Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is for the approval of the Local Agency Program Agreement and Resolution with the Florida Department of Transportation (FDOT) for funding construction and engineering inspection (CEI) activities for the Ridgemoor Boulevard and Brooker Creek at Brooker Creek Bridge replacement.

- This project has a previously associated LAP agreement with FDOT. The original LAP agreement was entered into between Pinellas County and FDOT on October 24th, 2023. Per the terms of the original agreement, FDOT agreed to design and construct the Ridgemoor Blvd and Brooker Creek at Brooker Creek Bridge. In exchange, the County agreed to deposit \$2,966,339.00 towards the project. The original estimated cost of the project was \$6,716,339.00. FDOT's contribution towards the project was \$3,750,000.00. The County was responsible for any costs over and above the estimated total cost of \$6,716,339.00; however, the County maintained the right to terminate the Agreement if the additional funds are not available (Granicus Item 23-0399A).
- This LAP agreement replaces the previous agreement. Per the terms of this agreement, the County agrees to complete the project by February 22, 2028. The updated total estimate cost of the project is \$7,616,499.00. FDOT agrees to participate in the construction and CEI activities of the project through the provision of a maximum amount of \$3,063,528.00 towards these activities. FDOT's participation in the project may be increased or decreased based on the bid amounts that are received on the project. The County's contribution towards this project is \$4,552,971.00.

Funding for this project is budgeted under the Ridgemoor Blvd Bridge Replacement ILA with FDOT Project 005749A, included in the Capital Improvement Plan, funded by the Penny for Pinellas.
