

Good afternoon,

I'm writing about the meeting that will take place about Rainbow Village in Largo Florida.

I am Not talking about one side or the other or certain streets Only, but this is about the entire Rainbow Village housing complex.

Please remember with every problem there has to be a solution created as well.  
That is the only way that all of us will Benefit from the final decision.

For many years the Dansville community has lived in fear of stray bullets from all the shooting, the many losses of Life due to violence, drug dealings, children younger than the age of 5 walking at night around the village streets and sidewalks, endangered homeless, vehicles using the streets as a Dragway, breaking into people's yards and trying to rob our homes, the fighting cursing and threats to others as well as the trash going on to other people's property.

When is enough going to be enough?

A lot of folks in our community work hard for their homes, some of us are retired but we all pay our taxes and try to live a peaceful, safe and non-eventful lifestyle within the Dansville Community.

We no longer want to live in fear and be able to sit outside our homes in peace, landscape our yards and work in our gardens, talk with our neighbors, allow children to play outside of their homes and walk the sidewalks without fear of a bullet.

Something must be done and whatever the answer or solution that the commissioners come up with

I hope it will help to safeguard and heal our community from so much violence, fear and drug trafficking that we have all tolerated for so long.

Sad to say that the sheriff's department has almost become 24/7 within our community to try and keep it safe as possible.

They can't be everywhere all the time, so we need to find some kind of resolve.

Maybe, teach the community how to become a neighborhood watch?

To be very clear, no one wants to see any family become homeless so once the Board of Commissioners reaches a decision whether to vacate, abandon or close the Rainbow Village Apartment Complex hopefully they will also assist the decent families that live there options to move to safe, affordable and nurturing homes elsewhere within Pinellas county?

Thank you & may your decisions be Wisely Guided.
