Hello, As many of you are aware, Governor DeSantis has suspended ALL fines for individuals and businesses in relation to mask mandates and such. I am hereby asking you to remove your dead, heavy-handed, mask mandate and let the citizens return to normal again. I personally NEVER wore a mask, nor required any of your COVID related precautions in my business- and encouraged others to do the same. I am not a right winger, nor a left winger, but merely a constitutionalist that is concerned about my country and my hometown. Your mandate is not based on any science, but purely money. Therefore it needs to be removed, or you have to show physical evidence that is not from your paid-for so call professionals (Dr. Choe is a blatant fraud). Do the right thing- it's what we elected your for. Another issue I am having is the pre-registration to comment publicly. This is blatant censorship at it's finest. By pre-registering you can pick and choose who can comment and who gets censored. I used to call in each and every week, but now I am unable to pre-register due to a "site error". When I register under a different, fictitious name, it allows me. Perhaps I should convene with my legal counsel on the legality of your blatant censorship that goes against my rights to free speech and also my rights under the county charter to be able to freely speak at these meetings. Also, before you or one of your assistants sends me a form e-mail stating that it was my equipment causing the problem, I have a master's degree in Information Technology, and I can say without a doubt that the issue is on your end, so don't try me. I suggest you address these issues as soon as you can so we can get back to life. Sincerely, Robert Helinger

As a healthcare professional who has taught immunocompromised patients for 25 years, masking the healthy general population is not only ineffective, it is dangerous to our immune systems. Evidence is overwhelming that mandates and lockdowns are ineffective. Your job is not to grab power and money. You have peddled fear and division. Please note my opposition to mandates. As a nurse, I promote education over propaganda and teaching behaviors that actually work.

Your Stand on the Issue Oppose

Comments It's time to drop the mask mandate. Our governor has already made a stance that any tickets or violations are not enforceable. Quit suppressing OUR RIGHT to choose.

Comments
Thia is not the time to end the mask mandate. We have a new strain, we are flooded with tourists from all over the world for spring break and we are no where near getting enough people vaccinated juat last week Mortant Plants ICU was full. We cannot let our guard down now. The science has shown that the masks work when used properly.
