	Firm #2	Firm #3
	Understanding of Project and Firm Qualifications				
1.1	**Firm -** demonstrates relevant project experience, expertise in construction management and the services & staffing requirements to complete all phases of pre-construction, construction management services, and post construction services	100			
1.2	**Firm** - demonstrates a clear understanding of the project goals and key deliverables as detailed in the RFP	50			
1.3	**Firm -** demonstrates a clear understanding of the project scope, complexity, constraints and unknowns	50			
1.4	**Firm -** demonstrates a clear understanding and impacts of the completed reports including Campus Programming, Traffic, Survey, and Environmental	50			
1.5	**Firm -** acknowledges that the scope of work services include the participation in presentations, meetings and working sessions with Pinellas staff, Commissioners, other municipalities, FDOT, PSTA, Forward Pinellas, Creative Pinellas, along with other stakeholders and authorities having jurisdiction	50			
1.6	**Management -** firm proposed a team of qualified and experienced in house construction management professionals to be assigned to the project full time from award to final completion	75			
1.7	**Management -** firm identified an overall project representative (Project Executive or similar) to serve as the single point of contact for Pinellas County, the project team and the owner's representative as it relates to all construction management services, project updates, correspondence, meetings, presentations, and contract management oversight	75			
1.8	**Management -** firm proposed a team of qualified subcontractors, materialmen, and vendors that are locally based, qualified for the scope of work as defined in the RFP, and have teamed with the firm on similar size projects	50			
	Project Total	**500**	**0**	**0**	**0**

2	Schedule & Budget		Firm #1	Firm #2	Firm #3
	Ability to Provide Required Services Within the Schedule and Budget				
2.1	**Schedule -** firm demonstrates a clear understanding of the projected schedule as outlined in the RFP	100			
2.2	**Schedule -** firm demonstrated experience and provided examples of a project scheduling, scheduling tools and software, and the management staff assigned to track and schedule construction progress	50			
2.3	**Firm -** demonstrates a clear understanding of the not to exceed budget as communicated	100			
2.4	**Firm -** provided real examples of cost & quality control practices, scope verifications, and value engineering tools utilized to control cost overruns during pre-construction and construction phases	50			
	Schedule & Budget Totals	**300**	**0**	**0**	**0**

3	Approach		Firm #1	Firm #2	Firm #3
	Managerial Methods used to Plan, Design and Administer the Project				
3.1	**Approach -** evaluation of the overall project approach by the firm, the appropriateness of staffing levels and expertise, the means and methods proposed, and the ability to guide the project through pre-construction, construction and post construction	100			
3.2	**Fit -** appropriateness of the construction management's firm and project team proposed as it relates to Pinellas County and the New Government Campus build	100			
	Approach Total	**200**	**0**	**0**	**0**

4	Oral Presentation Totals	Potential Points	Firm #1	Firm #2	Firm #3
4.1	**Oral Totals**	**1,000**	**0**	**0**	**0**

03 | Program Summary

04 | Entry User Journey

05 | Site Scenario Take-Aways

06 | Program

01 | Executive Summary

01 Executive Summary | Consolidation Drivers

Three drivers for consolidation emerged through the programming validation. These drivers remain at the core of the consolidation and essential to its success.

CONSTITUENT SERVICE DELIVERY

A ONE STOP SHOP APPROACH TO SERVICES

The customer experience improves when customers can address multiple needs during one visit.

WORKFORCE ENGAGEMENT & SUPPORT

EMPLOYEE HUB

Hybrid workplaces that bring multiple departments under one roof encourage increased collaboration and teaming.

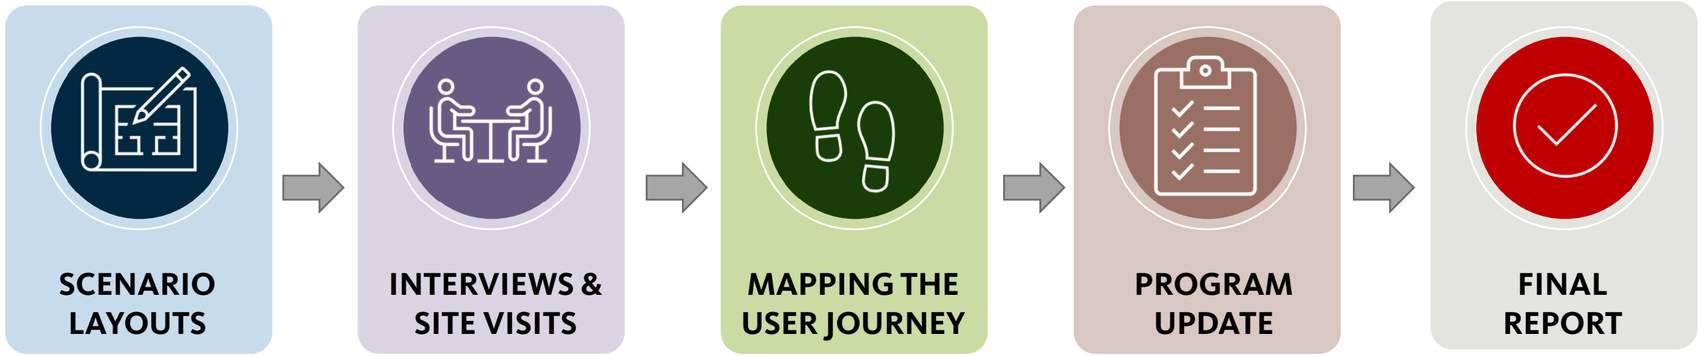
EFFICIENCIES

COST SAVING, SQUARE FOOTAGE REDUCTION, AND SHARED RESOURCES

Consolidated departments share resources such as training facilities and meeting spaces. Utility and maintenance costs decrease.

01 Executive Summary | Overview

In collaboration with CBRE, Gensler participated in in-depth conversations with County department leadership, elected officials, and appointed authorities in both the spring of 2023 and the fall of 2024. These interviews deepened the team's understanding of the County's functional and spatial needs. The campus spatial approach reflects a nuanced understanding of group functions and adjacencies, a clear strategy for public service, and recent County organizational changes. The multiple functions are separated into three buildings: Administration, Justice & The Clerk, and Development Services.



The areas of opportunity identified through the interview process provide the backbone for the new campus planning. These include customer experience, efficient and adaptable use of resources, cross-departmental interactions, employee experience and choice, and organizational transparency. Standardizing space types, such as offices and workstations, gives the County increased flexibility as the organization evolves and work patterns change. Sharing support and collaboration spaces decreases duplication and encourages cross-departmental interaction, strengthening a sense of County identity. Moving from dedicated and assigned workpoints to a primarily unassigned approach, allows the County to leverage their hybrid policy for amore efficient use of space.

The program outlines a clear strategy for public vs employee spaces. A fourth shared space beyond the three primary buildings, called Shared Public, resides at the ground floor of the Administration and the Justice & The Clerk buildings. For the Administration and Justice buildings, the Shared Public consolidates the visitor experience, allowing the County greater control of the visitor journey.

The user journeys lay the groundwork for the design of the buildings and the campus as a whole. Through the three initial site layout scenarios, learnings have been gleaned and decisions made that will direct the development of campus plan.

01 Executive Summary | Methodology & Process

The following process enabled important decisions and further refinement of the strategic approach for the new campus plan.

THREE LAYOUT OPTIONS

Shared with the Board of County Commissioners, PSTA, Forward Pinellas, City of Largo Commissioners, Traffic consultants, and other key stakeholders

TWENTY-NINE INTERVIEWS

In collaboration with CBRE to refine and advance the new campus program

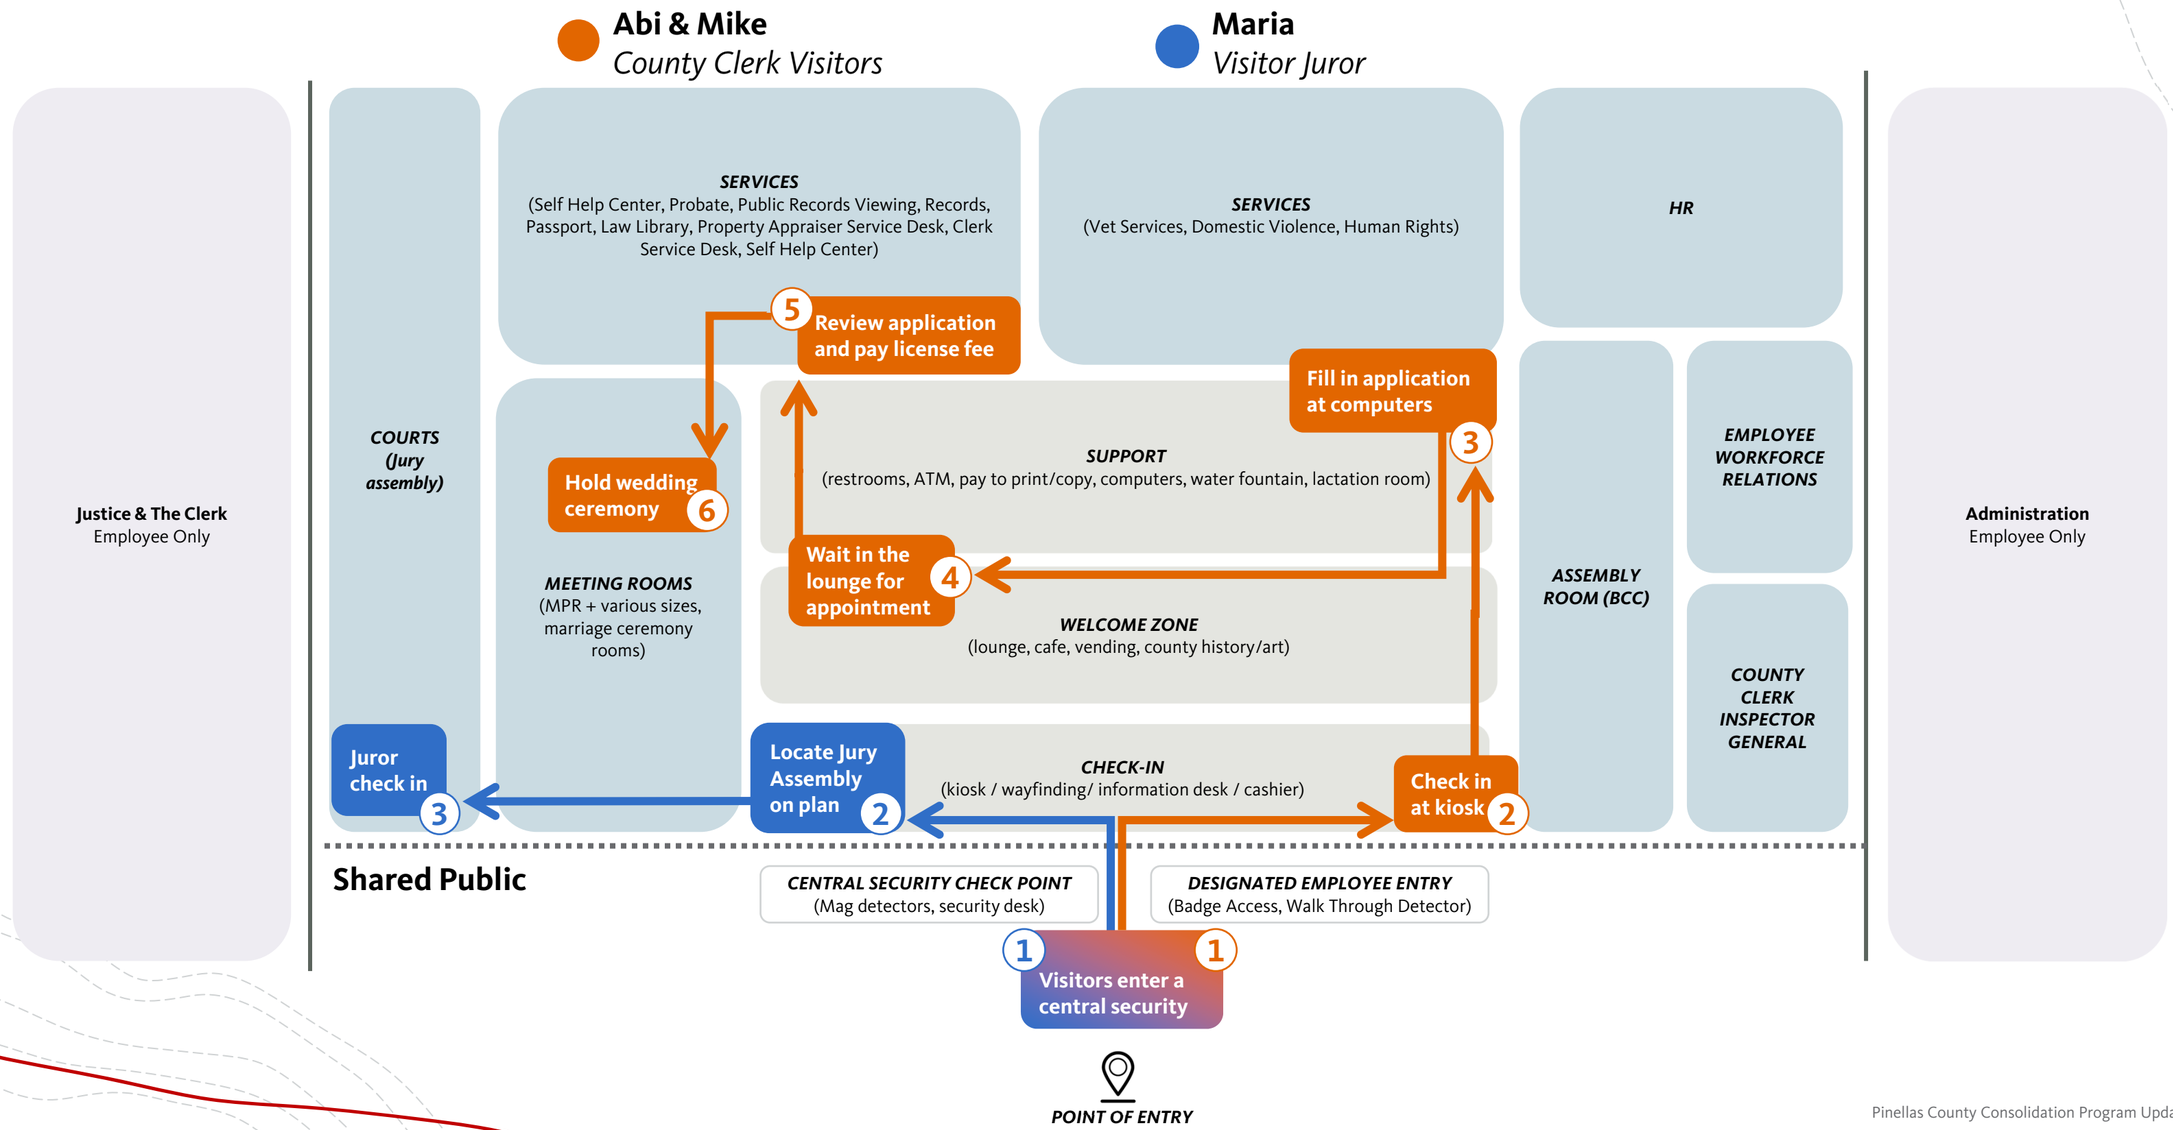
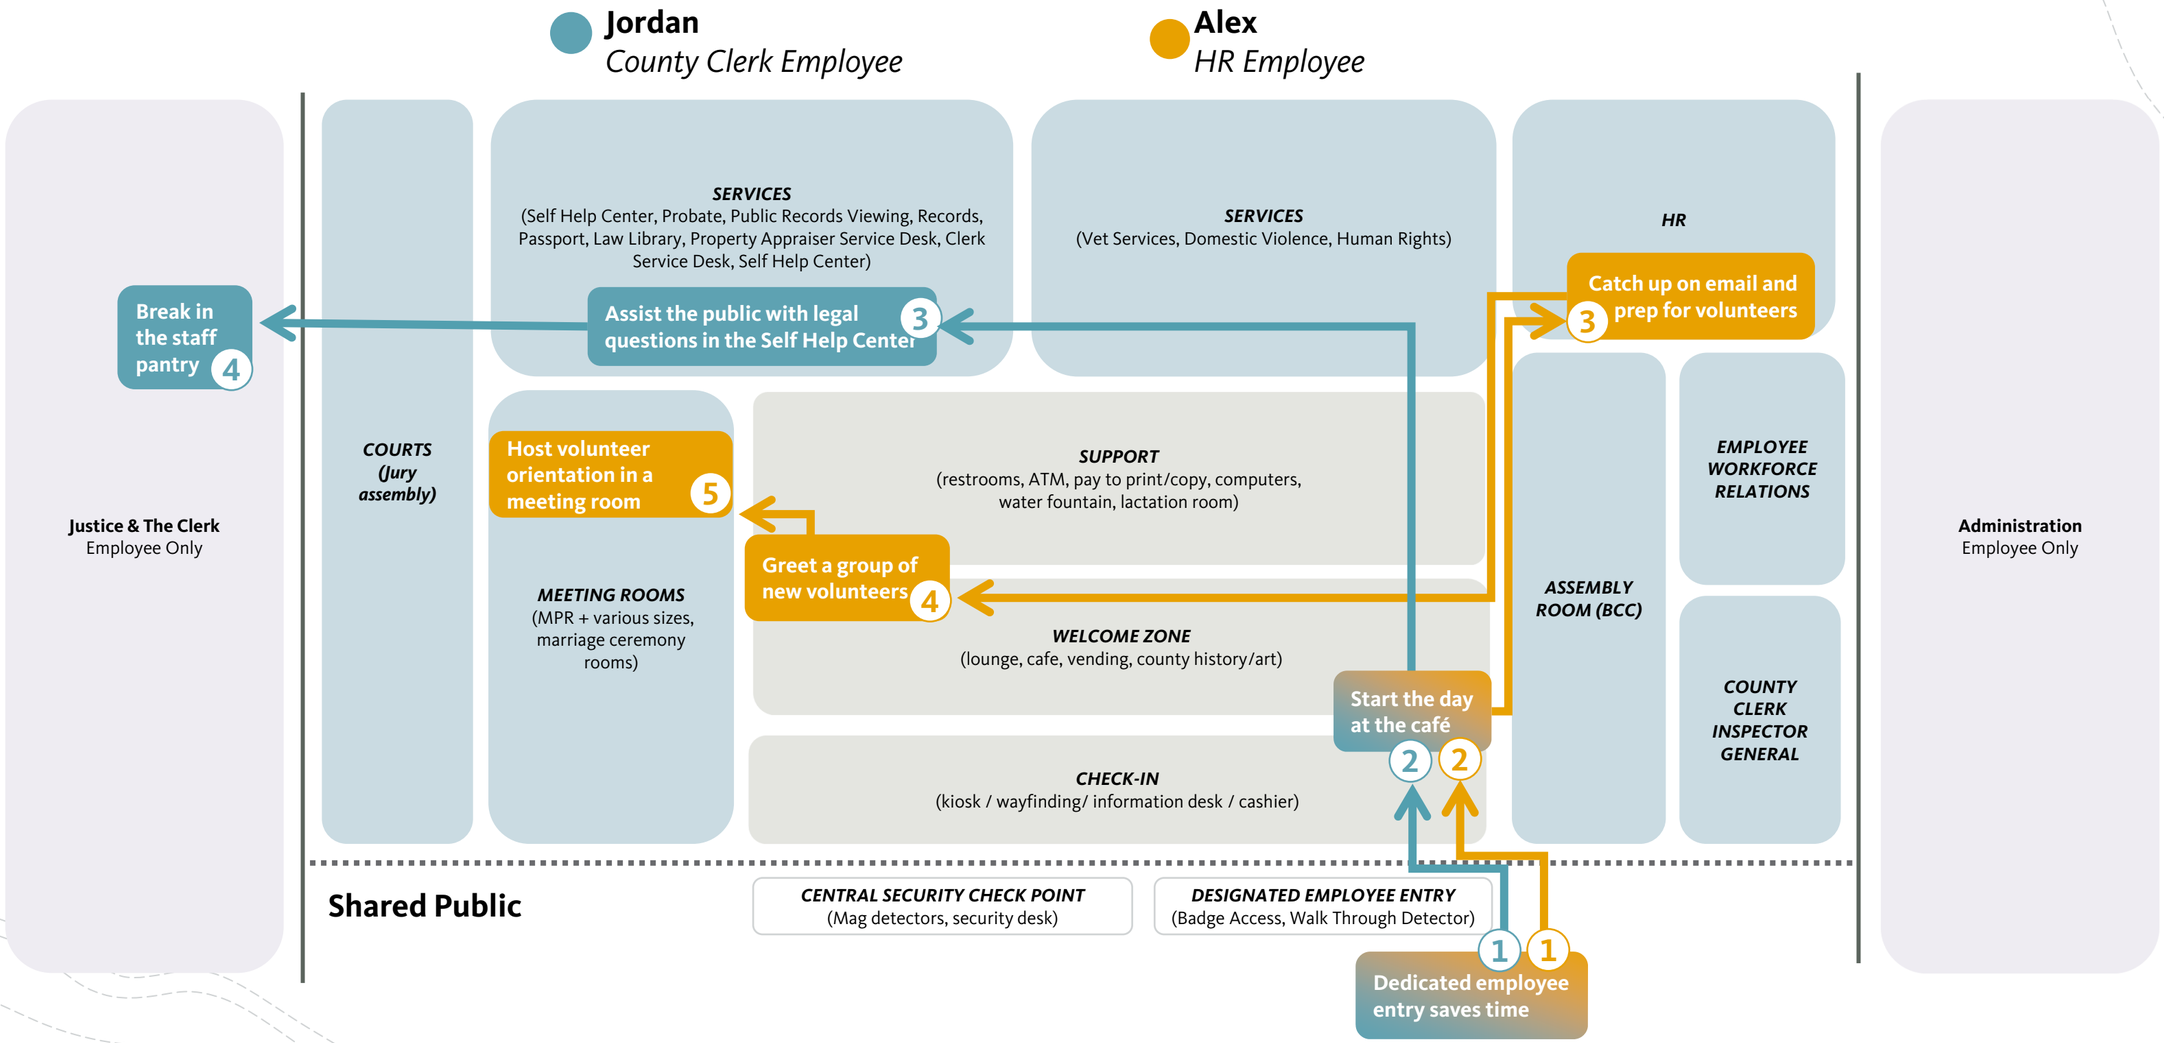
04 | Entry User Journey



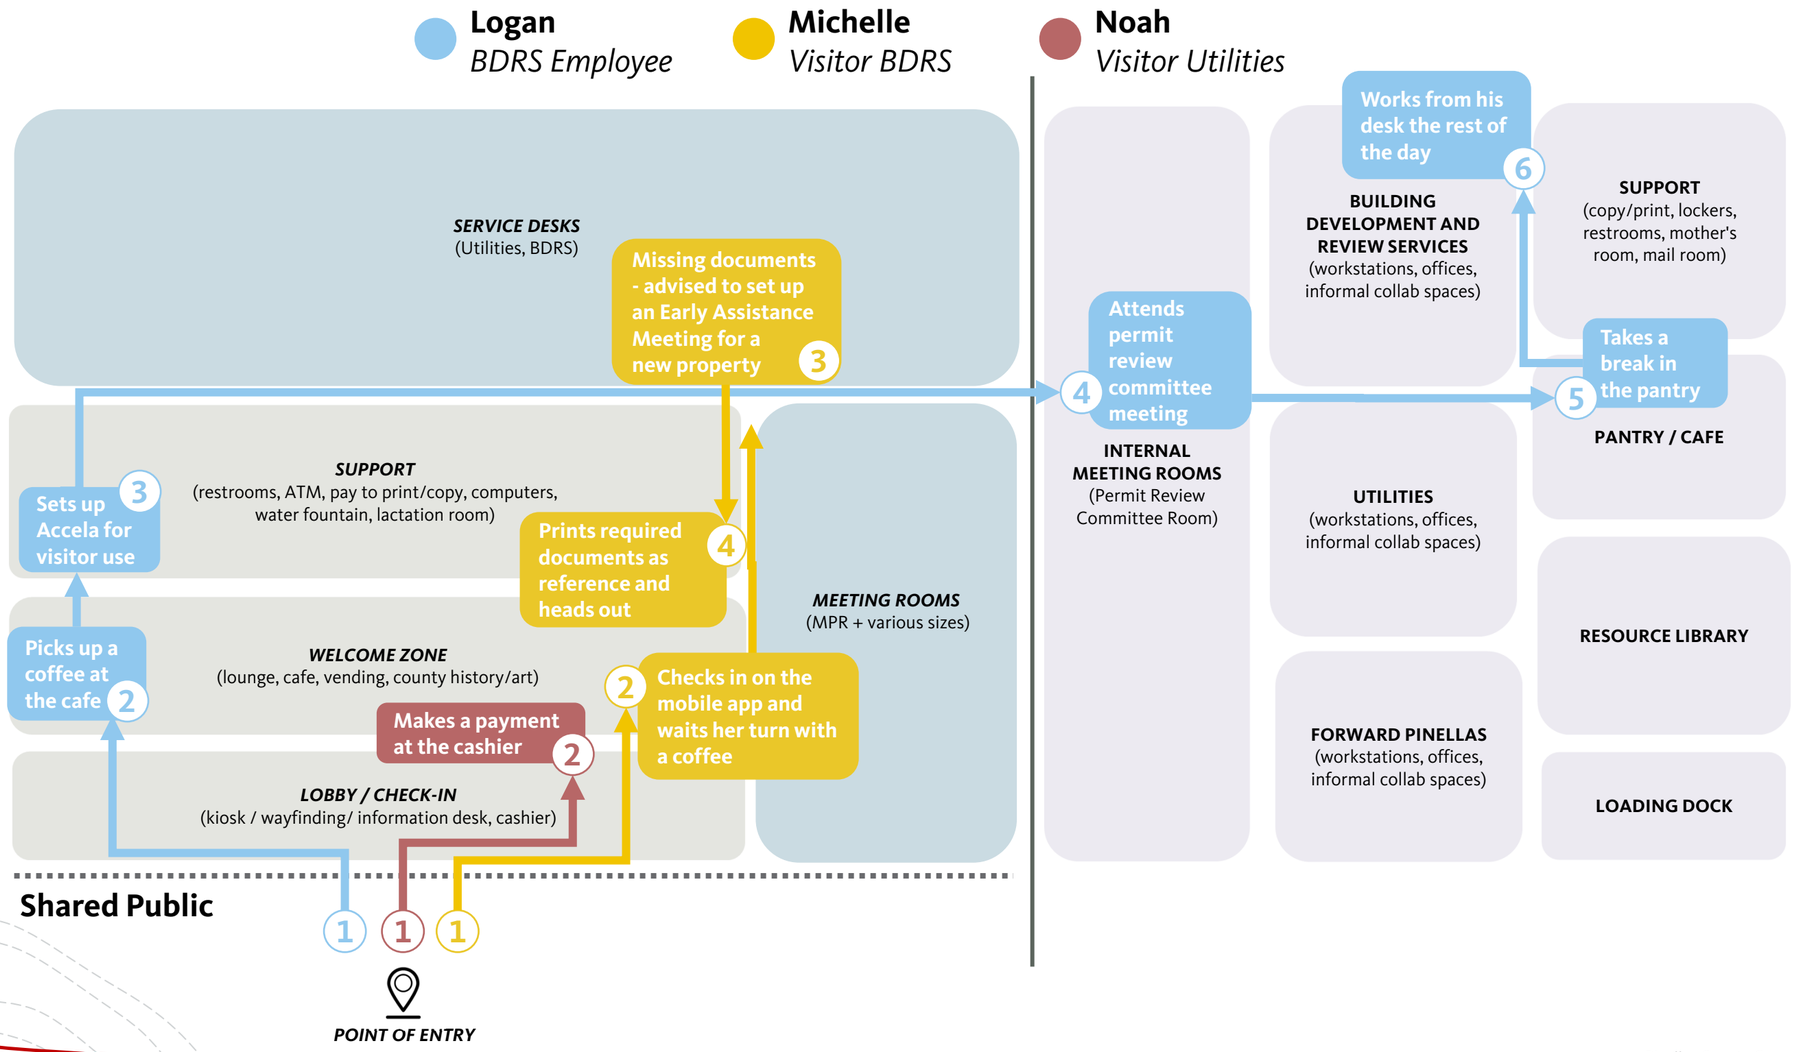
04 Entry User Journey | Concept Diagram

The spatial organization of the Shared Public area delineates three space categories: Public, Private, and Public Touchpoints. Visitors would only have access to Public and Public Touchpoints.



04 Entry User Journey | Admin & Justice Visitor Journey

Visitor journeys typically stay within the Shared Public area. As a juror, Maria would continue to the Courts within the Justice & The Clerk building.

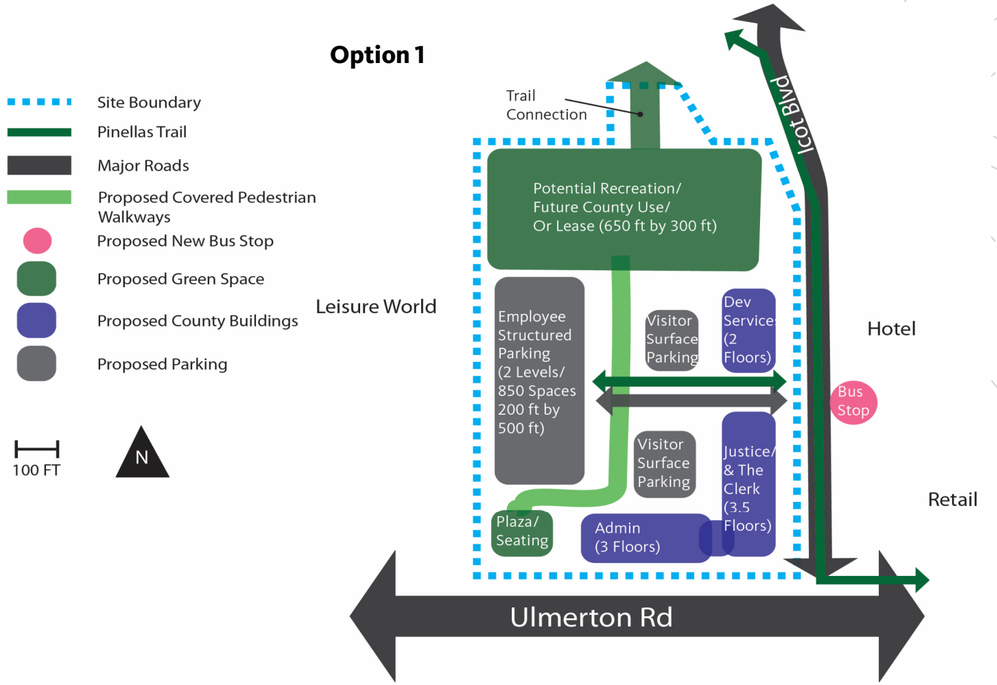


04 Entry User Journey | Admin & Justice Employee Journey

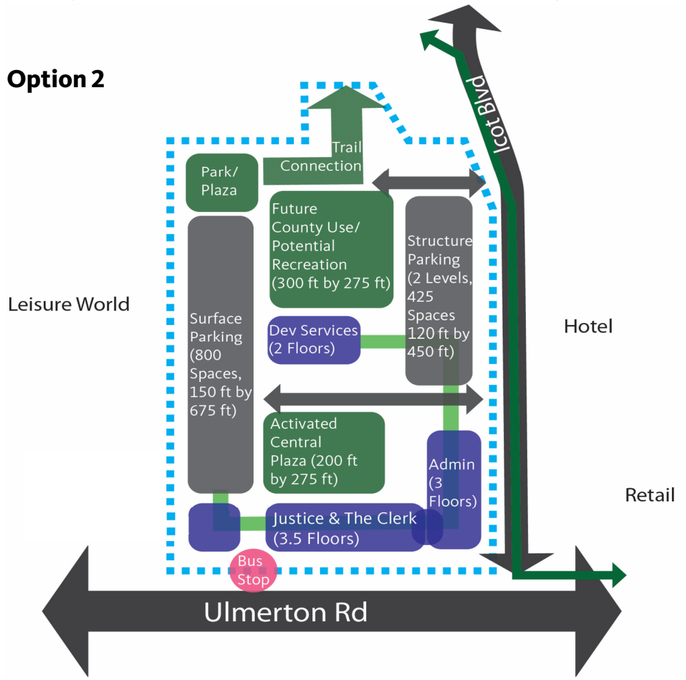
Employee groups with high public visibility sit within the Shared Public area and perform the majority of their tasks within that area. They access shared resources and support within the employee spaces.

04 Entry Journey | Development Services

The Development Services building functions similarly to the other buildings, but at a smaller scale and within a single building. Security consists of a single security desk without magnetometers.



05 | Site Scenario Take-Aways



05 Site Scenario Take-Aways | Direction

Three initial layout options assisted stakeholders in refining the direction for the campus. The scenarios were presented to the City of Largo Planning Committee, the City of Largo Board of Commissioners, and in a public workshop with the Board of County Commissioners. They were the basis of discussion with Forward Pinellas, the Pinellas Sun Transit Authority, Kimley Horn, and the Florida Department of Transportation. Feedback from these discussions helped refine the direction for the campus, with these two scenarios serving as a foundation for developing master plan options..

Direction:

- **Bus stop location will be on Ulmerton Rd** with the County allowing for a pull-off and a bus stop shelter
- There will be **2 entry points off of Icot Blvd.** These entry points should align with existing entry points on the opposite side of Icot Blvd
- **Parking will be primarily structured** with some visitor surface parking
- Administration and/or Justice & The Clerk will have a **prominent position viewed from Ulmerton Rd**
- Green space will be configured for **potential future use**
- Site development will **coordinate with the extension of Pinellas Trail**
- **No traffic light at Ulmerton Rd and Icot Blvd** due to proximity of existing traffic lights

*Numbers have been rounded

Key Notes

N1 The Administration Building houses administrative departments and the Board of County Commissioners.
N2 The Development Services Building houses groups that deal with permitting, building, and construction.
N3 The Justice & The Clerk houses the Courts, the majority of the Clerk of the Courts, and Property Appraiser.
N4 Shared Public is the shared space between the Administration Building and the Justice & The Clerk. It is not a stand-alone building.
N5 The fitness center is located at the ground floor of the parking structure.
N6 Parking counts based on an estimated additive 15% of Rentable Square Feet to the USF.
N7 Some support and collaboration spaces moved to Shared Public.
N8 Shared Public is the combined public spaces between Administration and Justice & The Clerk. This creates a single visitor entry point and separates public spaces from employee spaces.
N9 Rentable Square Footage (RSF) is calculated with an additive 15%.
N10 Gross Square Footage is calculated as an additive 5% to the RSF.

Key Notes

N1 Entry Zone
N2 Welcome Zone
N3 Service Zone
N4 Support Zone
N5 Meeting Zone
N6 Private / trauma informed. Small seating area, 2 County staff workstations, 2 workstations for non-County support, 1-2 private workstations to complete injunction forms
N7 Formal assembly with dais for the Board of County Commissioners
N8 140 capacity, 2 workstations at a front desk, up to 3 check-in kiosks, a dedicated bathroom space (calculated separately), and a secure cash payment with a window for cash payments, pantry area with coffee/tea, small lounge/work area
N9 By Jury Assembly
N10 Locate at ground floor of parking structure
N11 Includes waiting space for The County Clerk, Veterans Services, and Property Appraiser
N12 8 small workstations for viewing records and research
N13 Includes Probate and primarily Clerk services, also includes Property Appraiser service desk
N14 Part of County Clerk program, tallied in 2024 in Shared Public area

ALTA/NSPS LAND TITLE SURVEY
THE MAP AND REPORT ARE NOT FULL AND COMPLETE WITHOUT THE OTHER.

EXHIBIT D

SURVEYOR'S REPORT

LEGAL DESCRIPTION:

LOTS 22 THROUGH 24, RUBIN ICOT CENTER, ACCORDING TO THE PLAT THEREOF RECORDED IN PLAT BOOK 88, PAGES 79 THROUGH 85, OF THE PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA AND LYING WITHIN SECTION 5, TOWNSHIP 30 SOUTH, RANGE 16 EAST, PINELLAS COUNTY, FLORIDA;

TOGETHER WITH THAT PORTION OF LOT 21, RUBIN ICOT CENTER, ACCORDING TO THE PLAT THEREOF RECORDED IN PLAT BOOK 88, PAGES 79 THROUGH 85, OF THE PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA AND LYING WITHIN SECTION 5, TOWNSHIP 30 SOUTH, RANGE 16 EAST, PINELLAS COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT THE SOUTHWEST CORNER OF SAID LOT 21; THENCE NORTH 00 DEGREES, 23 MINUTES, 46 SECONDS WEST ALONG THE WEST LINE OF SAID LOT 21 FOR 212.04 FEET; THENCE SOUTH 48 DEGREES, 18 MINUTES, 20 SECONDS FOR 321.41 FEET TO A POINT ON THE SOUTH SIDE OF LOT 21, THENCE ALONG SAID LINE NORTH 89 DEGREES, 34 MINUTES, 42 SECONDS WEST FOR 238.54 FEET TO THE AFOREDESCRIBED POINT OF BEGINNING.

ACCURACY:

1. ALL MEASUREMENTS, DISTANCES, ELEVATIONS (IF SHOWN) AND FEATURES WERE PERFORMED IN STRICT ACCORDANCE WITH THE MINIMUM TECHNICAL STANDARDS SET FORTH IN CHAPTER 5J-17 FLORIDA ADMINISTRATIVE CODE (5J-17FAC).
2. METHODS FOR ALL CONTROL MEASUREMENTS WERE MADE WITH A TRANSIT AND STEEL TAPE, OR DEVICES WITH EQUIVALENT OR HIGHER DEGREES OF ACCURACY.
3. THE ACCURACY STANDARD USED FOR THIS SURVEY, AS CLASSIFIED IN THE MINIMUM TECHNICAL STANDARDS (5J-17 FAC), IS "COMMERCIAL/HIGH RISK". THE MINIMUM RELATIVE DISTANCE ACCURACY FOR THIS TYPE OF SURVEY IS 1 FOOT IN 10,000 FEET. THE ACCURACY OBTAINED BY MEASUREMENT AND CALCULATION OF A CLOSED GEOMETRIC FIGURE MET THIS REQUIREMENT.

DATA SOURCES:

1. RUBIN ICOT CENTER, PLAT BOOK 88, PAGE 79, PUBLIC RECORDS, PINELLAS COUNTY, FLORIDA.
2. BASIS OF BEARING IS THE WEST PROPERTY LINE, BEING N00°25'38"W. (P)
3. ALTA/ACSM LAND TITLE SURVEY BY THIS FIRM DATED 06/17/2015.
4. ELEVATION ARE BASED ON NATIONAL GEODETIC SURVEY BENCHMARK AG0608 "HONEY", HAVING AN ELEVATION OF 16.75 FEET (NORTH AMERICAN VERTICAL DATUM 1988).
5. FIRST AMERICAN TITLE INSURANCE COMPANY, ALTA COMMITMENT FOR TITLE INSURANCE, ISSUING AGENT: FIRST AMERICAN TITLE INSURANCE COMPANY NATIONAL COMMERCIAL SERVICES, COMMITMENT NUMBER: NCS-1194217-ORL, COMMITMENT DATE: SEPTEMBER 25, 2023 AT 7:30 AM.

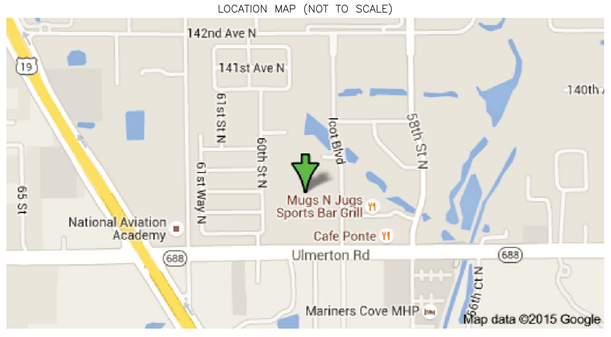
SCHEDULE B, PART II EXCEPTIONS ARE AS FOLLOWS:

1. *DEFECTS, LIENS, ENCUMBRANCES, ADVERSE CLAIMS OR OTHER MATTERS, IF ANY, CREATED, FIRST APPEARING IN THE PUBLIC RECORDS OR ATTACHING SUBSEQUENT TO THE EFFECTIVE DATE BUT PRIOR TO THE DATE THE PROPOSED INSURED ACQUIRES FOR VALUE OF RECORD THE ESTATE OR INTEREST OR MORTGAGE THEREON COVERED BY THIS COMMITMENT.* SURVEYOR'S COMMENT:NOT A SURVEY RELATED EXCEPTION.
2. *ANY RIGHTS, INTERESTS, OR CLAIMS OF PARTIES IN POSSESSION OF THE LAND NOT SHOWN BY THE PUBLIC RECORDS.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
3. *ANY ENCROACHMENT, ENCUMBRANCE, VIOLATION, VARIATION OR ADVERSE CIRCUMSTANCE AFFECTING THE TITLE THAT WOULD BE DISCLOSED BY AN ACCURATE AND COMPLETE LAND SURVEY OF THE LAND.* SURVEYOR'S COMMENT: SHOWN HEREON.
4. *ANY LIEN OR RIGHT TO A LIEN FOR SERVICES, LABOR, MATERIAL OR EQUIPMENT, UNLESS SUCH LIEN IS SHOWN BY THE PUBLIC RECORDS AT DATE OF POLICY AND NOT OTHERWISE EXCEPTED FROM COVERAGE HEREIN.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
5. *ANY DISPUTE AS TO THE BOUNDARIES CAUSED BY A CHANGE IN THE LOCATION OF ANY WATER BODY WITHIN OR ADJACENT TO THE LAND PRIOR TO DATE OF POLICY, AND ANY ADVERSE CLAIM TO ALL OR PART OF THE LAND THAT IS, AT DATE OF POLICY, OR WAS PREVIOUSLY UNDER WATER.* SURVEYOR'S COMMENT: NO WATER BODIES CONTAINED WITHIN OR ADJACENT TO THE SURVEYED PARCEL.
6. *TAXES OR SPECIAL ASSESSMENTS NOT SHOWN AS LIENS IN THE PUBLIC RECORDS OR IN THE RECORDS OF THE LOCAL TAX COLLECTING AUTHORITY, AT DATE OF POLICY.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
7. *ANY MINERALS OR MINERAL RIGHTS LEASED, GRANTED OR RETAINED BY CURRENT OR PRIOR OWNERS, WITHOUT RIGHT OF ENTRY.* SURVEYOR'S COMMENT: NO DOCUMENTATION PROVIDED.
8. *TAXES AND ASSESSMENTS FOR THE YEAR 2023 AND SUBSEQUENT YEARS, WHICH ARE NOT YET DUE AND PAYABLE.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
9. *ORDER OF TAKING, RECORDED SEPTEMBER 1, 1961 IN OFFICIAL RECORDS BOOK 1243, PAGE 673; AS AFFECTED THAT CERTAIN FINAL JUDGMENT, RECORDED IN OFFICIAL RECORDS BOOK 1387, PAGE 315; AND AS FURTHER AFFECTED BY THOSE CERTAIN RIGHT-OF-WAY UTILIZATION AGREEMENTS, CONCERNING THE USE OF EASEMENT AREA RECORDED AS EXHIBITS TO AFFIDAVIT RECORDED IN OFFICIAL RECORDS BOOK 6747, PAGE 1972.* SURVEYOR'S COMMENT: SHOWN HEREON.
10. *ALL MATTERS SHOWN ON THE PLAT OF RUBIN ICOT CENTER, RECORDED IN PLAT BOOK 88, PAGE 79, AS AFFECTED BY THAT CERTAIN RESOLUTION ACCEPTING DEDICATED AREAS, RECORDED IN OFFICIAL RECORDS BOOK 5906, PAGE 339.* SURVEYOR'S COMMENT: SHOWN HEREON.
11. *DECLARATION OF RESTRICTIONS, WHICH INCLUDES PROVISIONS FOR PRIVATE CHARGES OR ASSESSMENTS, RECORDED AUGUST 13, 1984 IN OFFICIAL RECORDS BOOK 5821, PAGE 2146 AND RE-RECORDED IN OFFICIAL RECORDS BOOK 5831, PAGE 1697, AS AFFECTED BY THAT CERTAIN WAIVER CONTAINED IN WARRANTY DEED RECORDED IN OFFICIAL RECORDS BOOK 6725, PAGE 2323, AND CORRECTIVE WARRANTY DEED RECORDED IN OFFICIAL RECORDS BOOK 6861, PAGE 372, TOGETHER WITH APPROVAL OF DECLARANT'S RIGHTS UNDER DECLARATION OF RESTRICTIONS, RECORDED IN OFFICIAL RECORDS BOOK 6826, PAGE 159, AND ABSOLUTE ASSIGNMENT OF DECLARANT'S RIGHTS, RECORDED IN OFFICIAL RECORDS BOOK 8863, PAGE 304, AND ABSOLUTE ASSIGNMENT OF DECLARANT'S RIGHTS, RECORDED IN OFFICIAL RECORDS BOOK 15874, PAGE 1108, AND AS FURTHER AFFECTED BY AMENDMENT TO DECLARATION, RECORDED IN OFFICIAL RECORDS BOOK 18461, PAGE 657.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
12. *DISTRIBUTION EASEMENT IN FAVOR OF FLORIDA POWER CORPORATION, RECORDED SEPTEMBER 10, 1984 IN OFFICIAL RECORDS BOOK 5838, PAGE 1170.* SURVEYOR'S COMMENT: SUBJECT TO NON-DELINEABLE BLANKET EASEMENT.
13. *DEED OF CONVEYANCE OF PIPELINES AND APPURTENANCES, RECORDED MARCH 20, 1986 IN OFFICIAL RECORDS BOOK 6189, PAGE 1868.* SURVEYOR'S COMMENT: SUBJECT TO NON-SURVEY RELATED EXCEPTION.
14. *NOTICE OF DEVELOPMENT AGREEMENT, RECORDED MAY 17, 1988 IN OFFICIAL RECORDS BOOK 6745, PAGE 1028, AS AFFECTED BY THAT CERTAIN NOTICE OF ADOPTION OF A DEVELOPMENT ORDER, RECORDED IN OFFICIAL RECORDS BOOK 6980, PAGE 1699, AND AS FURTHER AFFECTED BY THAT CERTAIN NOTICE OF ADOPTION OF A MODIFICATION TO AN ADOPTED DEVELOPMENT ORDER, RECORDED IN OFFICIAL RECORDS BOOK 8889, PAGE 1446; AND AS AFFECTED BY THAT CERTAIN ASSIGNMENT OF DEVELOPER'S RIGHTS, RECORDED IN OFFICIAL RECORDS BOOK 9057, PAGE 2178, AND AS FURTHER AFFECTED BY THAT CERTAIN NOTICE OF ADOPTION OF A MODIFICATION TO AN ADOPTED DEVELOPMENT ORDER, RECORDED IN OFFICIAL RECORDS BOOK 10532, PAGE 182, AND AS FURTHER AFFECTED BY THAT CERTAIN NOTICE OF ADOPTION OF A MODIFICATION TO AN ADOPTED DEVELOPMENT ORDER, RECORDED IN OFFICIAL RECORDS BOOK 11198, PAGE 204, AND AS FURTHER AFFECTED BY THAT CERTAIN NOTICE OF ADOPTION OF A MODIFICATION TO AN ADOPTED DEVELOPMENT ORDER, RECORDED IN OFFICIAL RECORDS BOOK 12314, PAGE 1910.* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
15. *ASSIGNMENT OF ENTITLEMENTS, RECORDED NOVEMBER 1, 1996 IN OFFICIAL RECORDS BOOK 9511, PAGE 67.* SURVEYOR'S COMMENT: SUBJECT TO NON-SURVEY RELATED EXCEPTION.
16. *TERMS, CONDITIONS AND PROVISIONS OF THAT CERTAIN DRAINAGE EASEMENT AGREEMENT, RECORDED NOVEMBER 1, 1996 IN OFFICIAL RECORDS BOOK 9511, PAGE 72.* SURVEYOR'S COMMENT: SHOWN HEREON.
17. *SIDEWALK EASEMENT, IN FAVOR OF PINELLAS COUNTY, RECORDED JULY 16, 1997 IN OFFICIAL RECORDS BOOK 9773, PAGE 2153.* SURVEYOR'S COMMENT: SHOWN HEREON.
18. *CONSERVATION EASEMENT IN FAVOR OF PINELLAS COUNTY, RECORDED JULY 16, 1997 IN OFFICIAL RECORDS BOOK 9773, PAGE 2155.* SURVEYOR'S COMMENT: SHOWN HEREON.
19. *DISTRIBUTION EASEMENT IN FAVOR OF FLORIDA POWER CORPORATION, RECORDED JULY 22, 1997 IN OFFICIAL RECORDS BOOK 9780, PAGE 2180.* SURVEYOR'S COMMENT: SUBJECT TO NON-DELINEABLE BLANKET EASEMENT.
20. *TERMS AND CONDITIONS OF ANY EXISTING UNRECORDED LEASE(S), AND ALL RIGHTS OF LESSEE(S) AND ANY PARTIES CLAIMING THROUGH THE LESSEE(S) UNDER THE LEASE(S).* SURVEYOR'S COMMENT: NO DOCUMENTATION PROVIDED.
31. *LEASE DISCLOSED BY MEMORANDUM OF LEASE FROM ICOT LAND, LTD., A FLORIDA LIMITED PARTNERSHIP (LANDLORD) AND MELITTA NORTH AMERICA, INC., (TENANT) RECORDED OCTOBER 27, 1994 IN OFFICIAL RECORDS BOOK 8824, PAGE 1749, AS AMENDED BY SUBORDINATION NON-DISTURBANCE AND ATTORNMENT AGREEMENT RECORDED OCTOBER 11, 1994 IN OFFICIAL RECORDS BOOK 8808, PAGE 904, OF THE PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA. (AFFECTS PARCEL B ONLY)* SURVEYOR'S COMMENT: NOT A SURVEY RELATED EXCEPTION.
32. *EASEMENT DEED AND RECIPROCAL EASEMENT AGREEMENT RECORDED NOVEMBER 14, 1994 IN OFFICIAL RECORDS BOOK 8838, PAGE 1904 AND ASSIGNMENT THEREOF RECORDED IN OFFICIAL RECORDS BOOK 8920, PAGE 1575, OF THE PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA. (AFFECTS PARCEL B ONLY)* SURVEYOR'S COMMENT: DOES NOT AFFECT SURVEYED PARCEL.
33. *DRAINAGE EASEMENT BETWEEN ICOT LAND, LTD. AND PINELLAS COUNTY RECORDED IN OFFICIAL RECORDS BOOK 9116, PAGE 2146, PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA. (AFFECTS PARCEL B ONLY)* SURVEYOR'S COMMENT: DOES NOT AFFECT SURVEYED PARCEL.
34. *EASEMENT GRANTED TO PINELLAS COUNTY RECORDED MARCH 26, 1996 IN OFFICIAL RECORDS BOOK 9289, PAGE 998, PUBLIC RECORDS OF PINELLAS COUNTY, FLORIDA. (AFFECTS PARCEL B ONLY)* SURVEYOR'S COMMENT: DOES NOT AFFECT SURVEYED PARCEL.
35. *THE FOLLOWING MATTERS DISCLOSED BY SURVEY PREPARED BY BULLSEYE SURVEYING, INC., DATED 06/17/2015 UNDER PROJECT NO. 15-032:* SURVEYOR'S COMMENT: SHOWN HEREON.

A.) ENCROACHMENT OF 6' CONCRETE BLOCK WALL ALONG THE WESTERLY AND NORTHERLY BOUNDARY LINES OF SUBJECT PROPERTY.
B.) ENCROACHMENT OF ASPHALT, OVERHEAD TRAFFIC SIGN AND CONCRETE WALL INTO CONSERVATION EASEMENT RECORDED IN OFFICIAL RECORDS BOOK 9733, PAGE 2155.
C.) ENCROACHMENT OF 6' CHAIN LINK FENCE AND 6' CONCRETE BLOCK WALL INTO DRAINAGE AND UTILITY EASEMENT AS SHOWN ON PLAT BOOK 88, PAGE 79, AND ALONG THE WESTERLY BOUNDARY OF SUBJECT PROPERTY.
D.) ENCROACHMENT OF CONCRETE SIDEWALK INTO 15' UTILITY EASEMENT AS SHOWN ON PLAT BOOK 88, PAGE 79, AND ALONG THE SOUTHEASTERLY BOUNDARY OF SUBJECT PROPERTY.
E.) ENCROACHMENT OF BRICK PAVERS INTO F.P.C. EASEMENT AS SHOWN ON PLAT BOOK 88, PAGE 79 AND IN OFFICIAL RECORDS BOOK 1387, PAGE 315, ALONG THE NORTHEASTERLY BOUNDARY OF SUBJECT PROPERTY.
G.) ENCROACHMENT OF VARIOUS CABLE AND TELEPHONE BOXES THROUGHOUT SUBJECT PROPERTY, INDICATING POSSIBLE UNRECORDED EASEMENTS.

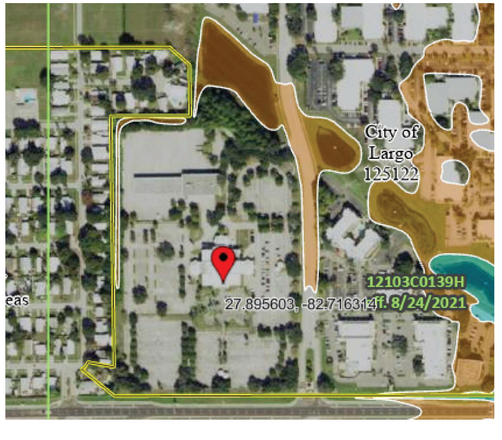
LIMITATIONS:

1. PURPOSE OF SURVEY: TO DOCUMENT THE PERIMETERS, OR ANY ONE OF THEM, OF A PARCEL OR TRACT OF LAND BY ESTABLISHING OR RE-ESTABLISHING CORNERS, MONUMENTS,AND BOUNDARY LINES FOR THE PURPOSES OF DESCRIBING THE PARCEL, LOCATING FIXED IMPROVEMENTS ON THE PARCEL, DIVIDING THE PARCEL, OR PLATTING.
2. USE OF THIS SURVEY BY ANYONE OTHER THAN THOSE PREPARED FOR / CERTIFIED TO, WILL BE THE RE-USERS SOLE RISK WITHOUT LIABILITY TO THE SURVEYOR.
3. ADDITIONS OR DELETIONS TO SURVEY MAPS OR REPORTS BY OTHER THAN THE SIGNING PARTY OR PARTIES IS PROHIBITED WITHOUT WRITTEN CONSENT OF THE SIGNING PARTY OR PARTIES.
4. THERE MAY BE ITEMS DRAWN OUT OF SCALE AND / OR MOVED ON THE MAP OF SURVEY TO GRAPHICALLY SHOW THEIR LOCATION. PRINTED DIMENSIONS SHOWN ON THE SURVEY SUPERSEDE SCALED DIMENSIONS.
5. UNDERGROUND FOUNDATIONS AND THEIR LOCATIONS HAVE NOT BEEN DETERMINED.
6. SUBJECT PROPERTY APPEARS TO LIE WITHIN FLOOD ZONES X & X SHADED, ACCORDING TO THE CURRENT FLOOD INSURANCE RATE MAP, PINELLAS COUNTY, FLORIDA, MAP NUMBER 12103C0139H, COMMUNITY: CITY OF LARGO,125122, MAP EFFECTIVE DATE: AUGUST 24, 2021, MAP INDEX NUMBER12103CIN02C, MAP REVISED: AUGUST 24 2021, AN ACCURATE ZONE DETERMINATION SHOULD BE MADE BY THE PREPARER OF SAID MAP, THE FEDERAL EMERGENCY MANAGEMENT AGENCY, OR THE LOCAL GOVERNMENTAL AGENCY HAVING JURISDICTION OVER SUCH MATTERS PRIOR TO ANY JUDGMENTS BEING MADE FROM THE ZONE AS NOTED.
7. IRRIGATION EQUIPMENT AND / OR THEIR APPURTENANCES HAVE NOT BEEN MAPPED.
8. THERE MAY EXIST ADDITIONAL EASEMENTS AND/OR RESTRICTIONS THAT CAN BE FOUND IN THE PUBLIC RECORDS OF THIS COUNTY.
9. ONLY THE UNDERGROUND UTILITIES AND / OR THEIR APPURTENANCES WHICH WERE READILY APPARENT FROM GROUND LEVEL TO THE SURVEYOR ON THE ACTUAL DAY OF THE FIELD SURVEY WERE LOCATED. NO EXCAVATIONS OR SUBSURFACE WORK EFFORTS OF ANY KIND WERE PERFORMED BY THE SURVEYOR TO VERIFY THE EXISTENCE OF ANY UNDERGROUND UTILITIES AND / OR THEIR APPURTENANCES. THE SURVEYOR MAKES NO GUARANTEE THAT THE UNDERGROUND UTILITIES AND / OR THEIR APPURTENANCES SHOWN, COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN SERVICE OR ABANDONED.
10. THERE MAY BE ADDITIONAL UTILITY STRUCTURES (DRAINAGE, SANITARY, ELECTRIC, COMMUNICATIONS, ETC.) THAT WERE NOT READILY APPARENT AT THE TIME OF THE SURVEY.



BOUNDARY INCONSISTENCIES:

1. ANY ANGULAR AND/OR DIMENSIONAL DISCREPANCIES BETWEEN THE DESCRIPTION AND THE FIELD LOCATED OCCUPATION BOUNDARY CORNERS, AND BOUNDARY CORNERS WITH MULTIPLE BOUNDARY MONUMENTS ALONG WITH THEIR CORRESPONDING QUADRANT DIRECTIONAL MISSES, ARE SHOWN ON THE MAP OF SURVEY. ALL PERIMETER BEARINGS AND DISTANCES ARE BY FIELD MEASURED UNLESS SO NOTED.



ADDITIONAL STATEMENTS:

- ACCESS TO AND FROM THE PROPERTY FOR INGRESS AND EGRESS IS VIA ICOT BOULEVARD.
- THERE ARE NO GAPS, GORES, OVERLAPS OR HIATUS' BETWEEN THE DESCRIBED SURVEYED PARCELS.

Subject: Phase I Environmental Site Assessment
CBRE-PIES-Pinellas County
13600 Icot Boulevard
Largo, Florida 33760
Partner Project No. 23-420796.1

Dear Mrs. Korst:

Partner Engineering and Science, Inc. (Partner) is pleased to provide this Phase I Environmental Site Assessment (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and Client Agreement.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate your trust in Partner and the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at 303-276-3139.

Sincerely,

Jason Lind
Relationship Manager

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Practice E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by CBRE Public Institutions & Education Solutions for the property located at 13600 Icot Boulevard in Largo, Pinellas County, Florida (the "subject property"). The Phase I Environmental Site Assessment is designed to provide CBRE Public Institutions & Education Solutions with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

Property Description

The subject property is located on the northwest corner of Ulmerton Road and Icot Boulevard within a residential and commercial area of Pinellas County. Please refer to the table below for a further description of the subject property:

Subject Property Data	
Address(es):	13600 Icot Boulevard, Largo, Florida
Additional Current Addresses:	13600A and 13600B Icot Boulevard
Property Use:	Commercial
Land Acreage (Ac):	20.05 Ac
Number of Buildings:	Two
Number of Floors:	13600A: Two floors and 13600B: One floor
Gross Building Area (SF):	13600A: 41,982 SF and 13600B: 25,659 SF
Net Rentable Area (SF):	67,641 (total)
Date of Construction:	1997
Parcel Number:	04-30-16-77515-000-2200
Type of Construction:	Concrete slab on grade foundation with concrete block walls
Current Tenants:	Various office and storage spaces including vacant areas and a lived-in space
Site Assessment Performed By:	Torrie Lysenko of Partner
Site Assessment Conducted On:	September 22, 2023
Regulatory Radius Report Date:	September 19, 2023
Lien Search Date:	N/A
Report Date:	September 29, 2023
FOIAs Date:	September 2023

The subject property is currently occupied by Various office and storage spaces including vacant areas and a lived-in space. Onsite operations consist of general office use. The subject property consists of two buildings that were originally developed as an automobile sales and service center.

The main two-story, irregular-shaped office building, currently identified as 113600A, was the former automobile sales center and currently consists of office and storage spaces. The main occupant of 13600A was Sgic, a medical tenant, and its affiliates. A hydraulic elevator services the two-story building. The central portion of the building consists of open common areas with office spaces along the perimeters. A warehouse storage area was situated within the northern portion of the building.

The northern single-story, rectangular-shaped warehouse building, currently identified as 113600B, was the former automobile service center and currently consists of vacant bays to the west, storage bays in the central area, a living space in the central portion, and Intercontinental Pharma Inc., a medical tenant office space, in the eastern portion.

In addition to the current structures, the subject property is also improved with paved parking and driving areas, sidewalk areas, associated landscaping, and drainage features. A portion of a larger stormwater retention pond is apparent on the northeast portion of the subject property, next to the northern unimproved area.

According to available historical sources, the subject property was formerly undeveloped as early as 1921; the northern portion appeared to be developed utilized as pastureland from at least the 1960s-1980s; and was developed with the current buildings in 1997. According to historical research, the subject property was occupied by Autonation USA (2000); Autoway Nissan / Republic Industries (2003-2012); Community Health Solutions of America LLC / Republic Industries (2016); and Various Professional Listings including Community Health Solutions of America LLC / Sgic Insurance (2020-Present). Potential environmental concerns were identified in association with the former use of the subject property as an automobile repair facility since development in 1997 as further discussed below and in Section 4.2.

The adjoining properties are tabulated below:

Adjoining Properties	
North:	Ponded wetland area followed by Clearwater Ice Arena (13940 Icot Boulevard)
Northeast:	Icot Boulevard followed by ponded wetland area and Rubin Icot Center (13825 Icot Boulevard)
East:	Icot Boulevard followed Holiday Inn (13625 Icot Boulevard), Mugs Sports Bar (13563 Icot Boulevard) and commercial strip shopping center (13501 Icot Boulevard)
Southeast:	Ulmerton Road followed by Steinway Piano (5990 Ulmerton Road)
South:	Ulmerton Road followed by Rock's Moving Company (6000 Ulmerton Road)
Southwest:	Ulmerton Road followed by The Shed Store (6030 Ulmerton Road)
West:	Residential mobile home park (13400-13827 60th Street North)
Northwest:	Residential mobile home park (5920-5998 138th Court North)

According to Topographic map interpretation and information obtained from online research, the physical setting features of the subject property identify the terrain as sloping to the southeast with the depth to groundwater in the vicinity of the subject property inferred to be approximately 10 feet below ground surface (bgs) and groundwater flow inferred to be toward the southeast.

Findings and Opinions

Recognized Environmental Condition

A recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- The subject property was formerly utilized as an automobile sales and service facility from 1997 to ~2013 and operated with approximately 18 in-ground hydraulic lifts, aboveground storage tanks (ASTs), a vehicle wash bay. At the time of Partner's site reconnaissance, approximately 18 in-ground hydraulic lifts were observed in the central portion, a camper was parked within the vehicle

wash bay, and ASTs no longer appeared to be present on-site. The historic operations conducted on-site are environmentally-sensitive in nature and represents a REC.

Controlled Recognized Environmental Condition

A controlled recognized environmental condition (CREC) refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify any HRECs during the course of this assessment.

Business Environmental Risk

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice.

- Suspect asbestos-containing materials (ACMs) were identified at the subject property. Partner conducted an asbestos survey in conjunction with this ESA, which will be submitted under a separate cover.
- Partner did not identify any other BERs during the course of this assessment.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of 13600 Icot Boulevard in Largo, Pinellas, Florida (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of CRECs, HRECs, or BERs in connection with the subject property; however, a REC was identified due to the historic operations conducted on-site. Based on the conclusions of this assessment, Partner recommends the following:

- Partner recommends conducting a limited Phase II subsurface investigation to determine if historic automobile repair operations have adversely impacted the subsurface media. Additionally, Partner recommends properly decommissioning the in-ground hydraulic lifts in the 13600B building.

Appendix D: Qualifications

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Practice E1527-21 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at 13600 Icot Boulevard in Largo, Pinellas, Florida (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-21) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the User to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "landowner liability protections," or "LLPs"). ASTM Standard E1527-21 constitutes "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with and to the extent necessary to achieve the goal of the requirements set forth in the ASTM Standard E1527-21. This assessment included: 1) a property and adjoining site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments to obtain readily ascertainable information to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched readily available information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-21, AULs include both legal (that is, institutional) and physical (that is, engineering) controls that may include legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, or surface water on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil, soil vapor, groundwater, and/or surface water on a property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the compliance and safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

1.4 User Reliance

CBRE Public Institutions & Education Solutions engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of CBRE Public Institutions & Education Solutions. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

1.5 Limiting Conditions

The findings and conclusions contain all the limitations inherent in these methodologies that are referred to in ASTM Practice E1527-21.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past or current owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources, this data gap is not expected to alter the findings of this assessment.
- Partner requested information relative to deed restrictions and environmental liens, a title search, and completion of the AAI User Questionnaire from the Report User. This information was not provided at the time of the assessment. This data gap is not expected to alter the findings of this assessment.
- Partner was not able to document the historical use of the subject property prior to 1921, since city directories were not available prior to 1970, aerial photographs prior to 1943, topographic maps prior to 1921 were not reasonably ascertainable from local agencies and other historical sources such as fire insurance maps did not provide coverage of the subject property. This data failure is not considered critical and does not change the conclusions of this report, as the 1921 topographic map revealed the subject property and surrounding areas to be unimproved land. This data gap is not expected to alter the findings of this assessment.
- Partner was unable to determine the property use at five-year intervals, which constitutes a data gap. Except for property tax files and recorded land title records, which were not considered to be sufficiently useful, Partner reviewed all standard historical sources and conducted appropriate interviews. This data gap is not expected to alter the findings of this assessment.
- Partner inspected various office spaces throughout the interior units and all common areas. Based on the size and nature of use of the uninspected units (professional office space), this limited method of inspection is not expected to alter the overall findings of this assessment.
- Partner's view of the ground during the site assessment was obstructed due to parked cars, and/or excessive storage, including in the former service area. Excessive storage within the 13600B building, included, but was not limited to, building materials, furniture, and tools. Based on information obtained from other historical sources, this limitation is not expected to alter the overall findings of this assessment; however, the exact number of in-ground hydraulic lifts cannot be determined at this time due to the excessive storage preventing visibility of the ground flooring.
- Partner submitted Freedom of Information Act (FOIA) requests to local government agencies for information pertaining to hazardous substances, underground storage tanks, releases, inspection records, etc. for the subject property and/or adjoining properties. As of this writing, these agencies have not responded to Partner’s request. Based on information obtained from other historical resources, this limitation is not expected to alter the overall findings of this assessment.

Due to time constraints associated with this report, the Client has requested the report despite the above-listed limitations.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property at 13600 Icot Boulevard in Largo, Florida is located on the northwest corner of Ulmerton Road and Icot Boulevard. According to the Pinellas County Property Appraiser, the subject property is legally described as RUBIN ICOT CENTER LOTS 22, 23 & 24 & THAT PT OF LOT 21 DESC AS BEG SW COR OF LOT 21 TH N00D23'46"W 212.04FT TH S48D18'20"E 321.41FT TH N89D34'42"W 238.54FT TO POB (MAP S-05-30-16) and identified as Parcel ID 04-30-16-77515-000-2200. According to Pinellas County Property Appraiser, ownership has been vested in C D Icot Properties LLC since 2015.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property is currently occupied by Various office and storage spaces including vacant areas and a lived-in space. Onsite operations consist of general office use. The subject property consists of two buildings that were originally developed as an automobile sales and service center.

The main two-story, irregular-shaped office building, currently identified as 113600A, was the former automobile sales center and currently consists of office and storage spaces. The main occupant of 13600A was Sgic, a medical tenant, and its affiliates. A hydraulic elevator services the two-story building. The central portion of the building consists of open common areas with office spaces along the perimeters. A warehouse storage area was situated within the northern portion of the building.

The northern single-story, rectangular-shaped warehouse building, currently identified as 113600B, was the former automobile service center and currently consists of vacant bays to the west, storage bays in the central area, a living space in the central portion, and Intercontinental Pharma Inc., a medical tenant office space, in the eastern portion.

In addition to the current structures, the subject property is also improved with paved parking and driving areas, sidewalk areas, associated landscaping, and drainage features. A portion of a larger stormwater retention pond is apparent on the northeast portion of the subject property, next to the northern unimproved area.

The subject property is designated for IL for limited industrial development by the City of Largo.

The subject property was identified as a State/Tribal Registered Aboveground Storage Tank Sites, State Brownfield Sites, and Storage Tank/Contaminated Facility Search (STCS) site in the regulatory database report of Section 4.2.

2.3 Current Use of Adjoining Properties

The subject property is located within a residential and commercial area of Pinellas County. During the vicinity reconnaissance, Partner observed the land uses on adjoining properties as defined in ASTM Practice E1527-21 as any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them. The adjoining properties are tabulated below:

Adjoining Properties	
North:	Ponded wetland area followed by Clearwater Ice Arena (13940 Icot Boulevard)
Northeast:	Icot Boulevard followed by ponded wetland area and Rubin Icot Center (13825 Icot Boulevard)

East:	Icot Boulevard followed Holiday Inn (13625 Icot Boulevard), Mugs Sports Bar (13563 Icot Boulevard) and commercial strip shopping center (13501 Icot Boulevard)
Southeast:	Ulmerton Road followed by Steinway Piano (5990 Ulmerton Road)
South:	Ulmerton Road followed by Rock's Moving Company (6000 Ulmerton Road)
Southwest:	Ulmerton Road followed by The Shed Store (6030 Ulmerton Road)
West:	Residential mobile home park (13400-13827 60th Street North)
Northwest:	Residential mobile home park (5920-5998 138th Court North)

The adjoining music store to the southeast, across Ulmerton Road, was identified as a State/Tribal Registered Underground Storage Tank Sites and STCS site in the regulatory database report of Section 4.2. Additionally, the subject property and vicinity was located within the Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion area and encompasses a total of approximately 14,368 acres as further discussed in Section 4.2.

2.4 Physical Setting Sources

2.4.1 Topography

The 2021 United States Geological Survey (USGS) Saint Petersburg, Florida Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 14 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is relatively flat with elevated landscaped areas apparent throughout the parcel.

A copy of the most recent topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

While under natural and undisturbed conditions shallow groundwater flow most frequently follows the topography of the land surface, natural or man-made features can affect flow direction, and the presumed flow may not match the actual flow directions at the subject property and vicinity. Topographic map interpretation shows the direction of groundwater flow in the vicinity of the subject property is inferred to be toward the southeast.

According to information obtained from online research, the depth to groundwater in the vicinity of the subject property inferred to be approximately 10 feet bgs.

Aside from the northern and northeastern adjacent stormwater retention ponds, the nearest surface water in the vicinity of the subject property is the Cross Bayou Canal located approximately 0.28 miles and southeast of the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the Pinellas County Utilities Department serves the subject property vicinity. The sources of public water for Pinellas County are supplied by the regional water supplier, Tampa Bay Water (TBW), which includes groundwater from the Floridian Aquifer, treated surface water from the C.W. Bill Young Regional Reservoir, the Tampa Bypass Canal, and the Alafia and Hillsborough Rivers, and desalinated seawater.

2.4.3 Geology/Soils

The geology of peninsular Florida consists of shallow tropical, marine carbonate sediments, corralline (coral reef) limestone, and sand in complex interbedded relationships reflecting changing sea levels and depositional environments during and since the Pleistocene. A younger veneer of discontinuous layers of organic-rich silts and sands overlie marine sands and shell, which, in turn, overlie massive carbonate formations. The surficial deposits are sandy soils and unconsolidated marine medium quartz sand. The

Floridan aquifer system is the most important source of water for the area, supplying about 90 percent of all groundwater used. The Floridan aquifer system consists of carbonate rocks of Paleocene to Eocene age that are about 2,400 to 2,900 feet thick. Hydraulically, it is subdivided on the basis of permeability into the Upper Floridan aquifer (about 300-350 feet thick), the middle semi-confining unit (about 450-700 feet thick), and the Lower Floridan aquifer (about 1,400-2,100 feet thick). An overlying surficial aquifer system supplies most of the remainder of the groundwater used in the area. The surficial aquifer system consists mostly of unconsolidated deposits of Pleistocene and Holocene age that range in thickness from about 30 to 270 feet. The surficial and Floridan aquifer systems are separated by a 40 to 300-foot-thick, low-permeability unit of Miocene age known as the intermediate confining unit (U.S. Geological Survey, Water Resources Investigations Report 92-4076).

Based on information obtained from the United States Department of Agriculture (USDA) Natural Resources Conservation Service Web Soil Survey online database, the subject property is mapped as Myakka soils and Urban land. The Myakka series encompasses approximately 50% of the map unit and consists of poorly drained sands with moderately high water movement. These soils form flatwoods on marine terraces on coastal plains, have a parent material of sandy marine deposits, and are not hydric. Organic matter in the surface is approximately 4%. Urban land consists of approximately 45% of the map unit and is described as a miscellaneous area. Slopes range from 0 to 2 percent.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 12103C0139H, dated August 24, 2021, the subject property appears to be located in Zone X (unshaded); defined as minimal risk areas outside the 1-percent and 0.2-percent-annual-chance floodplains.

A copy of the reviewed flood map is included in Appendix B of this report.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

Historical Use Information		
Years	**Resource**	**Description/Use**
1921-1957	Topographic Maps, Aerial Photographs	Unimproved Land
1962-1994	Topographic Maps, Aerial Photographs, City Directories	Unimproved Land / Pastureland
1997-Present	Topographic Maps, Aerial Photographs, City Directories, Assessor Records, Interviews, Client-Provided Information	Commercial

The subject property was formerly utilized as an automobile sales and service facility from 1997 to ~2013 and operated with approximately 18 in-ground hydraulic lifts, aboveground storage tanks (ASTs), a vehicle wash bay. Potential environmental concerns were identified in association with the former use of the subject property as an automobile repair facility as further discussed in Section 4.2.

3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Risk Information Services (ERIS) on September 20, 2023. The inferred uses of the subject property and adjoining properties as interpreted from the aerial photographs in Appendix B are tabulated below:

Date:	***1943***	***Scale:***	***1"=500'***
Subject Property:	Appears to be undeveloped land covered in natural vegetation		
North:	Appears to be undeveloped land covered in natural vegetation with apparent roadway infrastructure further north		
Northeast:	Appears to be undeveloped land covered in natural vegetation with sparse residential development and an apparent roadway further northeast		
East:	Appears to be undeveloped land covered in natural vegetation and the Cross Bayou further east		
Southeast:	Apparent roadway and/or drainage canal adjacent to the southeast followed by undeveloped land covered in natural vegetation and the Cross Bayou further southeast		
South:	Apparent roadway and/or drainage canal adjacent to the south followed by undeveloped land covered in natural vegetation		
Southwest:	Apparent roadway and/or drainage canal adjacent to the southwest followed by undeveloped land covered in natural vegetation and sparse roadway infrastructure further southwest		
West:	Appears to be undeveloped land covered in natural vegetation with apparent wetland areas followed by a roadway		
Northwest:	Appears to be undeveloped land covered in natural vegetation with apparent wetland areas followed by roadway infrastructure and sparse residential development		

Date:	1951	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	No significant changes visible		
Northeast:	Increased residential development apparent along new roadway infrastructure		
East:	Apparent roadway infrastructure		
Southeast:	Sparse residential development and roadway infrastructure apparent across Ulmerton Road		
South:	Sparse residential development apparent across Ulmerton Road		
Southwest:	Major roadway infrastructure (State Road 19) depicted to the far southwest, across Ulmerton Road		
West:	Sparse residential development and roadway infrastructure apparent		
Northwest:	No significant changes visible		

Date:	1957	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	No significant changes visible		
Northeast:	No significant changes visible		
East:	Apparent pastureland across roadway infrastructure		
Southeast:	Increased residential-type development apparent across Ulmerton Road		
South:	Apparent Drive-In Theater across Ulmerton Road		
Southwest:	Commercial development apparent to the far southwest, across State Road 19		
West:	No significant changes visible		
Northwest:	Increased residential development apparent to the far northwest		

Date:	1962	Scale:	1"=500'
Subject Property:	Northeastern portion appears to be pastureland		
North:	Appears to be pastureland		
Northeast:	Appears to be pastureland		
East:	Appears to be pastureland and unimproved land		
Southeast:	No significant changes visible		
South:	No significant changes visible		
Southwest:	Increased commercial development apparent across Ulmerton Road		
West:	Commercial-type development apparent to the far west		
Northwest:	No significant changes visible		

Date:	1969	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	Residential and commercial-type development depicted along roadway infrastructure		
Northeast:	Increased residential development apparent along roadway infrastructure		
East:	No significant changes visible		

Date:	1969	Scale:	1"=500'
Southeast:	Apparent residential neighborhood to the far southeast near Ulmerton Road and the Cross Bayou		
South:	Commercial development apparent and the Drive-In Theater is no longer depicted		
Southwest:	Increased commercial development apparent across Ulmerton Road		
West:	No significant changes visible		
Northwest:	Increased residential development apparent to the far northwest		

Date:	1975, 1980, 1984	Scale:	1"=500'
Subject Property:	No significant changes visible		
North:	Residential neighborhood adjacent to the north		
Northeast:	No significant changes visible; however, apparent mine to the far northeast (across current 142nd Avenue North) in 1980		
East:	No significant changes visible		
Southeast:	Increased commercial development apparent across Ulmerton Road		
South:	Increased commercial development apparent across Ulmerton Road		
Southwest:	Increased commercial development apparent across Ulmerton Road		
West:	Residential neighborhood adjacent to the west		
Northwest:	Residential neighborhood adjacent to the northwest		

Date:	1986, 1994	Scale:	1"=500'
Subject Property:	Northern portion appeared to be cleared land; southern portion appeared to remain as unimproved land		
North:	Stormwater retention pond and commercial development apparent		
Northeast:	Stormwater retention areas, commercial development, and roadway infrastructure across Icot Boulevard with a large ponded area to the far northeast (across current 142nd Avenue North)		
East:	Stormwater retention areas, commercial development, and roadway infrastructure across Icot Boulevard		
Southeast:	No significant changes visible		
South:	No significant changes visible		
Southwest:	No significant changes visible		
West:	No significant changes visible		
Northwest:	No significant changes visible		

Date:	***1986, 1994***	***Scale:***	***1"=500'***
Date:	***1999, 2005, 2006, 2007, 2010, 2013, 2015, 2017, 2019, 2022***	***Scale:***	***1"=500'***
Subject Property:	Developed with a long rectangular-shaped structure to the north and an irregular-shaped structure in the central portion with apparent paved parking and driving areas encompassing a majority of the parcel. Unimproved areas are apparent to the north and along parcel boundaries. Access appears to be from Icot Boulevard to the northeast and Ulmerton Road to the south. The parcel generally appears to be in its current configuration		
North:	No significant changes visible		
Northeast:	No significant changes visible		
East:	No significant changes visible		
Southeast:	No significant changes visible		
South:	No significant changes visible with the exception of apparent wetland areas		
Southwest:	No significant changes visible		
West:	No significant changes visible		
Northwest:	No significant changes visible		

Copies of select aerial photographs are included in Appendix B of this report.

3.2 Fire Insurance Maps

Partner reviewed the collection of Fire insurance maps (FIMS) from ERIS on September 19, 2023. FIM coverage was not available for the subject property.

A copy of the no coverage documentation is included in Appendix B of this report.

3.3 City Directories

Partner reviewed historical city directories obtained from ERIS on September 25, 2023 for past names and businesses that were listed for the subject property and adjoining properties. The findings are tabulated below:

City Directory Search for 13600 Icot Blvd (Subject Property)	
Year(s)	**Occupant Listed**
2000	Autonation Usa, Auto Nation Usa
2003	Autoway Nissan, Republic Industries
2008	Auto Way Nissan, Autoway Nissan Corp, Republic Industries
2012	Autoway Nissan, Auto Way Nissan, Republic Industries
2016	Chs of America Llc, Republic Industries
2020	Sgic Insurance, Mohanad Eltahir, Chs of America Llc, Didley, Nichole Dpm, Garriel, Brenn I Md, Palmisano, Collette, Metnick, Robert F Dpm, Faragalla, Wassem Emil Dpm

3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from ERIS on September 19, 2023. The following inferred uses of the subject property and adjoining properties interpreted from topographic maps in Appendix B and are tabulated below:

Date:	***1921***
Subject Property:	Depicted as undeveloped land
North:	Depicted as undeveloped land with sparse roadways apparent
Northeast:	Depicted as undeveloped land with sparse roadways apparent
East:	Depicted as undeveloped land with a roadway and the Cross Bayou
Southeast:	Depicted as undeveloped land with sparse roadways apparent and the Cross Bayou
South:	Depicted as undeveloped land with a roadway and the Cross Bayou further south
Southwest:	Depicted as undeveloped land with a roadway
West:	Depicted as undeveloped land
Northwest:	Depicted as undeveloped land with sparse roadways apparent further northwest

Date:	***1943, 1947, 1952***
Subject Property:	No significant changes depicted
North:	Increased roadway infrastructure apparent with sparse residential development, wetland areas, and a transmission line
Northeast:	Increased roadway infrastructure apparent with sparse residential development, wetland areas, and a transmission line
East:	No significant changes depicted other than an apparent transmission line further east
Southeast:	No significant changes depicted with the exception of wetland areas
South:	No significant changes depicted with the exception of wetland areas
Southwest:	Increased roadway infrastructure apparent with sparse residential development, wetland areas, and small agricultural areas further southwest
West:	Apparent wetland areas, roadway infrastructure, and sparse residential development
Northwest:	Apparent wetland areas, roadway infrastructure, and sparse residential development

Date:	***1956***
Subject Property:	No significant changes depicted
North:	No significant changes depicted
Northeast:	No significant changes depicted
East:	No significant changes depicted
Southeast:	Apparent residential neighborhood across a roadway (Ulmerton Road)
South:	Apparent Drive-In Theater across a roadway (Ulmerton Road)

Date:	1956
Southwest:	Unimproved land and State Road 19 to the southwest of Ulmerton Road
West:	Increased roadway infrastructure and residential development
Northwest:	Increased roadway infrastructure and residential development

Date:	1969
Subject Property:	No significant changes depicted
North:	Increased residential and commercial-type development apparent to the far north
Northeast:	Transmission line apparent adjacent to the northeast followed by increased residential-type development apparent to the further
East:	Sparse residential and commercial development to the far east, beyond apparent transmission line and the Cross Bayou
Southeast:	Increased residential development apparent across Ulmerton Road
South:	Commercial development apparent across Ulmerton Road. Drive-In Theater no longer apparent
Southwest:	Commercial development apparent across Ulmerton Road
West:	Commercial development apparent to the far west
Northwest:	Increased residential development apparent to the far northwest

Date:	1981, 1987
Subject Property:	No significant changes depicted
North:	Residential neighborhood adjacent to the north
Northeast:	Transmission line followed by unimproved land, residential development, an apparent canal and strip mine
East:	No significant changes depicted
Southeast:	Commercial development and apparent trailer park across Ulmerton Road
South:	Increased commercial development apparent across Ulmerton Road
Southwest:	Increased commercial development apparent across Ulmerton Road
West:	Residential neighborhood adjacent to the west
Northwest:	Residential neighborhood adjacent to the northwest

Date:	1998
Subject Property:	Developed with a long rectangular-shaped structure to the north and an irregular-shaped structure in the central portion with apparent access roads to the northeast and south. The parcel is labeled "Tanks" and appear to be associated with two located along the south-central boundary
North:	Roadway infrastructure and area shaded red, indicating areas of heavy development
Northeast:	Transmission line followed by roadway infrastructure and commercial-type development
East:	Roadway infrastructure and commercial-type development
Southeast:	Commercial-type development apparent across Ulmerton Road
South:	Commercial-type development apparent across Ulmerton Road

Date:	1998
Southwest:	Commercial-type development apparent across Ulmerton Road
West:	Roadway infrastructure and area shaded red, indicating areas of heavy development
Northwest:	Roadway infrastructure and area shaded red, indicating areas of heavy development

Date:	2015, 2021
Subject Property:	No public structural features are depicted on the 2015 and 2021 topographic maps with the exception of roadways and wetland areas, etc.

Copies of reviewed topographic maps are included in Appendix B of this report.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

4.1.1 State Department

Regulatory Agency Data	
Name of Agency:	Florida Department of Environmental Protection (FDEP)
Point of Contact:	www.dep.state.fl.us
Agency Address:	3900 Commonwealth Boulevard, Tallahassee, Florida 32399
Agency Phone Number:	(850) 245-2118
Date of Contact:	September 22, 2023
Method of Communication:	Online Research
Summary of Communication: No records other than those discussed below in Section 4.2.	

4.1.2 Health Department

Regulatory Agency Data	
Name of Agency:	Florida Department of Health (FDOH) in Pinellas County
Point of Contact:	Representative
Agency Address:	12420 130th Avenue North, Largo, Florida 33774
Agency Phone Number:	(727) 588-4040
Date of Contact:	September 25, 2023
Method of Communication:	Email
Summary of Communication: As of the date of this report, Partner has not received a response from the FDOH for inclusion in this report.	

4.1.3 Fire Department

Regulatory Agency Data	
Name of Agency:	Largo Fire Rescue
Point of Contact:	Representative
Agency Address:	201 Highland Avenue, Largo, Florida 33771
Agency Phone Number:	(727) 587-6714
Date of Contact:	September 25, 0202
Method of Communication:	Email
Summary of Communication: As of the date of this report, Partner has not received a response from the Largo Fire Rescue for inclusion in this report.	

4.1.4 Building Department

Regulatory Agency Data	
Name of Agency:	Largo Building Department
Point of Contact:	Online
Agency Address:	201 Highland Avenue, Largo, Florida 33770
Agency Phone Number:	(727) 586-7488
Date of Contact:	September 25, 2023
Method of Communication:	Online Research
Summary of Communication: A search for the subject property's Parcel Number identified a total of thirty-six permits dated December 2002 to July 2022 and appeared to be related to fire suppression, remodeling, electrical, mechanical, tree removal, and signage. The identified permits are not likely to represent RECs to the subject property.	

4.1.5 Planning Department

Regulatory Agency Data	
Name of Agency:	City of Largo Planning Department
Point of Contact:	Online
Agency Address:	201 Highland Avenue, Largo, Florida 33770
Agency Phone Number:	(727) 587-6749
Date of Contact:	September 22, 0002
Method of Communication:	Online Research
Summary of Communication: According to reviewed online documents, the subject property is zoned IL for limited industrial development by the City of Largo.	

4.1.6 Oil & Gas Exploration

Regulatory Agency Data	
Name of Agency:	FDEP Division of Water Resource Management Oil and Gas Program
Point of Contact:	www.dep.state.fl.us
Agency Address:	3900 Commonwealth Boulevard, Tallahassee, Florida 32399
Agency Phone Number:	(850) 245-2118
Date of Contact:	September 22, 2023
Method of Communication:	Online Research
Summary of Communication: According to FDEP, no oil or gas wells are located on or adjacent to the subject property.	

4.1.7 Assessor's Office

Regulatory Agency Data	
Name of Agency:	Pinellas County Property Appraiser
Point of Contact:	Online
Agency Address:	13025 Starkey Road, Largo, Florida 33773
Agency Phone Number:	(727) 464-3207
Date of Contact:	September 22, 2023
Method of Communication:	Online Research
Summary of Communication: According to records reviewed, the subject property is identified by Parcel Number 04-30-16-77515-000-2200 and is currently owned by C D Icot Properties LLC since 2015.	

4.1.8 Regional Water Quality Agency

Regulatory Agency Data	
Name of Agency:	Pinellas County Utilities (PCU)
Point of Contact:	https://pinellas.gov/2022-consumer-confidence-report-on-water-quality/
Agency Address:	14 South Fort Harrison Avenue, Clearwater, Florida 33756
Agency Phone Number:	(727) 464-4000
Date of Contact:	September 22, 2023
Method of Communication:	Online Research
Summary of Communication: According to available information, a public water system operated by PCU serves the subject property vicinity. According to the most recent annual water quality report dated 2022, shallow groundwater beneath the subject property is not utilized for domestic purposes. The sources of public water for Pinellas County are supplied by the regional water supplier, Tampa Bay Water (TBW), which includes groundwater from the Floridian Aquifer, treated surface water from the C.W. Bill Young Regional Reservoir, the Tampa Bypass Canal, and the Alafia and Hillsborough Rivers, and desalinated seawater. According to the 2022 Annual Water Quality Report, water supplied to the subject property vicinity is in compliance with all State and Federal regulations pertaining to drinking water standards analyzed.	

Copies of pertinent documents are included in Appendix B of this report.

4.2 Mapped Database Records Search

The regulatory database report provided by ERIS documents the listing of sites identified on federal, state, county, city, and tribal (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM Practice E1527-21. The data from these sources are updated as these data are released and integrated into one database. The information contained in this report was compiled from publicly available sources.

The environmental database information is used to identify environmental concerns in connection with the subject property. The listings also serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the subject property and the potential for contaminants to migrate onto the subject property from off-site sources in groundwater or soil in the form of liquids or vapor.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

The following table lists the sites as categorized by the regulatory database within the prescribed AMSD. The locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Database Report Data				
Database	**AMSD Radius (mile)**	**Listings Identified**		
		Subject Property	**Adjoining Properties**	**Surrounding Area Sites of Concern**
Federal NPL	1.00	N	N	N
Delisted NPL Site	0.50	N	N	N
Federal SEMS Site	0.50	N	N	N
Federal SEMS-ARCHIVE	0.50	N	N	N
Federal RCRA CORRACTS Facility	1.00	N	N	N
Federal RCRA TSDF Facility	0.50	N	N	N
Federal RCRA Generators Site (LQG, SQG, VSQG, CESQG)	Subject and Adjoining	N	N	N
Federal IC/EC Registries	Subject Property	N	N	N
Federal ERNS Site	Subject Property	N	N	N
State/Tribal Equivalent NPL	1.00	N	N	N
State/Tribal Equivalent CERCLIS	1.00	N	N	N
State/Tribal Landfill/Solid Waste Disposal Site	0.50	N	N	N
State/Tribal Leaking Storage Tank Site (LUST/LPST)	0.50	N	N	N
State/Tribal Registered Storage Tank Sites (UST/AST)	Subject and Adjoining	**Y**	N	N
State/Tribal IC/EC Registries	Subject and Adjoining	N	N	N
State/Tribal Voluntary Cleanup Sites (VCP)	0.50	N	N	N
State/Tribal Spills	0.25	N	N	N
Federal Brownfield Sites	0.50	N	N	N
State Brownfield Sites	0.50	**Y**	**Y**	N
Storage Tank/Contaminated Facility Search (STCS)	0.50	**Y**	**Y**	N

4.2.2 Subject Property Listings

The subject property is identified as a AST and STCS site in the regulatory database report. Additionally, the subject property and and vicinity are located within the Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion area and encompasses a total of approximately 14,368 acres. The findings are discussed below:

Subject Property Database Listing	
Database:	AST, STCS
Site Name:	Autoway Nissan / CHS America
Address:	13600 Icot Boulevard
Substance Involved:	Waste Oil; New Oil; Unleaded Gasoline
Years of Operation:	1997 to 2018
Status:	Closed
Discussion:	According to the Environmental Risk Information Services (ERIS) database report dated September 19, 2023, former occupants (Facility IDs 9700982 and 9804199) formerly maintained the following five ASTs: a 1,000-gallon steel AST containing new oil that was installed in July 1997 and removed in December 2002, a 1,000-gallon steel AST containing waste oil that was installed in July 1997 and removed in December 2002, a 2,000-gallon steel AST containing unleaded gasoline that was installed in August 2001 and removed in November 2009, a 1,000-gallon double-walled AST containing new oil that was installed in December 2002 and removed in November 2018, and a 1,000-gallon double-walled AST containing waste oil that was installed in December 2002 and removed in November 2018. An FDEP Storage Tank Registration Form dated September 18, 2002 reports the facility also maintained a 1,000-gallon AST containing leaded gasoline and a 500-gallon steel AST containing miscellaneous petroleum-based product. An FDEP inspection conducted in 2007 did not report these ASTs as being present on-site. An FDEP inspection was conducted on November 9, 2009, after the removal of the 2,000-gallon AST containing unleaded gasoline. The tank was reportedly cleaned by FCC Environmental for off-site removal at MEMCO Inc. During tank removal activities in November 2018, an FDEP inspector was on-site and noted the two ASTs have been out of service since 2009. Tank interiors were cleaned and removed for proper off-site disposal by Eagle Metals Recycling of Tampa, Florida. Concrete slabs beneath ASTs were reported to be in good condition and tanks were reportedly installed inside a building and behind overhead garage doors. Although there were no reported discharges, the new oil AST slab area was clean and the used oil reportedly had some absorbent contained on the slab, contained inside the 13600B building and protected from weather events. The FDOH, on behalf of the FDEP, issued an in compliance letter dated November 9, 2018 for the storage tank closure inspection. The historic operations conducted on-site, including the bulk storage of hazardous material, are environmentally-sensitive in nature and represents a REC.

Subject Property Database Listing	
Database:	Brownfield Area
Site Name:	Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion
Address	14,368 acres along Ulmerton Road
Substance Involved:	n/a
Years of Operation:	n/a
Status:	Active per Brownfields Resolution No. 15-51
Discussion:	Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion (Area ID #BF521202000) consists of approximately 14,368 acres along Ulmerton Road, extending to Route 19 to the west and to Roosevelt Boulevard to the east. Pinellas

	County adopted Brownfields Resolution No. 15-51 to expand the UROC Brownfield Area, approved by County Commissioners on June 2, 2015. Brownfield Areas are areas designated by the FDEP that consist of abandoned, idled, or underused industrial and commercial sites where redevelopment is complicated due to real or perceived contamination. As such, inclusion in a Brownfield Area is not confirmation that contamination is present.

4.2.3 Adjoining Property Listings

The adjoining music store to the southeast, across Ulmerton Road, was identified as a State/Tribal Registered Underground Storage Tank Sites and STCS site in the regulatory database. Additionally, the subject property and vicinity was located within the Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion area and encompasses a total of approximately 14,368 acres, as discussed below:.

Adjoining Property Database Listing	
Property Name:	Havener Music World
Address:	5990 Ulmerton Road
Direction:	Southeast, across Ulmerton Road
Hydrological Gradient:	Down-Gradient
Database Listing:	UST, STCS
Substance Involved:	Leaded gasoline
Years of Operation:	Unknown to 1992
Status:	Closed UST
Discussion:	The southeast adjacent site formerly maintained a 3,000-gallon UST that was removed in April 1992 and reportedly contained leaded gasoline. Per FDEP records, Brindlet Service, Inc. acted as the Pollutant Storage System Specialty Contractor during removal activities. Details regarding the former UST system, including installation dates and location, are unknown. However, based on the removal in 1992, the separation from the subject property via Ulmerton Road, the assumed groundwater gradient (away from the subject property), and the elapsed time, this site is not expected to represent a significant environmental concern at this time.

Adjoining Property Database Listing	
Property Name:	Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion
Address:	14,368 acres along Ulmerton Road
Direction:	Surrounding the subject property vicinity
Hydrological Gradient:	Varies
Database Listing:	Brownfield Area
Substance Involved:	n/a
Years of Operation:	n/a
Status:	Active per Brownfields Resolution No. 15-51
Discussion:	Ulmerton Road Opportunity Corridor (UROC) Area-wide Brownfield Expansion (Area ID #BF521202000) consists of approximately 14,368 acres along Ulmerton Road, extending to Route 19 to the west and to Roosevelt Boulevard to the east. Pinellas County adopted Brownfields Resolution No. 15-51 to expand the UROC Brownfield

	Area, approved by County Commissioners on June 2, 2015. Brownfield Areas are areas designated by the FDEP that consist of abandoned, idled, or underused industrial and commercial sites where redevelopment is complicated due to real or perceived contamination. As such, inclusion in a Brownfield Area is not confirmation that contamination is present.

Based on the findings, vapor migration is not considered an environmental concern at this time.

4.2.4 Surrounding Area Listings of Concern to Subject Property

No sites of concern are identified in the regulatory database report.

Based on the findings, vapor migration is not considered an environmental concern at this time.

4.2.5 Unplottable Listings

No unplottable listings of concern are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM Practice E1527-21, Partner requested the following site information from CBRE Public Institutions & Education Solutions (User of this report).

User Responsibilities		
Item	**Provided By User**	**Not Provided By User**
AAI User Questionnaire		X
Title Records, Environmental Liens, and AULs	X	
Specialized Knowledge	X	
Actual Knowledge	X	
Valuation Reduction for Environmental Issues	X	
Identification of Key Site Manager	X	
Reason for Performing Phase 1 ESA	X	
Prior Environmental Reports	X	
Other	X	

5.1 Interviews

5.1.1 Interview with Owner

The owner of the subject property since 2015, identified as C D Icot Properties LLC, was not available to be interviewed at the time of the assessment.

5.1.2 Interview with Report User

Mrs. Lee Ann Korst, report user, was not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of

environmental laws or possible liability relating to hazardous substances or petroleum products, other than information discussed in 5.2.6.

5.1.3 Interview with Key Site Manager

Mr. Scott (last name withheld), key site manager, indicated that they had no information pertaining to any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

The key site manager was not aware of site history including USTs, ASTs, clarifiers, oil/water separators, groundwater monitoring wells, or hazardous substance use/storage/generation.

5.1.4 Interviews with Past Owners, Operators and Occupants

Interviews with past owners, operators, and occupants were not conducted since information regarding the potential for contamination at the subject property was obtained from other sources.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

Partner was not provided with title records or environmental lien and AUL information for review as part of this assessment.

5.2.2 Specialized Knowledge

No specialized knowledge of environmental conditions associated with the subject property was provided by the User at the time of the assessment.

5.2.3 Actual Knowledge of the User

No actual knowledge of any environmental lien or AULs encumbering the subject property or in connection with the subject property was provided by the User at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

No knowledge of valuation reductions associated with the subject property was provided by the User at the time of the assessment.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or reasonably ascertainable within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

The following information was provided to Partner for review during the course of this assessment:

Phase I Environmental Site Assessment, LandScience, Inc. of Miami, Florida (June 17, 2015)

LandScience, Inc. of Miami, Florida (LandScience) prepared this report on behalf of Whitney Bank of Clearwater, Florida. The assessment was reportedly performed in accordance with ASTM Standard E1527-13. The assessment consisted of a site reconnaissance, interviews with knowledgeable personnel, review

of historical information, and a review of federal, state, and local regulatory databases. Pertinent information contained in this report is summarized below:

- At the time of the 2015 assessment, the main two-story building was occupied by Community Health Solutions of America and its affiliated companies and the northern single-story building was utilized as storage of furniture and office equipment.
- According to the LandScience report, the subject property formerly unimproved land until the current buildings were constructed in 1997.
- Former ASTs associated with the former automobile occupant were historically identified at the subject property.
- No leaks, spills or staining was observed.

LandScience identified the following REC and recommended no further assessment. LandScience concluded that the historical activities including automobile servicing and repairs with bulk petroleum storage conducted at the subject property is a REC.

Copies of pertinent pages reviewed are included in Appendix B of this report.

Letter of Intent (LOI), Prepared for: CD Icot Properties LLC, Prepared by: CBRE (August 21, 2023)

The LOI details the proposed sale of the approximate 21.23-acre subject property addressed at 13600 Icot Boulevard and between the current owner, CD Icot Properties LLC, and Pinellas County Board of Commissioners for the negotiated price of thirty-three million forty-eight thousand dollars.

Topographic Survey, Prepared for: CD Icot Properties, LLC, Prepared by: Bullseye Surveying, Inc. (May 27, 2017)

The survey described the subject property improvements and included detailed drawings of the parcel.

Parking Lot Lease Agreement, Prepared for: Pinellas Farmers Market, LLC, Prepared by: CD Icot Properties, LLC (March 8, 2022)

The Parking Lot Lease Agreement was made to allow Pinellas Farmers Market, LLC to utilize the parking areas, as described per the agreement.

FDEP Storage Tank Facility Registration Form, Prepared for: FDEP, Prepared by: Community Health Solutions (November 8, 2018)

The Storage Tank Registration Form dated November 2018 indicated two 1,000-gallon tanks were no longer in use at the subject property.

FDEP Storage Tank Facility Closure Site Inspection Report, Prepared for: Community Health Solutions, Prepared by: FDEP (November 8, 2018)

According to the inspection report, two Hoover Containment 1,000-gallon double-walled ASTs were removed by Monarch Environmental for off-site disposal by Eagle Metals Recycling. ASTs contained new

oil and used oil and were reportedly out-of-service since July 2009. The tanks were stored behind overhead garage doors and both tanks and concrete slabs were reportedly in good condition at the time of removal.

In Compliance Letter, Prepared for: Community Health Solutions, Prepared by: FDOH on behalf of FDEP (November 9, 2018)

The In Compliance letter notes the facility ASTs were closed in accordance with regulations.

Liability Policies (Automobile, Property, General, Wind), Prepared for: CD Icot Properties, Prepared by: CNA Paramount / Homesite Insurance Company of Florida (March 1, 2023 / May 31, 2023)

Five insurance policies were provided for Partner's review, including four from CNA Paramount dated March 1, 2023 and a storm/wind policy from Homesite Insurance Company of Florida with coverage provided from May 31, 2023 to May 31, 2024.

Copies of pertinent pages reviewed are included in Appendix B of this report.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

Site Assessment Data	
Site Assessment Performed By:	Torrie Lysenko
Site Assessment Conducted On:	September 22, 2023

The table below provides the subject property personnel interviewed during the field reconnaissance:

Site Visit Personnel for the Subject Property			
Name	**Title/Role**	**Contact Number**	**Site Walk* Yes/No**
Scott (last name withheld)	Key Site Manager	(340) 626-4059	Yes
* Accompanied Partner during the field reconnaissance activities and provided information pertaining to the current operations and maintenance of the subject property			

Environmental concerns were identified during the onsite reconnaissance related to the subject property's historic use as an automobile sales and service facility, as further discussed in Sections 6.1 and 6.2.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Solid waste generated at the subject property is disposed of in commercial dumpsters located on a paved area on the central portion of the subject property, between the two on-site buildings. A rollaway dumpster was situated on pavement to the north of the northern building and was reportedly on-site to help discard unwanted storage items in the former automobile service building. The City of Largo removes solid waste from the subject property. No evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges on the subject property are directed into the municipal sanitary sewer system. The Pinellas County Utilities (PCU) services the subject property vicinity. No septic systems were observed or reported on the subject property.

6.1.3 Stormwater and Surface Water Drainage

Stormwater is removed from the subject property primarily by sheet flow action across the paved surfaces towards stormwater drains located throughout on the subject property and in the adjacent public right of ways. On-site storm water drains discharge to municipal owned and maintained storm sewer system or to the northern adjacent stormwater retention pond. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Heating and cooling systems as well as domestic hot water equipment are fueled by electricity provided by Duke Energy. The mechanical system is comprised of rooftop mounted packaged electrical HVAC units. Partner observed several HVAC units on the ground to the exterior of the main two-story central building. Hot water is provided by individual electric water heaters located throughout the buildings. Partner notes that natural gas utilities were previously provided to the northern bay with a connection observed to the west exterior that was no longer connected.

6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater generated at the subject property is disposed by means of the sanitary sewer system. Partner observed an oil and water separator in a paved area to the north of the northern building. Details regarding the oil and water separator are unknown; however, the oil and water separator appeared to be associated with the trench drains in the western wash bay and perimeter zipper drains in the former service area, as discussed below in Section 6.2.7. No industrial processes are currently performed at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 Additional Site Observations

No additional general site characteristics were observed during the site reconnaissance.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

Partner identified hazardous substances or petroleum products used, stored, and/or generated on the subject property, notably within storage areas of the on-site buildings. Various 5-gallon buckets, aerosols, gasoline containers containing paints, building materials were observed stored on-site and generally appeared to be stored on concrete slab flooring. Numerous propane canisters were also stored in the storage areas. Several automobile batteries were situated on concrete flooring within the northern building. Approximately seven 55-gallon drums, three labeled "A-Component" and four labeled "Foamsulate" were observed in an unfinished storage warehouse area in the main central building and appeared to be related to construction activities of the warehouse space.

The materials were found to be properly labeled and store at the time of the assessment with no signs of leaks, stains, or spills. Secondary containment is not provided. Small quantities of general janitorial cleaning and maintenance supplies were found to be properly labeled and stored at the time of the assessment with no signs of leaks, stains, or spills.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

6.2.3 Evidence of Releases

No spills, stains, or other indications that a surficial release has occurred at the subject property were observed, with the exception of de minimis staining observed in the apparent former AST areas in the western portion of the northern building.

6.2.4 Polychlorinated Biphenyls (PCBs)

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The

manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

Transformers and Hydraulic Equipment				
Type of Equipment	**Location**	**Number**	**PCB Containing**	**Concern**
Pad-Mounted Transformer	Landscaped area between the two on-site buildings	Yes	Unknown	No
Hydraulic Elevator	Two-story central building	Yes	Unknown	No
In-Ground Hydraulic Lifts	Northern building - former service area	~18	Unknown	Yes

The on-site reconnaissance addressed indoor and outdoor transformers that may contain PCBs. A pad-mounted transformer was observed on the subject property. The transformer is not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformer. Duke Energy, the local utility company, maintains ownership and operational responsibility for the transformer. Based on the good condition of the equipment, the transformer is not considered an environmental concern.

Additionally, a hydraulic passenger elevator manufactured by Miami Elevator services the main two-story building. The elevator was manufactured and installed when the building was developed in 1997. According to the elevator certificate posted, the elevator is serviced regularly by a third-party service maintenance company. The current Certificate of Operation was issued to Community Health Solutions and expires on August 1, 2024. Partner observed the elevator equipment room, which appeared to be in good condition. A placard on the elevator equipment indicated TK Elevator most recently tested the system on September 12, 2023. Based on observations and a third-party servicing of the elevator, the elevator is not expected to represent a significant environmental concern at this time.

Numerous service bays were apparent in the central portion of the northern building formerly utilized for automobile servicing, with additional overhead bay doors to access other portions of the building. The northern building appeared to be constructed with approximately 18 in-ground hydraulic lifts, with hydraulic reservoirs installed on the wall near overhead doors. The exact number is unknown, due to the amount of storage; however, the lifts have not been used since the site contact has been affiliated with the site (since 2022). The presence of in-ground hydraulic lifts at the subject property represents a REC. The in-ground hydraulic lifts that have not been in use for years should be decommissioned and removed according to regulations.

6.2.5 Strong, Pungent or Noxious Odors

No strong, pungent or noxious odors were evident during the site reconnaissance.

6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 Drains, Sumps and Clarifiers

Partner observed the following drains, sumps, and/or clarifiers located on the subject property:

Partner observed an oil and water separator in a paved area to the north of the northern building. Details regarding the oil and water separator system are unknown; however, the oil and water separator appeared to be associated with the trench drains in the western wash bay and zipper floor drains along the building's perimeter in the service bay areas, and was likely installed when the building was constructed to prevent oils and debris particles from entering the sanitary sewer system. Staining was not apparent in the vicinity of the observed trench and zipper drains.

Floor drains were apparent in restroom areas within the buildings. Staining was not observed in the vicinity of the floor drains.

6.2.8 Pits, Ponds and Lagoons

No pits, ponds, or lagoons were observed on the subject property, with the exception of a portion of the larger adjacent stormwater retention pond on the northeast portion of the subject property.

6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

6.2.10 Additional Potential Environmental Hazards

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

6.3 Non-ASTM Services

6.3.1 Asbestos-Containing Materials (ACMs)

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building that have not been appropriately tested are “presumed asbestos-containing material” (PACM).

The subject property buildings were constructed in 1997.

Partner was not provided building plans or specifications for review, which may have been useful in determining areas likely to have used ACM.

Partner conducted an asbestos survey in conjunction with this ESA, which will be submitted under a separate cover.

6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm2 (or 5,000 µg/g or 0.5% by weight) or more of lead. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as “Title X,” to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a “hazard,” although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development (HUD) and the US EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978.

Due to the commercial nature of use of the subject property, LBP was not considered within the scope of this assessment.

6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

EPA Radon Zones		
EPA Zones	**Average Predicted Radon Levels**	**Potential**
Zone 1	Exceed 4.0 pCi/L	Highest
Zone 2	Between 2.0 and 4.0 pCi/L	Moderate
Zone 3	Less than 2.0 pCi/L	Low

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Review of the US EPA Map of Radon Zones places the subject property in Zone 3. Based upon the radon zone classification, radon is not considered an environmental concern.

6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the Pinellas County Utilities Department serves the subject property vicinity. The sources of public water for Pinellas County are supplied by the regional water supplier, Tampa Bay Water (TBW), which includes groundwater from the Floridian Aquifer, treated surface water from the C.W. Bill Young Regional Reservoir, the Tampa Bypass Canal, and the Alafia and Hillsborough Rivers, and desalinated seawater. According to the 2022 Annual Water Quality Report, water supplied to the subject property is in compliance with all State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.

6.3.5 Mold

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g.in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

No obvious indications of water damage or mold growth were observed during Partner's visual assessment; however, water-stained acoustical ceiling tiles were apparent throughout the office areas of in buildings. As best management practice, the cause of the water-staining should be investigated and repaired and ceiling tiles should be replaced during routine maintenance.

6.3.6 Wetlands

The subject property generally does not appear to be a designated wetland area based on information obtained from the United States Fish and Wildlife Service; however, a portion of a larger adjacent stormwater retention pond appears to be mapped on the northeast portion of the parcel as a freshwater pond (PUBHx). A comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

6.4 Adjoining Property Reconnaissance

The adjoining property reconnaissance consisted of observing the adjoining properties from the subject property premises. No items of environmental concern were identified on the adjoining properties during the site assessment, including hazardous substances, petroleum products, ASTs, USTs, evidence of releases, PCBs, strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

7.0 VAPOR ENCROACHMENT CONDITIONS

Partner conducted a limited non-intrusive vapor screening on the subject property to identify, to the extent feasible, the potential for vapor encroachment conditions (VECs) in connection with the subject property. This included consideration of chemicals of concern (COC) that may migrate as vapors into the subsurface of the subject property as a result of contaminated soil and groundwater on or near the property.

This screening utilized readily available data sources previously discussed in this Phase I ESA that includes:

- the physical setting of the subject property (Section 2.4),
- standard historical sources for the subject property, adjoining, and surrounding area (Section 3.0),
- known or potentially contaminated sites as identified from information from regulatory agencies and sites on Federal, State, tribal and local databases (Section 4.0), and
- information from the site reconnaissance (Section 6.0) of the subject property and observations of the surrounding properties.

The results of our data collection, reconnaissance, and analysis are tabulated below:

Potential for Vapor Encroachment to Impact the Subject Property	
Area of Concern	***Likely or Known VEC to Subject Property***
Subject Property Existing Operations or Conditions	None identified that impact the subject property. Refer to Sections 2.0 Site Description and 6.0 Site Reconnaissance and discussion below.
Historical Uses of the Subject Property	None identified that impact the subject property. Refer to Section 3.0 Historical Use and discussion below.
Adjoining Property Operations or Existing Conditions	None identified that impact the subject property. Refer to Sections 2.3 Current Use of Adjoining Properties and 6.4 Adjoining Property Site Reconnaissance and discussion below.
Historical Uses of Adjoining Properties or Nearby Properties	None identified that impact the subject property. Refer to Section 3.0 Historical Use and discussion below.
Regulatory Review of sites identified on Federal, State, tribal and Local Environmental Databases which were located in the AMSD	None identified that impact the subject property. Refer to Section 4.0 Regulatory Review and discussion below.

Based on the findings of the limited non-intrusive vapor screening, vapor intrusion is unlikely to be an issue of concern in connection with the existing structures on the subject property. As such, no further assessment is recommended.

8.0 FINDINGS AND CONCLUSIONS

Findings and Opinions

Recognized Environmental Condition

A recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- The subject property was formerly utilized as an automobile sales and service facility from 1997 to ~2013 and operated with approximately 18 in-ground hydraulic lifts, aboveground storage tanks (ASTs), a vehicle wash bay. At the time of Partner's site reconnaissance, approximately 18 in-ground hydraulic lifts were observed in the central portion, a camper was parked within the vehicle wash bay, and ASTs no longer appeared to be present on-site. The historic operations conducted on-site are environmentally-sensitive in nature and represents a REC.

Controlled Recognized Environmental Condition

A controlled recognized environmental condition (CREC) refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations).

- Partner did not identify any HRECs during the course of this assessment.

Business Environmental Risk

A Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice.

- Suspect asbestos-containing materials (ACMs) were identified at the subject property. Partner conducted an asbestos survey in conjunction with this ESA, which will be submitted under a separate cover.
- Partner did not identify any other BERs during the course of this assessment.

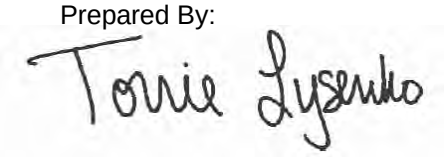
Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of 13600 Icot Boulevard in Largo, Pinellas, Florida (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of CRECs, HRECs, or BERs in connection with the subject property; however, a REC was identified due to the historic operations conducted on-site. Based on the conclusions of this assessment, Partner recommends the following:



- Partner recommends conducting a limited Phase II subsurface investigation to determine if historic automobile repair operations have adversely impacted the subsurface media. Additionally, Partner recommends properly decommissioning the in-ground hydraulic lifts in the 13600B building.

9.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 13600 Icot Boulevard in Largo, Pinellas, Florida in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

RE: CITY DIRECTORY RESEARCH
113600 ICOT Blvd
LARGO,FL 33760

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
ALL of 138th Ct N
ALL of 60th St N
BEG-13945 of Icot Blvd
5820-6060 of Ulmerton Rd

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

	UTM Easting:	*331,048.40*
	UTM Zone:	*17R*
Elevation:		*14 FT*

Order Information:

Order No:	*23091900318*
Date Requested:	*September 19, 2023*
Requested by:	*Partner Engineering and Science, Inc.*
Report Type:	*Database Report*

Historicals/Products:

Aerial Photographs	*Historical Aerials (with Project Boundaries)*
City Directory Search	*Smart CD Search*
ERIS Xplorer	*ERIS Xplorer*
Excel Add-On	*Excel Add-On*
Fire Insurance Maps	*US Fire Insurance Maps*
Physical Setting Report (PSR)	*Physical Setting Report (PSR)*
Topographic Map	*Topographic Maps*
Vapor Screening Tool	*Vapor Screening Tool*

Evaluation Type Description: FOCUSED COMPLIANCE INSPECTION
Violation Short Description: LDR - General
Return to Compliance Date: 19930629
Evaluation Agency: EPA Contractor/Grantee

Handler Summary

Importer Activity: No
Mixed Waste Generator: No
Transporter Activity: No
Transfer Facility: No
Onsite Burner Exemption: No
Smelting, Melting and Refining: No
Underground Injection Control: No
Commercial TSD: No
Used Oil Transporter: No
Used Oil Transfer Facility: No
Used Oil Processor: No
Used Oil Refiner: No
Used Oil Burner: No
Used Oil Market Burner: No
Used Oil Spec Marketer: No

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 19900301
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 2
Receive Date: 19920325
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 199309
Receive Date: 19930924
Handler Name: HONEYWELL INC
Federal Waste Generator Code: N
Generator Code Description: Not a Generator, Verified
Source Type: Part A

Waste Code Details

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Hazardous Waste Handler Details

Sequence No: 3
Receive Date: 19940223
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 4
Receive Date: 19960215
Handler Name: HONEYWELL, INC.
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 5
Receive Date: 19980130
Handler Name: HONEYWELL, INC.
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 6
Receive Date: 20000225
Handler Name: HONEYWELL, INC.
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20020205
Handler Name: HONEYWELL
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report update with Notification

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D003
Waste Code Description: REACTIVE WASTE

Hazardous Waste Code: D004
Waste Code Description: ARSENIC

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D027
Waste Code Description: 1,4-DICHLOROBENZENE

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P012
Waste Code Description: ARSENIC OXIDE AS2O3 (OR) ARSENIC TRIOXIDE

Hazardous Waste Code: P077
Waste Code Description: BENZENAMINE, 4-NITRO- (OR) P-NITROANILINE

Hazardous Waste Code: P105
Waste Code Description: SODIUM AZIDE

Hazardous Waste Code: P119
Waste Code Description: AMMONIUM VANADATE (OR) VANADIC ACID, AMMONIUM SALT

Hazardous Waste Code: P120
Waste Code Description: VANADIUM OXIDE V2O5 (OR) VANADIUM PENTOXIDE

Hazardous Waste Code: U069
Waste Code Description: 1,2-BENZENEDICARBOXYLIC ACID, DIBUTYL ESTER (OR) DIBUTYL PHTHALATE

Hazardous Waste Code: U078
Waste Code Description: 1,1-DICHLOROETHYLENE (OR) ETHENE, 1,1-DICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U144
Waste Code Description: ACETIC ACID, LEAD(2+) SALT (OR) LEAD ACETATE

Hazardous Waste Code: U170
Waste Code Description: P-NITROPHENOL (I,T) (OR) PHENOL, 4-NITRO-

Hazardous Waste Code: U188
Waste Code Description: PHENOL

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U214
Waste Code Description: ACETIC ACID, THALLIUM(1+) SALT (OR) THALLIUM(I) ACETATE

Hazardous Waste Code: U219
Waste Code Description: THIOUREA

Hazardous Waste Code: U223
Waste Code Description: BENZENE, 1,3-DIISOCYANATOMETHYL- (R,T) (OR) TOLUENE DIISOCYANATE (R,T)

Hazardous Waste Code: U227
Waste Code Description: 1,1,2-TRICHLOROETHANE (OR) ETHANE, 1,1,2-TRICHLORO-

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U234
Waste Code Description: 1,3,5-TRINITROBENZENE (R,T) (OR) BENZENE, 1,3,5-TRINITRO-

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Hazardous Waste Handler Details

Sequence No: 7
Receive Date: 20040216
Handler Name: HONEYWELL, INCORPORATED
Federal Waste Generator Code: 1

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: D019
Waste Code Description: CARBON TETRACHLORIDE

Hazardous Waste Code: D021
Waste Code Description: CHLOROBENZENE

Hazardous Waste Code: D022
Waste Code Description: CHLOROFORM

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D036
Waste Code Description: NITROBENZENE

Hazardous Waste Code: D038
Waste Code Description: PYRIDINE

Hazardous Waste Code:	D039
Waste Code Description:	TETRACHLOROETHYLENE
Hazardous Waste Code:	D040
Waste Code Description:	TRICHLORETHYLENE
Hazardous Waste Code:	F002
Waste Code Description:	THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F003
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F005
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	P030
Waste Code Description:	CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED
Hazardous Waste Code:	U019
Waste Code Description:	BENZENE (I,T)
Hazardous Waste Code:	U029
Waste Code Description:	METHANE, BROMO- (OR) METHYL BROMIDE
Hazardous Waste Code:	U037
Waste Code Description:	BENZENE, CHLORO- (OR) CHLOROBENZENE
Hazardous Waste Code:	U044
Waste Code Description:	CHLOROFORM (OR) METHANE, TRICHLORO-
Hazardous Waste Code:	U057
Waste Code Description:	CYCLOHEXANONE (I)
Hazardous Waste Code:	U070
Waste Code Description:	BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE
Hazardous Waste Code:	U077
Waste Code Description:	ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE
Hazardous Waste Code:	U080
Waste Code Description:	METHANE, DICHLORO- (OR) METHYLENE CHLORIDE
Hazardous Waste Code:	U125
Waste Code Description:	2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)
Hazardous Waste Code:	U147
Waste Code Description:	2,5-FURANDIONE (OR) MALEIC ANHYDRIDE
Hazardous Waste Code:	U169
Waste Code Description:	BENZENE, NITRO- (OR) NITROBENZENE (I,T)
Hazardous Waste Code:	U196

Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Handler Details

Sequence No: 201004
Receive Date: 20100405
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Notification

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D003
Waste Code Description: REACTIVE WASTE

Hazardous Waste Code: D004
Waste Code Description: ARSENIC

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: D019
Waste Code Description: CARBON TETRACHLORIDE

Hazardous Waste Code: D021
Waste Code Description: CHLOROBENZENE

Hazardous Waste Code: D022
Waste Code Description: CHLOROFORM

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D036
Waste Code Description: NITROBENZENE

Hazardous Waste Code: D038
Waste Code Description: PYRIDINE

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Code:	D039
Waste Code Description:	TETRACHLOROETHYLENE
Hazardous Waste Code:	D040
Waste Code Description:	TRICHLORETHYLENE
Hazardous Waste Code:	F001
Waste Code Description:	THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F002
Waste Code Description:	THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: D019
Waste Code Description: CARBON TETRACHLORIDE

Hazardous Waste Code: D021
Waste Code Description: CHLOROBENZENE

Hazardous Waste Code: D022
Waste Code Description: CHLOROFORM

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D036
Waste Code Description: NITROBENZENE

Hazardous Waste Code: D038
Waste Code Description: PYRIDINE

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: P087
Waste Code Description: OSMIUM OXIDE OSO4, (T-4)- (OR) OSMIUM TETROXIDE

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U030
Waste Code Description: 4-BROMOPHENYL PHENYL ETHER (OR) BENZENE, 1-BROMO-4-PHENOXY-

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U170
Waste Code Description: P-NITROPHENOL (I,T) (OR) PHENOL, 4-NITRO-

Hazardous Waste Code: U188
Waste Code Description: PHENOL

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE

SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Hazardous Waste Handler Details

Sequence No: 8
Receive Date: 20180330
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report update with Notification

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code:	D008
Waste Code Description:	LEAD
Hazardous Waste Code:	D011
Waste Code Description:	SILVER
Hazardous Waste Code:	D035
Waste Code Description:	METHYL ETHYL KETONE
Hazardous Waste Code:	D039
Waste Code Description:	TETRACHLOROETHYLENE
Hazardous Waste Code:	D040
Waste Code Description:	TRICHLORETHYLENE
Hazardous Waste Code:	F002
Waste Code Description:	THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F003
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F005
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Commercial TSD: No
Used Oil Transporter: No
Used Oil Transfer Facility: No
Used Oil Processor: No
Used Oil Refiner: No
Used Oil Burner: No
Used Oil Market Burner: No
Used Oil Spec Marketer: No

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 19900301
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 2
Receive Date: 19920325
Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Annual/Biennial Report

Hazardous Waste Handler Details

Sequence No: 199309
Receive Date: 19930924
Handler Name: HONEYWELL INC
Federal Waste Generator Code: N
Generator Code Description: Not a Generator, Verified
Source Type: Part A

Waste Code Details

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D003
Waste Code Description: REACTIVE WASTE

Hazardous Waste Code: D004
Waste Code Description: ARSENIC

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D027
Waste Code Description: 1,4-DICHLOROBENZENE

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P012
Waste Code Description: ARSENIC OXIDE AS2O3 (OR) ARSENIC TRIOXIDE

Hazardous Waste Code: P077
Waste Code Description: BENZENAMINE, 4-NITRO- (OR) P-NITROANILINE

Hazardous Waste Code: P105
Waste Code Description: SODIUM AZIDE

Hazardous Waste Code: P119
Waste Code Description: AMMONIUM VANADATE (OR) VANADIC ACID, AMMONIUM SALT

Hazardous Waste Code: P120
Waste Code Description: VANADIUM OXIDE V2O5 (OR) VANADIUM PENTOXIDE

Hazardous Waste Code: U069
Waste Code Description: 1,2-BENZENEDICARBOXYLIC ACID, DIBUTYL ESTER (OR) DIBUTYL PHTHALATE

Hazardous Waste Code: U078
Waste Code Description: 1,1-DICHLOROETHYLENE (OR) ETHENE, 1,1-DICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U144
Waste Code Description: ACETIC ACID, LEAD(2+) SALT (OR) LEAD ACETATE

Hazardous Waste Code: U170
Waste Code Description: P-NITROPHENOL (I,T) (OR) PHENOL, 4-NITRO-

Hazardous Waste Code: U188
Waste Code Description: PHENOL

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U214
Waste Code Description: ACETIC ACID, THALLIUM(1+) SALT (OR) THALLIUM(I) ACETATE

Hazardous Waste Code: U219
Waste Code Description: THIOUREA

Hazardous Waste Code: U223
Waste Code Description: BENZENE, 1,3-DIISOCYANATOMETHYL- (R,T) (OR) TOLUENE DIISOCYANATE (R,T)

Hazardous Waste Code: U227
Waste Code Description: 1,1,2-TRICHLOROETHANE (OR) ETHANE, 1,1,2-TRICHLORO-

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U234
Waste Code Description: 1,3,5-TRINITROBENZENE (R,T) (OR) BENZENE, 1,3,5-TRINITRO-

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D003
Waste Code Description: REACTIVE WASTE

Hazardous Waste Code: D004
Waste Code Description: ARSENIC

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D018
Waste Code Description: BENZENE

Hazardous Waste Code: D019
Waste Code Description: CARBON TETRACHLORIDE

Hazardous Waste Code: D021
Waste Code Description: CHLOROBENZENE

Hazardous Waste Code: D022
Waste Code Description: CHLOROFORM

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D036
Waste Code Description: NITROBENZENE

Hazardous Waste Code: D038
Waste Code Description: PYRIDINE

Hazardous Waste Code: D039

Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code:	F003
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	F005
Waste Code Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Hazardous Waste Code:	P030
Waste Code Description:	CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED
Hazardous Waste Code:	U002
Waste Code Description:	2-PROPANONE (I) (OR) ACETONE (I)
Hazardous Waste Code:	U019
Waste Code Description:	BENZENE (I,T)
Hazardous Waste Code:	U029
Waste Code Description:	METHANE, BROMO- (OR) METHYL BROMIDE
Hazardous Waste Code:	U031
Waste Code Description:	1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)
Hazardous Waste Code:	U037
Waste Code Description:	BENZENE, CHLORO- (OR) CHLOROBENZENE
Hazardous Waste Code:	U044
Waste Code Description:	CHLOROFORM (OR) METHANE, TRICHLORO-
Hazardous Waste Code:	U057
Waste Code Description:	CYCLOHEXANONE (I)
Hazardous Waste Code:	U070
Waste Code Description:	BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE
Hazardous Waste Code:	U077
Waste Code Description:	ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE
Hazardous Waste Code:	U080
Waste Code Description:	METHANE, DICHLORO- (OR) METHYLENE CHLORIDE
Hazardous Waste Code:	U125

Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-

1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: P087
Waste Code Description: OSMIUM OXIDE OSO4, (T-4)- (OR) OSMIUM TETROXIDE

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U030
Waste Code Description: 4-BROMOPHENYL PHENYL ETHER (OR) BENZENE, 1-BROMO-4-PHENOXY-

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U170
Waste Code Description: P-NITROPHENOL (I,T) (OR) PHENOL, 4-NITRO-

Hazardous Waste Code: U188

Waste Code Description: PHENOL

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT

SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: P030
Waste Code Description: CYANIDES (SOLUBLE CYANIDE SALTS), NOT OTHERWISE SPECIFIED

Hazardous Waste Code: P087
Waste Code Description: OSMIUM OXIDE OSO4, (T-4)- (OR) OSMIUM TETROXIDE

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U029
Waste Code Description: METHANE, BROMO- (OR) METHYL BROMIDE

Hazardous Waste Code: U030
Waste Code Description: 4-BROMOPHENYL PHENYL ETHER (OR) BENZENE, 1-BROMO-4-PHENOXY-

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U037
Waste Code Description: BENZENE, CHLORO- (OR) CHLOROBENZENE

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U057
Waste Code Description: CYCLOHEXANONE (I)

Hazardous Waste Code: U070
Waste Code Description: BENZENE, 1,2-DICHLORO- (OR) O-DICHLOROBENZENE

Hazardous Waste Code: U077
Waste Code Description: ETHANE, 1,2-DICHLORO- (OR) ETHYLENE DICHLORIDE

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U125
Waste Code Description: 2-FURANCARBOXALDEHYDE (I) (OR) FURFURAL (I)

Hazardous Waste Code: U147
Waste Code Description: 2,5-FURANDIONE (OR) MALEIC ANHYDRIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U169
Waste Code Description: BENZENE, NITRO- (OR) NITROBENZENE (I,T)

Hazardous Waste Code: U170
Waste Code Description: P-NITROPHENOL (I,T) (OR) PHENOL, 4-NITRO-

Hazardous Waste Code: U188
Waste Code Description: PHENOL

Hazardous Waste Code: U196
Waste Code Description: PYRIDINE

Hazardous Waste Code: U202
Waste Code Description: 1,2-BENZISOTHIAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS

Hazardous Waste Code: U210
Waste Code Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Hazardous Waste Code: U211
Waste Code Description: CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-

Hazardous Waste Code: U213
Waste Code Description: FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Hazardous Waste Code: U240
Waste Code Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Handler Details

Sequence No: 201701
Receive Date: 20170119

Handler Name: HONEYWELL INC
Federal Waste Generator Code: 1
Generator Code Description: Large Quantity Generator
Source Type: Implementer

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D004
Waste Code Description: ARSENIC

Hazardous Waste Code: D005
Waste Code Description: BARIUM

Hazardous Waste Code: D006
Waste Code Description: CADMIUM

Hazardous Waste Code: D007
Waste Code Description: CHROMIUM

Hazardous Waste Code: D008
Waste Code Description: LEAD

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D010
Waste Code Description: SELENIUM

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: D035
Waste Code Description: METHYL ETHYL KETONE

Hazardous Waste Code: D039
Waste Code Description: TETRACHLOROETHYLENE

Hazardous Waste Code: D040
Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F001
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING,

BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: U002
Waste Code Description: 2-PROPANONE (I) (OR) ACETONE (I)

Hazardous Waste Code: U019
Waste Code Description: BENZENE (I,T)

Hazardous Waste Code: U031
Waste Code Description: 1-BUTANOL (I) (OR) N-BUTYL ALCOHOL (I)

Hazardous Waste Code: U044
Waste Code Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Hazardous Waste Code: U080
Waste Code Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Hazardous Waste Code: U159
Waste Code Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Hazardous Waste Code: U220
Waste Code Description: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Code: U226
Waste Code Description: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

Hazardous Waste Code: U228
Waste Code Description: ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Hazardous Waste Code: U239
Waste Code Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Waste Code Description: TRICHLORETHYLENE

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY

VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Property History:

Between April 9, 1942 and September 16, 1944, The United States acquired the site for an Army Air Force airfield and training facility. The Army's Third Air Force used the site as a main base and a combat crew training station for fighters. This facility remained active until 1945 when most of its functions were no longer required. In 1946 the property was conveyed to Pinellas County, FL

Description of Events: DRIVER UNLOADING PRODUCT SPILLED APPROX 20-25 GALLONS UN-LEAD WHICH WAS FLUSHED WITH WATER INTO A RETENTION POND CONTAINED BY DIRT DIKES. ABSORBENT PADS USED AND PLACED IN A GARBAGE CAN. ALSO POTASSIUM HYDROXIDE WAS USED.

Recommend Actions Taken:

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List: NPL

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: May 25, 2023

National Priority List - Proposed: PROPOSED NPL

Sites proposed by the United States Environmental Protection Agency (EPA), the state agency, or concerned citizens for addition to the National Priorities List (NPL) due to contamination by hazardous waste and identified by the EPA as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: May 25, 2023

Deleted NPL: DELETED NPL

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: May 25, 2023

SEMS List 8R Active Site Inventory: SEMS

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the SEMS GIS/REST file layer obtained from EPA's Facility Registry Service.

Government Publication Date: Jul 26, 2023

Inventory of Open Dumps, June 1985: ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites: SEMS ARCHIVE

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file.

Government Publication Date: Jul 26, 2023

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS: CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands: IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned: CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens: CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action: RCRA CORRACTS

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Jul 10, 2023

RCRA non-CORRACTS TSD Facilities: RCRA TSD

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by RCRA.

Government Publication Date: Jul 10, 2023

RCRA Generator List: RCRA LQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Jul 10, 2023

RCRA Small Quantity Generators List: RCRA SQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Jul 10, 2023

RCRA Very Small Quantity Generators List: RCRA VSQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Jul 10, 2023

RCRA Non-Generators: RCRA NON GEN

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Jul 10, 2023

RCRA Sites with Controls: RCRA CONTROLS

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Jul 10, 2023

Federal Engineering Controls-ECs: FED ENG

This list of Engineering controls (ECs) is provided by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2021 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Jun 22, 2023

Federal Institutional Controls- ICs: FED INST

This list of Institutional controls (ICs) is provided by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2021 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Jun 22, 2023

Land Use Control Information System: LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Institutional Control Boundaries at NPL sites: NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

Government Publication Date: May 25, 2023

Emergency Response Notification System: ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System: ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System: ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Apr 3, 2023

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database: FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This data is provided by the United States Environmental Protection Agency (EPA) and includes Brownfield sites from the Cleanups in My Community (CIMC) web application.

Government Publication Date: Sep 13, 2022

FEMA Underground Storage Tank Listing: FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan: FRP

This listing contains facilities that have submitted Facility Response Plans (FRPs) to the U.S. Environmental Protection Agency (EPA). Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit FRPs. Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments. This listing includes FRP facilities from an applicable EPA FOIA file and Homeland Infrastructure Foundation-Level Data (HIFLD) data file.

Government Publication Date: May 2, 2023

Delisted Facility Response Plans: DELISTED FRP

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: May 2, 2023

Historical Gas Stations: HIST GAS STATIONS

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries: REFN

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Mar 9, 2023

Petroleum Product and Crude Oil Rail Terminals: BULK TERMINAL

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

Government Publication Date: Jun 29, 2022

LIEN on Property: SEMS LIEN

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Jul 26, 2023

Superfund Decision Documents: SUPERFUND ROD

This database contains a list of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include completed Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD) for active and archived sites stored in the Superfund Enterprise Management System (SEMS), along with other associated memos and files. This information is maintained and made available by the U.S. Environmental Protection Agency.

Government Publication Date: Mar 23, 2023

Formerly Utilized Sites Remedial Action Program: DOE FUSRAP

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

State

Superfund Waste Cleanup & State-Funded Action Sites: SHWS

List of hazardous waste cleanup sites participating in various federal and state funded cleanup programs. Florida's State-Funded Action Sites and Superfund Waste Cleanup Sites lists are maintained and made available by the Florida Department of Environmental Protection (FDEP). This database is state equivalent CERCLIS.

Government Publication Date: Jun 16, 2023

Delisted State-Funded Action Sites: DELISTED SHWS

This database contains a list of closed hazardous waste sites of various federal and state funded cleanup programs that were removed from the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Jun 16, 2023

ERIC Waste Cleanup: ERIC

Environmental Restoration Integrated Cleanup (ERIC) is a single database for tracking contaminated site cleanup activities in the Florida Department of Environmental Protection (DEP)'s Division of Waste Management (DWM). Includes records from 11 different DEP data systems, allowing tracking of a contaminated site throughout the course of cleanup regardless of which program area took the lead.

Government Publication Date: Aug 10, 2023

Florida Department of Environmental Protection Cleanup Sites: CLEANUP DEP

The Cleanup Sites layer feeds the FDEP's Contamination Locator Map (CLM). It provides locations and document links for sites currently in the cleanup process and sites awaiting cleanup funding. Cleanup programs include: Brownfields, Petroleum, EPA Superfund (CERCLA), Drycleaning, Responsible Party Cleanup, State Funded Cleanup, State Owned Lands Cleanup and Hazardous Waste Cleanup.

Government Publication Date: May 23, 2023

Waste Cleanup Responsible Party Sites: WCRPS

List of Open, Closed, and Inactive Waste Cleanup Responsible Party sites made available by the Florida Department of Environmental Protection.

Government Publication Date: Apr 11, 2021

Delisted Waste Cleanup Sites: DELISTED WCP

List of sites which once appeared on - and have since been removed from - the list of Waste Cleanup Sites made available by the Florida Department of Environmental Protection.

Government Publication Date: Aug 10, 2023

Solid Waste Facilities and Landfills: SWF/LF

The Solid Waste Facility Inventory Report made available by the Florida Department of Environmental Protection (FDEP) includes all types of authorized and unauthorized facilities: municipal solid waste, landfills, dumps, construction and demolition disposal, recycling facilities, and more.

Government Publication Date: May 25, 2023

Leaking Tanks: LST

The Storage Tank Regulation Section is part of the Petroleum Restoration Program in the Florida Department of Environmental Protection (FDEP)s Division of Waste Management. In 1983, Florida was one of the first states in the union to pass legislation and adopt rules for underground and aboveground storage tank systems. Since then, over 28,000 facilities have reported discharges of petroleum products from storage tank systems. Florida relies on groundwater for about 92 percent of its drinking water needs, and has some of the most stringent rules in the country.

Government Publication Date: Jun 28, 2023

Delisted Leaking Tanks: DELISTED LST

Whereas Leaking Tanks (LST) includes only facilities which currently have contamination as recorded by the Florida Department of Environmental Protection, this list contains facilities which were once included in LST data but no longer appear on the list made available by FDEP. Facilities may be removed from the current LST list because the discharge has been cleaned up, or the discharge is not required for 62-770.

Government Publication Date: Aug 8, 2023

Underground Storage Tanks: UST

List of Underground Storage Tank facilities made available by the Florida Department of Environmental Protection (FL DEP). Includes facilities tracked for active storage tanks, storage tank history, or petroleum cleanup activity. In an effort to minimize the occurrence and environmental risks of releases and discharges, FDEP administers standards pertaining to the construction, installation, operation, maintenance, repair, closure, and disposal of underground storage tank systems that store regulated substances.

Government Publication Date: Aug 11, 2023

Aboveground Storage Tanks: AST

List of Aboveground Storage Tank facilities made available by the Florida Department of Environmental Protection (FL DEP). Includes facilities tracked for active storage tanks, storage tank history, or petroleum cleanup activity.The Florida Department of Environmental Protection (FDEP) provides standards for aboveground storage tanks (ASTs) that have individual storage tank capacities greater than 550 gallons. The state also regulates the registration, construction, installation, operation, maintenance, repair, closure, and disposal of storage tank systems that store regulated substances.

Government Publication Date: Aug 11, 2023

Storage Tank Facilities: TANK

List of storage tank facilities made available by the Florida Department of Environmental Protection (FL DEP) for which tank information is not available. In the case of closed facilities - where all tanks have been removed or closed, and there is also no petroleum discharge or on-going cleanup activity - the owner data may not be current, but rather would represent the most recent information made available to FL DEP.

Government Publication Date: Aug 11, 2023

Delisted AST UST Storage Tanks: DEL UST AST TANK

This database contains a list of closed UST and AST storage tank sites that were removed from the Florida Department of Environmental Protection (FDEP) storage tank database.

Government Publication Date: Jul 2, 2015

Delisted Storage Tanks: DEL STORAGE TANK

List of sites that once appeared on - and have since been removed from - the list of UST and AST storage tank facilities made available by the Florida Department of Environmental Protection.

Government Publication Date: Aug 11, 2023

Federal Facilities Listing: FF TANKS

The Florida Department of Environmental Protection (FDEP) Storage Tank Program registers facilities and storage tanks where aboveground or underground storage tanks store pollutants, hazardous substances, and/or mineral acid substances regulated by Chapter 62-761, Florida Administrative Code, or when aboveground storage tanks or compression vessels store a hazardous substance which requires registration according to Chapter 376, Florida Statutes.

Government Publication Date: Jun 1, 2023

Storage Tank/Contaminated Facility Search: STCS

List of facilities and tanks in the Florida Department of Environmental Protection (FDEP) Bureau of Petroleum Storage Systems Storage Tank/Contaminated Facility Search. Note that tank details do not appear for facilities for which all tanks have been removed.

Government Publication Date: May 12, 2023

Institutional Controls Registry: INST

The Institutional Controls registry is maintained by the Florida Department of Environmental Protection (FDEP). The registry aims to help preserve adequate protection of contaminated soil regions and help to minimize any chances of exposure.

Government Publication Date: Aug 11, 2023

Engineering Controls: ENG

A listing of all engineering controls that are in place to eliminate or reduce the potential for contaminant migration and exposure to contaminants. These controls may include caps, barriers, guards or fences. The list is maintained by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Aug 11, 2023

Voluntary Cleanup Sites: VCP

A listing of active and closed voluntary cleanup sites registered by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Jul 1, 2022

Brownfield Sites: BROWNFIELDS

Brownfields are defined by the Florida Department of Environmental Protection (FDEP) as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. This is a list of sites within designated Brownfield Areas within Florida where Brownfield Site Rehabilitation Agreement (BSRA)s have been executed between FDEP and a responsible party.

Government Publication Date: Sep 8, 2021

Brownfield Areas: BROWNFIELD AREA

Brownfields are defined by the Florida Department of Environmental Protection (FDEP) as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. This is a list of Brownfield Areas, defined by the FDEP as contiguous areas of one or more brownfield sites, some of which may not be contaminated, that have been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. Because a variety of sources and methods were used to derive information for this data, locations are approximate.

Government Publication Date: Aug 3, 2023

Hazardous Waste Facility List: HAZ WASTE FAC

List of Hazardous Waste Financial Assurance Facilities made available by the Division of Waste Management of the Florida Department of Environmental Protection (FDEP). The FDEP's Hazardous waste financial responsibility requirements exist to ensure that certain hazardous waste facilities and transporters have the financial resources available to provide for closure, postclosure and corrective action requirements and/or pay for bodily injury or property damage that might result from accidents, spills or other unexpected events, known as liabilities. These closure, postclosure, corrective action and liability requirements are called financial assurance.

Government Publication Date: Jul 5, 2023

Tribal

Leaking Underground Storage Tanks on Tribal/Indian Lands: INDIAN LUST

This list of leaking underground storage tanks (LUSTs) on Tribal/Indian Lands in Region 4, which includes Florida, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 20, 2023

Underground Storage Tanks on Tribal/Indian Lands: INDIAN UST

This list of underground storage tanks (USTs) on Tribal/Indian Lands in Region 4, which includes Florida, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 20, 2023

Delisted Tribal Leaking Storage Tanks: DELISTED INDIAN LST

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 26, 2023

Delisted Tribal Underground Storage Tanks: DELISTED INDIAN UST

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 26, 2023

County

No County databases were selected to be included in the search.

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index: FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Aug 18, 2022

Toxics Release Inventory (TRI) Program: TRIS

The U.S. Environmental Protection Agency's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of toxic chemicals from U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. There are currently 770 individually listed chemicals and 33 chemical categories covered by the TRI Program. Facilities that manufacture, process or otherwise use these chemicals in amounts above established levels must submit annual reporting forms for each chemical. Note that the TRI chemical list does not include all toxic chemicals used in the U.S. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Oct 19, 2022

PFOA/PFOS Contaminated Sites: PFAS NPL

This list of National Priorities List (NPL) and related Superfund Alternative Agreement (SAA) sites where PFOA or PFOS contaminants have been detected in water and/or soil is provided by the U.S. Environmental Protection Agency (EPA). EPA Disclaimer with FOIA file: Inclusion on the list does not necessarily mean that drinking water has been affected, nor does inclusion mean that anyone at the site has been exposed or is at risk for detrimental health effects.

Government Publication Date: Jun 15, 2023

Federal Agency Locations with Known or Suspected PFAS Detections: PFAS FED SITES

List of Federal agency locations with known or suspected detections of Per- and Polyfluoroalkyl Substances (PFAS), made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data. EPA outlines that these data are gathered from several federal entities, such as the Federal Superfund program, Department of Defense (DOD), National Aeronautics and Space Administration, Department of Transportation, and Department of Energy. The dates this data was extracted for the PFAS Analytic Tools range from March 2022 to April 2023. Sites on this list do not necessarily reflect the source/s of PFAS contamination and detections do not indicate level of risk or human exposure at the site. Agricultural notifications in this data are limited to DOD sites only. At this time, the EPA is aware that this list is not comprehensive of all Federal agencies.

Government Publication Date: Apr 24, 2023

SSEHRI PFAS Contamination Sites: PFAS SSEHRI

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Locations for the Known PFAS Contamination Sites are sourced from the PFAS Sites and Community Resources Map, credited to the Northeastern University's PFAS Project Lab, Silent Spring Institute, and the PFAS-REACH team. Disclaimer: The source conveys the data undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Access the following source link for the most current information: https://pfasproject.com/pfas-sites-and-community-resources/

Government Publication Date: Oct 9, 2022

National Response Center PFAS Spills: ERNS PFAS

This Per- and Poly-Fluoroalkyl Substances (PFAS) Spills dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The National Response Center (NRC), operated by the U.S. Coast Guard, serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the "Material Involved" or "Incident Description" fields. Limitations: The data from the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Keyword searches may misidentify some incident reports that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS spills/release incidents.

Government Publication Date: Apr 15, 2023

PFAS NPDES Discharge Monitoring: PFAS NPDES

This list of National Pollutant Discharge Elimination System (NPDES) permitted facilities with required monitoring for Per- and Polyfluoroalkyl (PFAS) Substances is made available via the U.S. Environmental Protection Agency (EPA)'s PFAS Analytic Tools. Any point-source wastewater discharger to waters of the United States must have a NPDES permit, which defines a set of parameters for pollutants and monitoring to ensure that the discharge does not degrade water quality or impair human health. This list includes NPDES permitted facilities associated with permits that monitor for Per- and Polyfluoroalkyl Substances (PFAS), limited to the years 2007 - present. EPA further advises the following regarding these data: currently, fewer than half of states have required PFAS monitoring for at least one of their permittees, and fewer states have established PFAS effluent limits for permittees. For states that may have required monitoring, some reporting and data transfer issues may exist on a state-by-state basis.

Government Publication Date: May 1, 2023

Perfluorinated Alkyl Substances (PFAS) from Toxic Release Inventory: PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a per- or polyfluoroalkyl (PFAS) substance included in the U.S. Environmental Protection Agency's (EPA) consolidated PFAS Master List of PFAS Substances. Encompasses Toxics Release Inventory records included in the EPA PFAS Analytic Tools. The EPA's TRI database currently tracks information on disposal or releases of 770 individually listed toxic chemicals and 33 chemical categories from thousands of U.S. facilities and details about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Oct 19, 2022

Perfluorinated Alkyl Substances (PFAS) Water Quality: PFAS WATER

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

PFAS TSCA Manufacture and Import Facilities: PFAS TSCA

The U.S. Environmental Protection Agency (EPA) issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. This list is specific only to TSCA Manufacture and Import Facilities with reported per- and poly-fluoroalkyl (PFAS) substances. Data file is sourced from EPA's PFAS Analytic Tools TSCA dataset which includes CDR/Inventory Update Reporting data from 1998 up to 2020. Disclaimer: This data file includes production and importation data for chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures in DSSTox. Note that some regulations have specific chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard. Reporting information on manufactured or imported chemical substance amounts should not be compared between facilities, as some companies claim Chemical Data Reporting Rule data fields for PFAS information as Confidential Business Information.

Government Publication Date: Jan 5, 2023

PFAS Waste Transfers from RCRA e-Manifest : PFAS E-MANIFEST

This Per- and Poly-Fluoroalkyl Substances (PFAS) Waste Transfers dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. Every shipment of hazardous waste in the U.S. must be accompanied by a shipment manifest, which is a critical component of the cradle-to-grave tracking of wastes mandated by the Resource Conservation and Recovery Act (RCRA). According to the EPA, currently no Federal Waste Code exists for any PFAS compounds. To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: • PFAS • PFOA • PFOS • PERFL • AFFF • GENX • GEN-X (plus the Vermont state-specific waste codes). Limitations: Amount or concentration of PFAS being transferred cannot be determined from the manifest information. Keyword searches may misidentify some manifest records that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS waste transfers.

Government Publication Date: Apr 9, 2023

PFAS Industry Sectors: PFAS IND

This Per- and Poly-Fluoroalkyl Substances (PFAS) Industry Sectors dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The EPA developed the dataset from various sources that show which industries may be handling PFAS including: EPA's Enforcement and Compliance History Online (ECHO) records restricted to potential PFAS-handling industry sectors; ECHO records for Fire Training Sites identified where fire-fighting foam may have been used in training exercises; and 14 CFR Part 139 Airports compiled from historic and current records from the FAA Airport Data and Information Portal. Since July 2006, all certificated Part 139 Airports are required to have fire-fighting foam onsite that meet certain military specifications, which to date have been fluorinated (Aqueous Film Forming Foam). Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile, but are unconfirmed by the EPA. Keyword searches in ECHO for Fire Training sites may misidentify some facilities and should not be considered to be an exhaustive list of fire training facilities in the U.S.

Government Publication Date: Apr 16, 2023

Hazardous Materials Information Reporting System: HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: Sep 1, 2020

National Clandestine Drug Labs: NCDL

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Feb 8, 2023

Toxic Substances Control Act: TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA: HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.
The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.
Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing: FTTS ADMIN
An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.
Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing: FTTS INSP
An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.
Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List: PRP
Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).
Government Publication Date: Jan 25, 2023

State Coalition for Remediation of Drycleaners Listing: SCRD DRYCLEANER
The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRD no longer maintains this data, refer to applicable state source data where available.
Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS): ICIS
The Integrated Compliance Information System (ICIS) database contains integrated enforcement and compliance information across most of U.S. Environmental Protection Agency's (EPA) programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained by the EPA Headquarters and at the Regional offices. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
Government Publication Date: Jan 21, 2023

Drycleaner Facilities: FED DRYCLEANERS
A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. The EPA tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.
Government Publication Date: Apr 15, 2023

Delisted Drycleaner Facilities: DELISTED FED DRY
List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).
Government Publication Date: Apr 15, 2023

Formerly Used Defense Sites: FUDS
Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for an environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is compiled from the USACE's Geospatial FUDS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) FUDS dataset.

Government Publication Date: Jul 12, 2022

FUDS Munitions Response Sites: FUDS MRS

Boundaries of Munitions Response Sites (MRS), published with the Formerly Used Defense Sites (FUDS) Annual Report to Congress (ARC) by the U.S. Army Corps of Engineers (USACE). An MRS is a discrete location within a Munitions response area (MRA) that is known to require a munitions response. An MRA means any area on a defense site that is known or suspected to contain unexploded ordnance (UXO), discarded military munitions (DMM), or munitions constituents (MC). This data is compiled from the USACE's Geospatial MRS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) MRS dataset.

Government Publication Date: Jul 12, 2022

Former Military Nike Missile Sites: FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents: PIPELINE INCIDENT

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Dec 30, 2022

Material Licensing Tracking System (MLTS): MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites: HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File: MINES

The Master Index File (MIF) is provided by the United States Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: May 1, 2023

Surface Mining Control and Reclamation Act Sites: SMCRA

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). This inventory contains information on the type and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The data is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed. Disclaimer: Per the OSMRE, States and tribes who enter their data into eAMLIS (AML Inventory System) may truncate their latitude and longitude so the precise location of usually dangerous AMLs is not revealed in an effort to protect the public from searching for these AMLs, most of which are on private property. If more precise location information is needed, please contact the applicable state/tribe of interest.

Government Publication Date: Jun 13, 2023

Mineral Resource Data System: MRDS

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2016

DOE Legacy Management Sites: LM SITES

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Tile II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: May 25, 2023

Alternative Fueling Stations: ALT FUELS

This list of alternative fueling stations is sourced from the Alternative Fuels Data Center (AFDC). The U.S. Department of Energy's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG), and Renewable Diesel (R20 and above) fuel type locations.

Government Publication Date: Aug 30, 2023

Superfunds Consent Decrees: CONSENT DECREES

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS) since 2010. CMS may not reflect the latest developments in a case nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Apr 19, 2023

Air Facility System: AFS

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments: SSTS

This national list of active EPA-registered foreign and domestic pesticide and/or device-producing establishments is based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that each producing establishment must place its EPA establishment number on the label or immediate container of each pesticide, active ingredient or device produced. An EPA establishment number on a pesticide product label identifies the EPA registered location where the product was produced. The list of establishments is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Mar 1, 2023

Polychlorinated Biphenyl (PCB) Transformers: PCBT

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers: PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Mar 20, 2023

State

Priority Ranking List: PRIORITYCLEAN

The Florida Legislature has established a state-funded program to cleanup properties that are contaminated as a result of the operations of a drycleaning facility or wholesale supply facility (Chapter 376, Florida Statutes). The program is administered by the Florida Department of Environmental Protection (FDEP). The statute was sponsored by the drycleaning industry to address environmental, economic, and liability issues resulting from drycleaning solvent contamination. The program provides limited liability protection to the owner, operator and real property owner of drycleaning or wholesale supply facilities for cleanup of drycleaning solvent contamination if the parties meet the eligibility conditions stated in the law.

Government Publication Date: Aug 11, 2023

Dry Cleaning Facilities: DRYCLEANERS

A listing of dry cleaning facilities registered with the Florida Department of Environmental Protection (FDEP). The information contains facility identification number, site location information, related party (owner) information, and facility type and status. Data is taken from the Storage Tank & Contamination Monitoring database, the registration repository of dry cleaner facility data.

Government Publication Date: Apr 13, 2023

Delisted Dry Cleaning Facilities: DELISTED DRYCLEANERS

List of sites removed from the drycleaners database made available by the Florida Department of Environmental Conservation (DEC).

Government Publication Date: Apr 13, 2023

Historical Dry Cleaners: HISTORICAL DRYC

The Florida Department of Environmental Protection (FDEP) provided this historical database of regulated and non-regulated dry cleaning facilities. These facilities were at one time tracked and registered by the FDEP OCULUS Electronic Document Management System as "drums" in the underground storage tank database.

Government Publication Date: Aug 2, 2013

Oil and Hazardous Materials Incidents: SPILLS

Statewide listing of oil and hazardous materials spills and incidents recorded by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Jul 26, 2023

Contaminated Sites: DWM CONTAM

Florida Department of Environmental Protection (FDEP) Division of Waste Management (DWM) listing of active or known sites that include sites requiring cleanup but are not actively being worked on due to the agency's lack of funding (primarily petroleum and drycleaning).

Government Publication Date: Jul 14, 2023

Delisted Contaminated Sites: DEL CONTAM SITE

List of sites which were once included on the Florida Department of Environmental Protection (FDEP) Division of Waste Management (DWM)'s Contaminated Sites list. As sites on the Contaminated Sites (CS) list are cleaned up or closed under risk based corrective action, they are removed from the CS list.

Government Publication Date: Sep 30, 2015

Aqueous Film Forming Foam (AFFF): PFAS AFFF

A list of fire fighter training facilities that use or possibly used Aqueous Film Forming Foam (AFFF). This list is made available by the Florida Department of Environmental Protection (DEP).

Government Publication Date: May 31, 2023

PFAS Investigation at Federal Facilities: PFAS

List of sites - including Federal Facilities - in Florida at which either a) there has been confirmed or suspected usage of Aqueous Film Forming Foam (AFFF), or b) the Division of Waste Management has identified as a potential source or environmental impact related to per- and polyfluoroalkyl substances (PFAS). The Florida Department of Environmental Protection (DEP) is committed to the protection of the groundwater resources of the state and the public health and safety of residents. The DEP will continue its efforts to investigate and understand PFAS in the environment and the ecological and human health risks associated with PFAS contamination. Listings made available by the Florida Department of Environmental Protection (DEP).

Government Publication Date: Aug 23, 2023

Ground Water Contamination Areas: GW CONTAM

List of areas of known groundwater contamination made available by the Florida Department of Environmental Protection (DEP). 38 counties have been delineated primarily for the agricultural pesticide ethylene dibromide (EDB), and to a much lesser extent, volatile organic and petroleum contaminants. Permitted water wells in these areas must meet specific well construction criteria and water testing prior to well use. This dataset only indicates the presence or absence of specific groundwater contaminants and does not represent all known sources of groundwater contamination in the state of Florida.

Government Publication Date: Jul 12, 2023

Underground Injection Control Wells: UIC

Class I Underground Injection Control (UIC) wells that are currently or were previously active, as well as proposed sites, regulated by the Florida Department of Environmental Protection (FDEP). Class I UIC wells are used to inject nonhazardous waste, hazardous waste (new hazardous waste wells were banned in 1983), or municipal waste below the lowermost underground source of drinking water.

Government Publication Date: Jul 31, 2023

Well Surveillance Program Facilities: WELL SURVEILLANCE

List of facilities made available by the Florida Health Well Surveillance group. The Well Surveillance group manages several programs to identify and monitor areas in Florida where contaminated drinking water is suspected and may pose a threat to public health. The section coordinates with the County Health Departments (CHDs) to locate potable wells and conduct water sampling for contaminants of concern. The Well Surveillance Section is composed of the State Underground Petroleum Environmental Response Act (SUPER Act), Drinking Water Toxics Program (Toxics), Drycleaner Solvent Cleanup Program (DSCP). Includes locations of known cattle dipping vats.

Government Publication Date: Jul 20, 2023

Cattle Dip Vats: CDV SOUTHEAST

A list of Cattle Dip Vats in Southeast Florida made available by the Florida Department of Environmental Protection.

Government Publication Date: Jan 19, 2017

Tier 2 Report: TIER 2

A list of Tier 2 facilities in the state of Florida. The list tracks the inventory of chemicals within a particular facility. This list is provided by the Florida Division of Emergency Management.

Government Publication Date: Mar 6, 2023

Delisted County Records: DELISTED COUNTY

Records removed from county databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: Aug 10, 2023

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental databases were selected to be included in the search.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Detail Report....58
Radon Information....1281
Appendix....1282
Liability Notice....1285

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

FEMA Flood Zone Definitions

Special Flood Hazard Areas – High Risk

Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones.

ZONE	DESCRIPTION
A	Areas subject to inundation by the 1-percent-annual-chance flood event. Because detailed hydraulic analyses have not been performed, no Base Flood Elevations (BFEs) or flood depths are shown.
AE, A1-A30	Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
AH	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are 1–3 feet. BFEs derived from detailed hydraulic analyses are shown in this zone.
AO	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are 1–3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.
AR	Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.
A99	Areas subject to inundation by the 1-percent-annual-chance flood event, but which will ultimately be protected upon completion of an under-construction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may be used only when the flood protection system has reached specified statutory progress toward completion. No BFEs or flood depths are shown.

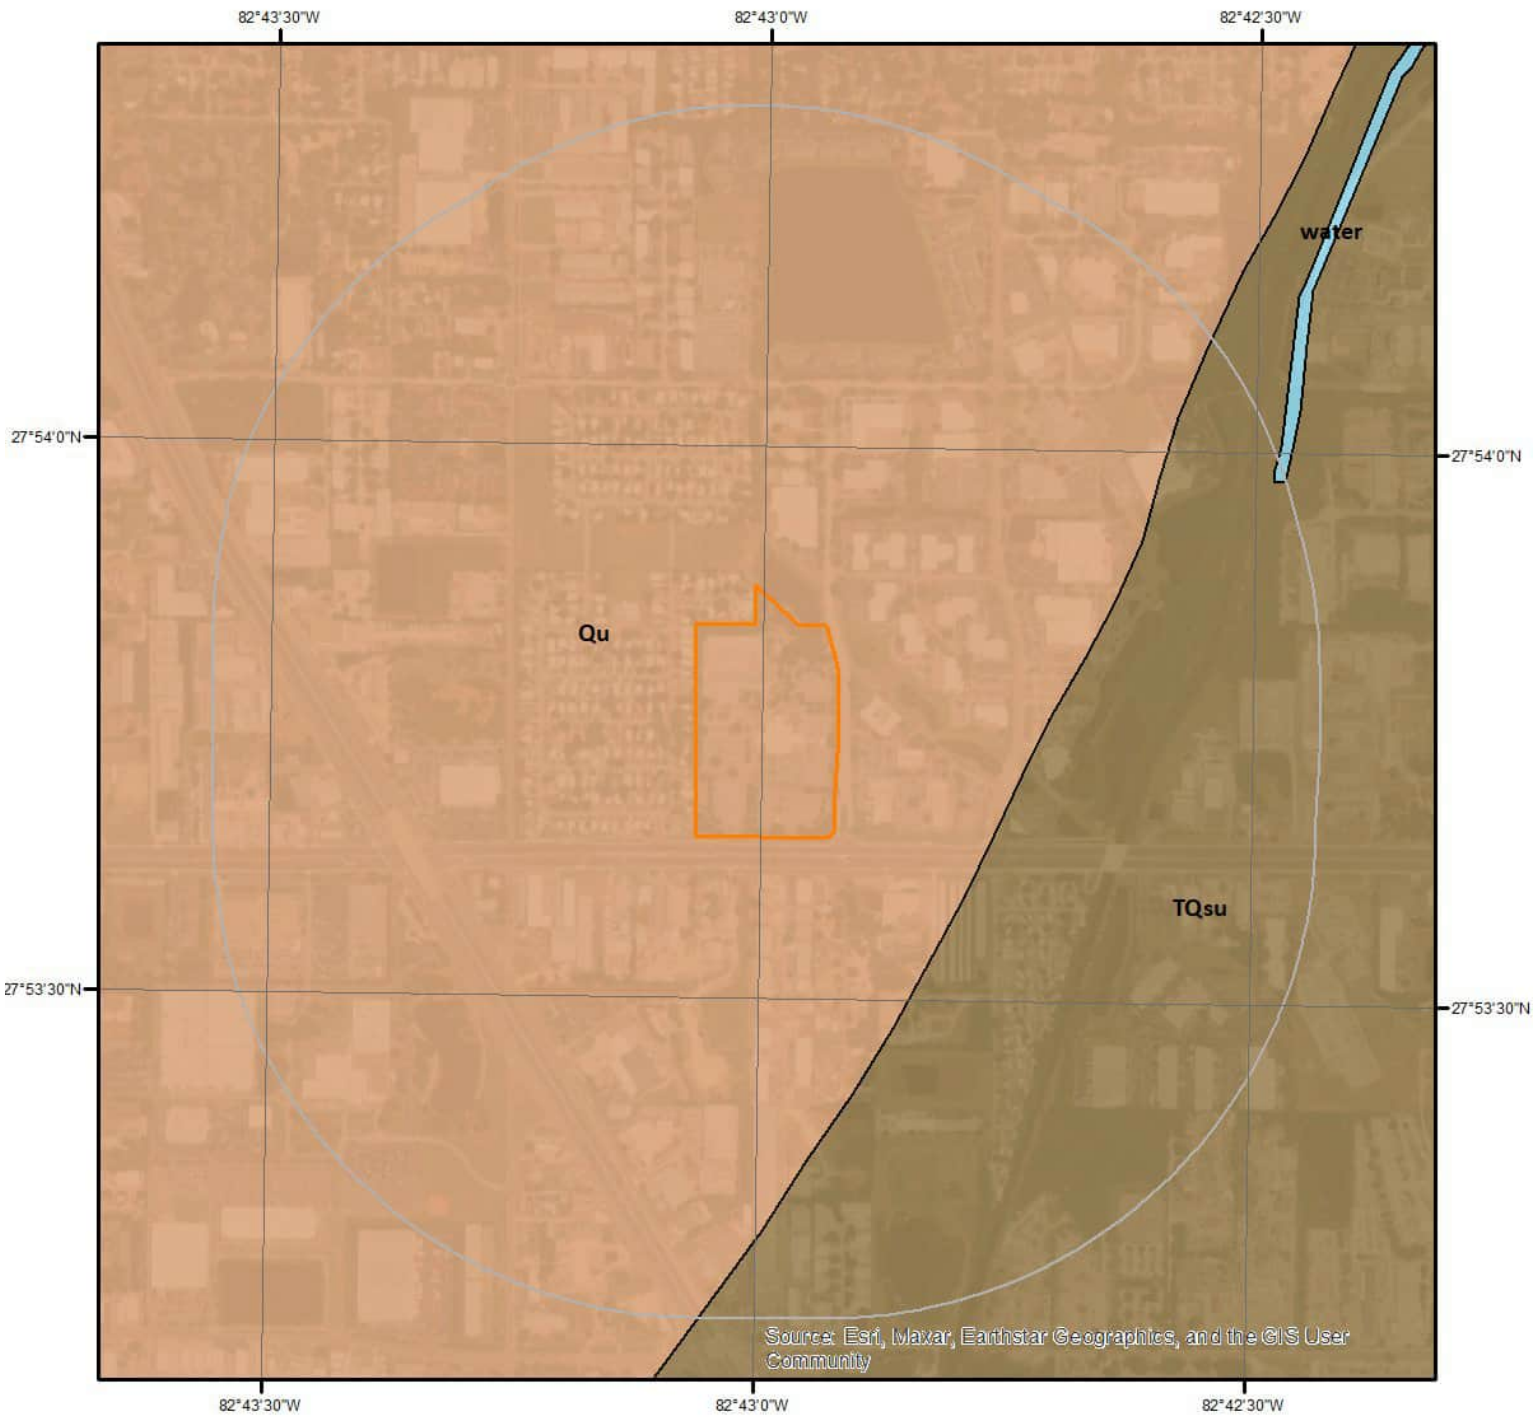
Coastal High Hazard Areas – High Risk

Coastal High Hazard Areas (CHHA) represent the area subject to inundation by 1-percent-annual chance flood, extending from offshore to the inland limit of a primary front al dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. Structures located within the CHHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory purchase requirements apply in these zones.

ZONE	DESCRIPTION
V	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards associated with storm-induced waves. Because detailed coastal analyses have not been performed, no BFEs or flood depths are shown.
VE, V1-V30	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards due to storm-induced velocity wave action. BFEs derived from detailed hydraulic coastal analyses are shown within these zones. (Zone VE is used on new and revised maps in place of Zones V1–V30.)

Hydrologic Information

Moderate and Minimal Risk Areas



Areas of moderate or minimal hazard are studied based upon the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Local stormwater drainage systems are not normally considered in a community's flood insurance study. The failure of a local drainage system can create areas of high flood risk within these zones. Flood insurance is available in participating communities, but is not required by regulation in these zones. Nearly 25-percent of all flood claims filed are for structures located within these zones.

ZONE	DESCRIPTION
B, X (shaded)	Moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee. No BFEs or base flood depths are shown within these zones. (Zone X (shaded) is used on new and revised maps in place of Zone B.)
C, X (unshaded)	Minimal risk areas outside the 1-percent and .2-percent-annual-chance floodplains. No BFEs or base flood depths are shown within these zones. (Zone X (unshaded) is used on new and revised maps in place of Zone C.)

Undetermined Risk Areas

ZONE	DESCRIPTION
D	Unstudied areas where flood hazards are undetermined, but flooding is possible. No mandatory flood insurance purchase requirements apply, but coverage is available in participating communities.

N

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

ERIS

Geologic Information

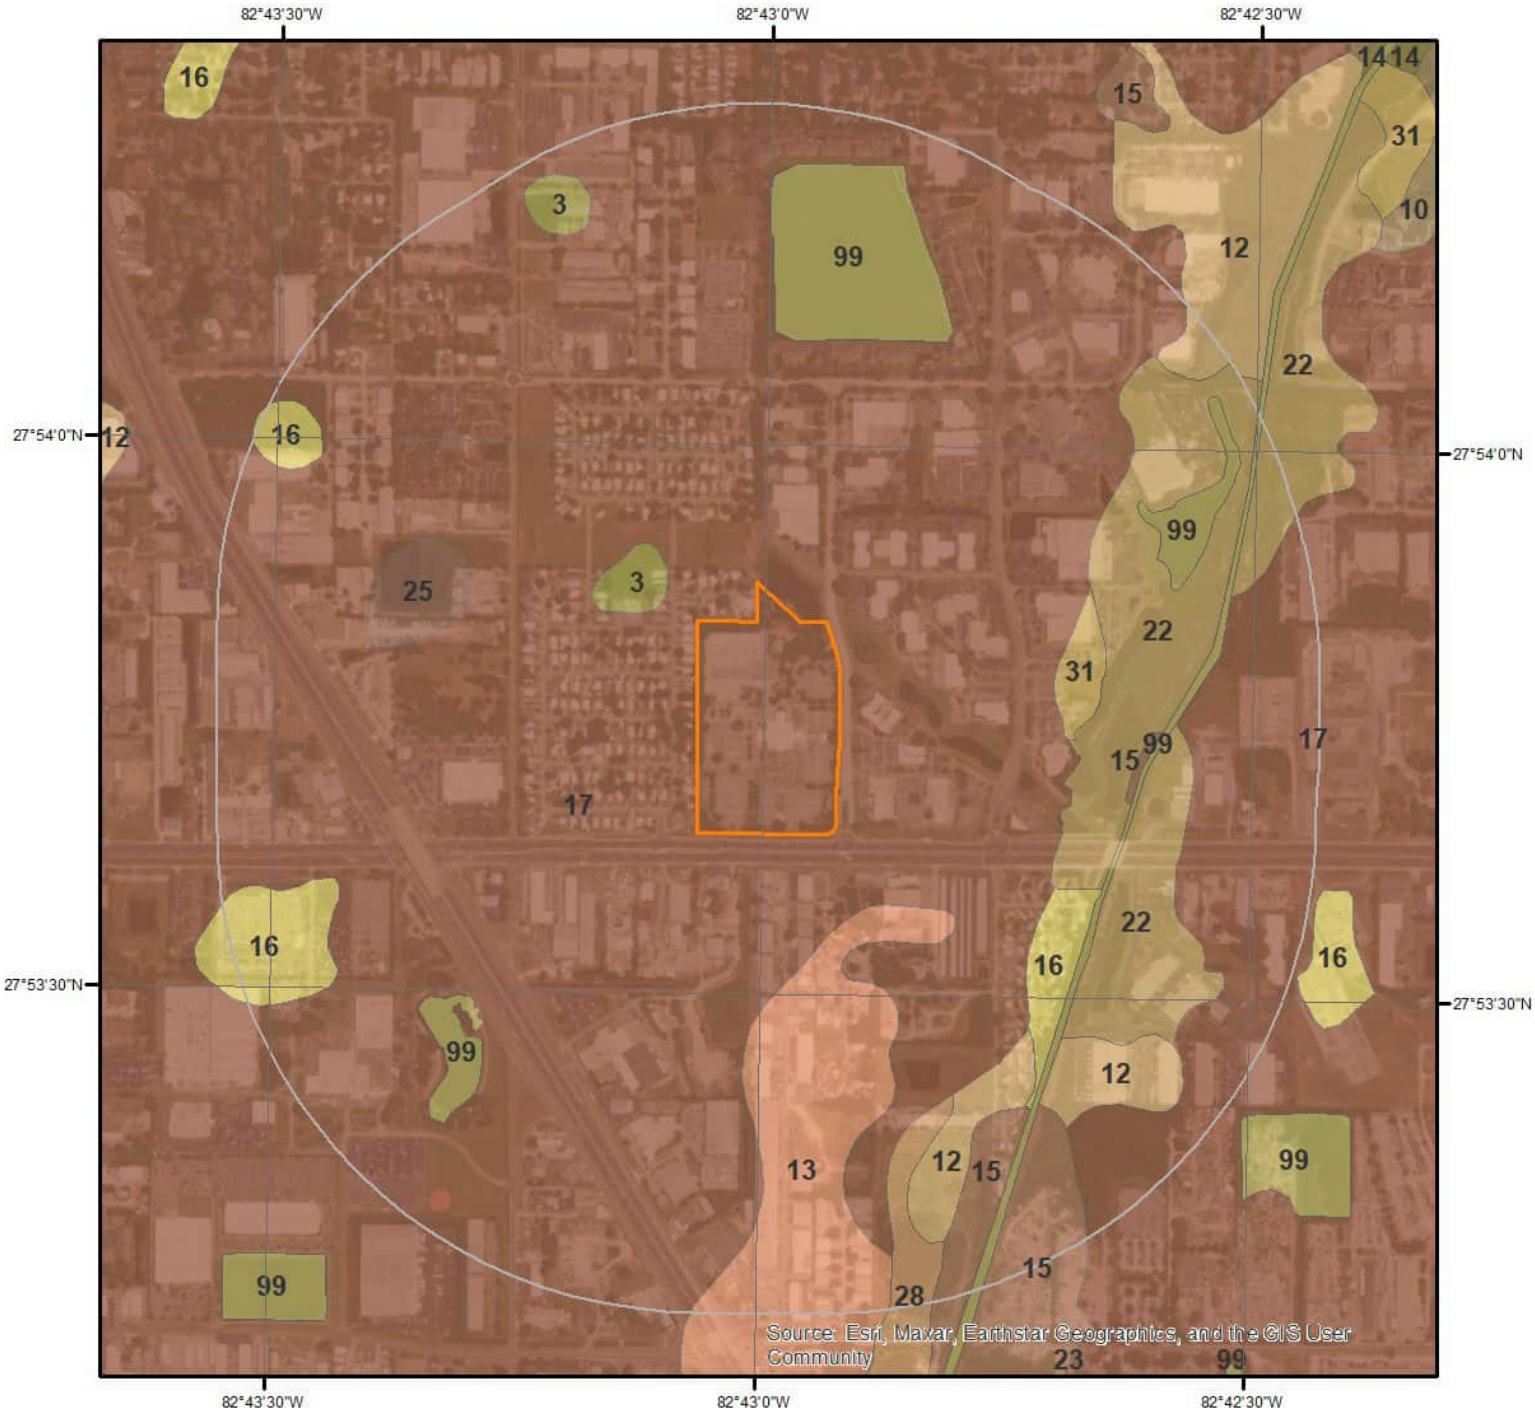
The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit water

Unit Name:	water
Unit Age:	
Primary Rock Type:	water
Secondary Rock Type:	
Unit Description:	water

Geologic Unit TQsu

Unit Name:	Shelly sediments of Plio-Pleistocene age
Unit Age:	Pliocene/Pleistocene
Primary Rock Type:	limestone
Secondary Rock Type:	sand
Unit Description:	Shelly sediments of Plio-Pleistocene age - Tertiary-Quaternary Fossiliferous Sediments of Southern Florida - Molluskbearing sediments of southern Florida contain some of the most abundant and diverse fossil faunas in the world. The origin of these accumulations of fossil mollusks is imprecisely known (Allmon, 1992). The shell beds have attracted much attention due to the abundance and preservation of the fossils but the biostratigraphy and lithostratigraphy of the units has not been well defined (Scott, 1992). Scott and Wingard (1995) discussed the problems associated with biostratigraphy and lithostratigraphy of the Plio-Pleistocene in southern Florida. These "formations" are biostratigraphic units. The "formations" previously recognized within the latest Tertiary-Quaternary section of southern Florida include the latest Pliocene - early Pleistocene Caloosahatchee Formation, the early Pleistocene Bermont formation (informal) and the late Pleistocene Fort Thompson Formation. This section consists of fossiliferous sands and carbonates. The identification of these units is problematic unless the significant molluscan species are recognized. Often exposures are not extensive enough to facilitate the collection of representative faunal samples to properly discern the biostratigraphic identification of the formation. In an attempt to alleviate the inherent problems in the biostratigraphic recognition of lithostratigraphic units, Scott (1992) suggested grouping the latest Pliocene through late Pleistocene Caloosahatchee, Bermont and Fort Thompson Formations in to a single lithostratigraphic entity, the Okeechobee formation (informal). In mapping the shelly sands and carbonates, a generalized grouping as Tertiary-Quaternary shell units (TQsu) was utilized. This is equivalent to the informal Okeechobee formation. The distribution of the Caloosahatchee and Fort Thompson Formation are shown on previous geologic maps by Cooke (1945), Vernon and Puri (1964) and Brooks (1982). The Nashua Formation occurs within the Pliocene - Pleistocene in northern Florida. However, it crops out or is near the surface is an area too small to be shown on a map of this scale. Lithologically these sediments are complex, varying from unconsolidated, variably calcareous and fossiliferous quartz sands to well indurated, sandy, fossiliferous limestones (both marine and freshwater). Clayey sands and sandy clays are present. These sediments form part of the surficial aquifer system



Geologic Unit Qu

Unit Name:	Undifferentiated sediments

Geologic Information

Unit Age:	Pleistocene/Holocene
Primary Rock Type:	clay or mud
Secondary Rock Type:	beach sand
Unit Description:	Undifferentiated sediments - Undifferentiated Quaternary Sediments - Much of Florida's surface is covered by a varying thickness of undifferentiated sediments consisting of siliciclastics, organics and freshwater carbonates. Where these sediments exceed 20 feet (6.1 meters) thick, they were mapped as discrete units. In an effort to subdivide the undifferentiated sediments, those sediments occurring in flood plains were mapped as alluvial and flood plain deposits (Qal). Sediments showing surficial expression of beach ridges and dunes were mapped separately (Qbd) as were the sediments composing Trail Ridge (Qtr). Terrace sands were not mapped (refer to Healy [1975] for a discussion of the terraces in Florida). The subdivisions of the Undifferentiated Quaternary Sediments (Qu) are not lithostratigraphic units but are utilized in order to facilitate a better understanding of the State's geology. The siliciclastics are light gray, tan, brown to black, unconsolidated to poorly consolidated, clean to clayey, silty, unfossiliferous, variably organic-bearing sands to blue green to olive green, poorly to moderately consolidated, sandy, silty clays. Gravel is occasionally present in the panhandle. Organics occur as plant debris, roots, disseminated organic matrix and beds of peat. Freshwater carbonates, often referred to as marls in the literature, are scatteredover much of the State. In southern Florida, freshwater carbonates are nearly ubiquitous in the Everglades. These sediments are buff colored to tan, unconsolidated to poorly consolidated, fossiliferous carbonate muds. Sand, silt and clay may be present in limited quantities. These carbonates often contain organics. The dominant fossils in the freshwater carbonates are mollusks.

Soil Information

SSURGO Soils

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

ERIS

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 12 (0.5%)

Map Unit Name:	Felda fine sand, frequently ponded, 0 to 1 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm
Drainage Class - Dominant:	Very poorly drained
Hydrologic Group - Dominant:	A/D - These soils have low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Felda(85%)

horizon A(0cm to 18cm)	Fine sand
horizon Eg(18cm to 61cm)	Fine sand
horizon Btg(61cm to 91cm)	Fine sandy loam
horizon Cg(91cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 12 - Felda fine sand, frequently ponded, 0 to 1 percent slopes

Component: Felda (85%)
The Felda component makes up 85 percent of the map unit. Slopes are 0 to 1 percent. This component is on depressions on marine terraces on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is very poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during July, August, September, October. Organic matter content in the surface horizon is about 2 percent. This component is in the R155XY011FL Slough ecological site. Nonirrigated land capability classification is 7w. This soil meets hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Floridana (5%)
Generated brief soil descriptions are created for major soil components. The Floridana soil is a minor component.

Component: Basinger (3%)
Generated brief soil descriptions are created for major soil components. The Basinger soil is a minor component.

Component: Winder (2%)
Generated brief soil descriptions are created for major soil components. The Winder soil is a minor component.

Component: Eaton (2%)
Generated brief soil descriptions are created for major soil components. The Eaton soil is a minor component.

Component: Kaliga (1%)
Generated brief soil descriptions are created for major soil components. The Kaliga soil is a minor component.

Component: Sanibel (1%)
Generated brief soil descriptions are created for major soil components. The Sanibel soil is a minor component.

Component: Myakka (1%)
Generated brief soil descriptions are created for major soil components. The Myakka soil is a minor component.

Map Unit 13 (0.96%)

Map Unit Name:	Immokalee soils and Urban land

Soil Information

Bedrock Depth - Min:	
Watertable Depth - Annual Min:	31cm
Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	A/D - These soils have low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Immokalee(50%)

horizon A(0cm to 15cm)	Fine sand
horizon E(15cm to 89cm)	Fine sand
horizon Bh(89cm to 127cm)	Fine sand
horizon C(127cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 13 - Immokalee soils and Urban land

Component: Immokalee (50%)
The Immokalee component makes up 50 percent of the map unit. Slopes are 0 to 2 percent. This component is on flatwoods on marine terraces on coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 12 inches during June, July, August, September, October, November. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 4w. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (45%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Adamsville (3%)
Generated brief soil descriptions are created for major soil components. The Adamsville soil is a minor component.

Component: Pomello (2%)
Generated brief soil descriptions are created for major soil components. The Pomello soil is a minor component.

Map Unit 15 (0.41%)

Map Unit Name:	Manatee loamy fine sand, frequently ponded, 0 to 1 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm
Drainage Class - Dominant:	Very poorly drained
Hydrologic Group - Dominant:	B/D - These soils have moderately low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Manatee(85%)

horizon A(0cm to 46cm)	Loamy fine sand
horizon Btg(46cm to 91cm)	Fine sandy loam
horizon BCkg(91cm to 122cm)	Fine sandy loam
horizon Ckg(122cm to 203cm)	Fine sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 15 - Manatee loamy fine sand, frequently ponded, 0 to 1 percent slopes

Component: Manatee (85%)

Soil Information

The Manatee component makes up 85 percent of the map unit. Slopes are 0 to 1 percent. This component is on depressions on marine terraces on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is very poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during July, August, September, October. Organic matter content in the surface horizon is about 4 percent. Nonirrigated land capability classification is 7w. This soil meets hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 2 percent. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Floridana (5%)
Generated brief soil descriptions are created for major soil components. The Floridana soil is a minor component.

Component: Parkwood (4%)
Generated brief soil descriptions are created for major soil components. The Parkwood, loamy fine sand soil is a minor component.

Component: Placid (3%)
Generated brief soil descriptions are created for major soil components. The Placid soil is a minor component.

Component: Winder (3%)
Generated brief soil descriptions are created for major soil components. The Winder soil is a minor component.

Map Unit 16 (0.2%)

Map Unit Name:	Matlacha and St. Augustine soils and Urban land
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	69cm
Drainage Class - Dominant:	Somewhat poorly drained
Hydrologic Group - Dominant:	B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.
Major components are printed below	
Matlacha(33%)	
horizon C(0cm to 107cm)	Sand
horizon A/Eb(107cm to 203cm)	Fine sand
St. Augustine(32%)	
horizon A(0cm to 20cm)	Sand
horizon C1(20cm to 84cm)	Loamy fine sand
horizon C2(84cm to 122cm)	Fine sand
horizon C3(122cm to 159cm)	Sandy loam
horizon C4(159cm to 203cm)	Sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 16 - Matlacha and St. Augustine soils and Urban land

Component: Matlacha (33%)
The Matlacha component makes up 33 percent of the map unit. Slopes are 0 to 2 percent. This component is on fills on ridges on marine terraces on coastal plains. The parent material consists of sandy mine spoil or earthy fill. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat poorly drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 30 inches during June, July, August, September, October. Organic matter content in the surface horizon is about 0 percent. Nonirrigated land capability classification is 6s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: St. Augustine (32%)
The St. Augustine component makes up 32 percent of the map unit. Slopes are 0 to 2 percent. This component is on ridges on marine terraces on coastal plains. The parent material consists of sandy mine spoil or earthy fill. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat poorly drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not

ponded. A seasonal zone of water saturation is at 27 inches during June, July, August, September, October. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 7s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (31%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Wulfert (2%)
Generated brief soil descriptions are created for major soil components. The Wulfert soil is a minor component.

Component: Kesson (2%)
Generated brief soil descriptions are created for major soil components. The Kesson soil is a minor component.

Map Unit 17 (96.32%)

Map Unit Name:	Myakka soils and Urban land
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	31cm
Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	A/D - These soils have low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Myakka(50%)

horizon A(0cm to 10cm)	Fine sand
horizon E(10cm to 56cm)	Fine sand
horizon Bh(56cm to 91cm)	Fine sand
horizon C(91cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 17 - Myakka soils and Urban land

Component: Myakka (50%)
The Myakka component makes up 50 percent of the map unit. Slopes are 0 to 2 percent. This component is on flatwoods on marine terraces on coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 12 inches during June, July, August, September, October, November. Organic matter content in the surface horizon is about 4 percent. Nonirrigated land capability classification is 4w. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (45%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Adamsville (3%)
Generated brief soil descriptions are created for major soil components. The Adamsville soil is a minor component.

Component: Pomello (2%)
Generated brief soil descriptions are created for major soil components. The Pomello soil is a minor component.

Map Unit 22 (0.82%)

Map Unit Name:	Pineda soils and Urban land
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm

Soil Information

Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	C/D - These soils have moderately high runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Pineda(46%)

horizon A(0cm to 10cm)	Fine sand
horizon E/B(10cm to 94cm)	Fine sand
horizon B/E(94cm to 140cm)	Fine sandy loam
horizon Cg(140cm to 203cm)	Sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 22 - Pineda soils and Urban land

Component: Pineda (46%)
The Pineda component makes up 46 percent of the map unit. Slopes are 0 to 2 percent. This component is on flats on marine terraces on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 0 inches during July, August, September. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 3w. This soil meets hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (44%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Anclote (5%)
Generated brief soil descriptions are created for major soil components. The Anclote soil is a minor component.

Component: Placid (5%)
Generated brief soil descriptions are created for major soil components. The Placid soil is a minor component.

Map Unit 25 (0.07%)

Map Unit Name:	Placid fine sand, frequently ponded, 0 to 1 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm
Drainage Class - Dominant:	Very poorly drained
Hydrologic Group - Dominant:	A/D - These soils have low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Placid(80%)

horizon A(0cm to 61cm)	Fine sand
horizon Cg(61cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 25 - Placid fine sand, frequently ponded, 0 to 1 percent slopes

Component: Placid (80%)
The Placid component makes up 80 percent of the map unit. Slopes are 0 to 1 percent. This component is on depressions on marine terraces on coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is very poorly drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during July, August, September, October. Organic matter content in the surface horizon is about 6 percent. Nonirrigated land capability classification is 7w. This soil meets hydric criteria. There are no saline horizons within

30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Basinger (7%)
Generated brief soil descriptions are created for major soil components. The Basinger soil is a minor component.

Component: Myakka (5%)
Generated brief soil descriptions are created for major soil components. The Myakka soil is a minor component.

Component: Gentry (3%)
Generated brief soil descriptions are created for major soil components. The Gentry soil is a minor component.

Component: Samsula (3%)
Generated brief soil descriptions are created for major soil components. The Samsula soil is a minor component.

Component: Felda (2%)
Generated brief soil descriptions are created for major soil components. The Felda soil is a minor component.

Map Unit 28 (0.13%)

Map Unit Name:	Seffner soils and Urban land
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	77cm
Drainage Class - Dominant:	Somewhat poorly drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Seffner(50%)

horizon A(0cm to 41cm)	Fine sand
horizon AC(41cm to 74cm)	Fine sand
horizon C(74cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 28 - Seffner soils and Urban land

Component: Seffner (50%)
The Seffner component makes up 50 percent of the map unit. Slopes are 0 to 2 percent. This component is on ridges on marine terraces on coastal plains, knolls on marine terraces on coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat poorly drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 30 inches during June, July, August, September, October, November. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 3w. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (45%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

Component: Basinger (3%)
Generated brief soil descriptions are created for major soil components. The Basinger soil is a minor component.

Component: Myakka (2%)
Generated brief soil descriptions are created for major soil components. The Myakka soil is a minor component.

Map Unit 3 (0.06%)

Map Unit Name:	Anclote fine sand, depressional

Soil Information

Bedrock Depth - Min:	
Watertable Depth - Annual Min:	0cm
Drainage Class - Dominant:	Very poorly drained
Hydrologic Group - Dominant:	A/D - These soils have low runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Anclote(95%)

horizon A(0cm to 41cm)	Fine sand
horizon Cg(41cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 3 - Anclote fine sand, depressional

Component: Anclote (95%)
The Anclote component makes up 95 percent of the map unit. Slopes are 0 to 1 percent. This component is on depressions on marine terraces on coastal plains, drainageways on marine terraces on coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is very poorly drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during June, July, August, September, October, November, December. Organic matter content in the surface horizon is about 6 percent. Nonirrigated land capability classification is 7w. This soil meets hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Basinger (3%)
Generated brief soil descriptions are created for major soil components. The Basinger soil is a minor component.

Component: Myakka (2%)
Generated brief soil descriptions are created for major soil components. The Myakka soil is a minor component.

Map Unit 31 (0.04%)

Map Unit Name:	Wabasso soils and Urban land
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	31cm
Drainage Class - Dominant:	Poorly drained
Hydrologic Group - Dominant:	C/D - These soils have moderately high runoff potential when drained and high runoff potential when undrained.

Major components are printed below

Wabasso(50%)

horizon A(0cm to 12cm)	Fine sand
horizon E(12cm to 66cm)	Fine sand
horizon Bh(66cm to 91cm)	Fine sand
horizon Bt(91cm to 126cm)	Sandy clay loam
horizon C(126cm to 203cm)	Fine sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 31 - Wabasso soils and Urban land

Component: Wabasso (50%)
The Wabasso component makes up 50 percent of the map unit. Slopes are 0 to 2 percent. This component is on flatwoods on marine terraces on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not

ponded. A seasonal zone of water saturation is at 12 inches during June, July, August, September, October. Organic matter content in the surface horizon is about 3 percent. Nonirrigated land capability classification is 3w. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Urban land (45%)
Generated brief soil descriptions are created for major soil components. The Urban land is a miscellaneous area.

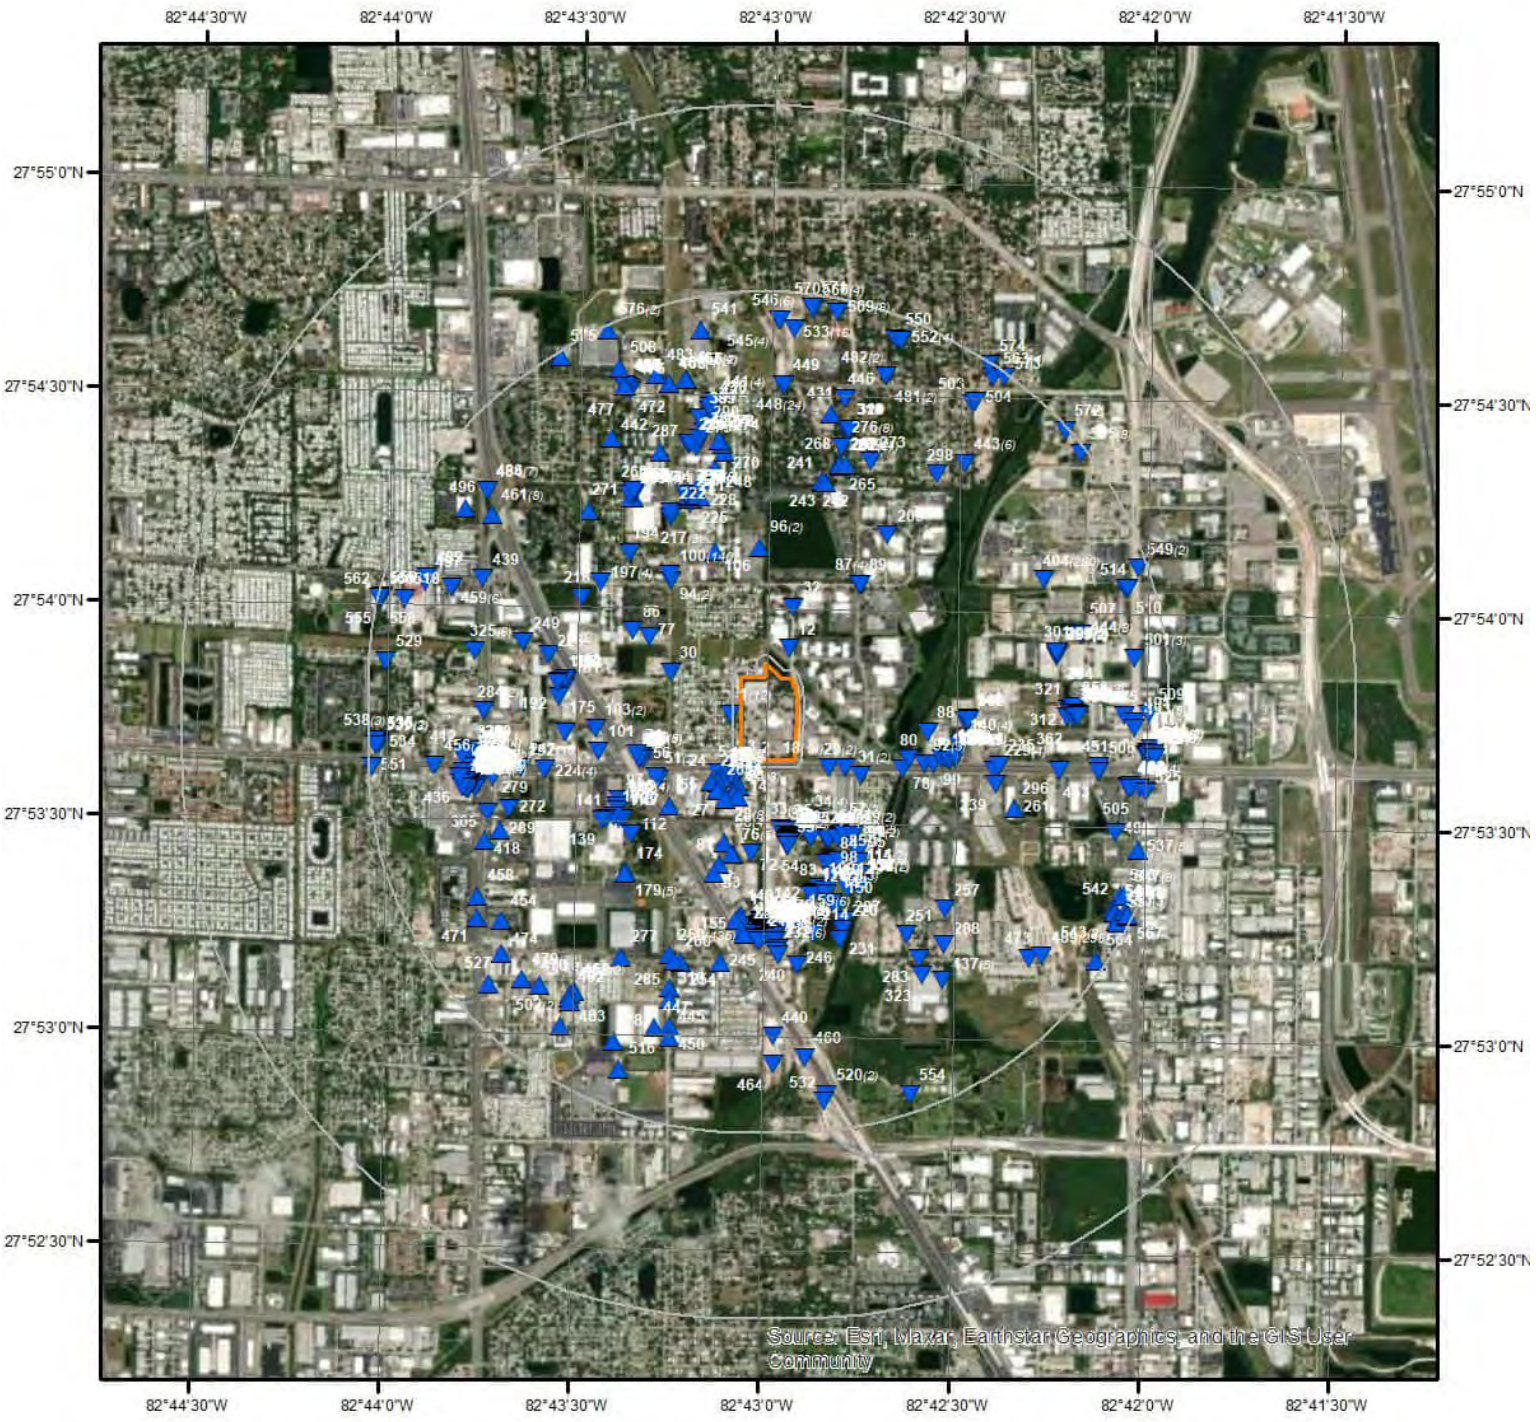
Component: Adamsville (3%)
Generated brief soil descriptions are created for major soil components. The Adamsville soil is a minor component.

Component: Pomello (2%)
Generated brief soil descriptions are created for major soil components. The Pomello soil is a minor component.

Map Unit 99 (0.49%)

Map Unit Name: Water

No more attributes available for this map unit



Component Description:

Minor map unit components are excluded from this report.

Map Unit: 99 - Water

Component: Water (100%)
Generated brief soil descriptions are created for major soil components. The Water is a miscellaneous area.
