Product Overview

The barricade cart has a 30 barricades capacity and is designed for easy moving and storing. Made from heavy gauge steel this tough durable cart is designed to withstand heavy use. With extending arms that can carry up to 15 barricades on each the side loading allows for safe handling by not having to lift barricades more than a few inches off the ground. The steering wheels provide great maneuverability and locking wheels provide stability while the cart is being loaded and unloaded.
