

AMENDMENT NUMBER ONE TO SERVICE AGREEMENT

THIS AMENDMENT NUMBER ONE TO SERVICE AGREEMENT (this "Amendment") is made and entered into as of [March 21], 2017, by and between Covanta Projects, LLC, a Delaware limited liability company, having its principal place of business at 445 South Street Morristown, New Jersey 07960 ("Contractor") and Pinellas County, Florida, a political subdivision of the State of Florida, acting by and through its Board of County Commissioners (the "County"). Contractor and the County are referred to herein, individually, as a "Party" and, collectively, as the "Parties." Capitalized terms used in this Amendment but not defined herein shall have the meaning assigned to such terms in the Service Agreement (as defined below).

RECITALS

WHEREAS, the Waste to Energy (WTE) Operations and Maintenance Contract (Service Agreement) was awarded to Contractor in November 2014 (RFP NO. 134-0171-P (LN)).

WHEREAS, the County and Contractor entered into that certain Service Agreement on November 2, 2014 (the "Service Agreement").

WHEREAS, the Service Agreement included funding of \$150 million for the Technical Recovery Plan (as such term is defined in the Service Agreement, hereinafter the "TRP").

WHEREAS, the TRP included specifically identified TRP Projects, as well as a number of Facility systems and equipment that were in need of inspection and assessment to determine necessary repairs or replacements pursuant to Schedule 19 of the Service Agreement and Section 10.6.2 of the Service Agreement included the option for the Contractor to perform additional inspections and assessments of the balance of the Facility to identify other systems and equipment that did not meet Acceptable Operating Conditions.

WHEREAS, the Service Agreement included payment provisions that would be applicable during the Initial Operating Period, a two-year period ending as of December 31, 2016, intended for completion of the TRP, including payment of (a) an increased Capacity Maintenance Credit, provided that the Contractor maintained the twelve-month rolling average electrical capacity factors above a set value and (b) a Monthly TRP Management Fee to cover Contractor's management activities.

WHEREAS, the Service Agreement provided Contractor with relief from damages for certain Performance Guarantees during the Initial Operating Period.

WHEREAS, due to the extent of the TRP Projects, Work required for completion of the TRP Project Work recognized by the County will extend beyond December 31, 2016.

WHEREAS, until the TRP Project Work is substantially complete, the Contractor will continue to incur additional cost for maintenance of equipment pending repair, and be at higher risk to meet the Performance Guarantees.

WHEREAS, the Service Agreement allows for continued waivers of Performance Guarantees and payment to the Contractor for management costs relative to TRP Projects that are authorized to be completed after the Initial Operating Period.

WHEREAS, as of the date hereof, Contractor has commenced Work on TRP Projects with a value of \$112,247,161.10, inclusive of contingency and Markup.

WHEREAS, the balance of the TRP Project Work remaining is estimated at \$131,110,737.62, including contingency and Markup, for a total cost for TRP Projects of \$243,357,899 (rounded).

WHEREAS, the Service Agreement includes a requirement for the County to return to the Board of County Commissioners for approval if additional TRP funding above the \$150,000,000 referenced in Section 10.6.8.2 of the Service Agreement is required.

NOW, THEREFORE, in consideration of the mutual promises and covenants of the Parties contained in this Amendment and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Contractor and the County do hereby covenant and agree as follows:

1. The Service Agreement is hereby amended consistent with the provisions set forth in paragraphs 2 through 12 below.
2. The authorized cost for the TRP Project Work under Section 10.6.8.2 of the Service Agreement shall be increased from \$150,000,000 to \$243,357,899.
3. This amendment adds the following defined terms to Section 2.2 of the Service Agreement.

Amended Monthly TRP Management Fee – means the monthly fee paid for TRP project and construction management services, calculated as provided in Schedule B to Amendment 1 to the Service Agreement.

Commenced TRP Projects – means TRP Projects that have been authorized by the County and for which Contractor has either (i) completed or (ii) commenced invoicing the County for but which has not yet been completed.

Remaining TRP Projects – means TRP Projects that (i) have been recognized by the County and (ii) for which Contractor has not commenced invoicing the County for and has not yet completed the Work.

Lump Sum Price – means the total of the lump sum payments to be made for each of the Remaining TRP Projects which includes 5% contingency based on the cost of the Remaining TRP Project plus a 10% Markup. For those individual Remaining TRP Projects where the total material and/or labor cost estimate exceeds \$200,000, the Lump Sum Price includes the cost of a Payment Bond, without Markup.

4. Schedule A to this Amendment 1 shall be appended to and made part of Schedule 19 to the Service Agreement. Schedule A includes the list of all the TRP Projects together with:
 - (a) the Maximum Project Price for each of the Commenced TRP Projects as set forth in Part I of Schedule A; and
 - (b) the Lump Sum Price for each of the Remaining TRP Projects as set forth in Part II of the attached Schedule A.
5. The County shall pay Contractor for the Commenced TRP Projects in accordance with the provisions set forth in the Service Agreement.

6. The County shall pay Contractor the Lump Sum Price for each Remaining TRP Project upon Contractor's achievement of the specified Project payment milestones, as set forth in the attached Schedule A. Contractor shall complete the Remaining TRP Projects to the satisfaction of the County's Authorized Representative for the Lump Sum Price.
7. The Capacity Maintenance Credit will be payable to Contractor in accordance with the terms in Section 8.2.4.2 and 8.2.4.3 of the Service Agreement, provided that the Capacity Maintenance Credit will (a) be \$330,000 per month (2.0 times the base Capacity Maintenance Credit) for each Billing Month in calendar year 2017 and (b) be reduced to \$247,500 per month (1.5 times the base Capacity Maintenance Credit) for each Billing Month in calendar year 2018. Beginning with the first Billing Month of January 2019, the Capacity Maintenance Credit will revert to the base Capacity Maintenance Credit of \$165,000 per month in accordance with Section 8.3.4.2 of the Service Agreement. The terms and conditions of this paragraph 7 shall be retroactive to January 1, 2017.
8. The County shall pay Contractor the Amended Monthly TRP Management Fee for TRP project and construction management services based on the submitted staffing plan set forth in Schedule B attached hereto and which shall be appended to and incorporated in Schedule 13 of the Service Agreement. The Amended Monthly TRP Management Fee shall be paid to Contractor in accordance with the monthly schedule contained in Schedule B. The actual hours spent on TRP project and construction management shall be multiplied by the hourly rates in Schedule B and totaled at the end of each calendar year to calculate the annual TRP project and construction management cost, which shall be compared with the amounts paid for the Amended Monthly TRP Management Fee for that same calendar year by March 1, for the prior calendar year. If Contractor's substantiated annual staffing costs for TRP project and construction management are either (a) less than 90% or (b) greater than 110% of the amount paid for the Amended Monthly TRP Management Fee for the same calendar year, as such payment were calculated in accordance with Schedule B, a true-up payment shall be made by either (i) the Contractor to the County if actual TRP project and construction management service costs are less than 90% of the amount paid for the Amended Monthly TRP Management Fee, or (ii) the County to the Contractor if actual TRP project and construction management costs are greater than 110% of the amount paid for the Amended Monthly TRP Management Fee. The amount of the true-up payment shall be calculated as a positive number difference between (y) and (z) where (y) = the difference (expressed as a positive number) between actual TRP project and construction management costs and the amount paid for the Amended Monthly TRP Management Fee for the calendar year, and (z) = the amount paid for the Amended Monthly TRP Management Fee for the year multiplied by 10%. Any increase by Contractor in the TRP project and construction management services staffing plan set forth in Schedule B that could reasonably be expected to increase the County's costs for payment of the Amended Monthly TRP Management Fee must be approved, in advance, by the County Authorized Representative. The terms and conditions of this paragraph 8 shall be retroactive to January 1, 2017.
9. Contractor shall continue to be paid the Monthly Processing Fee in accordance with Section 8.2.2 of the Service Agreement until September 30, 2017. Effective October 1, 2017, Contractor shall be paid the Monthly Processing Fee in accordance with Section 8.3.2 of the Service Agreement. The terms and conditions of this paragraph 9 shall be retroactive to January 1, 2017.
10. The provisions in the Service Agreement governing Contractor's compliance with the Performance Guarantees and other requirements under the Service Agreement during the Initial Operating Period, shall be extended beyond December 31, 2016 only for Sections 3.2(c), 3.10, 3.18, 3.26,

8.4.1.1, 10.6.7 and 12.2.9 and only to the extent any non-compliance is due to Commenced TRP Projects and Remaining TRP Projects that have not been completed at the time such non-compliance occurs, and only until such Projects are accepted by the County. Notwithstanding the preceding sentence, residue testing for particle size and ferrous and non-ferrous metal recovery guarantees may be requested by the County.

11. The County recognizes and accepts that the Contractor's \$15,000,000 Performance Bond provided pursuant to Section 11.4.1 of the Service Agreement covers all TRP Projects. Under Section 11.4.4, Contractor will only be required to secure a payment bond for individual Commenced TRP Projects and Remaining TRP Projects where the total estimated material and/or labor cost is in excess of \$200,000.

12. Section 10.6.3.2 of the Service Agreement is revised in its entirety to read as follows:

The Contractor shall promptly procure and obtain, for the Remaining TRP Projects, proposals from qualified Entities for Work on the subject Project. Each such Project scope of work and Equipment specification package shall (a) incorporate the terms, conditions and specifications for the Work items or Equipment, for the Remaining TRP Projects listed in Amendment 1, Schedule A Part II, (b) be based on the Contractor's customary bid packages, and (c) be based on the Contractor's standard technical specifications and industry standards.

Section 10.6.4 of the Service Agreement is revised in its entirety to read as follows:

Promptly following receipt and review of all proposals for all Work to be performed on a Remaining TRP Project in accordance with Section 10.6.3.2, the Contractor shall prepare and deliver to the County's Authorized Representative for the relevant Project a final scope of work containing all of the items identified in Schedule 19 (Technical Recovery Plan) excluding the itemized build-up and a line item build-up of the Maximum Project Price (collectively "Project Package"). If requested by the County's Authorized Representative, the Contractor shall make the actual proposals received by the Contractor (with pricing redacted) available to the County's Authorized Representative for review at the Facility.

Within seven (7) Days following the County's Authorized Representative's receipt of the Project Package for the subject Project, the County's Authorized Representative shall, by Notice to the Contractor's Authorized Representative (A) authorize the Contractor to proceed with performing the Work on such Project based on the Final Scope of Work delivered to the County's Authorized Representative (a "Notice to Proceed"), or (B) comment or request additional information. Unless the Contractor disputes the County's Authorized Representative's comments in accordance with Section 10.6.5, the Contractor shall address each comment, promptly respond to the County's Authorized Representative's questions or requests for information, and proceed with the requisite modifications to the Project Package. The Contractor shall promptly prepare and deliver revised version(s) of the Project Package to the County's Authorized Representative. The County's Authorized Representative shall have a seven (7) Day period following receipt of each resubmittal to review, comment or issue a Notice to Proceed. If the County's Authorized Representative does not respond to the Contractor within ten (10) Days following County's receipt of an initial or revised Project Package, Contractor may proceed with the Project as if Notice to Proceed was granted by County's Authorized Representative. Contractor shall provide County written notice of doing so.

13. Except as and to the extent specifically modified and amended by this Amendment, the Service Agreement otherwise remains unchanged and in full force and effect as of the date hereof.
14. This Amendment and the Service Agreement contain the entire understanding of the Parties with respect to the subject matter hereof and thereof and supersede all prior agreements, arrangements, discussions and undertakings between the Parties (whether written or oral) with respect to the subject matter hereof and thereof.
15. The laws of the State of Florida (excluding the conflicts of law principles thereof) shall govern this Amendment.
16. This Amendment may be executed in more than one counterpart, each of which shall be deemed an original, and all of which shall constitute one and the same agreement.

[Signature Page Follows]

IN WITNESS WHEREOF, each of the Parties has caused this Amendment to be executed in its name by a duly-authorized person and has caused its seal to be affixed to this Amendment.

Schedule A
TRP Projects and Remaining TRP Project Payment Milestones

The spreadsheet contained in this Schedule A provides a listing of all TRP Projects.

Part I – Commenced TRP Projects

The Commenced TRP Projects are those projects shown with a dollar value in the column labeled “Commenced TRP Projects PART I.” Payment for these projects shall be per the Service Agreement for TRP Projects.

Part II – Remaining TRP Projects and Milestone Payments

The Remaining TRP Projects are those projects shown with a dollar value in the column labeled “Lump Sum Price PART II.”

Milestone Payments for each Remaining TRP Project shall be as follows and shall be calculated as the percentage of the individual Lump Sum Price shown in the spreadsheet in this Schedule A

Milestone	Verification	Payment Percentage of Project Lump Sum Amount
Notice of Award	Signed, unpriced notice, either a purchase order or letter of award	25%
Mobilization or Fabrication Release (as applicable)	Mobilization by visual inspection. Fabrication Release by signed, unpriced letter.	25%
Mechanical Completion or Delivery to Site (as applicable)	Mechanical completion by visual inspection and operational demonstration. Delivery to Site by signed bill of lading and/or visual inspection	40%
Project Completion	By visual inspection pursuant to Section 10.7.1 of the Service Agreement and delivery of all Plans, specifications, operation and maintenance manuals and drawings pursuant to Section 10.7.2 of the Service Agreement	10%

Schedule B

TRP Project Management Staffing and Payment of Amended Monthly TRP Management Fee

The County shall pay the Contractor, for those calendar years indicated, the Amended Monthly TRP Management Fee as shown in the following Table 1.

Table 1

<u>Calendar Year</u>	<u>Monthly Payment</u>	<u>Total Annual Payment</u>
<u>2017</u>	<u>\$344,333.33</u>	<u>\$4,132,000</u>
<u>2018</u>	<u>\$290,116.67</u>	<u>\$3,481,400</u>
<u>2019</u>	<u>\$139,691.67</u>	<u>\$1,676,300</u>

The spreadsheet contained in this Schedule B provides the Project Management Staffing Plan and cost build-up for the Amended Monthly TRP Management Fees in Table 1.
