The current Retail & Services category is used to depict areas developed with a mix of businesses that provide for the shopping and personal service needs of the community or region, provide for employment opportunities and accommodate target employment uses, and may include residential uses as part of the mix of uses. The current Resort category is intended to depict areas developed, or appropriate to be developed, in high-density residential and resort use; and to recognize such areas as well-suited for the combination of residential and temporary lodging use consistent with their location, surrounding uses, transportation facilities, and natural resources of such areas. The current Residential Medium category is used to depict areas that are primarily well-suited for medium-density residential uses at a maximum density of 15 dwelling units per acre. The current Recreation/Open Space category is intended to recognize areas appropriate for public and private open spaces and recreational facilities that serve the community or region. The proposed Activity Center category is used to recognize those areas of the county that have been identified and planned for in a special and detailed manner, serve as identifiable centers of business, public, and residential activity that are the focal point of a community, and are served by enhanced transit commensurate with the type, scale, and intensity of use.

At their public hearing on September 13, 2023, Forward Pinellas recommended an Alternative Compromise with lower densities and intensities from the originally proposed map amendments, pursuant to Section 6.3.1 of the Countywide Rules.

The proposed Public/Semi-Public category is intended to recognize institutional and transportation/utility uses that serve the community or region, especially larger facilities having acreage exceeding the thresholds established in other plan categories, and which are consistent with the need, character, and scale of such uses relative to the surrounding uses, transportation facilities, and natural resource features.

The proposed Retail & Services category is used to depict areas developed with a mix of businesses that provide for the shopping and personal service needs of the community or region, provide for employment opportunities and accommodate target employment uses, and may include residential uses as part of the mix of uses.

Case CW 24-03 – Submitted by City of St. Petersburg – 0.41 acres m.o.l.

From: Office
To: Multimodal Corridor
Location: 200 66th St N

The current Office category is used to depict areas that are developed, or appropriate to be developed, with office uses, low-impact employment uses, and residential uses (subject to an acreage threshold), in areas characterized by a transition between residential and commercial uses and in areas well-suited for community-scale residential/office mixed-use development. The proposed Multimodal Corridor category is intended to recognize those corridors of critical importance to the movement of people and goods throughout the county and that are served by multiple modes of transport, including automobile, bus, bicycle, rail, and/or pedestrian. This category is intended to include those transportation corridors connecting Activity Centers, characterized by mixed-use development, and in particular, supported by and designed to facilitate transit.

In review of the ordinance(s) above, there may be modifications that arise at the public hearing and/or with other responsible parties.
