B. Post-Disaster Redevelopment Plan

Rodney Chatman advised the PAC that the Pinellas County's Post-Disaster Redevelopment Plan was first developed in 1994 and last updated in 2012. A few weeks before Hurricane Helene struck, Pinellas County Emergency Management launched the update for the Post-Disaster Redevelopment Plan. With VHB as the project consultant, this regional effort brings together project partners from the City of Tampa, and Hernando, Hillsborough, and Pinellas Counties.

Forward Pinellas will have a key role in the Land Use, Housing, and Mitigation Work Group. Through this role, Forward Pinellas will advocate for practical solutions, including potential amendments to the Countywide Rules, to reduce the risk of future catastrophic destruction like that seen during the recent hurricanes.

Mr. Chatman outlined the components of the plan, including a policy document to provide overall guidance and an action plan focusing on specific subject areas. He then detailed the phases of the work to be done, milestones and a timeline to completion with the final plan being approved in July 2025.

Upon query by Mr. Chatman about other stakeholders to include, Marshall Touchton suggested including the school districts as they are a large partner for sheltering.

C. Knowledge Exchange Series

In response to the recent hurricanes, Emma Wennick informed the PAC that the upcoming Knowledge Exchange Series will now focus on Disaster Response and Resiliency Planning. This shift in topic reflects the urgent need to improve the region's preparedness and ability to recover more effectively from future disasters. Ms. Wennick outlined the four key study areas, project deliverables and expected long-term outcomes.

Ms. Wennick also encouraged the PAC members to weigh in, specifically if there are deliverables needed not already included.
